IF you are in college, or if you have children in school, your "year" ends in June and a new one begins in September. It makes much more sense for me to say "Happy New Year" right now, and by this means, than to wait until January when it might sound only like an echo. Especially to those of you in college, and even more especially to those just entering college, this Bulletin carries with it my wish that whatever your hopes are, may they be more nearly fulfilled this year than ever before. I don't wish that *all* your hopes be gratified, because I can't conceive of such a state of things as being either

possible or desirable. If you really want to discover a great deal more about anything, whether it be economics, or music, or yourself, or the universe — then I wish you Bon Voyage and good hunting!

## *Greetings*

In the meantime, at Abbot, we are beginning the year with lofty hopes and a certain sense of adventure. We are looking forward to knowing better a whole group of new girls and the new teachers. We wonder what the combination of new and old will produce. We wonder with apprehension what news we will be discussing at the end of this year and we hope and pray that the taut nerves of the world will have been relaxed. Perhaps what looks now like a crisis will appear to us then as a time of comparative quiet and peace. More hopefully, we shall simply have had a few more months to learn how to live in a crisis-ridden time. In any event, it still seems important to learn and to grow, and to work for the kind of integrity in our own lives that we find so lacking in the world as a whole.

## *Faculty Facts*

We regret to report that several faculty members are not returning this year. Miss Marion McEnery, head of the History Department, is now Dean of Residence at Rogers Hall. Mrs. David Pynchon of the French Department, Mrs. Richard Norwood of the History Department, and Mrs. Richard Michelini of the Classics Department have given up teaching and are devoting their time to their families. Mrs. Dorothy Brown who taught Physical Education and English is teaching in Iowa. Mrs. Bond and Mrs. Stevens, housemothers, have also retired.

There are several new faculty members. Miss Blair Danzoll is teaching Latin. She received an A.B. degree in Classics from Wheaton College. For several summers she was a counselor at the Alford Lake Camp in Union, Maine.

Miss Mary Minard, Abbot '55 and Smith '59, is teaching History. She taught at Walnut Hill School for two years.

Mrs. Thomas Rees is also teaching History. She received a B.A. degree from Smith and an A.M. degree from Yale. She served with the Red Cross for one year in Korea and the Philippines. She came to Abbot from the Hillsdale School in Cincinnati.

Mrs. John Greeley is teaching French and assisting in the library. She received her A.B. degree magna cum laude from Wheaton College and her M.A. degree from Middlebury College Graduate School of French in France. She attended the University of Paris on a Fulbright Grant. She taught French at Wheaton College.

Miss Carolyn Pike has joined the Physical Education Department. She attended Prince of Wales College and Memorial University in St. Johns, Newfoundland. She recently taught at Curtis Academy and Memorial University in St. Johns, Newfoundland.

Miss Jorunn Buzzi of the Physical Education Department is dividing her teaching time between Abbot and Bradford. She has a certificate from the State School of Gymnastics, Oslo, Norway and has taught in Sogne and Drammen, Norway.

Miss Lilla Connolly has recently been a housemother at the Baldwin School and is serving in the same capacity at Abbot.

Miss Mildred Hatch retired in June, after fifteen years' teaching in the Latin Department, and over six years as Director of Residence as well. Her standards in all spheres of school life were high. She was fully as ready to give credit where it was due as she was to chide when reproof was called for. It was a very inconspicuous girl indeed who never received from Miss Hatch *some* reminder of the way in which she should go.

Often with humor, always with firmness and fairness, Miss Hatch guided the behavior of Abbot girls and their visitors. She may have been the despair of lingering boys and parents, but she won their respect as she won that of all the school whether in the classroom or office.

Discipline in the sense of order and self-restraint is her way of life and the school has been fortunate to be able to witness and profit by her work at Abbot.

Miss Harriet McKee has retired after twenty-two years of teaching at Abbot. "Teaching" is a good word but it does not begin to express the kind of interest-provoking enthusiasm with which Miss McKee filled her classes. Her own joy in the Latin and Greek languages could not fail to rouse a matching pleasure in her students. Many an alumna remembers the delight of handling the ancient lamps and other artifacts Miss McKee kept in her classroom; she has generously left them so that present students may know them too. The Latin "projects" of her girls spread their interest throughout the school.

The Abbot Christian Association has had for many years the benefit of Miss McKee's wise and gentle guidance. No time or effort was too much for her when it was a question of sustaining a girl's need or purpose.

# FLYING AIR FORCE NURSE

by Capt. Margaret R. McFarlin, '42

This past spring I became enamored with flying and the end of May bought a single-engine Taylorcraft. It is a 1946 model and cruises about 100 miles an hour. During the summer I finished the requirements for taking the flight test and received my private pilot's license two days before I left for home.

Yes, in September I flew alone from Portland, Oregon to Andover. The first two days were beautiful, but after that I trailed hurricane Carla for three days through the mid-west. This really slowed me down as I was only covering about 200 miles a day instead of 500. Strangely enough, the flight over the Rockies was not nearly so difficult as that over the mountain ranges of Pennsylvania, where low-hanging clouds created a problem. The whole trip took seven days instead of five, but it was worth it. I learned a lot and thoroughly enjoyed it.

What was my method of navigation? Pilotage and dead reckoning. My only navigational instrument is a compass and I have a radio for communications which permits me to land at any airport. My course must be plotted accurately before departing. Allowances must be made for winds and a careful watch kept for the check points. Some navigational devices might make such a flight easier because radio signals tell the pilot if he is on course, or to what degree the plane may be off course. Without this aid, however, the flight is a greater challenge.

I am planning to fly back October 2 and hope the weather will be fine.

#### 1961

Hi, everyone! I bet it seems strange not to be racing around Abbot's "sacred circle" any longer! Now that the new school year is in progress, you are probably all wondering who has settled their banners and posters in your old rooms. Undoubtedly that up and coming '62 has taken over filling the corridors with rock, roll, and general confusion!

The summer did not pass uneventfully for anyone! Our "cultured expatriots" all had the time of their lives sampling foreign food, and foreign men! (They reported that both were delicious!) Judy Jordan was in Europe for seven weeks and there saw Ada Panayatakou (1960) in Greece and met Susie Rothwell in Germany. Sue was on the "Experiment" and says, "I would recommend it to everyone!" Persis reports that Tinky and Lee were chasing around Spain acting as their own chaperones . . . and had a wild time! "They shopped for all their food at the local village markets, and Lee kept them healthy with her vitamins." Nina Levin said she had an exciting summer in Europe. "Greece was made even more exciting because I had heard so much

about it from Abbot girls last spring." She spent six weeks in Geneva with her brother, picked up a great deal of French and a good tan! Andrea and Linda Lynch also toured Europe sailing on the SS "Rotterdam" and the SS "Statendam" (my ships). "A" said that Ann Tevepaugh visited her for a few days and during that time they were entertained by Jerry Keller (of the "Invictas") on his electric guitar! Karin Magid also went European, how was it Karin?

As for those relaxing in American sun; Persis decided she would terrorize summer school and then vacationed at the La Jolla Beach Club for two weeks to regain that mental vigor before leaving for Scripps College, not Mills as indicated in the Supplement. Stevie Stouffer has gone "arty" and sketched at the Silvermine Art Guild in Silvermine, Conn. She mentioned that she, Carol Ule, Judy Purser, Mary Tod Perry, Stevie Davis and Suzy Matthews bade Ginny Cadbury a champagne Bon Voyage on the Queen Elizabeth. Speaking of Ginny, there was not a word from our "California or Busters" . . . did you make it? Marney Harriman spent the summer in Maine with Grey Hodges and Pat Ware waitressing at a family camp. She said it was loads of fun! Spotty Stringfellow saw Scobie Evans and Annie Tevepaugh in Richmond (Annie gets around!). She did volunteer work at the Red Cross Chapter House in Richmond. Her new home address is:

2011 Monument Ave.  
Richmond, Va.

Ann's address for this year is:

Franklin Square House  
11 E. Newton St.  
Boston, Mass.

Ann Fahnestock sailed her summer "windlessly" away in a 31 footer on Long Island Sound. Beth Hyde and Sue Fox visited her during graduation dance week and Molly Bidwell also made the scene. Ann said she *really bumped* into Ann Buerger in New York City! Sybil Smith was hurriedly packing for her voyage to England the last time I heard from her. She mentioned that she thought Ginny would meet her in Southampton with the E.S.U. delegation. She had a marvelous summer at home (making piles) and is now slaving (?) at St. Helen's School. Her address is:

St. Helen's  
Northwood  
Middlesex, England

Good Luck, Syb, you make a great representative! Terry N. and Toddy P. spent the summer studying at Boulder, Colorado. Toddy said it was one "veritable ball!" Julie Owen spent the summer in Canada working on her French. That must be quite an accent by now Jules, n'est-ce pas? Julie also entertained Sue Rothwell, Carol Ule and myself at her home before she left — we had a riotous time! Janie Sheppard had a fascinating time working on the S.S. Hope (a floating hospital) in Saigon. She met some interesting people and dated the officers! She is studying Buddhism, sounds like the same Janie! I am missing a couple of addresses. Tinky and Karyl Kopelman, where are you living? Both letters were sent back to me . . . I'm waiting to hear from you! Sue Fox babysat in Boothbay Harbor, Maine. She said she was planning to be in the same dorm at Wellesley as Sue Wholey (1959).

Sandy Nicholson spent five wonderful weeks in Italy. She said she really saw the sights and learned the way of Italian life as she lived with an American family in Milan. Joan Spurgeon worked hard at bookkeeping in a bank. She also spent a lot of time riding around Newton. She says it is hard to believe that she won't be returning to Abbot and all her friends. Stevie Davis took a typing course this summer so she wouldn't have to struggle with that two-finger method so well employed at Abbot. She also mentioned going to SARDIS after Ginny's farewell party with all the other Abbotites. Suzy Matthews visited her the last week of summer.

Everyone is very enthusiastic about college! I am madly packing last minute clothes for school as I go back the 10th for "Hockey Week." I spent the summer as a swimming instructor at a camp in New Hampshire and besides learning a great deal, passing Senior lifesaving and really learning to waterski, I had a ball!

A note to those I didn't hear from; get on the stick kids! We want to hear what *all* of you are doing for excitement. Any engagements yet?

Greetings and best wishes to the class of 1960, Mrs. Crane, Mrs. Levo and Miss Dains from all of us!

Beth Ely  
Wilson College  
Chambersburg, Pennsylvania

See you then

**O**FTEN it is a relief to address oneself to Alumnae, because there are too many natural gulfs fixed between the school and its present students. Almost as soon as a girl graduates, no matter how far apart may have been our views, a kind of congeniality appears based on the common bond of having shared some struggles, some miseries, and at last a victory. Instead of representing opposing forces, one can frankly sympathize with college ups and downs, first jobs, decision to marry, young families, adolescent children, grandchildren — and all the rich variety of life. The school does “watch with interest” the careers of its alumnae, but the interest quickly approaches the horizontality of friendship rather than the vertical relationship of teacher and pupil.

## *Greetings*

Of course something is lost in this shift of relative positions. A school may be one of the few places where a grown person returning can experience again a sense of childhood, of dependence. The strongest of us need occasionally to draw back into the status of the guided, or directed, like those men of distinction in English novels who go to see their old nannies and are scolded for not wearing their rubbers.

In such a quest for the lost childhood, it is sadly disappointing to find the old surroundings different, the personalities changed. It is a great relief for the returning one to find some fixed points still, especially if they represent the most cherished remembrances. Sometimes a former student finds that the particular problem she was most troubled by has been solved. Inevitably, though, some things are different.

A school in its development must change, even as does an individual. The great difference is that an institution does not have to wear out, as alas, does the human frame! Hopefully, there is increase, rather than diminution.

Abbot is developing in many ways — it is adding new tools for training, new approaches to the process of education. Some new traditions are growing up, although many old ones are being retained. Some new customs are appearing because the society our girls have been born into is different.

For all that the Alumnae are doing in the way of encouragement, intangible and tangible, I am truly grateful —

*Mary Hinckley Crane*

# Alumnae Council

by Dorothy Garry Warlick '40

*Vice President of Alumnae Association*

The Alumnae Council held its annual meeting this year at Abbot on the 29th and 30th of November. I'm sure that I speak for all who attended when I say "We came, we saw, and we learned." The getting of information came from various sources throughout the meetings. First, from the students who reported on various campus activities. Perhaps the sweet young things felt we were from the dark ages, but they certainly didn't show it! How articulate, poised and enthusiastic they are — a joy to hear and observe.

Mrs. Crane extended a cordial welcome to us, and the faculty panel consisting of Miss Goodwin, Mlle. Arosa and Miss Tinker was informative and stimulating. New concepts in the teaching of mathematics, language laboratories and science of the atomic age were all discussed. There is no doubt that the Abbot faculty is facing the challenge of the 60's, and planning with foresight for the 70's and 80's.

Miss Hancock briefed us on the admissions policy at Abbot. She explained the many factors they consider when evaluating potential Abbot students. As she so aptly put it, "admissions work today is not only hard on the mind and feet, but also on the heart". It is gratifying to know that Abbot has 29 new alumnae relatives this year.

Mary Howard Nutting, '40, President of the Alumnae Presidents' Council, spoke on the work and aims of this organization. I was privileged to attend a two-day Council meeting at Miss Porter's school this fall. Abbot certainly has reason to be proud of Mrs. Nutting. She conducted all the meetings with quiet efficiency and charm. I heard her praises sung on all sides!

College admissions were discussed by Miss Tucker, Director of Studies. She told us of a growing interest in the larger mid-western universities, as well as the "good", small, lesser-known colleges that are eager to attract students from schools the calibre of Abbot.

To sit again in an Abbot class is indeed a rewarding experience. All of us at Council had an opportunity to attend two classes of our choice. Most of us felt we had turned back the hands of time — yet we saw changes. The classes are still small and informal, but new courses, e.g., "Far Eastern History" and nine levels of French are being offered, and new methods in teaching are being used.

Our creature comfort was more than adequately cared for at all times by the hospitality of Miss Coolidge, Director of Residence, and her staff.

We hope that by the warmth of our response, we gave to students and faculty a sense of satisfaction in what they did for us at Council, and indeed what they do on every occasion when alumnae return to the campus. Jane Sullivan, our Alumnae Secretary, and Barbara Healey Holland, our President, are to be congratulated on planning such a rewarding meeting.

## ***A Mount Holyoke Student***

*Reprinted from The Abbot Courant, 1961*

### *Teacher's Recommendation of Jane Doe*

Q.—Do you think Jane Doe is mentally equipped to compete at a college like Mount Holyoke?

A.—Her parents obviously think so. She would rather go to the University of Massachusetts where Bill is this year. She certainly does not want to spend four years grinding away at the old books. However, it might be rather nice for her to be able to say that she went to one of the "Big Seven".

Q.—Is she mature?

A.—Everything is relative. She is more mature than her thirteen year old sister, but less so than the president of her class.

Q.—Does she accept responsibility?

A.—When she was appointed chairman of the clean-up committee, she was very active in recruiting additional members.

Q.—Does she ever do any outside assignments?

A.—It is a considerable accomplishment that she does her required work.

Q.—Is she conscientious?

A.—She always does the interesting assignments. Shakespeare bores her, but she has cursorily examined him on occasion: for example, the night before an exam.

Q.—Does she participate in class discussions?

A.—She always asks questions and tries to start a discussion on days when there is a rumor that I may give an unannounced quiz.

Q.—Has she courage in the face of disaster?

A.—Refuse her and see.

Q.—What do you think are her primary interests?

A.—Her primary interests are Jane Doe, Bill Smith, her grades, music (if you mean what she means by music), her future, and the girl across the hall, in that order.

Q.—Do you feel that she has visibly advanced through participation in your class?

A.—I refuse to answer on the grounds that I may incriminate myself.

Q.—Does she get along well with others?

A.—If she has to spend another minute with her roommate, she will probably die.

Q.—Is she a good sport?

A.—Do you mean, can she lose at Bridge without getting upset? No, she cannot.

Q.—Is she well groomed?

A.—Her appearance improves daily throughout the week. On Monday, she looks like something out of Act 1., Scene 1. of *Macbeth*. On Friday, she looks like a human being.

Q.—Is she emotionally stable?

A.—Who can be emotionally stable while writing an English theme at one A.M. Monday morning?

Q.—Is she emotionally unstable?

A.—Yes, decidedly. She has an inferiority complex.

Q.—How does she compare with other students you have had during the past five years?

A.—She does not.

Q.—If she is accepted at Mount Holyoke, do you think she will contribute to the college?

A.—Of course, her father is President of Albercrombie and Withers, Associates.

Q.—Any additional comments?

LAUCHLAN LEARNED, '62

Mildred Cleworth Davis writes, "The area in which I now live, Cocoa-Rockledge, is referred to as 'The Gateway to the Moon'. It takes me 15 or 20 minutes to drive to a location close to Cape Canaveral from which a missile can be seen leaving the ground. At night it is awe-inspiring to watch one lift off in a bright rosy glow and roar away to its target. From such a vantage point, I saw each of our astronauts take off for the first trips into space."

1906

The December 7 issue of the *Boston Globe* contained an article about Elspeth Saunders Hardy who has been teaching first grade in Kingston, Mass. for fifty years. She was retired in 1958, but is permitted to go back to the first grade occasionally. When asked what she considered the most important element in first grade she replied, "Work habits, getting it done, following directions." Her requirements for a successful teacher — "A teacher must be dedicated to and

enjoy teaching. A teacher must have the respect of the children. It's all right to be loved, but respect comes first. If you get both, you're an A-1 teacher."

### 1926

The following article appeared in the St. Louis Globe-Journal.

"Gretchen Vanderschmidt started out as a secretary and is now president and director of a secretarial school bearing her name.

"But her great contribution has been in helping the handicapped help themselves.

"Let's call miss Vanderschmidt is the slogan for practically anybody who has someone they don't know what to do about.

"She has trained the blind, the physically handicapped (including a girl with one hand who learned to type quite well), the cerebral palsied, the mentally retarded and the emotionally disturbed.

Though the handicapped require individual training, they also get group training, learning to work with other members of the class.

"And the students in Miss Vanderschmidt's classes have ranged, at the same time, from a Veiled Prophet Queen to a milkman's daughter, from a very slow learner to a very gifted individual, and all the gradations in between.

"I make the same demands on the handicapped people as on normal people, she says.

"I have a very firm conviction that not enough by volume or enough by quality is required of students today, and I believe that everybody can do better than they are doing today.

"Her school — which, since 1959, has been incorporated as a non-profit institution — has two divisions: the secretarial and the academic tutoring, from the elementary through the collegiate level.

"She considers as one of her greatest triumphs a young man who came to her, as a mentally retarded boy who had just

finished eighth grade in a private school — but who could talk only in an unintelligible kind of grunt.

"Though a slow learner (his I. Q. when he came was in the 60s) he was 'bright enough to know nobody had expected anything of him' But Miss Vanderschmidt did. 'We are sorry, but we do not accept this kind of work from you,' she kept saying.

"In four years at Miss Vanderschmidt's school that boy learned to read at the twelfth grade level, learned to compute 'faster than you or I' and became so sociable, and understandable, that relatives from out of town didn't at first recognize him.

"Since 1952, Miss Vanderschmidt's school has trained some 50 blind persons in typing, secretarial work and Dictaphone transcription. This project was started in conjunction with the Missouri State Department of Public Health and Welfare.

"Starting from scratch, with no information from other sources to follow, this program of training had to be developed by the trial and error method. It is unique in this area.

"Miss Vanderschmidt conceived the idea of using the Dictaphone to teach the blind to type. She put the instructions on the machine and found it worked wonderfully well.

"I'M sold on teaching typing this way,' she says 'because it teaches students to listen.'

"One of the greatest weaknesses today in people, young and old, is that they don't listen. The blind have been trained to listen. They have to.'

"She also developed methods of teaching the blind to spell correctly, a handicap second only to their blindness in its severity.

"Of the 50 blind persons trained to full rehabilitation in Miss Vanderschmidt's school, many of them were trained specifically for, and have been placed in, St. Louis area hospitals, as medical records transcribers.

"About 15 percent of her school's enrollment is made up of handicapped persons. Hers is also one of the few racially integrated business schools in this area.

"Miss Vanderschmidt's work has not been confined to her business—though her business is, she says, her hobby. She was the first social action chairman of the Archdiocesan Council of Catholic Women, when Cardinal Ritter reorganized that council.

"Miss Vanderschmidt lives at Congress West, an apartment hotel at 5316 Pershing Avenue.

"Her favorite forms of relaxation are reading mysteries and cooking. But she has never seen a weekend when she isn't impatient for Monday to come."

We would like to plug our class reunion in May — it will be so much fun to get

Audrey *Davis* Trowbridge '54 with her children, Rebecca, 4½, Hope, 6 months, and Teddy, 3.

together again. Hope most of you can be there.

Jody Bradley is in Paris this fall doing further study in Art. She has bumped into both Libby Horan and Bunny Pearce. I believe Lib has landed a job with the Paris Herald.

We got a letter from Mimi Ganem back in October which we hope she won't mind if we quote in part — 'I've been working at MIT as secretary to the group in charge of the theory of the Apollo project. If you haven't heard about it, the Apollo project is aimed at putting the man on the moon! quite a trick, n'est-ce pas? I'm going to be quite busy since I am at this point their only secretary, and it ought to be interesting work and good experience for a year at least. In the meantime I'm taking some education courses so that I will be able to teach later; after hundreds of people asking me if I would like to teach after school and my giving them a flat "no" without even thinking, I've all of a sudden started to think and decided that it might really be my calling. Anyway a year in the relatively unacademic world should be good experience in the meantime.'"

Cecily Dickson sounds as though she loves England—'I like it even more over here and might be tempted to stay on longer than a year.' Her address is 5 Trevor Road, London S.W. 5.

Nancy *Ruhlin* Plummer sounds as if married life is agreeing with her. She is enjoying her teaching very much. Her address is Mrs. John Plummer, 249 Center Street, Old Town, Maine.

There are 30 Newcomb and Tulane students in Britain this year and I am the only one at Edinburgh. The British contingent sailed from New York on September 2 on the Flandre, French Line, and arrived in Southampton on the 8th. A three week bus tour of England was planned for us. It made a large circle going first west to Cornwall, circuitously up to York and then going to London by way of Cambridge. It was wonderful, but awfully hectic. To have a real change, 4 of us then took off to Ireland and rented a horse-drawn caravan for a week in which we jaunted at 3 m.p.h. about the country just south of Cork. It was lovely even though it rained 5 days out of 7. From Cork I made my way by train to Belfast via Dublin and took a boat to Glasgow where my father did his undergraduate work. From there I took the train to Edinburgh, my home for a year." Holly was planning to spend Christmas skiing in Scotland.

**A**T this time of year the seniors go about the campus with a curiously abstracted look, and an air of wearing something like a mantle, such as a blue gown, on their shoulders. Occasionally they look speculatively or reproachfully at those who are so soon to succeed them at the "top" of the school. It is a time of change, with a thought that one can't stop the clock, as the days slip past. Granted, the dormitories are full of calendars with each magic number triumphantly crossed off, but many of us wish that there were more time before we separate. There is too much to do, too much need to make

a mark on each other, the school on the girls and the girls on the school. We wish we had exchanged more influence.

## Greetings

Despite such regrets we know that much of what has been accomplished is not tangible nor can it be seen. Only in years to come will the school seem to reflect some of the actions of the girls this year. Some of these will become precedents to be used as proof of the success or failure of a certain program, policy, or project. Conversely some of the habits formed at school will direct these girls and perhaps many of their friends or families a long time hence.

The Class of '62 has carried through with considerable success many of its hopes and plans. The Alumnae body will be the stronger for this group of girls, I believe.

It was a delight to see many of you on the fifth of May this year. As always I wish I had a chance to talk to all of you together and then to each one of you. Abbot undoubtedly means something a little different to each. Cherish especially — among its various meanings — the thought of its upstanding and outstanding alumnae!

## SENIORS SELECT COLLEGES

Seniors have heard from the colleges and have made their decisions.

Southern colleges that will see an Abbot girl on their campuses are: Hollins, Randolph-Macon, and Rollins.

Eight western colleges will welcome Abbot girls: Beloit, Northwestern, Scripps, Stanford, University of Arizona, University of California, University of Michigan, and University of Colorado.

Eastern seaboard colleges selected were: Bennett, Bennington, Briarcliff, Bryn Mawr, Connecticut, Cornell, Finch, Middlebury, Mount Holyoke, Museum School and Tufts, Oberlin, Pembroke, Sarah Lawrence, Simmons, Smith, Swarthmore, University of Rochester, Vassar, Wellesley, Wells, Western and Wilson.

## ABBOT DEBATES ANDOVER

The Abbot debaters were unable to win any of the three debates held Friday night, April 20th, with PNYX, the Andover debating society. Resolved: Liberal prep schools provide a better academic and social education than conservative ones. The debates were held in the library, the Senior Parlor, and the McKeen Rooms.

In the library, Abbot took the negative and Andover the affirmative. The first affirmative speaker, Mr. Stripling, used Andover as an example of a liberal prep school, with their system of cuts, privileges granted according to grade, and freedom in planning their time. With this type of arrangement, the student is better equipped to step into college life.

Hilary Field, the first negative speaker, began with the premise that our culture is conservative, therefore, a conservative education would be more in accord than a liberal one. Students in the conservative schools are given the chance to develop good study habits. They learn respect for authority and neatness (taking baths, wearing shoes.) Because students at conservative institutions are required to take certain courses, they receive a "well-rounded" education.

Mr. Meyers, the second affirmative debater, spoke of the choice a student at a liberal school has: to study or to loaf. A liberal school teaches a student how to think when writing, while a conservative only teaches to imitate. At the liberal school the student sees two or more sides to an issue and is allowed to choose for himself, instead of being told what to do.

Melinda Bateman, the second speaker for the negative, spoke of the social aspects. The non-conformists or the "beatniks" may think deeply, but do they accomplish anything, she asked. The code of society was created for the good of the people. She said that the students at liberal prep schools are apt to ignore the common courtesies of etiquette.

Polly Danos, the negative rebuttalist, again spoke on the discipline and the well-roundedness of the conservative education, and also the social advantages. Mr. Alpert, the affirmative rebuttalist, made clear that Andover was representative of a liberal and not a progressive prep school. He also emphasized the better college preparation students at a liberal school receive because of their freedoms concerning studying and choosing for themselves.

Mrs. Davies declared the affirmative the winner, and commented that the negative often confused liberal with progressive and occasionally employed extreme examples.

### ART EXHIBIT

The John-Esther Art Gallery of Abbot Academy, Andover, held a reception to open the retrospective exhibition of water-colours and oils by Mrs. Virginia Powel, art teacher at the school. Friends from Canada and the New England States came to see her first exhibition in this area. Abbot Academy bought one of the paintings for its permanent collection.

Mrs. Powel graduated from the School of Art at Newcomb College in New Orleans and continued her studies with Xavier Gonzalez in New York City. She has exhibited in Cincinnati, San Antonio and Providence. Prior to coming to Abbot, Mrs. Powel taught art in the Cincinnati Art Museum and in San Antonio.

Teaching has been an inspiration to Mrs. Powel. She feels that through her contact with the students she has been able to mature and grow in her own interpretations. Her earliest painting, a sensitive self-portrait, is strictly representational. Her latest works are interesting patterns of various elements done in clear, vibrant colors.

### PIANO RECITAL

On Sunday, April 15th, Miss Yi-an Chang, a music teacher at Abbot, presented a very stirring piano recital. The program began with two fast moving sonatas by Domenico Scarlatti, and Beethoven's "Sonata op. 31, no. 22" a dark and moody piece.

After the intermission, she continued by playing a very different selection, "The Willows Are New", by Chou-Wen-Chung, which the students and many of their parents had the pleasure of hearing for the first time last November. It is a sad, emotional composition, adapted from a 7th century poem of parting, written for the ch'in, the Chinese long zither.

The four following pieces were written by composers of approximately the same period. Debussy's "La Puerta Del Vino," "Evocation" by Albeniz, a graceful and expressive piece; the hammering, staccato "Prelude op. 32, no. 12" by Rachmaninoff; and to conclude the evening, a charming and beautiful work by Chopin "Scherzo, op. 19."

The recital was pleasant and rewarding. It was too short for anyone who enjoys good music.

## SATURDAY NIGHT SPEAKER — DR. ALBERT BURKE

Dr. Albert Burke, an ex-teacher at Yale and the originator of the television program, "A Way of Thinking," delivered a surprising and eye-opening lecture on Saturday, April 14th.

The title of his talk was "Ideals Versus Reality." He began by saying he was glad he was not in youth's position today. What better way to gain the attention of "young adults" accustomed to hearing about how fortunate they are? Youth is faced with problems whose nature we are unable to understand, primarily because our educational institutions do not give us a "handhold on reality."

Dr. Burke was questioned by *Newsweek* magazine as to what is wrong with American education. He replied that nothing was wrong, it was just irrelevant. This was one of the relating themes of Dr. Burke's lecture.

After World War II had ended, a Navajo friend of Dr. Burke's did not wish to return to the American way of life. His reason came in the form of two circles drawn with a stick on the earth. On each circle were smaller circles, representing the interrelated elements in life. The difference was that in our life, man was in the middle of the large circle, separate from the real and the unreal. Thus the Doctor illustrated the difference between America's monotheistic society and the pantheistic society of other countries.

Dr. Burke spoke of a book written by Mao Tse-tung who states that man will soon lose all the freedoms he has held because he does not understand his own ideology. When people believe strongly in their ideals, those people and their beliefs will survive. Mao Tse-tung says that youth does not believe in anything and can be convinced to believe in anything.

The younger generations cannot respect or become concerned if the community is not concerned. It is the community which decides what is important, what is relevant.

Dr. Burke delivered the most stirring and relevant speech we have heard this year. He has certainly outlined a situation close to us.

## With Tongue in Cheek

### FAREWELL WINTER

by ANITA MILLER, 1963

How sad it is that winter is over! Lovely vistas of unblemished white snow are replaced by scrubby patches of ugly green grass.

No longer will we see poetically bare branches silhouetted against clear blue winter skies; the purity of these branches is being interrupted by jagged buds which are poking up their fiendish faces. Soon these buds, bad enough in themselves, will become green (horrible color!) leaves to further mar the simple trees.

The hard ground which provided a firm, tidy foothold, has melted into a dirty, sloshy state of muddiness. We are now besieged by flocks of noisy birds which awaken us at six every morning (their own rising time, I presume). We must shed cozy and disguising bulky winter clothes and don spring garments which reveal every ounce of that extra fifteen pounds.

Blotchy patches of color are appearing in the form of crocuses; merely more eyesores. There is no more ice for skaters, no more snow for the skiers, no more possibility of blizzards which will stop school activities, no more exciting indoor sports at Abbot. And so, we bid a sorrowful farewell to Winter and smile weakly at Spring.

## Class News

1887

Angie Dunton Purrington writes,

“‘And not by Eastern Windows only

When daylight comes, comes in the  
light;

In front the sun climbs slow, how slowly,  
But westward, look, the land is bright’.

A happy comparison the last glowing rays of a beautiful sunset and the close of a life full of years and worthy deeds—Also it is inspiring to quote with Robert Browning his familiar lines ‘Come grow old along with me’ and possibly accept the myth, ‘the best of life is yet to be’. It surely can be true and far be it from me to disillusion any who have that grand experience. But as for me, now in my 97th year I repeat what I said on my 95th birthday, to live into the nineties is an awesome, a frightening thing, a far from desirable thing to do since we must count lives by deeds rather than by years.

Much attention is given to old age. The government retires people too early, often making them dependent on a bare living and taking from them all initiative and pride in doing for themselves. The discovery of new drugs, new processes of food and ways of living have done a lot to lengthen the average span of life. I read that in the course of 10 years it will not be unusual for men and women to live to the age of 150 years—but to what purpose? The world is already overcrowded and the old are becoming too much of a care. Better for it would seem to devise ways of support for the aged commensurate with their strength and ability. To live contentedly one must have employment, self respect and above all to feel needed.

Circumstances alter cases and what is true for one cannot be said for all. Also this is not the place for a homily on the government versus old age but it is a subject very near my heart and I would like to see provision made for all old people to be busy and happy. As for my 75th reunion there are three of us in the nineties but not one able to attend—Jeanie Jillson lives in a retired Missionary home in California but is nearly blind, Harriet Thiving in the Amasa Stone Home in Cleveland is ill at this time, and I who am confined to a wheel chair. Until the last few years we kept a yearly Round Robin letter.

If I may be allowed to quote once more, I would like to close with the fun provoking words of our beloved O. W. Holmes who never failed to bring the spirit of mirth into every occasion even at his own expense.

‘And if I should live to be the last leaf  
on the tree

In the Spring.

Let them smile, as I do now  
At the old forsaken bough  
where I cling.’”

Jeanie L. Jillson writes,

“75 years! How long it seems since Miss McKeen gave us our diplomas and sent us out into the world! But always the friends of those days have been with us in thought and in gratitude and inspiration.

“For me the experiences of life have been varied. Fifteen years of teaching in the home land, thirty-five years in Turkey and the Near East.

“The years of service in Mission Schools have given much joy and satisfaction. There have been tragic times, with sad experiences, but always friends to help in the work of life. A year of service with the Red Cross in Jerusalem during the reconstruction after World War I, brought me in contact with much need and sorrow, but the opportunities to serve, were many and varied.

“Since coming home at the end of my missionary service, I have spent three years with friends and relatives, and twenty-two years in the Missionary House in Claremont, California. From there I send love to all Abbot girls and best wishes that its future may be as bright as the days that have passed”.

The following letters were received for the “Paper Reunion”:

Frances Brown Crane

“I still have many fond memories of the time I spent at school there, and many times have thought I would like to return and re-visit the school; but this has not been possible.

“Shortly after leaving Abbot, I entered school at Exeter, Massachusetts, and took the training course for kindergarten teacher. After completing my training there, I did teach a kindergarten class in a private school at Exeter, Massachusetts;

in fact, I operated the school myself. I did this for two years and then taught in the regular public school class. I stayed in the public school system for about six years, at which time I left teaching to be married to Dr. Carl C. Crane. After I married Dr. Crane, we went to live in Norwood, Massachusetts, where we lived for about five years. After this, Dr. Crane, an orthopedic surgeon, had an offer to come to California to join a doctor who was already in practice in San Francisco. It was in 1909 that we arrived in California, in San Francisco. Dr. Crane was in practice with this doctor for a period of five years, after which time he opened his own office.

"During this time we lived in San Francisco and continued to live there until about 1923, at which time we moved down the Peninsula to the little town of Woodside, located about thirty miles south of San Francisco. We lived there for one year and then purchased a piece of property in the town of Los Altos, a little country town, about thirty-five miles south of San Francisco. Dr. Crane continued to practice in San Francisco, commuting the distance between there and Los Altos. We built a beautiful home in Los Altos in a very lovely setting and resided there for a period of twenty-five years, after which we moved back to San Francisco to my present address.

"Being the wife of a doctor has provided me with a very full life, and we had a real partnership in his practice. Of course, my life hasn't always gone along smoothly. Dr. Crane had several very serious illnesses but happily I was able to nurse him through them when sometimes the doctors had given me no hope at all.

"Dr. Crane passed away in 1956, and I have continued to reside in our home here by myself. I live in a very lovely apartment on Russian Hill in San Francisco, and the view from my window includes the Golden Gate and the San Francisco Bay bridges, as well as a beautiful sweeping view of the entire Bay and most of San Francisco. Although many times I have desired to see the East Coast again, I am afraid my heart is definitely in California at this time and will continue to be. It is a lovely place to live in and I have enjoyed every minute of it.

"During our period of residence in the country, I was very active in community

affairs, being President of the Women's Club there for a period of three years, and taking part in all local community church activities and many charitable services. During World War II, while I was President of the Women's Club we organized an emergency hospital facility for the town of Los Altos to take care of any eventuality that might occur."

Georgia Emerson Puffer: "I am beautifully situated in a lovely house. I had three children, seven grand children, and now have sixteen 'greats'. Most gratifying.

"My Mother was also an Abbot girl and I was named for one of her classmates, Georgia Gleason.

"Miss McKeen was the principal when my Mother attended as she was when I came to Abbot. I still practice my Chopin with memories of Professor Downes, a good teacher who inspired me with a love for good music."

Josephine Rounsevel Coffin writes that twelve members of her family have attended Abbot and Phillips, so her memories of Abbot have been varied, interesting and happy. She sends warm greetings to her classmates, and to Abbot wishes for long years ahead in continuing good works.

Emily Staats Carter: "I will be ninety-two years old in June, and have 17 great-grandchildren which are a joy to me. I am thankful that I have my eyesight, and I enjoy reading and visits from my children, grand-children and great-grandchildren. It gives me pleasure to look back on my Abbot days."

## 1897

Rose Churchill writes, "All I can say is I am still enjoying life, and pretty active considering the dates behind. Until recently I have been doing a good deal of water-color painting. Two years ago I had a long visit in Hawaii and last summer a trip to Europe — my sixteenth. The latter one was to visit my niece, Lucy Talcott daughter of May Churchill Talcott, 1895. She is a distinguished archaeologist. On June 3, I shall attend the Smith graduation of my niece, Shirley Slater, daughter of Theodora Talcott Slater '27. It will be a double celebration for me on my 84th birthday."

Harriet Chase Newell, 1902 and Alice Morse Ray, 1897 with Edith Ireland Wood, 1926, President of the Alumnae Association

Martha Emerson will be 84 next August. She has had many busy years as a Library worker in various capacities and in various places until she retired in 1946. Since her retirement she has lived in Williamstown, Mass., but will soon move to Ithaca, N. Y. to live with her sister, Emily Emerson Day, 1901.

Alice Morse Ray has a daughter and three granddaughters.

Edith Morton Yoder writes, "After my year at Abbot, I attended the Chicago Kindergarten School, and graduated in 1900. It is now the International College of Education. In 1903, I was married to Luther K. Yoder, and we lived in Pittsburgh until 1925 when we moved to Ayer, Mass. We were always busy with Boy Scouts, young people's activities, Woman's Club and church work. We traveled all over the United States. Our only child, a son, lives in Litchfield, Conn. My husband passed away just one year ago."

Joy Webster Bowerman had an accident last September, and has been in the hospital in Washington most of the time since then.

#### 1902

Honora Spalding spends her winters in New York and her summers in southern New Hampshire in an old family home—she is the fourth generation to spend time there.

Helen White Lawton writes, "I only wish I could come to Alumnae Day in May, but I am not quite young enough to travel from Brooklyn alone". She sends her best wishes to all.

##### REUNION REPORT

As we tried to unite for our fifty-fifth reunion, we realized that not many of us are able to "trip it, as you go, on the light fantastic toe!". Trains and expressways, being what they are, we become a bit wary.

Jack Hukill Leeds, co-chairman, has been recently hospitalized and unable to make the trip from Cleveland. We are glad to hear from her that she is improving. Mabel Allen Buxton's brother drove her directly from her home in Longmeadow to my house on Friday. On Saturday we drove to Marjory Bond Crowley's home in Reading, and Marjory drove us to Abbot. There we were joined by Laura Howell who still lives in Trenton, New Jersey, and has retired after many years of social service work in that state. Evaline Korn Cookman's '06 husband drove her and Laura to Andover.

Ann Richards Folsom now lives in Old Lyme, Connecticut to be near one of her married daughters in Saybrook. Arthritis and a recent heart ailment made travel unwise, but Anna sent interesting news and pictures. Lee Parsons Cooper's husband is recovering from an illness so it was unwise for Lee to leave. She and "Jack" see each other quite often.

Louise Richards Rollins wrote us a nice letter from her home in Newport, N. H. We were sorry not to have her with us.

The Alumnae business meeting at Abbot Hall brought us up-to-date on school affairs. Mrs. Crane welcomed the Alumnae and we were amazed at the size of the Senior Class who marched in and sang to us.

After a delicious luncheon in the big dining room where we were joined by Constance Parker Chipman, '06, we strolled through the grounds and made the rounds of the Bazaar which extended around the "Circle". As it began to sprinkle, we left to be home before dark. And so it went with our "Fifty-fifth" and we agreed that the reunion will be a rewarding memory.

#### REUNION REPORT

Greetings to the girls of 1917 — to those who came back for our 45th reunion, it was wonderful to see you. To those who didn't, do plan to come in 1967. Seven girls came for Alumnae Day and we all looked the same as the last time we met!, and of course we didn't feel any older. We are proud of our career women and of the others, too— i.e. Grandmothers.

Cornelia Sargent Battershill came and with Gert, Bernice, Fran, Edith, and Marjorie, things were humming.

Dorothy Newton is an outstanding teacher of French at the West Hartford High School.

Edith Marsden is head of the history department at Lawrence High School and is an ardent skier.

Gertrude Goss has retired from Smith College but is working hard. She teaches swimming and has written books on swimming.

Frances Gere has retired and hopes to find time to finish a book started sometime ago.

Frances Cartland is a busy teacher and we hope to see her in '67, if not before.

Julia Littlefield teaches at the Lawrence School in Hewlitt, L.I. We were sorry to learn that she was in the hospital — hope she is well now.

Marjorie Smithwick Parsons lives in Marblehead and came back for the first time. It was good to see her.

Rachel Olmstead Storrs spends winters in Florida and summers in Ware.

Mary Wuichet De Armon, Balfie, Toney Stone, Connie Newcomb, Betty Graves sent such nice letters.

Mary has five grandchildren and hopes to return for our 50th. Balfie has just returned from a visit with her son and his family in Hawaii — Tom, Jr. a Capt. and jet flyer — daughter, Nancy, works in hospital at Bryn Mawr. Betty writes:

"We are blessed with four sons — we had no prospects for Abbot — of whom we are very proud. Charles is Associate Professor of French at Skidmore College. Bill, Jr. is an M.D. in East Longmeadow, Mass., Laurence is a Methodist minister in Rockville, Conn., and David is a Methodist minister in Westerly, R.I. We have six grandsons, as you will see by the enclosed picture. Since this was taken one granddaughter has been added — total seven.

"Through the years my husband and I have been active in our local church program and in that of the New England Southern conference. Since January I have been president of the Norwich Council of United Church Women.

"Our future plans include the building of a *small* house. (We have eighteen rooms in the old farmhouse — too big!) at the sea-shore about ten miles from here, and travelling. We were in Florida for five weeks this winter.

"How I wish I could be with you on May 5th and learn what all of you are doing. Have a wonderful day."

Antoinette Stone Mawhinney sent interesting pictures of her family.

Alice Littlefield Legal lives in West Baldwin, Maine, now. She has 2 sons and 5 grandchildren.

Carita Bigelow Moore is very busy and lives in Wellesley. She has 3 sons and 3 grandchildren.

Harriet *Murdock* Andersson wrote from Honolulu. She lives in Austin, Texas where her husband is professor of romance languages at the University of Texas. Her son is assistant professor in the German Department. Her daughter, Abbot '53, is married and living in Seattle. She has 2 children.

Bernice *Boutwell* Parsons is busy with arts and crafts — she hasn't changed at all. She has 9 grandchildren.

It was nice to hear from Sophia Chrysakis after all these years. I quote from her letter, "I wish I could join you on Alumnae Day. I would have loved meeting again all my old friends and classmates of whom I cherish fond memories.

"Alas! the distance is considerable and the trip quite expensive so to make it worthwhile, I should stay at least three weeks. At present I cannot afford to be away for long. Unlike you, I am not married and I live together with my senior sister who is in her early eighties, exceptionally frail, in a nice recently built cottage with a fairly large garden. We are grateful to God that we have survived the hardships of 'occupation' which meant almost four years, from April 1941 to November 1944 of living in great deprivation under duress.

"My dream is to visit the States once again before long and then I shall join you in our Alumnae Day celebrations.

"Please convey my warmest personal regards to all our classmates and my thanks to Frances Gere who took the trouble of writing also to me".

Miriam *Bacon* Chellis and husband have just returned from California. They went to welcome a new granddaughter who was born to daughter, Carolyn and her husband who is a Captain in the U. S. Marine Corps.

Mary Martin '19 joined us for lunch as did Miss Alice Swcney, 1914.

To those of you who answered — thanks a million — to those who didn't please do the next time. It makes all the writing worthwhile.

See you in 1967.

#### 1919

Kay *Beck* Dow and her husband flew to South America in March. They flew down the west coast and up the east coast.

They took the six-day Chilean lake trip, a combination steamer and motor coach trip.

Kay sent the following news items:

Marea *Blackford* Fowler and Kay were guests of Harriette Harrison at a bon voyage party on board the Bergensfjord in New York in January. Harriette took an eighty-day cruise around the world.

Dorothy *Korst* Blodgett and her two sons recently sold the mills in Janesville, Wis. which had been in the Blodgett family for over one hundred years. Dot also has a daughter. All three of her children are married, and she has nine grandchildren.

Thelma *Mazey* Gager returned home May 2 from an air tour of the world with her husband. They went via the South Pacific from Queensland, Australia to Singapore, Ceylon, Istanbul, and Copenhagen.

The class will be sorry to learn that Marian *Nichols* Fiore's husband, Michele, died in January. He was the author of the book, "Welfare of Nations", and was a designer at the Newport News Shipbuilding and Dry Dock Co.

Carolyn *Richardson* Korst and her husband had a wonderful trip to the Orient last spring to attend the Rotary convention.

Margaret *Taylor* Stainton also had a wonderful trip to Europe with her husband.

"Girls — write me." Kay

Margaret *Ackroyd* Hunt's daughter became engaged in April to Carl G. Rasmussen of Hillside, N. J. He is a second-year student at Albany Medical College, and they plan to be married this summer.

##### REUNION REPORT

"And what are all these years to me!

I'm just as young as I can be.

Reunion will be lots of fun,

I'll see what the ravages of time has done

To every one — but me!"

This little poem is the gift of Jane Baldwin who is just the same only more so — warm, humorous and full of enthusiasm. Jane and Carol Iredell are the proud owners of a house on the river in Essex, Conn. Except for the weeks Carol is in Florida Jane joins her for the weekends to watch the birds, the bunnies and just plain relax! Last October they had a marvelous trip through Austria and hope to "make the Parthenon" next fall.

Gwen *Bloomfield* Tillson says life remains the same but they are looking forward to her husband's retirement in October. Bob, the older son is in Investments, has three sons and a daughter. Dick is with an Investment Survey Co. in N. Y., Debbie, who graduated from Abbot a few years ago, will receive her B.S. from Hood College and her R.N. from Mass. General Hospital in June.

Sally *Bodwell* Houghton was at Fieldstones when we arrived, having reached Andover from Fort Myers, Fla. where they spend the winter. Sally retired from the restaurant business in '60. We found everything delicious as usual but it was a treat to have her able to sit with us and really visit. After spending a few days with her mother they will go on to their home in Weld, Me. where they are doing all the things they never had time for before.

Katherine *Damon* Kletzien wrote us that her daughter Edie Bass is living in Bedford, Mass. while her husband finishes his Air Force stint. Gwen took time to welcome her, a friendly act that Kay appreciated. Phyllis and her husband Ted Campbell live in Chicago where he teaches at McCormack Theological School. Each of the daughters has a child and Edie expects another in Oct. Damon, 24, graduated from Penn State University and is working in the Peace Corps Office in Washington, D.C. while taking an evening course in African Politics; in August he may be going to Africa to serve two years with the Am. Friends VISA program. Ralph, Kay's youngest, began college at Wooster, in Ohio, last fall. Kay is glad to have plenty of Community and church interests to keep her busy. Seymour carries on as chemist at the Cooper Hospital in Camden, N. J. — a field of increasing importance as doctors depend on medical technicians more and more to aid them in their diagnosis. Judging by the snapshot Kay sent, her family are attractive people but the next time have them all face the camera!

Ruth *Dewey* York and her son still live in Marblehead where he is working and she teaches first grade. She is very proud of her nephew who has become the private secretary of Senator Rusk.

It was wonderful to receive such a good letter from Kay Gage, Sister Mary Anselm, of St. Mary's Convent, an Anglican Community in Peekskill, N. Y. She has taught English and Latin there and in Tennessee, in the High Schools. They have a hospital for children recovering from long-range ailments, cardiacs and post polio cases. Kay's present job is assisting with a lot of correspondence and in the editing of their bi-monthly magazine. She teaches the novitiate twice a week and looks after a library for her associates. Then there are big church groups to be entertained, all in the framework of a modified Benedictine Rule with its hours of praise and intercession. Kay sends her love to all.

Helen *Goodale* Farley and her husband will be coming east from Concord, Calif. in July, when Joe will be in Vermont on business and she will be visiting her sister. He retires in Oct. and then they plan to make a more leisurely tour in this direction. Helen thought we would all need name tags but so far no one has changed very much.

Barb Goss is still teaching at the Winsor School in Boston and is looking forward to retiring before long. She was sorry not to see more of the class returning — we all were — Barb doesn't think we look old enough to be having a fortieth reunion! Certainly she doesn't.

Ruth Hill has been Mrs. E. Schuyler English since 1959. Her husband is a writer and they live in Merion, Penna. in the winter and at Skytop, Penna. summers — Both Ruth's daughters are married and she has "two and a half" grandchildren!

To keep in order alphabetically I'll take my place here — During the past five years Bill and I have added five grandchildren to our list to bring our grand total to twelve and a half! I cared for Peter's three girls for two years and while I found it is not as easy at 58-60 as when you are young, I thoroughly enjoyed "mothering" once more and have missed them since their Dad re-married last spring. To us, all twelve are handsome, healthy and delightful! Bill, after suffering for years and being on crutches since Jan. '61, had a steel hip joint inserted last Sept. and will soon give up

the cane he has been using since Feb. He is without pain which seems a miracle to us. As Interior Designer and Color Consultant for several architects in this area we drive over the east from Presque Isle, Me. to Binghamton, N. Y. When I am through chauffeuring for him I hope to have more time for ceramics, painting and sewing. For the past five years I have done a lot of Woman's Club work as President, chairman of various committees and on the state magazine staff. I've enjoyed hearing from you all and hope you will continue to send in news from time to time. Please plan *now* to return in '67!

Bubbles *Hutchinson* Bluntschli was too involved in house alterations both in Hackensack and at their summer home in Bay Head, to come back with Jane, Al and Carol as usual and we missed her. Joan Brooks, her older daughter, and family (three children) are moving to Tulsa in July. Margot Denkerd with her husband and two boys live in Chittenango, N. Y. Bubbles son, Bob is still with her. She looked C. P. *Damon* Mason up last summer at the shore and says she plans to do it this year.

Helen *Knight* Wilkinson is living in a charming old house in N. Andover. Linda, 17, is attending Rogers Hall in Lowell and Wendy, 20, is graduating from Katharine Gibbs. Helen's son is married, has a son and daughter, is working in Boston and still going on for his doctorate at MIT. Helen has been State Chairman of the Mass. Federation of Garden Clubs as Junior Gardener Chrmn., Pres. of the Andover Garden Club. and Chrmn. of the Andover Junior Garden Club. We all met at her house for cocktails at four-thirty and enjoyed seeing the clever changes she made in her house. They are a talented family, for besides Helen's water colors there are lovely ones by the girls and her husband. She teaches classes in cone and flower arrangements, too.

We have three classmates in Asheville, N. C. and Slip *MacPherran* Worcester is one; graduations seem to have been her nemesis as regards reunion. Betsy is graduating from a local school this month (her two years at Abbot were terminated by illness) and Cynthia from Mt. Holyoke on June 3rd. We will look for you to come up in '67 — unless you arrive at weddings for the girls about then!

Dottie *Moxley* Pitman was sorry she would not be returning from Florida until after reunion. We are, too.

Earlier commitments kept Florence *Philips* Cooke from joining us. Her sons, Jim and Phil, live in Swampscott and both work for their Dad. There are five grandchildren. Daughter Nancy is a secretary in San Francisco but will be returning east soon.

On the fourth I was glad to hear from Elizabeth *Ohnemus* Hicks and knew her voice at once. Although they moved to Natick a couple of years ago she is still active in the Episcopal Church Altar Guild in Newton. In the summers their home is on the Cape at E. Brewster. She sent good wishes to all and is one of several who wished reunion came at a less busy season.

Peg *Potter* Kensinger was her usual gay and lovely self, full of interest in every one and everything. A call came from her one night and before we'd really exchanged greetings, a warm baritone broke in with the first few bars of "Out of the Ivory Palaces" (remember Northfield?)! It was Sidney, giving Peg a little competition. They haven't been home from Florida very long and Peg looks wonderful. She keeps very busy with a local blood recruitment program and church work.

Marian *Rugg* Caywood writes that she and Harley just naturally head toward the Pacific when they get away, for their daughter Abby, with her doctor husband and three children, live in La Jolla, Calif. She thinks she will have to wait for our 50th. to return — we will hope not!

Barb *Sands* Sherman came all the way from Bay Village, Ohio and certainly the intervening 35 years have passed over her lightly! She and Frank have three sons and six grandchildren. Peg, Barb Goss and I stopped in on our way to Helen's to meet one of the boys, Jim and his most attractive wife, their son and daughter (who is in Helen's Jr. Garden Club). Barb is staying with them for a few days. These were the only class grandchildren we were able to see — don't wonder Barb is so proud of them.

Marian *Saunders* Cheesborough was the first of our class to move to Asheville and she has been very active, not only in the local Garden Club, but chairman of her church Altar Guild as well. She speaks of their "grandchildren being a constant joy" but does not say how many. Are all the boys married, Sandy? Bring

the other girls from Asheville, round up those in the N. Y. area and we'll have a reunion call go out any old time!

Al *Van Schmus* Smith is another busy gal who always comes back for reunion. She does a lot of volunteer work in the Visiting Nurse Assoc., Red Cross, much traveling, gardening and what she calls "going antiquing". Of their three daughters — Ellen is working for IBM in N. Y. and Meggy is a junior at Boston University. Ann is married and enabled Al to join our "picture sessions" for fond grandmothers at reunion with snapshots of an adorable black-haired, six week old granddaughter!

Janet *Warren Winslow* sent a fine newsy letter this year, reporting the commuting she and Red have done between Needham and Boothbay Harbor, Me. Their daughter, Susan, lives in Cape Elizabeth with her husband and two children. Ann, the older daughter still lives in Reading, Mass. She has two boys and "a darling little doll, Elaine". If any of you are around Southport this summer, look Janet up and there might be a boat ride for you in a wonderfully scenic part of the Maine coastal waters!

It is sad to have to tell you that Kay *Weeks Plaisted* is the second of our class to die; she passed away in April. She had welcomed us often when they lived near the school. Our sincere sympathy goes to her husband and children.

Suzie *Welborn Osborn* lives near her son David, in Jacksonville, Fla. We know Ricky and Elaine are beautiful children for their doting grandmother sent several snapshots of them with her letter. Last fall Suzie had a marvelous trip through Europe; she hopes you will make a point of stopping if you are going through her area.

I wish you all could see the clipping Anne *Whinery* enclosed with her letter for it shows her behind a huge cake decorated with twenty-five candy babies on the occasion of her twenty-fifth year with the Department of Welfare and Institutions in Virginia. She has been supervisor of the department since its inception in 1942. Anne has played a part in more than 28,354 adoptions and refers to them as her "children"! Although she is retiring as of July 15th, Anne is making a South American tour this summer observing social work activities and procedures and ending with the

International Conference in Rio late in August. Anne sent all the D.O.G.'s her love and said to sing all the old songs for her; well, we didn't find time and I am sure we have forgotten the words!

Alex *Wilkins Talmadge* is our third member in Asheville and all her news was of her children. Her daughter is assistant to the Dean at Agnes Scott College in Atlanta but she is going to Michigan State University next fall to get her Master's Degree. Her twenty-four year old son Tommy is with the Norfolk Shipbuilding Co. in Virginia.

The card from Dottie *Williams David-*son told of her daughter Mary Faith, a sophomore at Pine Manor who moved home to be with her after Allen's sudden death in November, and how fortunate Dottie felt to have her near at this time. In the fall she will transfer to Skidmore. Her married daughter lives in Chappaqua, N. Y., but is home often. The son, his wife and little boy live in Needham; he is in the family business at Longs. We missed you, Dottie, but sympathize with your feelings that this is one reunion you could miss. Will expect to see you next time round!

Millicent *Bartlett Holmberg* felt she could not leave her antique shop in Lomita, Calif., the Glass Bottle. It keeps her tied down. The shop specializes in bottles and she does a big mail-order job as well. She wants to say "hello" to you all.

One of our most loyal members is Jimmy *Burr Sanders*. She moved from Marblehead to Wellesley Hills in 1960. Her daughter, Carol, lives in Omaha, Neb. at Offutt Air Force Base, headquarters for SAC. Her husband is a Major—they have a small son. The other daughter, Barbara Dadmun has three children and lives in Framingham. Barbara was graduating from Abbot on the occasion of our 20th. reunion so on May 5th. she was back for *her* 20th. We may not see much change in each other but when we see our daughters grown women, the years cannot be denied! Jimmy is always with us at reunions.

Dottie *Flagg Smith* enjoys her five children and I'll bet it is mutual! She tries to lose her extra pounds in the summer with gardening, golf and swimming and all thru the year is busy with many crafts, and water colors.

Louise Mount Wilson was unable to return because she is visiting her daughter and two grandchildren. Two years ago they were visiting them in Greece but this year they travel west to Utah. Louise's son, Tony, just graduated from OCS and is now on a Survey Ship in the Pacific. She loves living in her delightful old stone house with her husband, a deaf dog aged 12 years and a blind one, aged 10!

Vera Barnett Cothran sent the first news of her activities in years and years! She handles child welfare cases and finds it a very busy time just now. She has seven grandchildren.

Alice Tower Kirkby has attended all our reunions to date but her husband is just out of the hospital after surgery and of course wished to stay with him. Alice is on her 6th year with the Montclair Times, reporting the concerts as well as doing office work. Alice hasn't missed many reunions so we will be hoping to see you soon. We missed the girls who generally attend and hope you will make an extra effort next year to be with us!

So now we have come to the end of the cards and messages that have been returned. We hope to see all of you in '67! There have been some fine changes at the school in these recent years and we are proud of them, but the finest thing of all — the close bond uniting all of 1922 — remains as strong as ever. The eleven who got back picked up their friendships exactly where we left them forty years ago. Get together when and where you can — and God bless you all!

Affectionately,

Olive Howard Vance  
*Reunion Chairman*

##### REUNION REPORT

Thirty-five years after graduation, seven '27ers met and RECOGNIZED each other . . . so the reunion was a success! Look at the picture and see if you can do as well. We held our class meeting after the luncheon, and elected Sydna, Reunion Chairman for the 40th, Peg Nay Gramkow, Fund Secretary for five years, and voted a \$10 gift to the Fund. We read all the letters, pored over pictures and questionnaires, and talked about everyone who wasn't there. Next time you'd better come.

We enjoyed Syd's wonderful letter from Italy where she was starting her three months in Europe. She had seen Sally Tate who has lived in Rome for four years. At home Syd lives on Martha's Vineyard most of the year. She sings in the choir, occasionally plays the church organ, works in all aspects of the Little Theatre, has had two seasons with the "pro" summer theatre at Edgartown, and in the winter she paints. She spoke and exhibited some of her marvelous Mexican paintings at a Boston Abbot Club meeting. Her job from August to December

is getting out the family publication, "Eldridge Tide Book" which sells 10,000 copies to yachtsmen and mariners. She concludes, "I hope you are having a happy day, and next time I hope I'll be there too."

Lo Kimball is still painting pictures with words as well as her brush. She sent this delightful bit of nostalgia:

"Incidents that come to mind about Abbot are strangely random: Stalling in line, to nod good morning to Miss Bailey. My amused surprise at my first initiation to the Abbot method of eating bananas. Miss Friskin's despair over my lack of talent at the keyboard. Having had Nan for a roommate was one of the major pleasures. Those prescribed walks were not. Miss Chickering's delightful absent-mindedness. A pickle tiddly-winked by yours truly into Miss Bancroft's teacup. The fun at Marblehead and Intervale. Sounds: The gong, those bells, gleeful voices over mail, hymns, readings by Miss Hammond, lectures, practicing from the music rooms, Sydna's wonderful songs, Hen Nash's playing and also Miss Friskin's, that doleful tree song, ours, "Oh Abbot Beautiful", clack of hockey sticks, slap of basketballs, plunk of tennis balls. Quite a medley. No doubt our Year Book would stir up many more memories, but why become so acutely aware of how we have changed!"

But actually, having read and digested the questionnaires, I don't think we have changed. We're all pretty much in character.

Miriam Houdlette Walsh  
*Reunion Chairman*

Her two sons, both married, are also graduates of the C. G. Academy. Her daughter is a U. N. secretary. Jane says, "I could live life over ten times and fill it with things I like to do."

Lois *Kimball* Remsenburg, L. I. is servicing her ill and aging Aunt. She has sold several brush and ink sketches of water birds, and still writes poetry.

Miriam *Houdlette* Walsh, Melrose, Mass. is Pres. of the Boston Abbot Club and a busy volunteer for Kappa Swap Shop etc. With a young child and an old house, she and her husband never lack for a project.

Summarizing the other questions: Chief annoyances have to do with lack of time and money. Political opinions were all gripes about too many Kennedys, spending, and corruption — except for one optimist. Answers to "Have I changed?" fell into 3 categories — definitely — no — and hope so. Most valuable Abbot experiences included specific courses, learning to think, live with others, friendships, influence of teachers etc. About half wouldn't change the past, others generally would take life less seriously. As for me, I'd get married sooner!

##### REUNION REPORT

Eleven members of the class were able to be present for Alumnae Day festivities. After the Alumnae Association meeting in the Chapel, we gathered in Draper Hall to laugh and talk together and renew old friendships. At this time the many messages that had been received from alumnae were shared and enjoyed. A splendid luncheon followed in the Bailey Dining Room at which ten of us were present, all but Frances Connelly Dowd who joined us later in the day. After the gay Bazaar held in the Circle those who remained were invited to the lovely home of Nancy Burns McArdle before our Reunion dinner held at Fieldstones. Miss Hearsey, Miss Hancock and Miss Tucker were our special guests for dinner.

Marjorie Boesel Van Winkle was chosen as our next Reunion Chairman and Frances Connelly Dowd, our Class Fund Chairman for 1962-1967.

Marjorie Boesel Van Winkle has one daughter, Beth, who has already graduated from Abbot and is now married, and a second daughter, Susie, who is a junior at Abbot this year. Marjorie much enjoys her frequent visits to Andover.

Charlotte Boynton Connors plans to take her two children to Seattle in June for the Fair. Susan, age 5, will be in the kindergarten, and Dale, age 8, will go into the third grade. In July Charlotte returns to a residency in Psychiatry. She loves her beautiful lake home and the busy life of Madison.

Nancy Burns McArdle was very kind to offer our class such warm hospitality on Alumnae Day. Her eldest daughter, Nancy, is a Prep at Abbot this year with her cousin, Ann McDermott, daughter of Elizabeth McArdle McDermott.

Francis Connelly Dowd has a son, Tom, at the University of Florida and another son, James, at Boston College. Fran is a librarian at the University of Rhode Island.

Ruth Hill Haberland's oldest son, Peter, is a freshman at Bates College which his father attended. A second son, Dana, is a freshman at Mt. Hermon School and a third son is in the sixth grade, still at home.

Cynthia *Holbrook* Sumner's eldest son, Charles, 16, is a junior at Choate and Steve, 13, attends the seventh grade in Worcester.

Elizabeth *Inman* Kirkpatrick hoped very much to be at Reunion. However, her husband is at Cape Perry in the Artic for a year, and so Betty has taken a part-time position to help the time pass more quickly. She has two teen-age boys and a daughter ten years old.

Elizabeth *Melcher* Anderson carries on three part-time jobs in addition to her household duties with four children. Her eldest son, Bill, plans to enter Williston in the Fall, Caroline is at Derby Academy in Hingham, Ted attends Norwell Elementary School, and Elizabeth is still at home.

Jeannette is involved on Boards again including Florence Crittenton Circle and Palo Alto Garden Club as well as setting up drives for rehabilitating children at their Children's Health Council. Jeannette's husband is Vice-President in Loomis Sayles (Investment Counseling). They love Palo Alto and the west coast.

Mary Emily *Pettengill* Smith-Petersen's eldest son, David, is a freshman at Syracuse University and her older daughter, Patty, is a sophomore at Walnut Hill. Allan and Sally are still at home.

Martha *Ransom* Tucker sent her love to all. She has one daughter, a sophomore, on the Dean's list at the University of Rochester, and a second daughter Cum Laude at Beaver Country Day School is going to Duke in the Fall.

Louise *Risley* Stever had a wonderful trip to London with her husband last September. The family has a new holiday house in Randolph, N. H. which is their big news. They have used it for several ski trips. At home they have two teenagers and two primaries — all excellent skiers. Bunny is very busy at M.I.T. — on the board of Matrons Groups as her husband is now head of two departments there.

Jane *Stevenson* Wunsch was also very sorry indeed to miss our Reunion. She sent her love to all. Her daughter, Anne, who is at Washington University in St. Louis, is being married on June 16th. Dick, the eldest son, married three years

ago has two children. He is at the University of Michigan starting graduate work. Jim, is in the 10th grade, John in the 3rd grade, and Martha in the 1st grade. It sounds like a very busy and lively household with numerous pets as well.

Louise *Stevenson* Andersen's husband is a Foreign Service Officer and they have spent 16 years abroad living from 2-3 years in, Colombia, Chile, Cuba, Pakistan, and lastly in South Africa. The family returned for a Washington assignment about a year and a half ago and are finally adjusting to suburban American life again. Marcia, 18, is a freshman at Barnard College and Susan, 17, is a junior in high school. Louise returned to school herself to make up education credits so that she could teach, and is currently teaching world history and world geography in a high school near her home. She hopes that any of her classmates who are in the Washington area will contact her. She lives at 425 Hamilton Ave., Silver Spring, Md.

Elizabeth *Swint* McFarland wished so much that she could have joined us for Reunion. Her oldest boy, Landy, is in the Naval Air Reserves. His squadron was called to active duty. At present he is in Cuba. The second son, Dick, is at Valley Forge Military Academy and Allan and Beth are still going to a local school.

Nancy *Kincaid* Vars has a son in his third year at Taft School. Nancy, like many others, sent messages of regret at not being able to return for Reunion, but wished to be remembered to everyone.

Joan *Todd* Wilkinson had a son, Michael S. Jan. 19, 1962. Joan's oldest child is a sophomore at Vassar. She writes that she is the oldest and youngest mother in the class!

Mary *Perrot* Whitehill's oldest son enters college this Fall. She also has a daughter, Joan, 15, and two younger boys still in grade school.

Thank you all for writing.

### REUNION REPORT

To the seven of us who did "Orbit to Abbot" for our 20th reunion — Marjorie *Dean* Marsden, Louise *Leslie* Loud, Gretchen *Roemer* Gayton and 12 yr. old daughter Henrietta, Jane *Rutherford*, Barbara *Sanders* Dadmun, Ann *Taylor* Debevoise and Gloria *Caldarone* Hegarty with 8 yr. old daughter, Laura Ellen — it was generally agreed that none of us had changed that much. Though with tongue in cheek, I'll let you draw your own conclusions to the following remarks overheard as we were determining where to sit for the Alumnae Meeting — "Let's sit down front, we won't need our glasses."

Miss Hancock joined our group for lunch and took us on a tour of the well-equipped language laboratory. We continued on to the Bazaar which was delightful as always. One of the highlights was being entertained by a group of guitar-strumming Abbot girls who accompanied a singing group from P.A. — quite well done.

Of the seventy letters sent out, we received the following quotable quotes: Betty *Hardy* Verderey has a five month old daughter; D. J. *Erkert* Simon expecting her sixth child any day now; Pam *Bolton* Henderson with two children at home and three in prep school — daughter at St. Anne's in Charlottesville, Va., and two boys at Middlesex, Concord, Mass.; Rhody *Wind* Stone working part-time for Harvard Medical School and has four children; Jeanne *Bowersox* Wilson has a new daughter, second female, fifth child and building a new home; Margo *Goodman* Decker wrote that "my husband has been division engineer for the 101st Airborne at Ft. Campbell following three wonderful years in Alaska. Hope to take our plane with us and continue flying when we leave this summer." Margo has four children; Elsie *Williams* Kehaya wrote that her two youngsters are now ten and seven and she got to Japan last Fall with her husband; Barbara *Johnson* Prest wrote from Francetown, N. H. that she and her husband were busy restoring the Woodbury Homestead built in 1785.

We were delighted to receive a reply from Oslo Norway — Margaret *Sime* Espeland whose reply with its simplicity expressed it so well for us all: "Unfortunately there is no hope of my attending the Reunion of '42 Class. But you will all certainly be in my thoughts, and not least of all the fun I had and good spirit I met with in my years at Abbot. Best wishes and blessings to you all."

Reunion Chairman

##### REUNION REPORT

Hi 47ers!! Many thanks to the girls who made our 15th reunion a gay one. A marvelous luncheon was followed by the annual Abbot Bazaar done in the World's Fair theme. The nice tea at Sunset made the day perfect. My mother Mrs. W. Shirley Barnard, invited all of us to her home for cocktails before dinner.

Barbara Jane French Brandt was elected Class Fund Secretary. Our thanks to Mouse Morse Abbot who was Secretary for the last 5 years. Mouse told us that Janet McIvor's father passed way. Our sympathy to Janet. Jane Lewis Gleason had news about Helen Dowd who lives in Cincinnati Ohio. She has 2 small children. She and her husband spend part of their time traveling in Europe and the U. S.

Bev DeCesare Nassar has been in touch with Mary Lo White Pepper who at present is living in Tripoli, Libya. Mary Lo is having a wonderful time studying Italian, going to concerts and taking advantage of the fine art of the country. The temperature ranges from 108 degrees when the wind is over the desert to 63 degrees when the wind is over the sea. Mary Lo and her husband expect to be back in the U. S. sometime this summer.

Ann Clemens Lowman's husband is with the foreign service. They are at present living in Cambridge. They have a daughter who is six. Ann and her family expect to receive orders this summer to go to Dusseldorf, Germany. Ann met Chris von Goeben Curtis in Washington. Her husband is also with the foreign service. Ann has been in contact with Lois Derby Taylor who is living in Dhakron, Saudi Arabia. They had planned a meeting in Vienna but due to the unexpected they were not able to get together.

For a change of pace my husband and I bought an old house 3 years ago and remodeled it. At present we are attempting to paint the outside together.

Jane Weldon Boland Aff. '46 joined our class reunion and added her sense of humor to the festivities.

Do let us hear all your news and please start planning now for our 20th to make it the biggest ever. You really don't know what you are missing.

News gleaned from the postal cards:

Dimp Hanley Murray was not able to make our reunion this year due to a trip to Europe. Lucky girl Dimp! She sends her best and hopes to make our 20th.

Our sincere sympathy goes to Sue Robbins deWolf upon the death of her parents. Our congratulations to her on the birth of a son, May, 1960. Due to moving she was not able to make the reunion but we hope to see her on our 20th. She is spending the summer in New Hampshire.

Janice *Cole* Johnson felt that Los Angeles is just too far away to make our 15th but sent her best to all.

Mackie *Hall* Kernan was busy having children on our 5th and 10th reunion and couldn't make this one either, but she is determined to make our 20th. How about some statistics on your children? She says to tell every one "that dizzy red-head sends her love".

Due to her 5th child arriving around the first of May, Ann *Flowers* Howlett could not be with us, but she will be here in spirit — good luck. Let us hear about the new arrival, Ann.

Em *Gierasch* Savage and Sally McDuffie are living in our 49th state and feel it is a bit too far. Em lives in Anchorage and Sally lives in Fairbanks so they have been able to get together. Em has 3 children.

Ann *Aulis* Ronan writes, "I am up to my eyes in graduate work, substitute teaching and mothering my three girls". She sent her best to all.

Skeeter *Pierce* Clark is all tied up with family activities and could not make reunion this year.

Carol *McLean* Bly had a daughter, Mary, January 26. It is her first child.

Peg *Kimball* Montgomery is now living in Texas. She felt Texas a little too far away, but sent her love.

Edith Flather wanted to be with us, but she had a meeting at Northwestern that day, and felt the trip from Madison, Wisconsin a little too far.

I heard from Dolly *Sharp* Fiske, Ginny *Eason* Weinmann, Maud Savage, Shirley *Sawyer* Williams, Jean *Ritchey* Bora and Diane *Gould* Berkeley. Diane was in Europe. They all said they would be thinking of us on that day.

We were sorry that Sally *Humason* Bradley's trip from New York was canceled.

#### REUNION REPORT

15 of us, or  $\frac{1}{4}$  of our class, were on hand for our first reunion and very enjoyable it was. Louisa Lehmann and Anne Gramkow, who will both be married June 2, were fairly floating along and very happy. Pat Bijur was with us and told of her recent engagement. Carolyn Cooper has given up Eloise-type projects for work in a Biology Laboratory. Hope Hamilton Pettegrew is now teaching in Westfield, New Jersey. Her husband, Bob, has a new position with the Wall St. Journal. Nancy Ruhlin Plummer and Sandy Wiles Marquis are also teaching this year. Nancy's husband, who accompanied her to reunion, is working for his M.A. in Mathematics. She plans to teach for two more years. Frankie Young Tang had some wonderful pictures of her little girl, Tracy Lynn, born January 16. Oscar will graduate from Harvard Business School this June and they plan to live in New York City. Lynne McLaughlin has a fascinating job on Wall St. Debbie Tillson will graduate from Massachusetts General the end of the month. We all enjoyed seeing Deb's mother, also an Abbot alumna at the

reunion. Ellen Parker has a job with a very smart shop in Boston and her chic outfit was certainly an indication.

Lulu *Sulzbacher* Cutler was at her bubbling best and has been elected the reunion chairman for 1967, so start planning to come right now!

Janet McLean is marrying Bobby this summer and I know everyone will be delighted to hear same. Penny Post, still as cheerful as ever, is busy working in Cambridge.

I gleaned much news from the post cards you all kindly sent back:

Joan *Pelletier* Isabel is expecting a baby the middle of June. She and Dick live in Bloomington, Indiana where he is in the MBA program and will finish June '63. Bevie Lord has been ill this past winter — we send wishes for good health. Bev. Anne *Bowden* Morris had a little girl March 9th "with wads of black hair". Congratulations Anne! Lydia *Cornwall* Bishop had her second baby — another little boy — just before reunion, and I know how busy you must be Lyd! Patty *Brennan* Kfoury is out in South Bend, Indiana, teaching second grade and is expecting an addition to her family in October. Dian Dane is completing her "internship" in the first grade and will soon graduate from the University of Miami. Carol Gaines and Dinah Hallowell are traveling in Europe. Carol will return late this summer, and Dinah plans to visit Emily *Meyer* Michalopoulos in Genoa. Emily was married the 17th of March after completing a secretarial course in New York last fall. Nancy Davison is no longer a stewardess — she is working as a receptionist at the Palo Alto Medical Clinic and I understand that she and her mother, who is visiting her for a month, are vacationing at the moment in Hawaii. Nancy's sister, Judy, who is president of the ACA at Abbot this year, was one of the student speakers at the Alumnae meeting held in the Chapel.

Jacquie Goodspeed is a senior at Connecticut this year and is pursuing her interest in music. Libby Horan is living and working in Paris but is planning to return around May 16 for her brother's wedding. Martha *Buckley* Fahnoe was married in February this year and is living far off in Houston, Texas. Anne *Luquer* Boswell is in Charlottesville, Virginia where John is finishing law

school. Anne is busy working on a French program for 240 pupils. Kathy *Earthrowl* Syna will graduate from Bennington in June — she and Seymour have a 17 month old baby. Debbie *Smith* Regan was married January 6 and moved across the country to Los Angeles. Debbie is with the programming research and analysis group at the Union Bank in Los Angeles. Judy *Medwed* Stahl had her baby the first of May — she lives just one-half hour from Andover and had hoped to be at the reunion, but babies do take time!

Penny Holbrook announced her engagement April 15 to Watson D. Reid and will be married September 1st. Watson is in his second year at Columbia Medical School. Paula Slifer has also announced her engagement to Judd Cornell Zandstra of Grand Rapids, Michigan. He is a graduate of the University of Michigan and is now a student in Business Administration. Paula is a secretary in Ann Arbor, Michigan.

Judy Botnick is living and working in Boston — she loves the city and plans to stay there a while longer. Cindy McGuire and Mimi Ganem are living in Cambridge. Cindy has comprehensives in May and a wedding in June—sounds quite busy for you Cindy! Mimi is a working girl in Cambridge.

Karen Jones sent a wire on May 15th to the Class, but unfortunately it arrived late in the day — it read: "'57'ers — here's to a great reunion, thinking of you. Coming in '67 or bust". Many thanks, Karen, wish you might have been with us.

Marcia *Colby* Frame was married the 14th of April and is now living in Syracuse.

Mary Ann *Spurgeon* Lewis spent a short time with her family in Newton, N. J. while John was in officers school for the Air Force Reserve of J.A.G. They are now stationed in Dover Delaware. Sam was elected Alumnae Fund Chairman for our class at the reunion. Her address is "Woodscove", Cooper Rd., RD, Dover, Delaware.

The entire class joins in thanking Wiggs Carter and Nancy Davison for the splendid job they have done.

The only sad part of our day at Abbot was the news from Mr. Butler that some children had been digging in the senior garden area and had absconded with our treasure box. If it is ever recovered we will open it at the next reunion.

I send hearty greetings to all — we will see you in '67 — love

Mary Wellman Bates  
*Reunion Chairman*

## 1958

Anne Metcalf Reiss writes, "My husband is an instructor in the Philosophy department at Connecticut College and is a Ph.D. candidate at the Boston University Graduate School. I am working in the library, doing a little bit of everything and picking up a lot of information, especially about the Dewey decimal system! I think that I am the youngest "faculty wife", but I sneak into the dorms occasionally for a hen session with the students — several Abbot alumnae are here."

## ENGAGED

June Hamilton to Nathan Noyes Witherington. He graduated from Governor Dummer in 1958, and is a senior at Kenyon College.

Mary Steketee to Henry J. MacDonald of Erie, Penna.

## 1959

Diane Gerros writes of her various "adventures" in Spain. She's bought a car and has been traveling also in France. Her art course at the Prado sounds marvelous. Holly Robertson spent a week with Diane on her way back from an art trip to Florence. Diane plans to go to Scotland before returning in August. She'll be back at Middlebury in September.

Tina Savell is planning a European summer. She had a part in the Junior show at Connecticut this Spring. She sees Lolly Bell and writes that they both are having a busy spring.

Mary Louise Lockwood has been elected president of the Middlebury Chapter of Kappa Gamma and is also a candidate for Junior Week-End queen. She's planning to spend the summer at home.

Jane Thompson has a job as governess for three boys in Germany this summer. Sounds like fun! The February Bulletin incorrectly reported that Jane was married. Please forgive our error, Jane.

We have just heard that Elizabeth Greene was married to John Houston

Reid on January 26, 1962 in Denver, Colo. Their new address is 2990 Poplar St. Denver.

Elsie Taylor spent ten days in the Virgin Islands between semesters and also spent her Spring vacation there. If anyone is interested in renting an apartment in Georgetown next year, drop Elsie a line at 265 Langdon St., Madison 3, Wis.

Mary Louise Lockwood  
*News Secretary*

## 1960

Wish I had bundles of news to offer. I know that a great deal more has happened to members of our class than I have been informed of. Nevertheless, here is something of what has been going on for some of you.

Ada Panayatakou writes that she is studying hard in Greece so that she might enter medical school there. Ada says, "Please tell our class that I'll be hurt if anyone comes to Greece and does not come to see me". Her address is 127 Licourgous St., Kallithea, Athens, Greece.

In February, Lynne Furneaux, Hannah Jopling, and Maggie Elsemore saw one another at Princeton. Nice way to have a reunion! Lynne enjoyed her Spring vacation in Canada. She seems to have been kept quite busy.

Perhaps no surprise to any of you, but Charlotte Palmer had a delightful Spring vacation in Guadalajara, Mexico. Charlotte plans to return to Guadalajara at the end of this summer after a trip to Europe. Congratulations to you, Char, on making the Dean's list at Cornell.

Another reunion took place in February in Boston. Amelia Comas, Adrienne Davis, and Olea Smith must have enjoyed their visit together. Olea went to Ft. Myers, Florida, to sun and play over her Spring vacation. She spent the final three days of her vacation in Washington, D. C. I understand that Cindy Bump was also in Florida at the same time. Mary Feldblum went to Texas for her holiday.

Mike (*Dyer*) Lalli relates the exciting news to you that she and Peter will become proud parents of their first child in June. Mike, I know that everyone joins with me in wishing happiness to the three Lallis.

Aida Sharabati is now studying Economics at the London School of Economics. Her address is St. Marguerite's Hall, Bedford Place, London, England.

A CARTOON I saw last summer showed a small boy sobbing as he lay on his bed at camp while an earnest young counsellor assured him "But these are the happiest years of your life!" Like so many cartoons, this one left me with a taste of ashes. It represented a difficulty which confronts family and school — or anyone who is concerned with humanity. At school we do not even have the joys of camp life to offer our girls; we have to "work" them as one trains race horses. The question is, does their happiness concern us?

## *Greetings*

Of course it does, but even the fondest parent knows that skill and competence can only be grasped through hard work, repetition, and practice, none of which is calculated to delight.

I am not going to propose a questionnaire "Were you happy at Abbot?" or "What have been the happiest years of your life?" For many of you, these may be yet to come. Sometimes we only recognize happiness in the past. Perhaps teachers or a school can only offer a few materials with which to build a structure of happiness: curiosity, intellectual as well as physical; competition so that one's standards rise; responsibility for oneself so that character and personality become more than a facial expression; frustration or failure so one values success much more; and the most obvious — the experience of being a friend to strangers so that one learns how to be liked and eventually to be loved.

Abbot doesn't guarantee happiness either immediate or in the future. But I take heart constantly from the alumnae I know, who seem to have found this quality somewhere in their lives! Can I not hope that their school gave them something with which to build?

Mrs. Wayne Frederick, whose husband is on the faculty of Phillips Academy, will teach French. She received her M.A. degree from Columbia University and studied at the Sorbonne. Mrs. Frederick has been teaching at the Isidore Newman School in New Orleans, La.

Mrs. Janice Fukushima has joined the English department. She graduated *magna cum laude* from Radcliffe College and has been teaching English in Japan for the past two years. Her husband will be attending Boston University Graduate school.

Mrs. Lynwood Howard will be the new dietician and house superintendent. Mrs. Howard graduated from Framingham State College and comes to Abbot from the Taft School in Watertown, Conn.

Miss Erika Niemann will be teaching Mathematics and Physics. She received her degree from the University of Berlin and has been teaching at the Droste Hulshoff School in Berlin. Miss Niemann is an exchange teacher from West Berlin.

Miss Lily Siao, a teacher of piano, is a graduate of the Juilliard School of Music and for the past year has been studying in Paris on a Fulbright Award. She taught for several years in New York schools.

Miss Ruth Stevenson, who will teach English, received her A.B. degree from Smith and her M.A. degree from the University of Richmond in Virginia.

Mrs. Oscar Witten, who joins the French department, was born in Paris and studied at the Sorbonne, Universities of Frankfort, Freiburg and Berlin, and attended the Graduate School of Columbia University.

Mrs. Capen Abbott of Camden, Me., a graduate of Connecticut College, will be the house mother in Abbey House.

For twenty-four years Miss Hope Coolidge carried the responsibility for sheltering, feeding, and caring for the physical comfort of the Abbot community. Her clear mind, calm demeanor, and imaginative planning power kept the establishment running smoothly through times of scarcity of food and labor, changes in personnel of all the ranks, and crises of all kinds. She contributed much time and help to the wider Andover community, notably during the war years. By her conscientious care, without sacrificing quality, she has contributed greatly to the economic stability of Abbot. We are truly grateful for all her work, and I know all those who have known her wish her happiness in her retirement.

Mrs. Paul Werner retired in June from the teaching of English and advising the Editorial Board of *Courant* during the past six years.

She is noteworthy for her keen interest in her students and in all kinds of modern teaching experiments. Her high standards of literary performance made her teaching most effective; her imaginative ideas about enriching the experience of the girls produced a number of in-

teresting speakers for Abbot and some stimulating excursions for our students. Her work with *Courant* brought it continued progress, and our magazine is now nationally recognized for its excellence.

Mr. and Mrs. Werner are living now year-round in Peterboro, and they would, I know, be glad to see any of their former students who might be passing near.

## SCHOOL OF SPECIALIZED TRAINING

Abbot will have a tri-mester system this year. There will be exams in December and May, and tests in March.

There are several reasons for this change in Abbot's testing system. One reason is that colleges want Seniors' records as soon as possible. Women's colleges often request them by February.

Last year mid-year exams were held earlier than in previous years so that grades would be ready for this date. Classes spent most of their time after Christmas Vacation reviewing.

With exams at the end of December, the work of the fall term can be completed, and new work started when the winter term begins. Less tension is expected after Christmas Vacation because students will not return worrying about impending mid-years.

March tests will not interrupt the class schedule, but will be given during class periods. Each teacher may decide when she wants to give the test. The exams in May will remain the same.

An increasing demand for and a growing enrollment in the laboratory sciences made it necessary to have more laboratories. This year 110 students requested chemistry, physics, or biology. As a result the classrooms on the lower floor of Abbot Hall have been remodeled. The rooms are now a biology laboratory, and a physics laboratory. Both were formerly French classrooms. One was at one time a biology laboratory and the other a home economics room. The use of the rooms in Abbot Hall seemed the most immediate solution to the problem of lack of space.

This year several changes have been made by the Student Government. The Demerit Council will no longer consist of the vice-presidents of each class, but rather the proctors of each corridor. These proctors will be nominated by the corridor-teachers, and elected by the students. Although proctors will still pull down shades and say goodnight, they

will now be given added responsibility. To help lessen the noise on the corridor and to uphold the general rules, they will be able to give demerits to anyone who does not cooperate.

On Saturday, September 22nd, the whole school migrated to Ipswich for the annual old-girl new-girl picnic. A bright sun, the first seen in years of picnicking at Crane's Beach, greeted all of Abbot as it piled out of the buses. After indulging in the usual feast of hot dogs, potato salad, peaches, and gingerbread, everyone either sat around and talked or wandered down the beach towards the castle. Some girls, who had walked first and then wanted lunch, missed out on the gingerbread, but nevertheless, all, including some stray dogs, were well fed.

The annual Abbot — P.A. "Mixer" was held on September 29th. The mixer officially started when couples emerged from the crowded conglomeration of Abbot girls and Andover boys in the McKeen Rooms or in the Gymnasium. These couples then wandered to the dining room where they were served fried chicken, string beans, rolls, and ice cream. At about 7:00 the Gym couples and the Draper couples were united in Davis Hall, where the "Aces" played under green lights. Despite the slippery, crowded floor, hardly conducive to dancing, all managed to slide around to the strains of tunes such as "Exodus" and "Summer-time Blues".

## NEWS *from the* CLUBS

The BOSTON club held its fall meeting at Sunset House at Abbot on October 24. The faculty joined the club members for dessert. The speakers were Miss Eleanor Tucker, Director of Studies, Miss Erika Niemann, German Science exchange teacher from West Berlin, student leaders of Student Government, Abbot Christian Association, Abbot Athletic Association, and Cynosure, the school newspaper. Jane Sullivan introduced students from Kenya, South Africa, Afghanistan, Dominican Republic, and England. The Intoxic-Eights, the Senior singing group entertained.

The OLD COLONY club met at Snow Lodge in Bridgewater on October 25 for luncheon. Jane Sullivan brought news of the school.

Mrs. Crane met with a group of alumnae and parents at the home of Susan Ripley Ward '28 in Denver, Colorado on October 23. The next day a group from Boulder met for luncheon at the Harvest House at the University of Colorado.

## *From the Alumnae Secretary's Desk*

It is a distinct pleasure to report to you that the Alumnae Fund has just completed its most successful year. Never before have we had as many contributors, as high a percentage of contributors, or as large a dollar total.

Our goal of \$20,000 was exceeded by \$181.67, and we were delighted to present this amount to the Board of Trustees as an addition to the Faculty Salary and Scholarship Endowment Funds.

Although we raised our percentage of givers from 35% to 42%, a most creditable gain, we felt short of our goal of 50%.

Each year the American Alumni Council publishes a report on Annual Giving and Alumnae support which includes all types of schools, universities and colleges. The latest published report for 1960-1961 has just been released.

The following table shows a comparison of Abbot with other girls' schools of similar character:

Name of Institution	Effectiveness of Solicitation	Number of Alumnae Donors to Fund	Alumnae Gifts to Annual Fund
Westover	51 %	1,175	\$45,269
Brearley	40.9 %	1,121	\$24,455
Miss Hall's	40.8 %	664	\$28,077
Chapin	40 %	735	\$10,775
Mary C. Wheeler	38.2 %	476	\$ 8,269
Shipley	37.6 %	777	\$18,233
Chatham Hall	36.3 %	580	\$13,184
<b>Abbot</b>	35 %	1,203	\$17,310
Emma Willard	30.5 %	1,341	\$36,720
Miss Porter's	30.5 %	1,178	\$25,486
Northfield School for Girls	28 %	2,440	\$20,380
Concord	27.7 %	230	\$ 6,699
Dana Hall	20 %	1,127	\$58,533

This chart gives you an idea how we stood in relation to other schools in 1960-1961. This year, we will in all probability make a better showing.

We are grateful to each one of you on the long list of contributors. A special word of thanks goes to the Class Fund Secretaries and the Area Representatives who played a key role in achieving this record.

## Class News

1908

Dorothy Taylor, director-owner of Camp Wampanoag at Buzzards Bay, retired at the end of the camping season, after 51 years of service to camping for boys and young men

1909

Edith Gardner Tobey's son, George Merriam, received a Ph.D. in History from Clark University in June 1961.

1910

Gertrude Swanberg Cryan sent her eldest granddaughter to Europe for ten weeks when she graduated from Junior College. Last year she and her granddaughter took a Caribbean cruise. She hopes to do the same for her other seven grandchildren.

1922

Betty Brewster Thompson writes, "Each year we take four or five weeks in May traveling to Florida. We are a community-minded family. George is in his second year as chairman of our Red Cross Chapter. My daughter, Marvelle, is in charge of Blood Bank operations. I am chairman of the Blood Program in our 5-town chapter, and a working trustee of the hospital."

Juliet Haskell Carrington writes,

"No one regretted more than I that I could not be at the 30th reunion of the Class of 1922. Maybe I can make it in 1967 — I hope so.

"My roster of grandchildren remains at two, David Gardner Reed, my daughter's son, and John Cabell Carrington, my son's son. David is four and a half years old,

Elizabeth Graves Hill '17 with her husband and six grandchildren

going to nursery school and looking forward to kindergarten the second half of next year. John is a big, bouncing boy of just lately two. He already wears size-5 clothes, which tells you all. He is learning many words and has a good vocabulary for a two-year-old. He is also a beautiful child. His curls would be the envy of many a girl.

"My mother, Mrs. Haskell, my daughter, her husband, Karl Reed, David, and I are about to embark on a trip West. They will fly from Philadelphia to join us, since time does not permit their driving all the way with us. I shall have the fun of seeing my birthplace, Salt Lake City, for the first time that will register. We are *not* going to Seattle. It would be too strenuous and too time consuming.

"I am still playing the organ for services at our St. Matthias Episcopal Church and being Chairman of our Library Board. We had to find a new librarian recently, and after advertising in the *Library Journal*, I received letters from as far as Germany and Yugoslavia! Both applicants had worked for the U.S.I.S. for years. I'm on our City Planning Commission, too, which is most interesting. I read of all your activities with much interest."

#### 1923

Charlotte Hudson White was nominated to serve as representative in the Maine House of Representatives.

Mary Elizabeth Rudd has done much traveling: Ft. Myers, Clearwater and Jacksonville, Fla. during the spring. Last year she spent five weeks in Hawaii. She has 7 nieces and a nephew and 25 grandnieces and nephews, so she does not lack places to visit!

#### 1927

#### 1928

#### 1929

Polly Francis Loesch writes,

"After seven years in orbit geographically to the denominational military chaplains Russell's new position has him travelling in ecumenical and sociological circles as the Executive Secretary of the Interdenominational Religious Work Foundation of Virginia. The work is for and with populations and personnel of prisons, hospitals and institutions yet at the same time with the churches of the 17 denominations which support this unique program providing chaplains and religious services to the rejected, the forgotten, and the sick.

"Bill and Bob are now seniors at Oberlin College. Last summer Bill attended the Human Relations Institute at Fisk University and worked at the Country Store in Rockport, Mass., where he saw many friends while doling out tangy cheeses and foaming root beers. As usher, choir singer, member of the College Social Board and organizer of the Lorain County Race Relations Committee he has had a busy year. This summer, for a change of pace, he is attending the University of Richmond and working on part-time jobs with his brother.

"At the meeting of the Dr. Schweitzer essay award winners another Nobel Peace Prize Winner, Father Pire, invited Bob to his Seminar in Belgium. Through help from the Glen Ridge Church, and a job with the Ecumenical Work Camp and re-

fugee-study Bob was enabled to hitchhike abroad. He sat at the feet of the theologian, Dr. Karl Barth, slept in the vineyards, gardens and university room of Dr. Schweitzer, and visited the home of Frederic Oberlin. As recently elected President of the Ohio United Christian Campus Fellowship and Shansi Chairman he will be busy while his delightful fiancée, Bonnie Frazier, teaches music and is organist in her Dad's church in Connecticut."

Martha Tuttle Haigis writes, "I have two sons: Barry, 26, who graduated from the University of Rochester and spent 3 years in the Navy, is employed by the Southern New England Telephone Co. He was married in September to Elizabeth Farnum of Wellesley, Mass. Peter is a sophomore at Rollins College. My husband is director of the laboratories of the Stanley Works in New Britain, Conn."

Needless to say father and mother will stay home and tend to our knitting with four in college."

### 1933

Louise McClary writes, "I am always a bit disappointed on turning to 1933 class notes — there's a scarcity of news from these members. I seem to be 'stagnant' — am still Executive Director for our Franklin County Health Association. It is indeed a challenge—at times actually fun, but plenty of hard work throughout the year organizing two annual fund campaigns, planning TB and Heart programs, trying to help educate John Q. Public toward better health."

### 1936

Charlotte Dane von Breton was a candidate for the City Council in Providence, R. I. Charlotte operates a dress shop, and is a wardrobe restorer.

#### 1947

Nancy Scripture Garrison writes,

"It was impossible, for varied and boring reasons, for me to make the fifteenth reunion of the Class of '47. However, perhaps things won't be as frantic in five years for the twentieth.

"My family stands now at four; Gay, 8, Tim, 6, Anne, 4, and Fritz our "baby", 3. The much-maligned round of suburban activity suits me perfectly, I'm afraid. As a part-time proposition I am working as

interior decorator for a builder who designs beautiful colonial houses in an exalted price range. This is great fun, and a healthy outlet for my love of spending money! As president of the Wayland Area Women's Republican Club I've managed to get into politics in a very small way, and hope to make it bigger when I've learned a lot more about it. Only an important Harvard reunion this June for my husband is keeping me away from the convention in Worcester. Politics is a field which a lot more women with high ideals should become involved in!"

#### 1948

## 1954

Frances *Nolde* Ladd writes, "Carol *Hardin* Kimball and her husband, Geoff, came to Lagos to spend a long Christmas week end with us. We had a glorious time catching up with each other, and trying to make Christmas seem like home (a bit difficult in the tropics). They are with Mobil Oil in Enufu, Eastern Region, whereas we have had Lagos, Western Region, as our base. Carol has been teaching French to Nigerian girls and loving every minute of it. Lagos has become a cosmopolitan city with every nationality imaginable represented. I have thoroughly enjoyed living here as I am a city girl at heart. I took a correspondence course from the New York School of Interior Design. I have particularly enjoyed my work for a children's hospital and I also organized a committee on youth activities which worked in conjunction with the Nigerian Federation of

### 1957

My head is hung in shame. Wiggs sent me a long newsy letter at the end of August, and I lost it! And I only read it once — hurriedly — so remember very little.

I do remember that Wiggs and Wade were planning a trip to Hawaii during the beginning of September, and that Mimi Ganem was traveling out here in California during the summer (why didn't she look me up?!!)

Maybe the reason I've been so disorganized is that I'm engaged to be married on December 22 to Dr. Duane Miller, a resident in psychiatry at the Palo Alto Hanford Medical Center. He graduated from the University of Oklahoma Medical School in 1960. Needless to say, I'm probably the happiest girl in the world these days.

Again, my apologies for losing Wigg's letter — she'll probably give up on me pretty soon!

My best to everyone at Abbot — wish I could visit sometime.

NANCY DAVISON

Dian Dane graduated from the University of Miami in June. She received a B.Ed. degree, and majored in Elementary Education and Early Childhood Education.

Her work consists of school nursing and well-child health in the community.

#### MARRIED

THE literature of 18th century England, with which the Senior-Mids are grappling, reflects the "gulf between human folly and human intelligence" as one critic speaking of Alexander Pope puts it. At Abbot there is in process a debate which rather resembles those of two centuries ago. Student Government is examining itself, and training its own fine intelligence on various aspects of natural "folly" to see how order can best be maintained. It is remarkable that this enterprise is being engaged in by the whole school — the whole Student Government Association, in other words. Cynosure has published an entire issue devoted to a wide variety of observations and ideas which illustrate very forcefully the intelligence I spoke of. I have confidence that

## *Greetings*

this concern with the principles and practices of community government will have a very salutary effect on Abbot and even upon these various communities which our students will find themselves part of after they leave here.

Our new trimester schedule seems to be working well. It is strange to be at January's end without being surrounded by exams! The winter term seems to be running as fast as the tides of the Bay of Fundy.

I cannot possibly end without expressing my great appreciation for the response of the Alumnae to the annual call for financial support. I know very well that this is not the only kind of support we need or receive from you, but for tangible things, I do want to give my visual thanks!

# New Adventures in Learning

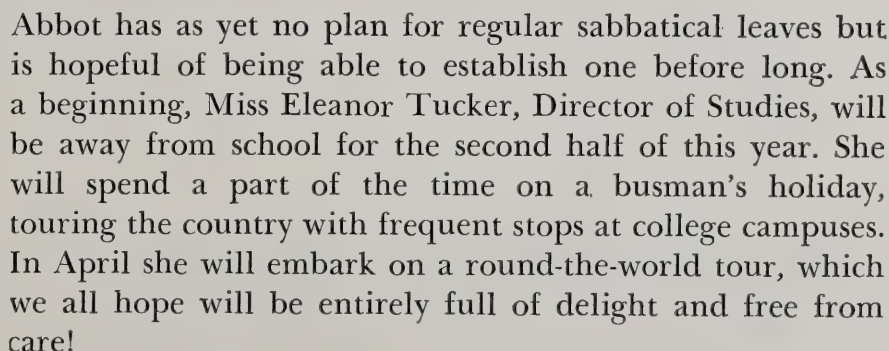

by MARY MINARD '55  
*Head of History Department*

Teaching at Abbot is an exciting and challenging experience. The faculty is constantly searching for new ways of enriching the regular course schedule and of meeting and encouraging the girls' enthusiasm for learning. During this second semester the English and History Departments are experimenting with several new courses — two seminars and a series of lectures which will, we hope, broaden the knowledge which the girls bring to the traditional, required courses and, at the same time, accustom the students to the demands of advanced college courses.

Mrs. John Sisson, the head of the English Department, is offering to interested seniors a series of four lectures giving a background in the trends of philosophic thought in the nineteenth and twentieth centuries, beginning with German Romanticism and discussing also Transcendentalism and Existentialism. Readings are taken directly from authors of these movements: Goethe and Hauptmann of the German Romantics, the Transcendentalists Emerson, Melville and Henry James, and Jean Paul Sarte and Samuel Beckett, leaders of the Existentialist movement.

The seniors may also participate in an English seminar in literature of the twentieth century proposed so that the girls will read more widely in good contemporary novels, poetry, and drama and so acquire a more sound basis of judgment of the literature of their own time. During the weekly two-hour session led by Miss Margaret Way, an individual oral report is given, followed by a general discussion of the author under consideration. Readings are taken from twentieth century novels from James Joyce to William Golding, from selected poems written since World War I, and from contemporary drama including plays of the Irish theatre at the turn of the century, the American theatre of the thirties and forties, and plays of such playwrights of today as John Osborne.

(CONTINUED)

Abbot has as yet no plan for regular sabbatical leaves but is hopeful of being able to establish one before long. As a beginning, Miss Eleanor Tucker, Director of Studies, will be away from school for the second half of this year. She will spend a part of the time on a busman's holiday, touring the country with frequent stops at college campuses. In April she will embark on a round-the-world tour, which we all hope will be entirely full of delight and free from care!

The seniors have greeted these adventures in learning with the same enthusiasm which they have brought to the seminar introduced by the History Department. The history seminar, entitled "America in the Twentieth Century", is offered to a selected group of eleven seniors who have shown outstanding ability and interest in the senior American history course and is designed to be an extension and intensification of that course. Under conditions as closely equaling an advanced college seminar as possible, the girls are studying twentieth century American art and architecture, economics, the foreign relations of the United States particularly with Eastern Asia, and political philosophy, each topic taught by a member of the department. In the weekly two-hour period, the girls give oral reports, discuss the assigned readings and, it is hoped, come to a wider and more real understanding of the America which will be theirs to shape in the future.

## Oh, to be a Science Teacher

by PAMELA J. TINKER  
*Head of Science Department*

I am ashamed to say that, at the exact moment of my prone crawl with a piece of chalk and a yardstick over the Abbot Hall, Room 1 floor, with doubtful consonance from the gentleman who witnessed this caper of chalking and talking, all thought of altruism fled! I was irretrievably committed (so I thought) to get a new laboratory or, to get someone to say that I could go ahead. This was my last and final didactic proof that sinks and drains and pipes would fit. You have no idea how excited a mere science teacher can get about sinks and pipes and pegs and cupboards or even just mere space. Enough of this!

Yes, the miracle happened in September of 1962. The Science Department suffered a real increase in surface area and our fourth lab: with microscopes, an analytical balance, a redundant ice box and stock and apparatus, some new, some from the old Chemistry and Biology labs, came into use. Now we have more science students *and* more space.

### Our Purpose

With a very open mind towards a liberal education and a great respect for the successes of the past, Abbot has not overly pushed its science courses in a time of scientific revolution when this major influence on cultural, economic and political patterns is evident. One purpose and one obligation is to educate Abbot girls to develop insight into the factual knowledge of every conceivable aspect of life. We must, therefore, be dynamic in accepting this responsibility and make our

contribution through their natural curiosity of their own environment. This is innate, a thrilling potential on which to work, of ceaseless wonder and yet imparts its discipline. The reward, probably unique to a teacher, is evident.

True, Abbot's count of science majors graduated in recent years is very encouraging, but perhaps even more than the career girls, the valid criterion of our success lies in the majority group, our output of informed citizens, soon to be voters. We hope that these can at least start to follow and read intelligently, thus forming opinions and useful points of view when their ideas are applied and tested on such everyday but immense problems as 'Atomic Energy', 'World Populations', 'D.N.A.', 'The Space Probe', and that they see them as more than mere billion dollar expenditures in government material and research.

Presently, we have 2 Chemistry, 1 Physics, 3 Biology and 1 Junior Science group. We are adopting some new curricula approaches besides visual and practical aids. Chemistry can move back to more open ended experiment and projects outside its normal laboratory work, and girls are doing individual investigations for their biology essays. Our Spring term dissection and embryology programme in Biology is quite advanced and one of the highlights of the 11th and 12th grade courses.

The Junior Science has a basis of standard physics and chemistry and then turns to earth science and mineralogy, cosmetic, bleaching, dyeing and kitchen chemistry, sound and music and finally a short unit on space.

### Re-organization

Next year we plan to re-organize and institute a new advanced course which may be called Biology II, since a prerequisite will be Biology I, but it will include both Organic and Biochemistry and Physiology. Herein appears to be the intrinsic needs and interests of those present students who do not favour the Physics followed by Math IV courses. The later, incidentally, is an excellent foundation for any science major.

1963-1964 will then offer Junior Science in Gr. 9, Biology I in Gr. 10 for capable students who can accelerate as well as two groups of Biology I, two or three groups of Chemistry and Physics in Gr. 11 and 12.

Our present graduation requirement is but 1 laboratory science. We hope that soon 2 or 3 of the 16 or 17 credits will invariably be in science.

We have hopes that the new course will fill a demand heard for several years now from girls who were loath to give up their Chemistry and Biology after one short year's study. By the time one has realized that every living organism has an internal and external environment, a personal chemistry and physiology and is vacillating yet within the bounds of most chemical and physical laws, one has found the lock. Believe me, by the time this same organism is perceived to have evolved as part of a master plan yet remained unique, and is to be reducible to atoms and molecules, some of which can reduplicate themselves with known mathematical probability, the key also is found and one — does — want — to know — more. But Abbot has said "No, it is simply impossible to schedule another course". Now, by the genius of our scheduling committee, Abbot is determined to make it possible in the future.

## Incentive to Progress

Actually we have every incentive to progress. Dozens of fascinating careers are wide open, and industry and Biological and Marine stations introduce prospectives during school vacations. The National Science Foundation sponsors excellent courses within the universities and colleges for 11th grade students. I can personally testify to the modernity and value of the teacher refresher programmes. Research as a career may even be tasted and tested by interested students. These are incredible opportunities. We are glad to have Miss Hancock with a senior group back behind the telescope, coping with the added artificial satellites as well as the natural heavenly bodies.

Our museum and field trips gain in variety and we welcome speakers. If you or your husband can help us here, do please come along and tell of your work or experiences to a small informal or a full school audience. We should be encouraged by your interest and grateful for your stimulation. Won't you come and be a science teacher for a wee while? We may bombard you with questions but will eventually say "Thank you" and reluctantly let you go.

## NEWS *from the* CLUBS

The BOSTON Club met on January 12, 1963 at the M.I.T. Faculty Club and heard Dr. Norris D. Hoyt, Chairman of the English Department at St. George's School, Newport, R.I. describe a voyage across the Atlantic in a schooner. The next meeting will be held Wednesday, April 3, at the Toll House in Whitman, Mass. Mrs. Ruth Wakefield, owner, will discuss "Foods Around The World". All members of the Old Colony are cordially invited.

CONNECTICUT Abbotites and their husbands spent an evening together at the Hofbrau Restaurant in New Haven in December. The Baker's Dozen of Yale entertained them with songs.

The NEW YORK Abbot Club will meet for luncheon Saturday, March 2, at 12:00 at the Smith College Club in the Hotel Berkshire on Madison Ave. at 52nd St. Helen Ripley '30, alumnae trustee, will discuss her work directing the teaching of Non-Western Languages in graduate schools. Mrs. Crane and Jane Sullivan will bring news from Abbot. Any Abbot girl in New York on March 2 is welcome. Reserve a place with Mrs. James Mathias, Glendale Rd., Harrison, N.Y.

Edith Ireland Wood, president of the Alumnae Association and Jane Sullivan met with a group of alumnae in the RICHMOND area on October 29. Barbara Elliott Tevepaugh '29 entertained at a tea in her home.

Miss Eleanor Tucker, our Director of Studies, will be visiting many colleges throughout the country. We are planning alumnae meetings in the following cities: Orlando, Florida, February 19; St. Petersburg, Florida, February 20; Houston, Texas, February 28; Dallas and Ft. Worth, Texas, March 2; San Diego, California, March 11; Los Angeles, California, March 13; and San Francisco, California, March 18. You will be hearing all about these meetings in these areas shortly.

## Help

The Post Office Department has announced changes in handling of second class mail. The fee for notifying publishers of undeliverable second class matter has been increased from five to ten cents. This means a large increase for undeliverable Bulletins. Please keep the Alumnae Office informed of your change of name and/or address. A post card or note mailed when you move will save Abbot money.

Thanks.

Mimi Lott writes, "I am a second-year painting major at the Museum of Fine Arts School. I see Bambi Bohlen and Kathy Krause there. Most exciting of all

I am pinned to George Harrison Bigelow, Jr. of Brown."

Ginny Pratt writes that she is a V.C.P. in student-teaching in Newton, Mass. in a 1st and 2nd grade combination. She went to the World's Fair last summer with Doris Ward '58.

Ann D. Valkenburgh is President of her dormitory at Vassar.

Meg Wilkins spent a very wonderful summer in Newfoundland, working for the Grenfell Asso. Her job was as a volunteer, caring for children in the orphanage in St. Anthony. Her 26 young charges were of all ages — from 14 months to 16 years, and were fun to work with.

#### ENGAGED

Susan Spalding to Ronald T. Silva of Vineyard Haven, Mass. Ronald works with the ATSOVO Oil Company.

#### MARRIED

#### 1962

Claudia Kerr writes, "Well, I may be having a little trouble staying here, but Smith is really fun! Also more than ever, I am glad to be close to New Haven. More seriously, I had a blissful time in Europe — ran into Kitty Cecil, Edie and Steffie Davis. Paris is smaller than one thinks!"

Anne Ripley writes, "I had a perfectly marvelous time in Europe last summer, and hope to go back soon. There is an international influence here at Western because of the many foreign students. Emvly na Thalang is here, too."

Lyn Shaw spent the summer with her family in Indonesia. She visited Bangkok, Beirut, Athens, Amsterdam, and London.

Barbara Bickly became engaged at Christmas to Robert Taylor Seagraves of Texarkana, Texas. Bob prepared at the Baylor School, Chatanooga, Tenn., and is now a senior at Vanderbilt University.

Beth Crane was married January 12, 1963, to Anthony Thomas Accetta in New York. Lucy and Juliana Crane were bridesmaids. Tony is a sophomore at Wesleyan.

I was in Germany last summer. Edie Foster and Kitty Cecil were on the same boat going over, and Loring Low was on the boat coming back.

After a relaxing, but socially busy summer on Nantucket Island Ludwig unexpectedly eloped with an island bunny. Sebastian has returned to his winter estate in Newton, Conn. Sebastian wishes to say hello to all his fellow Abbot Rabbits

and expresses confidence that Ludwig will return for the five-year reunion. Ludwig is not making a statement.

This is all the news so far. I wish more of you would write, and tell me what you're doing.

IT was a day of delight for many of us — especially those of us who flourish most when the sun is warm and spring is in every new blade of grass and every long-expected blossom. Abbot's one hundred and thirty-fourth birthday was happily celebrated with such perfect weather, with friendly gathering of her alumnae and with a lively, well-prepared Bazaar. The Birthday always marks the beginning of the end of another year, in which much has been accomplished and much more might have been!

I speak for every one at the school as I mark the notable growth of many of the girls — and many of the grown-ups too! It is a joy to regard some of the tangible accomplishments, a fine student art exhibition, a long honor roll, a revision of the student government, a successful Cynosure and Courant, excellent work in music and dramatics; the list could fill this Bulletin.

## Greetings

We never know, however, *which* accomplishments are the needed ones, and so we do not always speak of the right ones, or even perceive them. The days are long past when it was agreed just what constituted a proper education for young ladies. Abbot was founded because something else and new was needed for Andover girls. It is still developing for the same reason, although we reach out far beyond Andover for our students. The trouble — and the fearful responsibility — is to guess what kind of training we must give girls who are growing up in a world that seems so totally different from the one in which we found our experience.

At the Alumnae meeting I told a story about an old Cape Codder who had sailed around and around the world but couldn't direct a stranger to a town six miles away because he'd "never had no call to go there". My point was that in education we so often believe we can suggest broad, universal experiences, but we do not really know what lies around the corner. We can only hope our girls will have learned how to use both their heads and their hearts when they meet whatever *is* around that corner!

My continued thanks go to the Alumnae, near and far, who in any one of many ways, indicate their interest and belief in the school.

Mary Hinckley Crane

## Class News

1893

Charlotte Conant Nicholls attended Alumnae Day with her daughter-in-law. She came from California where she had been spending the winter.

Elizabeth Nichols Bean, who has been Class Fund Secretary since the beginning of the Alumnae Fund, was unable to attend Alumnae Day. She leads an active life in Manchester, N.H. with many civic and philanthropic interests.

1898

Annie Smart Angus represented her class on Alumnae Day.

1901

Leila Fraser Gilbert writes, "I am happy, comfortable and well in the Retirement Community of the Sequoias. My son and daughter live only 50 miles away, and I still drive a car, so I can visit them at will. I have six grandchildren (3 married) and four great-grandchildren, so I feel like a matriarch."

1903

Nancy Holland Hubbard, the only member of the class of 1903, present on Alumnae Day, writes, "Can there be anyone left who would be interested in the career of Nancy Holland Hubbard, which in spite of its ups and downs, has never been dull. After leaving Abbot I studied at the New England Conservatory of Music to prepare for teaching music in the public schools. This I did, being supervisor of music in the Walpole, N.H. schools for two years.

"At that time it seemed more important to me to marry Robert Arnold Hubbard, a Harvard graduate. We had a daughter, Linda Louise, a son, Cortlandt Van Dyke, also a graduate of Harvard, five grandchildren, and two great-grandchildren.

"The first three years of our married life were spent in Brookline where my husband was chemist for the Walker-Gordon Laboratory. While there I became a member of the Woman's Republican Club, and The Henry Francis Jewett Repertory Theater Club. After three years in Oklahoma, we settled in Newton Centre where I engaged in civic activities, and was chairman of the social committee of the Newton Centre Woman's Club and helped to found the Newton South Players Club, and acted in many of its plays.

"Then we bought a home on Lakewood Rd., Newton Highlands. I became chairman of the Dramatic Committee of the Woman's Club. Seven years later we moved to Walpole, N.H. in order to be with my mother. Walpole was the home of my ancestors. My great-grandfather, Dr. Abraham Holland, graduated from Dartmouth in its seventh class in 1779 and came directly to Walpole, being the third physician since the town was founded. In 1819 his son Ephraim also built a house there which has always been occupied by his direct descendants, and is my present home. Here, again, I took an active part in the affairs of the town, in the Unitarian Church, the Arts and Crafts Society and the Walpole Historical Society, being its first curator and its president for seven years.

"Since the death of my husband in 1943, I have closed my house winters and lived in Boston, California, Honolulu and for the greater part in Winter Park, Florida."

The following letters were received for the "Paper Reunion":

Edith Burnham Roberts — "It barely seems possible that sixty years have passed since I was graduated from Abbot.

"I imagine I have lived like the average woman who has reached my age. I was happily married in 1911 to a graduate of MIT. He passed away in 1949. We had two children. The older one, John, is a chemical engineer with DuPont. He graduated from Dartmouth and received his Master's Degree from MIT. John is married and the father of two boys. My daughter, Elizabeth, is living with me and is an assistant librarian in the children's department of the Manchester Public Library.

"We have taken the usual trips and cruises and spent part of the time in Florida and California.

"I am very much interested in all our civic affairs and belong to a number of patriotic societies and clubs.

"I still drive my car and have spent my summers since my husband's death at Boothbay Harbor, Me."

Grace Hind Andrews — "This my first letter to Abbot in these 60 years and there might be a few of the girls left who may be interested in hearing from me.

"We have 3 very grown-up married children and 6 grandchildren. As for my activities of late years, I guess home duties have filled the days. Since last May I have been getting back on my feet having had a severe and complicated fracture of the right hip. Almost 13 years ago I fractured my left hip so you see I have been a little unfortunate in late years.

"My husband, with whom I have been blessed to share the last 54 years, is still a practicing dentist. He is really remarkable and loves the profession.

"The school Bulletin is always a welcome piece of mail and of course the girls all look so young. I guess the dress styles in the gay nineties made us look older."

Helen Packard McBride — "I have had to slow down awfully in the last two years, following a coronary and phlebitis, but am really very well. State Street Church is an important part of my life and I go quite regularly to my sewing club which has sewed for our Visiting Nurse Association since my high school days. Quite a record!

"It has been a great pleasure in recent years to find Elizabeth Gilbert Dale's daughter. She is a delightful woman of whom Elizabeth would be so proud.

"My family now consists of two nephews. Their children and grandchildren are a great joy and bring so much interest."

Margaret Wilson Gerber — "Because this is the 60th anniversary of our class, I feel I should let my classmates know I am still 'up and coming' after over a year of trips two and three times a week to my eye doctor as I had two cataracts removed in February of last year. I still have to use a magnifying glass for small print. I have done nothing this last year but take care of myself, relaxing in our California sun and trying so hard not to be a burden to my family. I spent Christmas with my elder son who has three children and my younger son drove down from the north with his family, so I was a proud grandmother with my eight grandchildren, five boys and three girls, ranging in ages from three to thirteen.

"Greetings to all my classmates."

#### 1906

The class extends its sincere sympathy to Mary Jordan Goodrich whose husband, S. Carlisle Goodrich, died March 9, 1963, in Newburgh, N.Y. He was a leader in many community activities in Newburgh.

#### 1908

Helen Hulbert Blague writes, "I am teaching French in the elementary schools in Springfield. After school I give voice lessons at home. Most of my outside activities consist of church duties. ##### REUNION REPORT

Eight members of the class of 1913 gathered Friday evening, May 3rd, at the Andover home of Edith Kendall. Those present were Avis Tobey Johnson, Margaret Day Danforth, Mildred Bryant Kussmaul, Margaret Wilkins, Helen Boyd Higgins, Mae Hussey, Helen Danforth Prudden, and Edith Kendall.

Mildred Bryant Kussmaul and her assistants, Peg Day Danforth and Edith Kendall, were responsible for the most bounteous and delicious dinner of lobster and chicken (Mildred brought all the food, silver, glass and china from home).

The table was gay with a lace table cloth over gold, a gold centerpiece of gilded galax leaf flowers, replete with favors and gifts of table mats of Maine photos, individual bottles of Rubinstein cosmetics, gold trimmed match boxes and preserved flower paper weights. Letters and telegrams with messages and news from the absent members were read and a brief memorial service for our deceased classmates was held.

We stayed at the school on Friday night.

On Saturday we proudly took our place, front row center in the chapel, for the alumnae meeting. Our feeling of venerable accomplishment was somewhat dimmed by the presence of one member of the 70-year class.

We were very much moved by the Seniors singing to us and the presentation by the Alumnae Association of gold friendship circle pins appropriately inscribed on the back, "Abbot 1913-1963". We were very happy to present the Alumnae Fund with \$529.

We were joined at luncheon by Mrs. Crane and Hazel Goodrich Waugh, after which we had our picture taken with our class baby, Carol Prudden Dinkle, 1935. We then attended the Bazaar on the Circle, held by the undergraduates.

Gertrude Shackleton Hacker and her husband took the north Cape cruise this spring. They spent some time in England, Ireland and Scotland.

Irene Bausch Greene writes, "I was an organ pupil of the late Joseph Aston while I was at Abbot, and have held church positions ever since. #### 1919

Kay Beck Dow sent the following news items:

Grace Leyser Boynton has had a darling house built for herself in the rear of her daughter's home in Boynton Beach, Fla. It overlooks her daughter's patio and swimming pool. Grace has been very ill

since October when she suffered a stroke. Her left leg was affected and, after several operations, it was necessary to amputate the leg. She is now at home, and gets around very well in a wheelchair. Elizabeth Sjostrom and I drove to Delray Beach and had luncheon with her in the patio of the Seacrest Hotel. Grace's two daughters were with her. The older, Shirley Maas, is the one with whom Grace makes her home. She is our class baby, and is now the mother of five. Grace's address is 210 S.E. 23rd Street, Boynton Beach, Fla.

Buzz Mazey Gager and her husband have spent the winter touring in Mexico, Arizona, and California. Their son now lives in Columbus, so Buzz can see him and his family often. He has two little girls who, Buzz hopes, will be future Abbotites.

Jane Holt Atkinson and I called on Ruth Alley Rohrbach in Miami Shores. Both Ruth and Jane are bridge friends. so our conversation was largely about cards.

Marea Blackford Fowler sends me news once in a while. She reports that Ruth Eaton Richardson and Virginia McCauley Otis spent the month of March in Clearwater, Fla. Dot Korst Blodgett was another Florida visitor this winter.

Gerry Murray Stanton closed her home for the winter, and moved to New York to be near her mother who is quite ill.

#### 1920

Katherine Kinney Hecox writes, "My greatest community interest is The Albany Memorial Hospital, and I also do church work and am a Settlement board member."

We were sorry to learn that Carolyn Grimes Whittier has multiple sclerosis, and is a patient at The Pinehurst Nursing Home, Pinehurst, N.C. I am sure she would enjoy hearing from her classmates.

#### 1922

Katherine Damon Kletzien writes — "Born, October 16, 1962 to my daughter Edith Bass, twin daughters, Margrit-Katherine and Berit Elisabeth. The twins' older sister, Kristin Ives, was 21 months at the time, so days have been busy this winter at the Bass home in Bedford, Mass. My son, Damon, is in Tanganyika, East Africa for two years with the America Friends Voluntary International Service Assignment Program. He teaches English to adults and children in a community development program. He studied intensely the native language, Swahili."

Sister Mary Anselm (Katharine Gage) writes, "A nun's news is not very interesting to the outside world, and that is why I seldom send any items. I am still assistant Superior at the convent. I help to edit our bi-monthly magazine, teach classes in the novitiate, look after the library of our associates, and take charge of the many church groups which visit us."

#### 1923

Reunion Chairman: Mrs. John P. White (Charlotte Hudson), Dover Rd., Guilford, Me.

"Though we were not strong in numbers (10 at the luncheon, 6 at the dinner), we were strong and happy in reuning spirit! Distance kept many away — California, Florida, and North Carolina, etc.

Natty Bartlett Farnsworth had us for cocktails before the class dinner at Fieldstones and Libby Flagg Dow for sherry outdoors behind the Flagg's home before the luncheon.

So many grandchildren — I count 51 from the return postcards, which is reporting from only 11 grandmothers!

Doris Holt Flint has been a reading consultant in the Delmar, New York Schools for the last 10 years. She returns this summer for the third time to Israel to train teachers of English.

Esther Wood Peirce's husband broke a leg while they were in Hawaii (which kept Woody away from reunion). Woody now has 10 grandchildren — 4 boys and 6 girls. All the children live in Montreal.

Reddy Lundin Buttrick's husband retired from J. P. Stevens and now is sales promotion manager of the Lynrus Finishing Co. Reddy is active in Woman's Club, Westchester Federation, Drama, hospital volunteer.

Rosamond Martin Johnson's husband owns the Montgomery Rose Gardens in Hadley, Mass., and has added a new retail store.

Mary Newton Favor is active in the Women's Guild of her church, sings in choir, and works on the church's nominating committee. She was visiting in San Francisco at the time of reunion.

Dee Osborne Hall has a job. Dee has a new granddaughter, born February 19, 1963. Her grandson, Chipper, is now three.

Ruth Holmes Durant is also working.

Edith Damon Bugbee is going to England and Italy for two weeks. She welcomed a new grandson, Craig Timothy, in early December in Jonathan's home, so it is now 1 girl and 3 boys there. Jon is a registered architect in Philadelphia. Dick works for DuPont at Parlin, N.J.

Other news will be put in a class letter and sent to absent members.

My husband is still a marine engineer with the Long Island railroad, and I have been working part-time for two years at the Weehawken library."

Aylmer Stantial Kempton spent Christmas with her sister in Aruba, Netherlands Antilles. Enroute she visited other Caribbean islands.

Of interest to Abbot alumnae is the article, "A Warm-Hearted Guide to Certain Girls' Schools" by Phyllis La Farge, in the April issue of Harpers.

1928

Reunion Chairman: Mrs. Frank C. d'Elseaux (Virginia Gay), 12 Sheffield Rd., Winchester, Mass.

Here is some news I gleaned from your letters:

Margaret *Nivison* Chase couldn't come because the first week in May she is always involved in the Junior Choir Festival. She is still in music as cellist with Little Falls Symphony orchestra, Junior Choir director, choir singer, chamber music, organist, etc. as well as serving on various boards in Utica.

Katherine *Fox* Smiley is still running Sterling Orchards where they sell their own fruit and have recently expanded their greenhouse. Her younger son has nearly finished the long road to being an architect, and daughter is married and has one girl and a boy. The older boy is married and lives nearby. Kay still does many of the things she did at school — write and sing — and learns a new trade every once in a while. Greenhouse management being the newest one.

Betty *Ryan* Hill is still with the Federal Bureau of Public Roads. No. 1 son, Sherb, II, is out of the Army working in Albany and living at home. No. 2 son, Thomas, has a daughter, Terri-Jean, born June 3, 1962. Daughter, Pamela, was married February 16, to Robert Lawrence Woodside.

Sue *Ripley* Ward is coming east in June when their son, Philip, aged 13, expects to go to the Ted Williams baseball camp in Lakeville, Mass. He is aiming to be a major leaguer. Sue and her husband, Ted, are putting on the Verdi Requiem in three large performances. She is also performing in it as well as playing in a string quartet which has an ambitious program for next year. In their spare time they are do-it-yourself gardeners and house remodelers. Two years ago they went to Europe and are dreaming of more travel. In the meantime they love Colorado which includes such pleasures as swimming in a hot springs pool on Thanksgiving surrounded by snowy mountains.

Sis *Bartlett* Hogue — Since February 1962, Sis has been with Worth-While Florida Motels in Tampa. She is a broker, office manager and ad copy writer, and just loves it. Anyone want to buy a motel in Florida? Go see Sis. Both her children are married — Son, Steven, lives in Miami and is an accountant, taking courses at the University of Miami preparatory to

becoming a C.P.A. Daughter, Pat, lives in Tampa and has two daughters. She would love to see any "Yankees".

Eleanor Bird is completing her 33rd year of public school teaching most of which was done in Augusta, Maine. She became the principal of the school last year. Eleanor is a partner in the Cricket Shop in Damariscotta, Maine which she "modestly" says she thinks is a lovely shop with exclusive and interesting merchandise. This year they have added some clothes. She expects to be retired at the 40th and will come.

Theodora *Talcott* Slater's daughter, Shirley, Abbot '58, Smith '62, is studying for M.A. in Art History at Columbia. She says the latch is out to any '28ers passing by and wanting a sandwich!

Helen *Leavitt* Fisher and her husband are spending a year or so in Florida between pastorates. He is a minister and she was ordained a Congregational minister in 1938 in her husband's first church in North Dakota after 4 years at Andover Newton Theological School where she received a B.D. Since then, she's done a great deal of preaching, supply work, a church of her own in Illinois, and two positions as Associate Pastor. Their son, Wilkin, P.A. '61, is now a sophomore at Columbia. Ten years ago they were in the Holy Land doing Archaeological work in Dhiban and Jericho. They returned last summer for a brief visit driving from Paris to Jerusalem in a Renault.

Betty *Jackson* Kennedy celebrated her 30th anniversary as social case worker on April 10, 1963. She spent almost 20 years with the Springfield Public Welfare then 4 "shifts" ending at Great Barrington where they had "requested" a qualified social worker. She is working for her master's degree. Betty had hoped to come to reunion, but along with the human problems, she has taken on the animal kingdom of strays which respond as humans to kindness and attention, so on May 4, they cannot be properly cared for.

Christine *Bliss* Billings couldn't come as she is just getting over pneumonia, and at the moment feeling at least 40 years out! Her son, John, 24, is in law school, and daughter, Linda, 22, will get her A.B. this year.

Beatrice *Lane* Mercer is still in Florida, but she and Helen *Leavitt* Fisher did enjoy an Abbot luncheon at St. Petersburg with Miss Tucker this winter. On June 25th they fly to Europe for a very glamorous sounding trip, during which her

husband will be playing golf with the American Senior team in Brussels and then in Deauville, France. Their family is all married, and they now have reached the travel era and are enjoying it. Bea still has the horse she started with 16 years ago and rides almost every day. Anyone going through west coast of Florida, do call — Dr. John C. Mercer, 2513 57th St., Sarasota, Florida.

Jo Paret Barrett says she can't get back and hasn't been back since '28 which is strange as it is one of her most favorite spots. Some day? Her husband retires from the Air Force this summer. Their son, Colin, 24, after 2 years at Amherst graduates from George Washington University in June. Alison, their daughter, 21, graduates from Oberlin also in June. Alison will wear cap and gown her father wore at Amherst in '30 and Jo at Smith in '33. Alison had 2 years of college in Germany before Oberlin and with this background has had several job offers as official interpreter. "Ma" is back at college taking a writing course at G.W., piling up interested rejections. Otherwise, her interest is gardening just outside Washington. She reads all class news with interest and sends fond regards to everyone at reunion and everyone not there.

Fran Gould Parker was sorry not to be at reunion. She has 4 children. Oldest daughter is working at Best & Co. in White Plains; another daughter is a secretary in New York; oldest son a junior in high school and the youngest only 11. — No signs of marriages or grandchildren yet!

Slop, Piper, Winnie and I had a grand time — wished more of you could have been here. Slop is still working at New Britain Gas Co. where she's been for 31 years. Pipe's daughter was married a year and a half ago and now has a son 2 months old. Her son is at Business School, not married but busy! Winnie lives at North Yarmouth Academy in a dorm with 33 boys and is the librarian. My daughter, Virginia, will be married June 6. My other two daughters are already married.

Thanks for the letters, girls! Those of you who said you'd come for the 40th, don't forget.

Gwen Jones Hamblin writes, "My daughter, Frances, is a freshman at Wellesley. I am president of the Pasadena Wellesley Club, and vice-president of Family Service Association of America. I saw Babs Vail Cristy '28 in Arizona February 22."

Priscilla *Russ* Shannon writes, "My news is much the same as everyone else's — League of Women Voters, Y Board of Directors, etc. I have done substitute teaching for two years. I have to be ready at an hour's notice to go into Gr. 1-12 — very challenging. Our only son, Peter, 13, will be at Andover next year. He is looking forward to Abbot mixers and calling hours. He was N.H. state spelling champion last year, and came in 7th in the Nationals in Washington."

Libby *Travis* Sollenberger writes, "Copenhagen, Denmark is wonderful. We should be here three years and we are delighted! Gus is Naval Attaché to the Ambassador and we are both working harder than we thought possible. As music is one of the international languages, I am deep in many projects and have made many a fine Danish friendship over the keyboard. 17-year-old Robert is in the U.S. hoping to enter the Naval Academy. 12-year-old Dick is with us completely absorbed in his new country. We are far too busy to travel ourselves, but the best thing is that people come to us! Remember, our welcome is always ready if you travel our way. Our ancient and fascinating old Danish house seems to have stepped out of a Hans Christian Andersen fairy tale — balconies, gold leaf, parquet, rose gardens, Rube Goldberg plumbing and wiring, and the waters of the Oresund at our garden gate. Our son speaks Danish beautifully. I just about fracture a tonsil, and the local grocery store starts laughing when I come in the door."

## REUNION REPORT

The class of '48 was represented by a small but distinguished group — I came from Worcester, Kitty Bigelow Fitzgerald from Wellesley and Mary Farrar Bonotto and her husband Sergio came all the way from Princeton, New Jersey. Kitty has consented to be reunion chairman for our 20th.

After attending the Alumnae Association meeting we sat and basked in the sunshine of a lovely spring day and talked about all of you. Here are gleanings from your post cards and letters.

Chica Tavares is engaged to Carlos Angulo, an attorney with Standard Oil of New Jersey. Muffy Wallis is working for the Republican Party in West Va., but plans to be in Washington, D.C. in the fall. Lee Booth Witwer is in Kendallville, Indiana where her husband is managing editor of a newspaper. This news is from Mo Jones who gets the class medal for the best correspondent. After having had a year of travel abroad, Mo is back at work at Atheneum publishers.

Bean Young Sun is another of our class who is in the publishing field. She has been with Harper and Rowe, Co. since her graduation from Wellesley.

Marty Barber Lowrance wrote that she couldn't be at reunion because she is expecting a baby in July. Jackie Kay Schlosser and Pat Hammond Duffy both had January babies (number five for Pat) so that they were not free to make the trek back to Andover. Sally Lunt Weatherall had expected to be in Andover and possibly did get there after I had gone.

Sally had a third child and first daughter, Helen Caroline, February 14, 1963.

Fairfield Frank DuBois had a third child and second son, Robert Tompkins, January 14, 1963. Fairfield is busy with hospital volunteer work and nursery school activities in Winnetka, Ill. She plays tennis year round.

M. K. Lackey Stowell had a fourth child and second son, William Lackey, March 24, 1963. They have just moved into a new home that they planned and built. Quite a busy year!

Ann Robinson Joyce sent her best from Somerset, and Bis Bisgood Galusha sent greetings from Toledo.

We were disappointed that there were so few of us able to leave babies and husbands for the day; but do let us hear from you. The fires of friendship must be constantly tended.

Jerry is the Administrative Officer for the Kanpur Indo-American program, a joint U.S.-Indian effort to establish the Indian Institute of Technology. The participating schools (small) are M.I.T., Princeton, Purdue, Ohio State, University of Michigan, and Cal. Tech. At present there are 10 American families in Kanpur with an expected total of 20 by next September. (We were mentioned in the January 5, 1963, *New Yorker*). I have found life in India a challenging and interesting experience, and it certainly makes one appreciate the United States more and more. We have established ourselves in an 'Indian-Colonial' house high on the banks of the Sacred Ganges River — there is a magnificent view from our verandah. I am very much enjoying servants and the lack of household cares. I spend more delightful hours with the family than ever before. Jerry and I hope to do some traveling sans children in this area before we return home. Our present plans are to move to Kashmir for the hot months.

I hope that any Abbot adventurers will look us up and partake of bed and board."

Address: The Outpost, Clyde Road, Cantonment, Kanpur.

REUNION REPORT

Reunion Chairman: Mrs. Clifton A. Phalen (Julie Gaines) 22 Winthrop Rd., Hingham, Mass.

Thirteen from our class arrived back for our Tenth, and I think I can say for all that it was well worth the travel time and babysitter expense involved for one or the other of us. The day was beautiful, temperatures reaching the high eighties, so the Bazaar was a big success and we were all able to walk around and see the changes on the campus. These are not

many: consisting of a new gym, the purchase of a house for students the other side of Baronial, and Sunset and Homestead changed to hold Alumnae headquarters and Music rooms respectively.

We met in Abbot Hall in the morning for the Alumnae Meeting where we were addressed by the head of the Alumnae Association, Mrs. Wood; the present Headmistress, Mrs. Crane; Miss Sullivan; and the present Senior Class President and President of Student Government. The latter two told of the academic and social changes which had taken place in the past few years, and they were many and various. There are several advanced courses for seniors as well as Seminars, on the academic side; and socially restrictions have really been relaxed quite a bit. As a matter of fact, the campus looked co-educational by about two in the afternoon!

We were all sorry that Miss Hearsey was not able to make it as she was on her way to Greece. Miss Tucker was also traveling, her terrain being in the area of Hong Kong. Miss Hancock was absent too, recuperating from an illness. But we were able to see Miss Friskin, Miss Ritchie, Mlle. Barratte, Mlle. Arosa, and, of course, Mr. Robb.

After the Bazaar we gathered at Sunset House for refreshments provided by Miss Sullivan. We also opened the box that we had hidden Senior year, remember? If any of you want your treasures forwarded to you, let me know as I have them — but not for long as they are the mustiest smelling things and the box adds nothing to our decor!! We then adjourned to The Red Tavern in Methuen for a bit of relaxation and dinner after which the New Yorkers returned to Abbot for the night, and the rest of us wearily made our way homeward.

News gleaned from the postcards and letters returned from those both able and unable to attend the Reunion:

Ruthie Sidon Fleischman, Karl and Karl, Jr. are living in Fairport, N.Y. near Karl's job with Eastman Kodak. He is in the International Advertising division which just afforded him a five week trip in Europe! Ruthie came back to Lawrence while he was away, but unfortunately this did not coincide with the Abbot reunion so she was unable to make it.

Nancy Edmonds Luce, Gordon and two children have been living in Belmont.

Mass. while Gordon has been at Harvard Business School. They are moving to Westchester County, N.Y. in June so had hoped to get back to the Bazaar, but we never saw them so something must have come up to alter their plans.

Janet Bowden and Audie Taylor MacLean were both planning on attending our reunion, but they were never caught sight of either. Janet is in N.Y.C. working for Reader's Digest Latin America, "finally making use of Miss Kaatz' Spanish." Audie is also in The City while her husband is studying to be a doctor. She is President of the Doctor's Wives Club there.

Marty Schneider Unger is living in Tuscon, Arizona and doubts whether she will have a chance to get back East for quite awhile. Her husband says any change location will take them back overseas or to San Francisco!

Ann Kennedy Irish, Dave and their two girls Tracy, 3, and Susie, 1 1/2, are living in northern Michigan where Dave is in the boat business. They love their small town life with skiing ten minutes away in the winter and the beach in the summer.

Sally Swayne Jennings and Ted are both studying and living in Madison, Wisconsin. Ted expects to get his Ph.D. in another two years, and Sally says she may have her M.A. by then, both of the degrees in English.

Libby Hollister Smith had hoped to come back, but at the last minute decided her studies at Cornell needed some attention. She is going for a degree in Physics — while chasing a four year old as a side issue.

Judy Wilcox Martin reported her newest addition, William, born in January. Laurel Anne is now four, and Heather Lee is two.

Dunster Pettit is back living in Washington, D.C. after an extended vacation to Japan and area.

Beverly Berkey Sipes found herself tending child number two, who appeared the middle of April, over May 4th, hampering any ideas of returning to Abbot.

Diana Stevensen Brengel is living in Armonk, N.Y. "training 3 1/2 acres of jungle into a garden and incidentally preventing my 1 1/2 year old from poking out the baby's eyes."

Elaine Audi Macken is working with her father in the furniture business. She is doing merchandising as well as interior design, and is a member of the National

Society of Interior Designers. Her husband is resident in medicine at Roosevelt Hospital in New York.

Ann Stoddard Saunders and Carol Hardin Kimball corresponded from overseas, Ann from Brazil and Carol from Nigeria. Ann and Wes love Rio where Wes is teaching English at the Brazilian Naval Academy. They have already been there a year and expect to continue on for another. They have a daughter, Caroline who is 3 1/2 and in a Brazilian Nursery School, and a son Hank born there last December. Carol and Geoff are presently moving to Lagos to a house Frannie Nolde Ladd and Peter vacated when they came back to the States in January. (They are now living down the street from us!!) Geoff is with Mobil Oil and should be in Nigeria for about another two years having already spent two there. They have a daughter, Jennifer, eight months old, and are spending some free time on correspondence courses. Carol hopes to get a good "Nanny" in Lagos so that she can leave Jennifer and work.

There is loads more news from those of us who returned to Abbot, but I don't even know if Miss Sullivan will have enough room to print all of what I have gathered. We shall include remaining news in a later Bulletin. Thank all of you who responded, and especially the ones who sent a contribution in to the Alumnae Fund. There is still time for those of you who forgot or did not get the time.

Our Chairman for the Fifteenth Reunion is going to be Dottie Giles Ham, and Muffy Grant Lynch has agreed to take over Bets' job as Class Fund Secretary.

Janet Richardson writes, "After leaving the Markle Foundation, N.Y. in June, 1961, I went to Africa with professor Gwendolen Carter's group from Smith College — marvelous trip! I graduated from Harvard-Radcliffe Program in Business Administration in June, 1962, and now have a job as Head of the Admission Office of the Harvard Medical School—a most pressured job, but great fun, too!"

MARRIED

Suzanne Larter to Dr. Byron Spence Lingeman, March 23, 1963, in Lowell, Mass. Leslie Burgiel was maid of honor, and Patricia Eveleth was one of the bridesmaids. Byron, who attended Wabash College, was graduated from the School

of Medicine at Indiana University and from the University of Pennsylvania School of Medicine. They are honeymooning in England, Spain and Majorca.

Carol Gaines has been in Europe for a year and a half. Lucky gal! She plans to remain there for a few more months and will probably return home this summer.

Martha Buckley Fahnoe recently attended a luncheon for Abbot alumnae. She writes: "I never believed there were

so many of us in the Houston area." Marth is having much fun working as a Bridal Registrar and saleswoman in the Gift Galleries of Neiman-Marcus. Her husband, Norm, a chemical engineer, is working for Diamond Alkali plus studying for his Masters in Business at night school.

Susie Christy Herpick and husband became proud parents on March 28th. Stan, who is a communications officer in the Navy sent us all a PAPAGRAM reading: "Flash! . . . It's a boy! Dean Stanton has arrived — an 8 lb. 10 oz. bundle of Joy! Susie is feeling wonderful, and I'm the happiest father of them all!"

Another resident of San Diego, Ouia Lehmann Birch loves the area and sees Susie often.

Kathy *Earthrowl* Syna is expecting her second child in September. The Syna family is now living in Bennington where Sy is on the faculty teaching drama. He also commutes to New York where he's directing several plays. Kathy is taking graduate courses and still continues with her singing — to the extent that she gave a recital at Bennington last spring! She recently saw Frankie Young Tang and Jody Bradley, and writes that both are fine. Jody is presently working at the Museum of Modern Art.

Hope Hamilton Pettegrew and husband Bob love California, where they live within 20 minutes commuting distance from San Francisco, in Mill Valley, which Hope describes as a "darling New-England-y town." They moved out in October when Bob had the opportunity to become Advertising Promotion Manager for the Pacific Coast Edition of the *Wall Street Journal*. Hope is teaching in a San Francisco private school. She's most happy with her work, but prefers public school teaching so plans on teaching in Mill Valley next year. Hope's new address in case you missed it in the last *Bulletin* is: 2 Stetson Rd., Mill Valley, Calif.

Nance Davison Miller and husband Duane spent a belated honeymoon in Hawaii during Christmas and New Years. There is much excitement at the Miller home these days as they prepare for the arrival of their first child in July. Nance's mother will be close-by to assume the role of doting grandmother, since she recently moved to California from New Hampshire.

Janet McLean Hunt's husband graduated from OCS at Newport, R.I., and they are now in Hawaii for 3 years.

Ellen Parker is living in Boston and works at Design Research.

That's about it for this issue. Because the *Bulletin* will not be published again till October, let me take the opportunity to wish you all a fun summer. And — do let me hear about those summer vacation plans, engagements, weddings, advanced degrees, new babies or whatever. There's always a special welcome sign on our mailbox for such news. By the way — if you get a spare moment do read an article in the April issue of *Harper's* entitled "A Warm-Hearted Guide to Certain Girls' Schools". Abbot is one of the five schools discussed and I think you'll find the piece both interesting and amusing.

#### REUNION CO-CHAIRMEN

Agnes Daley, 258 Marlborough Street, Boston, Mass, and Ann DiClemente, 209 E. 16th Street, New York, N.Y.

#### REUNION REPORT

BLAST OFF! 10:30 on the beautiful day of the 4th at the Abbot Circle. 16 of us witnessed a glorious and happy send-off of our 5th year rocket. Everyone was in high and cheerful spirit even though the thought of being away from Abbot for 5 years kept reminding us that we had become young ladies in this vast world of ours.

Sue Moore, Ann Moulton and myself all stepped away from the big City for the week-end. Susie is working for an executive recruiting firm, Ann at the J. Walter Thompson Company, which by the way is located in the same building as Glamour, my home base. Carol Greene Donnelly looked happy as a lark since she is going to retire from the working world and become an American housewife — can't blame her in the least! Joan Foedisch is working at the Bryn Mawr School of Social Work in Philadelphia while Parry Ellice is teaching 2nd grade in New Jersey. Sibby and Judy Hart both are living in Boston; Sibby is working for the Little, Brown and Company, Judy as a secretary at the Children's Hospital. We had 2 future brides amongst us who by the way were on Cloud No. 9 . . . Steffie and Agi. Steffie is patiently selling insurance for Liberty Mutual 'til June 15 when she becomes Mrs. Roger Smith. They will live in Hanover next year while Roger finishes his last year at the Dartmouth Business School, Agi will walk to the altar on September 7th with James Rockwell of Boston, Mass.

Jim is a graduate of the U. S. Naval Academy, and is an engineer for Radio Corporation of America. — Heavens, it must be wonderful to be in love! Claudia Sandberg Wyllie and her husband just bought a new home in Westford, Mass. and am sure in no time flat it will look like a palace. Rosemary Ozoonian is working for the Dept. of Defense in Washington, D.C. and invites anyone in the area to come visit her. Lucia Comas is living in Andover while attending Merrimack College. Mary O'Connor is teaching first grade in Haverhill, Mass. and is also living at home in Andover. Nancy Russell Curran looked darling as usual and seemed to be carrying out the life of a young married quite elegantly and happily. Bev Black looked divine after spending some months in Austria; she's planning on living with the rest of us career gals in NYC and can't wait to have a long chat with her soon.

Must tell you all about opening of our treasure box that was so diligently buried by Mr. Butler — we went down into the basement of Draper Hall and all excitedly started fishing through our box after 5 years of being in the ground. After much confusion we discovered that it was not ours but the class of 1953's box — what a laugh. Guess we will have to wait for 1968 and then maybe all of us can be there! It was really great to see some of the '58 "swingers" again and talk over all the past five years; rest of you who couldn't make it do write and let us know what's happening — marriages, babies . . . etc. . . . or maybe we are going to have the first woman President of US from our class. Happy and healthful summer to you all . . . love.

**H**OW to separate the parts from the whole — or on the other hand how to see the forest for the trees — talents such as these must be employed daily and I am always newly conscious of them as I write to you, the Alumnae. I have to try very hard to view the forest, though I know so many handsome trees within it!

I *don't* know all of you who responded last year to our call in numbers sufficient to win for us honorable mention in the U. S. Steel Foundation's competitive program for development of alumni support. I do know that Abbot was the only girls' school so honored, and I am proud and grateful to all of you who helped us achieve the distinction. The Class Fund secretaries who wrote such fine letters, and their classmates who responded — all deserve Abbot's thanks.

## Greetings

One stalwart tree in the whole forest of friends of Abbot is achieving a distinction of a particular kind, in addition to many he has already won. A ninetieth birthday is truly a marvel, and Abbot, from its own advanced age of 135, gives particular greetings and felicitations to Mr. Flagg as he turns

90 in November on the tenth. For the greater part of his life he has been a strong support to the school in many important ways and we are indeed grateful to him.

Just as he is notable for looking as much to the future, as to the past, so must we be. The present is exciting; the girls now in school are as eager, as perplexed, as full of plans and hopes as you all were! We are growing still, taking advantage of new opportunities, presented in new spaces, new monies, new people. We are engaged just now in a survey of our present position, looking to see how we can do better things in the future. The Trustees have commissioned the firm of Cresap, McCormick and Paget to spend some time at the school, studying our particular procedures and methods, in all areas except the specifically academic. We shall undoubtedly learn of many ways in which we can improve our performance! This sounds familiar, I'm sure, to alumnae who must remember times when, as students, they were told by Abbot how they could improve theirs! I hope that the school will show as good results!

With all my best wishes to the forest,

Mary Hinckley Crane

# Jane Brodie Carpenter

November 4, 1871 — August 31, 1963

For Jane Carpenter, Abbot Academy, her alumnae, and their life histories, were an almost life-long absorbing and devoted interest. The Alumnae Office and Jane were synonymous terms. From the time in 1909, when she was appointed Keeper of the Alumnae Records, she began searching for material for the first Alumnae Register. Her zeal and insistence on absolute accuracy in dates and facts made these early records models for all succeeding registers to follow.

In 1923 she became editor of the Alumnae Bulletin issued four times yearly, and sent to all alumnae. In this direct way alumnae were kept informed of school activities and themselves. Into this she wove much historical data making the issues priceless records.

In 1928 the Alumnae Office was opened in Abbot Hall, and the files were moved from her home and preparation began for the Centennial celebration in 1929.

Miss Bailey wrote the following after the Centennial, "The development of the Alumnae Association with its far-flung Abbot Clubs, the Bulletin, the Loyalty Fund, and finally the Centennial Celebration are all absolutely dependent not only upon the patiently accumulated data with which the alumnae office is filled, but upon the wisdom, tact, and far-sightedness with which alumnae affairs have been administered . . . How she ever kept her head clear with all the demands upon her, it's hard to understand."

Never in rugged health, of a sensitive quiet nature, she made the office a pioneer in alumnae relationships, to be followed by other schools. Miss Jane retired in 1936.

Her crowning achievement was the publication in 1959 of her book, *Abbot and Miss Bailey*, a meticulous record of Miss Bailey's twenty-three years' administration. To this was added important historical data. She was ably assisted in this monumental work by her sister, Miriam F. Carpenter.

Those who have had the privilege of working with her through the years are grateful for the inspiration of her gentle spirit.

Her work is a continuing living memorial; her memory will be cherished by all who have known and loved her.

Constance Parker Chipman, 1906  
*Alumnae Secretary Emerita*

Since Miss Carpenter's death, a number of gifts have been received in her memory.

# *Faculty Facts*

The many Abbot alumnae whom Mr. Raymond Coon has taught during the sum of twenty-three years as a member of the Music Department will want to know that he retired in June, to the great regret of his students and his colleagues. As teacher of piano, organ, music theory classes, and recitalist, Mr. Coon brought to us a highly trained and developed talent, deeply-founded musicianship, and high standards of performance. He was an important member of the department which maintained and increased the reputation of Abbot as outstanding in Music instruction and opportunity. He continues to teach privately and he has now answered the call of Christ Church, Andover to be interim organist and choirmaster. He is much missed at the school, and our warmest good wishes are with him and Mrs. Coon.

We regret to report that several faculty members have not returned this year. Miss Margaret Howland of the Art and History Department is Director of Studies at the Beard School. Mrs. Janice Fukushima of the English Department is doing graduate work at Harvard. Miss Erika Niemann, an exchange teacher, has returned to the Droste Hulshoff School in West Berlin. Mrs. Dorothy Potter, Director of Residence, is now at Miss Hall's School. Mrs. John Sisson, head of the English Department, Mrs. George McKinley of the Science Department, and Mrs. Thomas Rees of the History Department, have given up teaching and are devoting their time to their families.

There are several new faculty members. Mrs. Eldon Mayer is the new Director of Residence. Mrs. Mayer attended the Bouve-Boston School of Physical Education. She has been for several years Director of Residence at Wayland Academy in Wisconsin.

Miss Laurie Smith, Abbot '59, a Wellesley graduate, is teaching History of Art and Physical Education. She is also Curator of the John Esther Art Gallery.

Miss Elizabeth Nields who is teaching English received her A.B. degree from Radcliffe and has taken courses at Boston University and the Boston Museum School.

Miss Jean St. Pierre has also joined the English Department. She received her A.B. degree from Wheaton and an M.A. from Columbia University. She recently taught at the Lenox School in New York.

Mrs. John D. Bennett, a graduate of Pembroke College and a recent teacher at the Pike School in Andover, is teaching Geometry and Algebra.

Mrs. John Harrington, who graduated from the University of Vienna and has done graduate work at Wellesley College, is teaching History and German.

Miss Barbara Keener, a graduate of Gordon College, is teaching Science and assisting in Physical Education.

Mrs. Barbara M. Quinlan is assisting in the Library. She is a graduate of Whitman College and has taken courses at the University of Hawaii.

## *Alumnae Incentive Award*

We are delighted to report that Abbot received Honorable Mention for Improvement in Alumnae Support in the 1963 Alumni Giving Incentive Award Competition. A \$125 cash award was presented to the school at the American Alumni Council Conference in July. Competing with nearly 200 schools comprising the Secondary School membership of the American Alumni Council, Abbot was the only girls school to receive an award.

We are most grateful to the U.S. Steel Company and to each of you who made it possible for Abbot to receive this award. The donors, the class fund secretaries, and the area representatives were the key to our success.

Hi Fellow 57'ers!

Where has the summer gone! It seems impossible that it is already time for the fall issue of the *Bulletin*. Though I have heard from very few of you during the summer months (ahem) I hope you all had as enjoyable a one as we did. A month's vacation enabled us to spend two glorious, exciting weeks in California, and the remainder as "beach bums" at the Delaware shore.

While on the West Coast we spent several days in the Palo Alto area so eagerly anticipated spending an evening with Nance *Davison* Miller and her husband. However, our plans had to be postponed since that was the time Cathey, Nance's new baby, chose to arrive! Mother, Father and baby are all doing well and have recently moved to a new home in Cupertino which is about twenty-five minutes from Palo Alto. Nance's new address is:

10397 A Meadow Place  
Cupertino, California

It was especially good to hear from Debbie *Smith* Regan — one of those "among the missing" in past *Bulletin* issues. Debbie writes: "After graduating from Bryn Mawr, I worked for Bell Telephone Laboratories for six months, then married a tall midwesterner and moved to California. We're both in banking — Jay in loans and I'm in charge of our 1410 computer staff."

Jacque Goodspeed has a most exciting job working for Attorney General Brooke of Massachusetts. Jacque writes that no two days are alike and adds, "I have even received phone calls for Attorney Goodspeed!" Her vacations sound equally exciting as she spent a week in St. Thomas and then in August was in California. This Fall, Jacque and Judy Botnick have begun sharing an apartment in Boston. Judy spent the summer in Marblehead sunning and sailing, and also returned to Binghamton for her brother Dick's wedding. Jacque and Judy's address is:

67 Hancock Street  
Boston, Massachusetts

Louisa *Lehmann* Birch and her husband have moved to Cambridge where David is studying for his doctorate at Harvard Business School this year.

Joan *Pelletier* Isabel's husband, Dick, received his M.B.A. in International Business from Indiana University last

June. He is now working for the Colgate-Palmolive International. They will live in the New York area for two years and then overseas.

Cecily Dickson became engaged to Graham Campbell Smith of Edinburgh, Scotland. He is a graduate of Edinburgh University and Corpus Christi College of Cambridge University. Graham is with J. Lyons & Co., Ltd. in London. Cecily is with International Services in London.

Lynn McLaughlin was married to John J. Moughty, Jr. of Old Greenwich, Conn., October 5, 1963. John is a graduate of Pace College and is now associated with Scantlin Electronics in New York City. Lulu Sulzbacher Cutler was matron of honor.

Louise Wooldredge was married to Daniel Alexander Wieland, Jr. on June 22, 1963 in Salem, Mass. Daniel is a graduate of Haverford College and Harvard School of Education. He is teaching at Browne and Nichols School in Cambridge.

Paula Slifer Zandstra's husband, Judd, is working as a Systems Analyst for Whirlpool Corporation in St. Paul. He received his Master's degree in Business Administration from the University of Michigan last June. Their first cherub, Michael Paul, was born August 2, 1963.

Lulu Sulzbacher Cutler had her first, a son, James Westford, III, on August 4. He is "sooo cute!"

Pat Brennan Kfoury had a son, Christopher Stephen, September 29, 1963.

That's about it for this issue except to add that soon after you read this John and I expect the arrival of our first little cherub. Will keep you posted on our news — and please, let's hear from more of you all.

"Sammy"

Mrs. John H. Lewis, Jr.  
Cooper Rd., Dover, Del.

Alumnae Day — May 9, 1964

Isabel Maxwell Hancock died January 14, 1964, in Lynchburg, Va.

Miss Hancock was a graduate of Hollins, and received a Master of Arts in Teaching from Radcliffe. She also studied at Harvard and the University of London. In 1936 she became a teacher of Mathematics at Abbot; since 1955 she has been Director of Admissions.

A memorial service was held for Miss Hancock at Abbot on Sunday, February 16.

The Board of Trustees has established the Isabel Hancock Memorial Scholarship Fund. If you wish to send a remembrance, make check payable to the Trustees of Abbot Academy.

## Memorial Service

The following tributes were spoken by Mrs. Alexander Crane and Miss Marguerite C. Hearsey:

"In the bewildering days when I first came to teach at Abbot, when I was meeting one stranger after another, the first of my colleagues who came clearly into focus was Isabel Hancock. She had just returned from the summer in England that she had spent studying architecture, and her memories were shining ones. Though she was besieged with questions, she took time to build a small strong bridge between herself and me, in just the way that she did with her new students and with each visitor who came to the door marked 'Admissions Office'.

"For each family who came, she embodied a gracious and graceful welcome; in each parent she inspired confidence, and of each candidate she made a friend. The students in the school came eagerly to help her show the school, and if every one was busy, Miss Hancock cheerfully set out to guide the visitors herself. Nearly all of you here met Abbot first in the person of Miss Hancock and I hope you will always see it through her eyes; for she *saw* clearly but she *looked* for the best and she always found it. If the *best* was obscured by some slight defect, she corrected this, if she could, with great tact and sweetness — and those whom she corrected stood taller than before. I do not remember ever hearing her say a harsh word about anyone or criticizing one person to another. Yet her judgments were based firmly on unwavering standards. Her greatest joy, I believe, was in seeing someone else succeed, perhaps after a false start or initial failure.

"For her friendship, for her devotion to Abbot and for the ideals she set for us, we can be profoundly thankful."

M.H.C.

"When we heard that on January 14th Isabel Hancock had died all who knew her felt that a light had gone out. She shed a quiet radiance among us. We know only now perhaps how we depended on it.

"Since her death the phrase 'every virtue, every grace' has recurred constantly in my mind. One hardly knows which quality was predominant. Virtue in the sense of moral strength, and grace were so intermingled in her character that each enriched the other.

"Isabel Hancock, a gentle Virginian, had something of the rock-ribbed New England strength. Duty was not a word from which she drew back. In all my years of association with her as a colleague she readily assumed any responsibility that was given her, and never failed to perform with effectiveness the accepted task. Her clear, creative mind was directed eagerly to each new demand.

"This sounds too impersonal, and impersonal is a word that could never be used to describe Isabel Hancock. Disinterested, yes, for her concern was never self-centered. The quality of Abbot as a school was her concern, but the school for her was individual people — the girls, the faculty, the whole staff. Busy as she was, especially so in recent years,

as Director of Admissions, she never seemed too hurried in her gracious meeting either of strangers or friends. The pressure of work never caused her to put mechanics before people.

"As Director of Admissions she was meticulous in obtaining every detail about the qualifications of applicants that would be helpful in making the decision as to the candidate's admission to Abbot. Her records were not only kept with objective accuracy but interpreted with imagination and understanding. In no school, I am sure, was the selection of students made more fairly, and in no school I am sure were those who could not be accepted told so with more kindness. Those who were admitted will remember with what a warm reception Miss Hancock met them on their arrival, often with flowers in their rooms and a little note of welcome.

"Though in the last few years the number of applicants made it impossible for Miss Hancock to do any teaching, the girls who through twenty-five years were her pupils recall gratefully her clear, interesting presentation of her subject. Because of her enthusiasm for mathematics, she was indefatigable in her efforts to make the subject clear to even the most unmathematical mind. She devoted uncounted extra hours to conferences formal and informal. Her door was always open to the girls. In her sitting room in Draper Hall, where she lived for many years on the 'second floor front' they found not only a teacher to help them with the understanding of difficult equations and theorems, but a friend, a hostess for little parties where fun and music and food were happily mingled.

"Some of her students and all of her friends knew of her interest in other fields than mathematics. She found time for music, for theatre, and for travel. Her knowledge of mathematics led her to a special appreciation of architecture in her travels, and primarily to her avocation of astronomy — an avocation which she often shared with her students through visits to our observatory and extra-curriculum instruction.

"We recall, all of us who knew her will recall over and over again through the years the quality of her life among us — her unflinching courtesy, her unperturbed composure under any strain, her consideration for others, her hospitality, her love of beauty and in dark and painful days her courage and persistent hope. Having built her life into the life of Abbot for over a quarter of a century, Isabel Hancock cannot die. 'Every virtue, every grace' of that life will find expression in the on-going daily life here, and in the lives of countless students and friends."

"Gone — beyond the reaches of the wind  
Man's sight  
Into the night  
By earth unbound.

\* \* \*

Gone — but in the reaches of the mind  
Clear to insight  
With crystal light  
Forever bound." \*

# *“Doctor, Lawyer . . .?”*

NANCY EASTHAM, 1955

Nine years ago, when I was a senior at Abbot, my plans for the future were reasonably clear: I hoped to go to Mount Holyoke College, major in chemistry, and continue on to medical school. Accordingly, the following September I packed my bags for South Hadley, and tackled my first college chemistry course. At the end of the year, however, my Bunsen burner and I said our fond but determined farewells; and I ultimately chose zoology as a major. I very much enjoyed my work with dogfish, cats, and microscopes, but the summer after junior year brought home two important points to me: first, from working in a hospital laboratory, I learned that I was not really suited to the medical profession; second, from talking with an enthusiastic woman lawyer from California whom I met at field hockey camp, I realized that the legal profession was very much open to women and might be just what I wanted. When I returned to college, I therefore applied to Harvard Law School. A research thesis in zoology was my major academic task, which proved to be invaluable experience; but I found myself too short-sighted to appreciate scientific research, and I suspected that I should prefer dealing with human beings as social entities. Although I interviewed for a research position, when the Law School accepted me, I decided upon that course.

The first few days at Harvard were somewhat terrifying. For the first time in eight years, I was no longer in an all-female institution; in our class of about 500 students, only about 23 were female. Moreover, there seemed a tremendous amount of work to do. And, most frightening of all, each class consisted of questions, connected with cases we had read, directed by the professor to individual students, whose names he found on the convenient seating chart before him; in the three years I never did overcome my fear of being called upon to answer some more or less obscure question (although some other students seemed positively to enjoy talking in class). After the initial strangeness, however, the first year was fascinating and probably the most valuable of the three, since in that year we supposedly learned to think as lawyers. Each of us argued two mock appeals, a practice which added greatly to our understanding of how a lawyer goes about his work. At the end of the year came the dreaded examinations, which consisted mainly in fact situations involving several preferably complicated legal issues which were to be extracted and discussed as fully as possible in two to four hours. Although the pressure at exam time is intense, since the grade for

each course depends entirely on the result of the one examination at the end of it, very few students actually fail; thus most of us were together again the next fall.

During my second and third years my attention was somewhat diverted from the course work by other things. I was given the opportunity to work as an editor of the *Harvard Law Review*, a legal periodical published eight times annually by about fifty-eight students at the Law School without direct faculty supervision. We were expected to work forty-eight hours per week on the *Review*, which left little time for classes and preparation; but the work itself — a combination of writing, editing, and preparing material for the press — was enough of a supplementary education so that we all made it through our exams, generally without a significant drop in academic average and with a great deal more law under our belts. A number of students also assist professors in the preparation of articles or books. During my last two years, I gathered some interesting experience in this way, helping one professor edit a series of essays on Japanese law, and doing preliminary research for another professor who was working on a case in the International Court of Justice. A further “extra,” which takes little time but from which one can learn a great deal, is judging the mock appeals for the first-year students. Here one acts the dual role of judge and teacher — weighing the legal points made in the briefs and oral arguments, and criticizing the work of the “counsel” both as to content and presentation.

It is quite common for law students to work in law firms during the summer between their second and third years. My work on the International Court of Justice case led to a job in a firm in New York City; I had great fun describing myself as a Wall Street lawyer, from the location of the firm, but in fact I did very little real “Wall Street” work but rather was involved in research for the beginnings of a book. Nevertheless, just being in a law office gives one some idea of what goes on in the world of the practitioner.

The third-year student quickly learns his (or her) way to the Law School Placement Office. Several firms from all over the country send representatives to the school to talk to students, some of whom are then invited to visit the firms for a final evaluation by their members. Probably the majority of students will begin their careers after graduation by joining an established law firm as an associate, but there are many other possibilities as well. Some students work for government agencies or private companies; some start right in teaching; others clerk for a judge for a year (the United States Supreme Court clerkships are the most coveted positions); some travel for a year on the Sheldon Travelling Fellowship from Harvard; and may face military

service (one instance where being female is an asset!). A further possibility is to continue studying, particularly abroad, on one of the several available fellowships; this was my choice. Thus I came to Cambridge University, England, to write a thesis for a Diploma in International Law.

The year and a half here at Cambridge have been very interesting and rewarding. Not only have I learned a great deal of international law, but I have had the chance to live in an environment quite different from that at home. By this "environment" I do not mean simply the different sort of life one has, riding bicycles on the wrong side of the road and wrestling with coal fires, but also the different way of thought one finds in a foreign country — even in a nation as closely linked with our own as England. Moreover, as a foreign student, particularly studying international law, one tends to meet and make friends with other foreign students; thus one learns about many other peoples as well.

Although nine years of college and university education may seem endless to the Abbot senior, they have passed very quickly. Despite my rather late espousal of law as a goal, I am happily and firmly set on going into practice in the fall. In closing this brief sketch, I should like to emphasize four things for the girl who is undecided as to what she should do. First, the study of law is an exciting and challenging task. Second, one can usually enter this study from nearly any college major and without taking any particular courses. Third, legal education and the legal profession in general are becoming more and more open to women, who are now able to attend the best law schools and work in excellent law firms. Fourth, any girl who has taken full advantage of the excellent grounding which is offered at Abbot, who has conscientiously built on this at college, and who thrives on concise analysis can certainly enjoy and be very successful in law school, and thereafter continue into a most worthwhile career.

*Instructor in Studio Art*

Is Art a luxury or is it a necessity? This is an old question weighed almost inevitably each year by educators. Since continuous inquiry never produces an exact formula or definition there are always many answers to the question.

Most art teachers want the recognition of art training considered as important an ingredient of the educated person as the knowledge of academic subjects. There is the time proven answer to the question of the importance of art — it gives greater awareness and ability of expression to any student. There is always the realization that the art studio is one place where students can delve into ideas, dreams, and emotions not so readily encountered in the formal classrooms.

It is probable that courses at the secondary level can only serve as an introduction to a more frequent use of imagination and to a real appreciation of art. Talented girls may practice their talent, explore new media, and uncover their own capabilities — all girls can experience new discoveries of what they can do despite any limitations of skill.

But let us consider students growing as people who have some of the personality failings we all find within ourselves. There is the person who is haunted by perfectionism, stopped in her tracks, and unable to reach her own high standards. There is the person who is content with half-way achievements and who does not know that they are half-way. There is the person who has not the confidence to make a direct statement. There is the self-conscious person who is unable to get outside of herself and into the problem at hand. There is the person who is unwilling to try unless it is fun. Surely all of us can recognize at least one of these failings within ourselves. Certainly each of us remembers at least one lesson unlearned because of that failing.

It is the attempt of the art classes to help people eliminate personality stumbling blocks. If people can experience victories over themselves, achievement becomes pleasure, expression of an idea produces great excitement, and self-imposed blinders are removed from the eyes. The ordinary can become extraordinary.

Why is the Art Studio peculiarly equipped for more than the daubing of paints and materials? It is the matter of sight and of the other senses. People can deal with things that can be seen, felt, and sensed. The results of learning are tangible at all stages. Mistakes become great teachers, easy for students to comprehend. The mere business of conceiving an idea, planning its execution, and finishing it is all right there, right now. In addition, the critical analysis of the stu-

dents' own work and that of others helps them to see whether they have succeeded. There are always stimulating companions and the friendly exchange of ideas.

Just what would be the best way to describe a learning process in the Art Studio at Abbot? Consider what the Abbot girls do after they have climbed four flights in Draper Hall and have arrived in the upper rooms, all surrounded by sky. They compose.

Composition is an old subject. It has long been taught, but it can never go out of fashion. The principles remain the same through all ages, only the style and materials change. To compose with sensitivity and wisdom, a student must be able to work within the limitations of a given area whether it be the boundaries of a piece of paper or the height and weight of a stone. That student must use her material — pencil, charcoal, paint, clay, wood, or stone — to its best advantage and she must synchronize all the small parts with each other and with the whole.

In the Abbot Art Classes many students are “stumped” by that seemingly simple art of composing. With great enthusiasm girls begin to create a design, but quite often they cannot visualize beforehand or fill in later all the empty areas around the first idea. Maybe one particular girl is unable to conceive the composition as a whole because she feels unable to draw it perfectly. Another student may be content to go only half-way without the trouble of finishing. Another may not have the confidence to make a definite design of the empty spaces around the safe subject matter. A fourth girl may be too self-conscious, and yet another may stop after the fun of beginning is over and the thinking begins. To put it simply, in all of these cases the composition is not yet a composition.

Usually students are able to push themselves further and overcome hurdles. When they do work out a problem of design to its completion, there can be little doubt that their general working habits are being affected. If consideration of the problem as a whole and not as a mass of disorganized details becomes a habit in art, it stands to reason that there will be a carry-over of this attitude in other more formal studies. Even in the understanding of some of the principles of art one must refer to music and poetry and in addition must consider science.

In line with this strengthening of the students' study attitudes, Phillips Academy has been conducting a course of Visual Perception, not made to train artists in skill but to develop the practice of more sensitive judgments. This year Abbot Academy has offered a pilot course similar to that of Phillips. Eight seniors have devoted 3 class periods a week to studio work and to lectures, discussions, and slide viewing.

The course may be defined as the training of the eye and mind in the intellectual and intuitive judgment of things in relation to each other. To develop greater comprehension, there are several disciplined exercises which make use of simple but varied materials. For example, there is the problem of arranging black cut-outs on white paper to attain perfect balance of the figure and background, and there is the problem of forming a 3D shape out of drinking straws and glue. These exercises and others are all aimed to produce compositions with the relationship of objects to the space around them. The goal is always the same — to sharpen the students' awareness, not only of the problem met in the Art Studio and evaluated and analyzed in the lecture room, but of the like or unlike lines, shapes, patterns of situations around. Whatever is learned is learned by the individual's actual doing and alert consciousness of what is happening visually. It is rather what might be called "instant learning" in that what is before the eyes is there to be seen and appreciated rather than realized in verbal terms.

So far the course in Visual Perception has been successful here. Satisfaction of achievement has been the pleasure of the 8 seniors. This course does not necessarily produce artists — the advantages of having gone through the exercise series may simply become a part of the student's whole being.

In 1915's class prophecy a Leach book was predicted—and now it's out! "Boston In My Blood" by Betty Frye Leach, a book of light verse, is already on the shelves of The Boston Public Library (bought for its Nova Anglica Collection), The Somerset Club Library, The Athenaeum Library, The Massachusetts Bar Association Library and others. In a review of two full pages, with four special illustrations, the January issue of *BOSTON* Magazine says:—

"A Bostonian's Boston is a personal affair, and in few books is this more apparent than in Betty Frye Leach's . . . 'Boston in My Blood'. To her the city is one of never-ending delight . . . her verse illustrates the contention that a Bostonian's Boston is so very much his own that he may with impunity smile at both its fables and foibles."

Elizabeth is her own Grandma Moses in the fifteen pen and ink drawings that slyly point up the fifteen groups of verse, according to *BOSTON*, "under such alluring headings" as "Of Ancestors, Of Beacon Hill, Of Boston Bachelors, Of Colleges, Clubs, Newspapers" and so on. One of the latter group deals with "Monitor" readers and an editor of that paper who saw it and read the volume noted cheerfully that the book "deflated a considerable amount of Boston stuffiness; an admirable objective." Whether or not he is correct, Elizabeth seems to have pulled no punches in her 67 page volume which proves that in due time class

prophecies are fulfilled. A few of the rhymes were concocted by Catty Leach to round out the Boston picture here and there.

Although it has been placed in various bookshops, Elizabeth was most pleased that it was at once accepted by the oldest continuous bookshop in the country, The Brattle Bookshop on Cornhill.

*Editors Note* — Abbot is proud to have this book in the library.

Another Leach Sister activity this year was a round trip flight to California, where they visited relatives and friends in Oakland, Santa Barbara, Berkeley, and the San Francisco area in general, falling in love with the latter city.

Florence Fitzhugh Phelps writes, "Our third granddaughter, Hilary Ann, was born to our son, Jim, and his wife last

June. Jim now has two and Bob, one. Our daughter, Ann, is a freshman at Endicott Junior College. After all these years it's very strange not to have a child at home."

*Reunion Chairmen* — Mrs. Edward P. Batchelder (Marguerite Neville) and Mrs. Ruth S. Hammond (Ruth Shulze).

"We are looking forward to seeing the entire class on May 9th. Those of us who attended our 30th had great fun, and won't miss the 35th. Come on, girls!"

Ruth and Peg

Polly Francis Loesch has had a busy year — she and Russell are now in a parish in Cedar Grove, N.J. Bob was married in June to Bonnie Frazier of West Haven, Conn. Both are graduates of Oberlin, 1963. Bob is now enrolled as a first year student at Yale Divinity School. Bill, who was best man at his brother's wedding, was a member of the Migrant Ministry team in Medina, N.Y. last summer. He is now at Andover-Newton Theological, having graduated from Oberlin last June.

Jane Linn Gale writes, "We have just celebrated our 25th wedding anniversary and living at the same address! (Jane Sullivan wishes there were more people who stayed put like you.) Our married son is in the Air Force and is stationed at Wright Patterson Base in Dayton, Ohio. Our eldest daughter is a senior at Smith, our second daughter is a freshman at Northwestern, and our youngest daughter is a sophomore in high school. We keep busy, well, and happy."

Gay Stephens took two cruises last year — Mediterranean and Black Sea in the spring, and the North Cape in the summer.

#### 1930

Mary Bacon writes, "I had a wonderful vacation in Italy. It was most unusual in a lot of ways. In Rome I was fortunate enough to be invited to dinner with an Italian family in their home, a Bishop attending the Council took us to dinner, and I saw my current 'adopted daughter.' She is darling. She and her mother came

to Rome from the little village where they live. It was the first time for both of them, and it's hard to say who was more thrilled. They were both terrified of the traffic — but so was I! From Rome I went to Florence. One morning I was caught in a mob of construction workers striking for higher wages. Before I could extricate myself, I was grabbed by both arms and marched through the streets. I wonder why it seemed funny there — if such a thing had happened here I would have been scared to death. Luckily I did not know that the day before there had been a similar demonstration in Rome, and one or two had been killed and several injured. Finally the boys let go of my arm (the better to wave theirs), and I made a dash for it and took refuge in a cafe from which I watched the police break up the demonstration."

Harriet Gregory Asmussen writes, "I have lived in Denmark for over two years with my three youngest children, Peter, 16, Chris, 13, and Wendy, 12. My two oldest daughters are married and live in Connecticut. I have 3 grandchildren. I would love to see any Abbot girls who come to Denmark. The Danish climate is similar to New England, and when we don't have rain it is lovely. The language is very hard to learn."

Address: Mrs. Wahl Asmussen, Jagtveg, Gronholt pr. Fredensborg.

Carol Grosvenor Myers' son, Martin, is studying at Johns Hopkins Medical School. Her son, Gardiner, was married last year. All five children are at home or within an hour and one-half driving time.

#### 1952

"Betsy *Waskowitz* Rider was a uniquely gifted and talented member of the Class of 1952. Her death in November is a cruel shock. But nothing can destroy the memory of a lively, bright, disciplined and self-assured girl who grew from child to graceful young woman during her four years at Abbot. Betsy had a certain Midas touch — she excelled in so many of the things she turned her attention to. Whereas most of us were hard pressed to qualify for the Abbot Dramatic Society, or a varsity team, or Fidelio, choir, year-book staff, honors, the A Society, Betsy left us quite breathless as she proved herself in one after another of these and more. I cannot think of Abbot without remembering her. She was an outstanding companion and personified much of what I think Abbot stands for.

"I wonder if we could establish a memorial at Abbot in Betsy's name in

the form of a scholarship or some useful and attractive permanent gift which would reflect one of Betsy's interests."

*Reunion Chairman* — Gale Barton, 6 Brimmer St., Boston, Mass.

Do you suffer from nagging backache?

Are you smoking it more and enjoying it less?

Do you spend sleepless nights?

Have you wondered where the last five years have flown?

Are you curious about your classmates?

Are you dying to see your roommate, anxious to hear about her wedding, equally anxious to relate your own joys and plans?

Are you an independent city girl caught in the rush of the working day, and interested in comparing notes on worldly experience and travel?

Are you associated with higher learning, one interested in education and its support?

Or are you one who remembers with warmth the Abbot walks, early morning chapel services, those CP's and GC's?

Honest answers to the above questions should convince all members of the class of '59 that

the  
Abbot Fifth Reunion  
on May 9, 1964 is one event  
not to be missed.

In all seriousness consider, plan, and then come back to Abbot on May 9 for a day of friendly reunion and festivity. I welcome any questions or suggestions.

#### 1963

I'll start with the class dance. The music was bad, the Cafe Mancini dingy, but it cannot be said that the party lacked atmosphere! About forty couples were present. Sas, Sandy, and Helen were there with dates. The chaperones were good sports. In searching for adjectives to describe the evening, such choice words as "cool", "too short", "flowing", and "smokey" have come from some of you. All who went say they enjoyed it, but have trouble remembering details . . . The company was good. The dance was a wonderful start to a fabulous summer.

Many of the class of '63 were in Europe. Joanie and Freddie were with the Experiment . . . Joanie in Germany and Freddie in France. Anita was with another group. Tish was in Austria. Jackie V.A. is the only one who is in Europe for the college year. She is at the Sorbonne.

On the staffs of different camps in New England were many of our classmates: Sue Archer at Les Chalets Francais "en train d'enseigner francais" and also sailing. Suzy B. was back at Avalon on the Cape teaching a little of everything. Lois and Peggy were at Three Pines teaching dance. Bo was at a camp in Maine. Donna was active in the kitchen at a conservation workshop. Carla was at Tanglewood for the season. Meg was at the Harvard Drama center. Maidy was at the Harvard Summer School. Chris and Sa were out in Colorado for a five week study (?) program.

Those who were working in other fields gained some priceless experience and some very useful wages. Karla was in a stock factory. Debby was on a dairy farm. Karen was working in a hospital as the assistant anaesthesiologist. Suttle was a chambermaid at a Chatham motel. From Hollins she writes that she and Hump love Hollins and mail . . . it sounds familiar. Hump says that there is a night watchman there too. Paishy worked as a waitress up in the Adirondacks. She writes that she is active in the Drama Club's first production at Bryn Mawr. Carolyn was in Duxbury teaching tennis as usual. Trying hard to complete her hours for the Junior League, Mimi was busy working at the Archives Museum and at the House for the Blind in Boston. She even managed to fit in a trip to see Poops and the Famous Brule. I was working at Burch Books in Darien all summer and Christmas vacation. Emory was acting as nursemaid for the children

of an Abbot alumna, '49. Emily Moulton traveled all over Alaska with family friends. Nanny spent a few very peaceful weeks on Nantucket and a few not so peaceful weeks at home in Nashua working as a secretary. She also spent a few days in Riverside visiting with me as did Sue Archer. Anita Miller worked in Central Supply at a nearby hospital again this summer. She mentioned a visit with Sands in Bermuda in September. Sands is now at Katy Gibbs in Boston. Cherry spent her third summer working as assistant in the Wolfeboro Drug Shop. Barb Rugen was on the Cape having fun as usual. Nat Ware had a baby sitting job in Maine for a couple of weeks and loved it. Apparently there was time for quite a bit of socializing. The Wares are moving up to New London, N.H. for the skiing season. It was a very busy summer for most. There is also evidence of a very social summer for many . . .

Mary Johnson, Muffie and Jo are down at Sweet Briar and find it very nice and very southern. Among those who have pledged to sororities at their colleges and universities are Carolyn Holcombe and Sue Archer. Carrie has pledged Theta Pi Gamma at Beloit, and Sue has pledged Kappa Delta at Northwestern.

By the way, Carrie was elected to the Standard Board or Stu-G of her sorority. Also, she is one of the chosen few to be in the Vesper Choir. Danica Miller is photographer for the newspaper and the yearbook at Oberlin. She spent Christmas vacation in Palm Springs, Calif. Rosemary Eustace is fortunate to be studying in Switzerland this year. There she is taking Psychology, French, Interior Decorating and is also taking courses in cooking and sewing. Her address is Le Mesnil, Montreux Territet, Suisse.

I had lunch with Maria Pastoriza at Trader Vic's during Thanksgiving vacation. She looked perfectly lovely and sounded very happy. She is very glad she

decided to go to college in the States. She had a delightful summer at home and attended many festivities. She was also in a fashion show. Rosie visited Maria in the Dominican Republic in July.

Bettina Proske is delighted to be living back in Oyster Bay. She was in Germany for the summer. Bettina spent part of Christmas vacation at home and the rest at the Wares in New Hampshire. While there, she and Nat skied often. She is happy at Mt. Holyoke where she is majoring in German.

From Bates, Anita Miller writes that she is doing well and is enjoying coeducation. She has taken up skiing this winter.

Others visiting in the New York area over the vacation were Meg Power, Sue Archer, and Bizzy Bartelink. Bizzy came down to see Anita Schenck with whom she is rooming at Smith. Also, rooming together at Smith are Helen Watson and Morley Marshall. They are all working diligently and are also enjoying the social life. Morley spent Thanksgiving at the Deans in Cohasset.

Nanci Sullivan and Emily Moulton went down to Andover during Christmas vacation and had a visit with Mrs. Frederick.

I hear from Suzy Burton and Chris Stern at Bennett occasionally. Suzy's new address is 101 Mottrom Drive, McLean, Virginia.

College life is proving very agreeable to all. The freedom is such that I can see it is going to take a lot of will power to live successfully under such liberal systems. Good luck and much happiness. Watch the blind dates.

I shall be sending out a questionnaire in April and I hope you will all take a few minutes to fill it out. It is far from dull, rather amusing and fun! Have a good Spring Vacation.

## Help

The Post Office Department has announced changes in handling of second class mail. The fee for notifying publishers of undeliverable second class matter has been increased from five to ten cents. This means a large increase for undeliverable Bulletins. Please keep the Alumnae Office informed of your change of name and/or address. A post card or note mailed when you move will save Abbot money.

PICTURE ON FRONT COVER — The History of a Pair of Abbot Saddle Shoes

**A**FTER my pleasure in seeing so many of you on the ninth of May, I am as usual wishing that I might sometime meet every one of you. A considerable number of you I know already and would love to see again — many more I know only by name or by the thought that a sense of your presence at Abbot is still here on this campus!

My watch runs a little fast and every day or so I must do as I have just done now, put back the hands so as to be in step with the Abbot bells. It gives me a most welcome feeling of having been given eight minutes to live over again. How often I wish I could have more time than that

## *Greetings*

to spend more wisely or happily than I actually did! Of course, no one engaged actively in education is ever so idle as to be able to reflect long on the past. Here at Abbot, however, the past is with us constantly and significantly and you are all part of this atmosphere.

The future, as you have heard or read here before, is even more our concern — new students, new teachers, new courses, for the short run, and many exciting dreams and plans for the long run. The interest and concern of so many of you in this future is heartening indeed.

It gives me pleasure to speak of two administrative offices. Miss Tucker, Director of Studies, will retain that title but will be also Vice-Principal of the Academy; the Director of Admissions next year will be Mrs. Ford Duncan, who comes to us from the Northampton School.

With great good wishes to you as for Abbot.

*Mary Hinckley Crane*

# Know Your Trustees

*(Reprinted from Cynosure)*

Mr. Robert I. Hunneman, president of the Board of Trustees and an attorney in Boston, explained the functions of the trustees and told about their occupations and interests in an interview.

The Board of Trustees of Abbot is ultimately responsible for both the legal and the financial administration of the school. It is a decision of the board as to whether a new dormitory is built or whether Abbot should become co-ed. There are eighteen members on the Board from various walks of life, each giving his expert views on any issue that may arise.

Business men are necessary to the Trustee Board as consultants for all finances and investments. Mr. Burton S. Flagg is the treasurer and Mr. Gardner Sutton, who has his office here at school, is the comptroller. Mr. E. Benjamin Redfield, Jr. is district director of the Northwestern Mutual Life Insurance Company. Mr. George F. Sawyer is a financial executive and president of the Marshall-Wells Co. of Norwich, Conn. Miss Jane B. Baldwin is a trust officer of the Irving Trust Co. in New York City, and is an Abbot alumna. Mr. Philip K. Allen is the president of Auto and Marine Guard Co. of Andover, Massachusetts. Mr. J. Radford Abbot is an architect. Mr. Stoddard E. Stevens is a lawyer and a partner in Sullivan and Cromwell of New York City. Mrs. Horatio Rogers of North Andover is concerned with the Merrimack Valley Textile Museum in North Andover. Mrs. Lenert W. Henry is an alumna of Abbot and was head of the Gymnasium Fund Drive.

Many of the members are connected with education. Miss Margaret Clapp is president of Wellesley College. Mr. G. Grenville Benedict is Dean of Students at Phillips Academy. Reverend Sidney Lovett, former Chaplain of Yale University, is connected with Yale-in-China in New Haven, Connecticut. Mrs. Wilbur K. Jordan is the clerk of The Protein Foundation and a former Dean of Radcliffe College. Mrs. Alexander Crane is Headmistress of Abbot Academy.

The two alumnae trustees are elected every three years to serve for six years. It is interesting that the present representatives are both connected with education. Miss Helen Ripley works in Washington, D.C., with the United States Department of Health, Education and Welfare, directing the teaching of Non-Western languages in graduate schools. Miss Alice C. Sweeney of Andover, Massachusetts, is the former Dean of Studies at Abbot.

The Board of Trustees meets three times a year. As often as possible these meetings are held at Abbot. The June meeting, for the election of officers, is always held here on the campus.

There are three committees of the Board. The executive committee which meets once a month is composed of eight members. It acts for the trustees between meetings and prepares recommendations for the trustees on matters of general policy. There is also a nominating committee and an investment committee.

# PEACE CORPS VOLUNTEER TO GHANA

SANDRA MOULTON, 1959

A stint with the Peace Corps begins with an invitation to come to training, and a request to not tell everyone that you are joining the Peace Corps because, friend, you might not survive the training. And for some people the association with the Peace Corps does end there. The training for me was an endurance test, physically and mentally. At its worst it is instant education, at its best it is constantly fascinating. Fifty of us made it through last summer's session at the Berkeley campus of the University of California and armed with some new knowledge, a lot of curiosity, and a bloodstream full of every possible disease protection, we left New York on Pan American's bi-weekly flight to Dakar, Monrovia, Accra, and Lagos early in September. The first thing we noticed at the Accra airfield was the heat, the second, how tired we were. We were packed unceremoniously off to Legon, University of Ghana, and put into session there for ten days of "in-country training".

My headmaster came to pick me up about a week before school was to start and we drove quickly down the ninety miles to Cape Coast. This is a town of about 30,000 people and a long history of Dutch, Portuguese, and British traders in everything from gold to slaves. The influence of these people is evident, if only in some of the older houses; some are very solidly built while others have balconies that might have carried darkhaired ladies with roses ready to throw down to a singing cavalier. The more obvious legacies of the colonial powers are a castle, known as Cape Coast Castle, and a fort. And because this was a port until very recently, there is a lighthouse perched on one of Cape Coast's many hills. The fort naturally is unoccupied. The castle is still one of the administrative centres of this region. The marks of the slave trade are still quite evident in the dungeons of this white-washed building on the beach. The only commodity now leaving here, though, is lime-juice concentrate and the loading is still done by surf boats which must be paddled out to the freighter off-shore. It is hard work and fascinating to watch. Until the new ports of Takoradi and Tema were built recently, all goods coming to Ghana, including people, had to be loaded and unloaded in these boats. They are huge logs that have been burnt and chiseled out and are amazingly manageable; or so it seems to me. The crews paddle in time to chants. The Fanti people of Cape Coast are basically a fishing and farming society and they have a long history of trying to protect themselves from the more warlike Ashanti, inland, as well as from the raiding Europeans. This rivalry continues to-day only as a tradition, for the many peoples of Ghana are now under one flag, whatever their local loyalty may be.

I am of course as still amazed to-day by the view from my house as I was the day that the headmaster brought me. I have a second floor of a duplex which is on a hill further inland, but between the hills of

the lighthouse and of the fort. The ocean horizon is usually blue behind the palm trees along the beach and from my balcony there is a creamy church steeple rising out of the town which is at my feet. Rarely of course is a day grey, for we are very close to the equator; rather, the sun is so hot that it is true that only mad men go out in it. And afternoon sleeps, whatever one have thought of them at home, can become unavoidable.

Here in Ghana there are 116 volunteers teaching in secondary schools. We teach French, the sciences or maths, sharing duties with teachers from all over the world. At Aggrey Memorial, where I teach French, the other members of the staff are from Germany, Scotland, Switzerland, Russia, Pakistan, India, Canada, as well as Ghana. Their financial position differs somewhat from that of the volunteers and so we sometimes have difficulty in reconciling the way of life implied by the words Peace Corps with that of the other foreign teachers here. Our professional problems are rarely with Ghanaians, but with the tradition already set up by the founders of the schools for "European" teachers. We too are Europeans.

But the great need for teachers cannot be denied. I have a thirty hour school week, from 7:15 a.m. to 2:00 p.m. every day. The kids, of course, are just kids despite the differences in background. In the afternoons, I attempt to conduct choir rehearsals which very often degenerate into song fests. On one day I give piano lessons. Sometimes

I try to speak the local dialect with the students during free time. Mostly we all get a good laugh. One or two evenings a week I teach adult education classes for the Institute of Public Education. On Saturday morning my steward and I make an expedition to the market. Bargaining, I'm afraid is not one of my more notable talents. At the beginning of the year some middle school children used to come visiting when they should have been in school. I was quite emphatic (as is possible for me to be in Fanti) about what I thought of people skipping school. As a result, I am now paying the fees of my steward so that he can also finish his schooling. He cooks my breakfast and lunch and dusts rather vaguely around the place. Since teachers have long vacations here, a bit too long for the Peace Corps "image", we also do projects, which may mean working in a hospital or building a school or doing something worthwhile on one's own school compound. There is also a national workcamps association that calls on the students from the secondary schools to spend their Saturday mornings carrying sand for cement or digging dirt for building latrines in nearby villages under teacher supervision.

I share my flat with a cat, and wandering PCVs on the weekends. I am lucky to have a lot of space. They come to Cape Coast to take advantage of the beach or to do some shopping. We, here, sometimes take to the bush to get out of the sun. Friends inland sometimes need a fourth for a week-end bridge game. Travel for volunteers is chiefly by lorry, or truck, although isolated volunteers do have jeeps. "Isolated" means that water or shopping supplies are not easy to get at. (Electricity at most schools is supplied by a generator run by the school at certain hours, generally mealtimes and at study times.) The first of my journeys by lorry was in the rainy season and I hadn't learned to be choosy. If twenty mph is satisfactory, so much the better, but it is possible to travel faster than that. Up to now, I have been able to visit volunteers in the forest at Axim, in the dry dust of Tema, in the beautiful Ashanti capital of Kumasi. Once in a while I hitch the fifty miles to Takoradi when I really get hungry for something different to eat, i.e. other than rice, yam, or plantain, bananas and market meat, and tinned corned beef. Of course we make many visits to the capital, Accra, to the office for this and that, to the Hostel for chit chat. Sunday afternoons finds many PCVs on the beautiful beaches somewhere along the coast of Ghana.

If you read the newspapers, you might have guessed that the situation here is not easy, politically. But we are not the only ones who are accused. The political and social consequences for our fellow staff members is as difficult for them as for us. And the cultural change is difficult for anyone, with or without training. At first I found it somewhat disconcerting to be pointed at, stared at, and used to scare crying children into silence, as I walked down the street. It seems, as I later learned, that Europeans pass only in cars. They now know me in my neighbourhood and so we exchange 'good morning' and 'good evening' in dialect, with smiles, not fear or suspicion or whatever. Then of course there is the problem of adapting one's teaching to a new school system as well as to new minds and new conditioning. Aside

from the periodic water or electricity shortage, our daily existence here is easy enough. Therefore, to understand our difficulties might be harder than if we were materially very badly off.

It is necessary to imagine yourself where the people speak another language which you do not know and are generally not required to use, people who think with a different mind because their experience is alien to anything western. Imagine that within this place you are constrained to live as you did in the USA or as near to it as possible; that you have an easy contact with only the isolated community of education, its staff and students, and none at all, or only cursory, with the inhabitants of the town, or with the middle class, or with the power of your town. Imagine, if you are white, that little girls curtsy to you in the street and that babies may be frightened when they see you; imagine that some people are suspicious of you because not only are you an American, but you are a Peace Corps Volunteer. Imagine further that you have come to try and learn as well as teach, and notice that you are kept in your tower both by the Ghanaians and the other Europeans who have established the traditional distances for the foreigner a long time back. Imagine that the work you do is incompatible with the kind of teaching to which you are accustomed, being rote learning, and that you deal only with an elite % of the population. We do not do "grass roots" Peace Corps work in Ghana. In short imagine yourself doing enjoyable and satisfactory (as regards the children) work, but not what most people are led to expect of the Peace Corps from the stateside descriptions of volunteers building bridges in South America. I should imagine that it is much the same for Peace Corps teachers in at least most of Africa. Imagine yourself somewhere where you can never be lost because you are, obviously, by dress if nothing else, a foreigner, and yet, you are always alone.

The resulting situation need hardly be embroidered with a painting of the realities of a volunteer's frustrations. But it is true that too often the ivory existence of a volunteer only gleams on the outside of his bungalow. We are led to ask ourselves why we ever joined. The answer, though, whatever it may have been originally, becomes immaterial — especially on those days when the smiles of a class show we have made ourselves understood.

# ABBOT'S ADVANCED COURSES

ALINE HILL, ABBOT, 1964

*Excerpts from a talk given at the Alumnae Meeting on May 9.*

I am sure that for many of you, coming back to Abbot involves seeing many changes around campus. I'd like to give you a brief insight into some recent improvements and additions not so apparent to the eye, but more important, changes in the academic side of Abbot, specifically, the addition of advanced courses to the curriculum. The purpose of this extension beyond the basic requirements of a secondary school education is two-fold: First of all, to provide an opportunity for capable girls to investigate more deeply into areas of particular interest to them; and secondly, to enable these girls to fulfill certain college course requirements before they enter college in order that they might start to specialize sooner and take greater advantage of the large variety of courses offered. Occasionally, if a girls participates in a sufficient number of advanced courses here and earns college credit for them, she may enter college with complete sophomore standing. Such a feat was accomplished by last year's senior class president, Meg Power, who entered Radcliffe last year as a sophomore.

Many of the advanced courses are in continuing subjects for those girls who began a subject before freshman year or are specially selected for the course. Most of the participants in advanced courses are seniors. The English Advanced Placement or honors class does more extensive outside reading and extra work in composition under the head of the department. Fourth and fifth year Latin courses do advanced work and are relatively small. Spanish IV is also fairly small. One of Abbot's representatives in the Spoken-Spanish Contest sponsored by the Pan-American Society of New England received second prize. An advanced Science Course in Bio-Chemistry is offered. An advanced Math course is also offered. During the winter term a seminar in the chronological study of American History and American Literature was offered.

Students who have taken these courses will take advanced placement tests during the last week of May.

# NEWS *from the* CLUBS

The BOSTON Club's annual meeting was held at Brae Burn Country Club in Newton, Mass. Mrs. Leonard Fowle introduced Mrs. Ralph Earle of Swampscott who gave a delightful talk, "Fashion a la Carte". Mrs. Crane and Miss Sullivan came from Abbot.

The NEW YORK Club held its annual spring luncheon at the Smith College Club in the Hotel Berkshire on March 7. Mrs. Crane and Jane Sullivan brought news of the school. Miss Eleanor Tucker, Director of Studies at Abbot, showed slides of her trip around the world.

# Class News

1884

Ellen Webster, age 100, wished she might have been at Abbot on Alumnae Day, but "Feared it was a little too far." She is very well, and quite cheerful, although sometimes annoyed that her activities have to be curtailed.

1894

Hanna *Greene* Holt was the only member of her class who attended Alumnae Day. She is very well and enjoys her age. She lives part of the year with her daughter, Jane *Holt* Atkinson, in Winchester, Mass., and part of the year with her daughter, Emily *Holt* Mucklow, in Glastonbury, Conn. She celebrated her 90th birthday last November.

Katherine *Lahm* Parker writes, "Life is so full of interest and activity that I do not want to leave it. Hope others of my generation feel the same way. I would like to attend my seventieth reunion in Andover, but the journey to Abbot is too long for my years. Best wishes for a happy reunion to those who do attend."

Florence *Merrill* Featherston and her husband are living in the same house that they built 46 years ago in Clements, Calif. Their home is a family center for their four daughters and their children.

1898

Beulah *Loomis* Hyde continues her interest in Art. She has had many one-man shows. She has just returned from a trip around the world.

Annie *Smart* Angus, 1898, Helen *Hale*, 1901, Mildred *Mooers* Poore, 1902, Harriet *Chase* Newell, 1902, and Lottie *May* Redford, 1900, at the Alumnae Luncheon

1899

Ruth *Childs* Young broke her hip in 1959 and has been in a nursing home ever since. Her son is in Turkey inspecting RCA sights.

Beatrice Reed has been in a nursing home for the past five or six years. Recently she had major surgery — her recovery has been remarkable.

1904

Mary Byers Smith was the only member of the class present on Alumnae Day. She has had two air-trips since last June: one, for a delightful visit to Miss Dorothy Baker, former member of the English Department, in Bath and a trip to Norway with her; the other, to the West Coast to visit Beulah *Loomis* Hyde, 1898.

Helen *Childs* Baldwin writes, "I was very homesick during my first year at Abbot, but was quite happy the last two years. Miss Means was especially kind to me, and I repaid her by one thing I said when she rapped at my door one night late!! I thought the quiet rapping was one of the girls, so I answered this, 'Gee, golly, gosh, damn devil, darn louse, come in'. Can you imagine what Miss Means said and what I said when she opened the door with a smile! She said, 'Helen Childs, I am your principal, not one of the girls and deserve a better invitation to come into your room'.

"After Abbot I graduated from Lucy Wheelock's Kindergarten School. I married, am now a widow and have three children who are doing well in various ways. Since my husband's death, I have taken up craft-work with the Girl Scouts and received my 35-year pin in April.

"I was 80 years old on April 24 — so you see I am really getting on. I don't feel old and I won't give up yet, hurrah!"

Editor's note —

Mrs. Baldwin has been blind in her right eye for several years. Congratulations on your spirit.

Laura *Eddy* McCabe writes, "I sold my home in Evanston and bought a small apartment in a large unit for retired people. I still have my car, but no longer drive to the East. My two sons live near-by in Evanston, and my daughter lives in Nebraska."

Sophie Gibbs Sage was unable to attend reunion. She has two sons. William is investment administrator and vice-president of the Aetna Insurance Co. in Hartford.

Harriet Harmon writes, "For the past three months I have been confined to a nursing home because of an operation. I miss my many church and literary club activities and doing for others which gave me much pleasure."

#### 1906

Constance Parker Chipman flew to Arizona in April to visit her daughter, Faith. She was in Kansas visiting another daughter on Alumnae Day — we all missed her.

##### REUNION REPORT

On April 16, 1964 Marie Winsor Appleby's husband, Theodore Franklin Appleby, died. He was a graduate of Amherst College, and at the time of his death was president of a firm of real estate and insurance brokers in Asbury Park, New Jersey. Our sincere sympathy to you, Marie.

Helen Burk Jones reports that three years ago she decided to amuse herself by opening a select candy shop in Chestnut Hill, Pa. What she had thought of as a small personal venture developed into a flourishing business which now keeps her busy six days a week. She wrote, "It is the best thing I ever tried to do and I enjoy every minute of each day, but there is no time for such frivolities as reunions."

Helen Gilbert Rich had expected to be traveling in Europe with her husband at the time of reunion, but illness caused a change in their plans. Now they are going on the North Cape cruise in July. They have moved from Staten Island to an apartment in New York and to their surprise are finding both apartment life and city life highly enjoyable. Helen has five children, all married, and ten grandchildren, five of each kind. One of her

daughters, Elizabeth Rich Ferguson, of the class of 1944, came back for her twentieth reunion this year.

Louise Allaman Austin sent greetings from Dayton, Ohio. She had planned to come to reunion with Marie Winsor Appleby, but they gave up the idea after the death of Marie's husband.

Emma Holt Garside spent most of the winter in California visiting a married daughter. Her son is also married and she has several grandchildren. Her home is in Saco, Maine.

Helen Hanscom Winslow now lives on the Cape (West Dennis). She too spent the greater part of the winter in California visiting her married daughter. Helen's husband died in 1961, and the first winter after his death she joined her daughter in South Africa and had an interesting four months in Kenya and Uganda. Her daughter's husband is an engineer whose work takes him to widely separate parts of the world. His next job is in Spain, and Helen expects to join her daughter and son-in-law in Madrid next winter.

Margaret Wylie Ware wrote from La Jolla, California, explaining that her plan to return for reunion had to be given up because her son (and only child) will be returning from England this month. Her son has just rounded out a twenty-year term in the air force as his father also did. Margaret heard recently from Hildegarde Gutterson Smith who now lives in Santa Barbara. Another member of the class in California is Dorothy Bennett, who now lives in Pasadena.

Frances Dowd Chittenden wrote from Hamden, Conn. that she was heading for a college reunion later in the month and didn't have time for two so close together. Her older sister Rachel now lives in Winter Park, Florida and visits in Connecticut during the summer.

The members of the class actually present for the reunion are the following: Elisabeth Bartlett Jenks, Harriet Bowman Meeker, Marion Clark Myerscough, Helen Hamblet Dyer, Helen Hanscom Winslow, Mary Hildreth, Emma Holt Garside, and Alice Sweeney. They were joined at the luncheon table by Mary Byers Smith, '04 and in the afternoon by various members of the class of '15 so they had a pleasant sense of renewing old acquaintanceship.

My work will be with our native novices and Bible teaching in the local high school."

## 1923

Libby *Flagg* Dow is in Berkeley, Calif. Sterling is lecturing at the University of California at Berkeley. She writes, "We are gloriously worn with the great friendliness and cordiality of the Californians."

### REUNION REPORT

Reunion Chairmen — Sybil *Bottomley* Talman and Kay *Hart* Mitchell.

Reunion time has come and gone. It didn't seem possible that we were celebrating our 40th. What we lacked in numbers we made up in spirit. For your information, we mailed 67 letters to our classmates — only 17 of which were acknowledged. Of these — seven were acceptances.

Ruth *Kelley* Perry, Sybil *Bottomley* Tolman, Eleanore *Ireland* Saunders, Sue *Smith* Bowler, and Kay *Hart* Mitchell stayed at the Rolling Green Motel in Shawsheen. Ruth *Pritchard* de Rivera and Betty *Harrington* Wilson were there for the day and evening. After the Alumnae Meeting we all enjoyed a most delicious buffet luncheon followed by the Annual Bazaar. After a visit to the booths,

there was a presentation of Alice In Wonderland at McKeen. Tea was served at Sunset Cottage at four. Later on, Sybil and Kay had a small cocktail party in their room before the class dinner at Fieldstones. After dinner we all returned to Rolling Green where we burned the midnight oil.

Here are some highlights from the letters the girls wrote to us and their reasons for not being able to return.

Genevra Rumford was on a trip to California by Cargo Liner which she had been anticipating for a long while. She is very active in hospital work and in the Delaware SPCA.

Tommie *Thompson* James just couldn't make it this year but sent her best to all.

Polly *Bullard* Holden is spending the month of May in Nigeria with her eldest daughter Sally, who is in the Peace Corps, and teaches English and history in Ashogho College.

Nancy *Chamberlain* Newman writes how happy she is that her daughter who has been in Heidelberg for three years with her husband and two little girls is returning to live in Suffolk, Va. He was in the Army, and will now be a civilian practicing dentistry.

Helen *Epler* Baketel has just returned from Europe and brought home a "bug" which she hasn't been able to shake. She sent her best to all the "healthy, hearty" souls who were able to make reunion.

Marge *Wolfe* Reed's husband has been very ill, and she was unable to leave him at this time. She sent a darling picture of herself sitting on the porch of their lovely old 1765 cottage in Conn. wearing her grandmother's sunbonnet and holding her grandmother's fan. She looks just as young and pretty as ever, and without one gray hair!

Peg *McDonald* Vester keeps herself busy with the League of Women Voters, Mental Health Association and Council on Human Relations. For recreation she plays bridge and has two black cats who keep her company. She enclosed a picture of her seven beautiful grandchildren, three of whom live near her in Tampa, and four who live in Ohio.

Rebecca George wrote that she just couldn't make it.

Peg *McKee* DeYoe and her husband have just returned from 2½ months in the South Pacific. They loved New Zealand best of all. Because it was Mother's Day week end, and all their children and grandchildren live within

an eight mile radius, she couldn't bear to think of leaving home. However, She expects to see everyone at the 50th!

Babe *Korst* King was unable to come, but sent a lot of news of her family. Her husband and 2nd son are with Ford Motor Co. Her son is a patent attorney and is an engineer for Ford and has one child. Her oldest son is a career Captain in the Air Force and has four children. Her youngest son is in a bank and unmarried. Between her grandchildren, American Field Service Work, College Courses and a large garden which she tends to — she manages to keep busy.

As for news of the seven who returned to Abbot for Alumnae Day — guess we were all too busy chatting to learn very much about each other's activities.

However, we will try to give you as much news as we can remember.

Ruth *Pritchard* de Rivera is Chairman of the Winchester Scholarship Committee and does volunteer work one day a week at the Winchester Hospital, as well as another day at the Mass. General. She has three children and four grandchildren.

Betty *Harrington* Wilson is active in the Red Cross. She has two children and four grandchildren.

Sue *Smith* Bowler works for various Research Survey Agencies and finds her work fascinating. She has one child.

Sybil *Bottomley* Talman is the Administrative Assistant to the Director of United Funds of Attleboro.

Ruth *Kelley* Perry works with a class of retarded children one day a week. She has three children, one of whom is married and has a darling ten months old daughter.

Eleanore *Ireland* Saunders and Kay *Hart* Mitchell are just busy being housewives — although Kay ardently pursues her hobby of antiques, and glass collecting in particular.

Guess this about ends the resumé. We all had fun and just wish more of our classmates could have been there too. Make a real effort to come next time — See you all in '69.

Kay *Hart* Mitchell

## 1925

Dorothy *Beeley* Marsh and her husband are now living in the San Fernando Valley. Their son is with Kidder Peabody in New York, and Jacqueline is a sophomore at the University of Arizona.

Barbara *Potter* Larned's daughter, Polly, has been selected by the University of

California at Santa Barbara to spend her Junior year at the University of Bordeaux in France.

The class extends its sympathy to Louise *Douglass* Hill whose husband died in January.

## 1928

Betty *Ryan* Hill reports the birth of a grandson, Robert Woodside to her daughter, Pamela.

## 1929

Reunion Chairman: Mrs. Edward P. Batchelder (Peg Neville), 11 Garfield Ave., Weymouth, Mass.

There were five of us at reunion and, although the number was small, we had fun. We wish more of you had been able to come.

Charlotte *Osgood* Bennet is a staff dietician at Overlook Hospital in Summit, New Jersey. She has two married daughters and 5 grandchildren.

Rosamond *Wheeler* Putnam has one daughter, Rebecca, eight years old. She and her family are planning a trip to England next month for six weeks.

Marjorie *Watson* Uppling's daughter, Margot, is married and has made Marjorie a grandmother.

Joyce *Jarman* McNamara's son is working for his M.A. at Columbia.

Ruth *Shulze* Hammond is very busy with her dress shop in Andover. She is planning a trip to Europe this summer.

News gleaned from your letters:

Harriet *Gilmore* Yoh's oldest daughter, Sally is married and has a 2-year old son. Susie, another daughter is a sophomore at Penn State. This leaves "Gillie" free to travel — to Europe and West Indies this year.

Despina *Plakias* Messinesi has been dashing back and forth across the Atlantic like a yo-yo — Spain, Switzerland, France — all separate trips. This is Despina's 24th year at Vogue.

Alice *Butler* Wright just moved to Ventura California. The oldest son, Ted, receives his M.D. in June from B. U., John is a Junior at Colgate and Robert is in the 7th grade.

Elizabeth *Hulse* Freeman's husband is a research physician and is Director of Medical Research at the Stanford Research Center. Betty is a psychiatric

social worker. Her son, John, graduated from Harvard and is going to Duke Medical School in the Fall. Son, Robin, is at Brown and daughter, Phyllis, is in the 10th grade.

Gwen Jones Hamblin's daughter, Frances, is a sophomore at Wellesley and son, James, is studying at the University of Southern California Business School.

Estelle Levering Chestnut's husband is retired. Daughter, Judy is a freshman at Northwestern.

Gay Stevens has just returned from a 6 week "junket" to Honolulu, San Francisco and Seattle.

Cleo Higgins Leavitt has been a teacher, librarian and now has her master's degree in social work. She is a psychiatric social worker at the State Residential Treatment School for delinquent girls in Bothell, Washington. Her husband is an engineer at Boeing. Her four children are married and she has 5 grandchildren.

Betty Taylor Amazeen was unable to come because she was going to "Gitmo", the Cuban Naval Base to visit her daughter, Betsy, her husband, and three grandchildren. Betsy was expecting her fourth child and grandma couldn't stand not being there. Betsy's son, Ted, Harvard, '62, is being married in June and her daughter, Nancy, graduated from Lindenwood College, St. Charles, Mo. on May 23.

The class will be sorry to hear that Millicent Smith Uppvall's husband died last November. He was ill for just five days. Our deepest sympathy, Millie.

We missed Polly Francis Loesch on Saturday and were sorry to hear that her sister, Grace Francis Jenkins, 1919, passed away on April 27, 1964.

Kay Blunt Polsby is still active in the health field in their community hospital. Her older son, Dan, graduates in June from the University of Colorado Law School and younger son, Dids, is working in California with Georgia Pacific Plywood.

Jo-Jo Anthony Castor called. She had the measles. Jo-Jo is the local tax collector.

My son, Dave, will get his Ph.D. in June in Physics at the University of Illinois. He met a cute Welsh girl there, and was married in Cardiff, Wales, last August. Tucket is married and is a medical secretary in Hingham.

Hope we shall see more of you at Abbot in 1969.

Alice Canoune Coates writes that her daughter, Nancy, will be married in June to Rev. Russell Martin Chenweth, Jr., assistant rector of Grace Episcopal Church in Plainfield, N.J. Her daughter, Marian, is at Connecticut College.

Bobby spent the summer in Europe at a French camp while Kathy was at a Friends Service camp in North Carolina. Mary is active in a most unusual organization, "Young Audiences" which offers classical concerts by small groups of professional musicians to all independent and public schools in the Philadelphia area. They sponsored nearly 400 concerts last year and are the second largest employer of musicians (outnumbered by the Philadelphia Orchestra).

### REUNION REPORT

Mrs. Edwin A. Brewer (Marjorie MacMullen), 168 Maple Ave., Shrewsbury, Mass.

The New England weather was good to us for our 25th reunion and Abbot never looked lovelier. It was really good to be back and we all wished that more of you could have come. We have to confess that some of us puffed a bit as we climbed the stairs to the chapel but "chapel" still seemed to hold specially poignant memories and perhaps symbolizes the fact that though Abbot has moved forward greatly, it has never lost a stability of roots and ideals so that in many ways it seems completely unchanged.

Barbara Bobst Paul, Lucia Buchanan Livingston, Olive Butler, Joan Hubbard Lawson, Barbara Leland Pearson, Virginia Rice Kneller and I were the reuniting class of 1939.

First, for those of you who couldn't come, the news of those of us who did:

Bobo's son, Frank, is 21 and she has two daughters, Judy, 16½, and Shirley 5½. Judy is apparently following in her mother's steps — having a fine voice and currently aspiring to a career in music. Lucia has reason enough for a busy life with 9-year old daughter, Marnie, and 11-year old son, Kipp, but she also does much volunteer work and says that she sees "Curt" about once a year in New York. Olive Butler joined us in time for lunch and thoroughly enjoys her position as right-hand gal for an Andover physician who is coincidentally Abbot's doctor. Joan Hubbard Lawson came up from Connecticut, having left 14-year old Bruce at home still recovering from a leg broken while skiing. Joan also has a 19-year old son, Jud, who is at Lafayette and a 4-year old daughter. She and her husband have a beautiful new "vacation" house in West Springfield, N.H. Barbara Leland Pearson describes her life as "busy!" Her 15-year old son, Jack, is at Cardigan Mt. School and 10-year old Sally is at Belevedere Country Day School in Lowell of which school Barbara's husband has just become president of the trustees.

Ginny Rice Kneller says she "dabbles in real estate". She is currently wondering what prep school her 16-year old son, Jay, will enter in the fall. Ginny and her family will be moving soon to a new home in Orleans. As for myself, — I have 3 boys, 10, 9, and 7, seemingly innumerable cats, dogs, snakes, turtles, hamsters and anything else alive that they can catch, and am slightly busy as a cub scout den mother plus laundress, chauffeur, referee and all the rest.

At luncheon, which was utterly delicious and far from slimming, we all shared the messages I had received. It was fun for all of us to hear from so many of you.

Here are some highlights, and how about those we didn't hear from sending their news to Abbot soon?

Ellen Alden Reed went to Europe in April so felt she had had her trip for '64. Barbara Bellows Kaiser sent a card to us at Abbot — she had hoped to come East but couldn't make it. Mary Curtis-Verna sent word that she would be singing in Texas on reunion day. We have all certainly been proud of your wonderful success, Curt. Nancy England Worthen was kept home by family responsibilities on reunion day, but sent a note of 'Hello' in time to be included here.

Roz Graves Cleaver couldn't make it from Michigan for reunion, but expects to be in Andover often during the coming years as her daughter, Caroline, will enter the 9th grade at Abbot next year. Harriet Hume Waters sent a word of greeting, and her regrets that she couldn't make reunion. Cherrie Koch Danos wrote from Spain that her daughter, Polly, who spent her sophomore year at Abbot, is going to Radcliffe next fall; her daughter, Peggy, is a freshman at the American School of Madrid. Her husband is Managing Director of 3M in Spain.

Florence Mooney Doty sent "Fond hellos to my good friends of Abbot days" and news that she is moving to Switzerland June 1 where her husband is to be European Editor of Aviation Week Magazine. Annie Oakman Deegan had to cancel out at the last minute with a telegram that two of her four were ill — this has been a really big measles year! Polly Pancoast Tunkey had also hoped to come but is, instead, recuperating from a gall bladder operation. Polly's oldest boy, Bill, III is finishing his freshman year at Colgate. 17-year old Jeff hopes to go to Mt. Hermon next fall. Jim is in the 8th grade, Pam the 5th grade, and Chris, in grade 4. She said she and her family expect to be moving to Syracuse in the fall.

Carol Parker Olson moved on May 4th and just couldn't make Andover too. She sent "love to everyone and tell them if they're ever in D.C. we are in the phone book". Only a change of street for your list — now 10 Rosemont Dr. Pat Perry Braun wrote that her son is a typical 11-year old (I have one 10½ and know what

you mean, Pat) while she is currently serving as president of the Board of Directors of the Sheboygan County Guidance Center. Audie Rugg Shanaberg is busy with volunteer hospital work plus 4 offspring, and sends "love to all". Is Newark, Ohio part of a new address we should have, Audie? Sadie Sawyer Wood had hoped to come back but her children's activities kept her in Bangor for the week end.

A wonderful letter and picture came from Connie Smith Templeton. Her 17-year old daughter, Marge, swam for the U. S. last year in the Pan-American games in Brazil and comes to N.Y.C. in August to swim in the Olympic trials. Connie expects to become a grandparent (son Bob) in July. She and her 16-year old Susan will be in Elmira, N.Y. in August while "nerveless pop" goes to N.Y.C. with Marge for the trials. At the end of the summer Connie will be moving to 22122 Islander, Huntington Beach, California with the welcome mat out. We'll be rooting for Marge and thanks for all your news, Connie.

Jeanne Waugh Harney has 2 girls at Abbot and will be coming from Norway for Joan's graduation June 1st. We saw quite a bit of Joan and almost felt Jeanne was with us. Jeanne has moved from Greece and her new address is Norske Esso, P.O. Box 1369, Oslo, Norway. A letter from Woodie in Africa said she gets back to America every 7 years so she might make the 30th, having last been here 3 years ago. Her husband is now a judge of the Supreme Court, comparable to a Federal judge here. She also brought us up to date on her 4 children, John, 21, Sue, 20, Tim, 16, and Anne, 13.

The following letter was received from Lloyd Pierce Butler:

"Greetings and best wishes to all of you from England. I remarried last summer and we now have a house we love about 30 miles from London in a country town surrounded by beautiful Kentish countryside (in full bloom at the moment). I am expecting a baby late in June so I am also in full bloom (the late variety, to say the least!). My daughter, Cynthia, is also expecting about two weeks earlier than I in Oak Ridge, Tenn., so there is something of a mother-daughter race going on. Will I be a grandmother before or after I become an English mama? My husband is with the diplomatic unit of the B.B.C. He writes and broadcasts political talks overseas.

Some of his talks are translated and re-broadcasted into about 50 languages. We may get to the USA next year or sometime in the near future. My daughter Kim, age 17 is at school here in England.

"My love and greetings to Abbot and all gathered for reunions."

So there you have all the news that I received. Everyone seemed delighted to have the address list so be sure and keep it up to date by sending changes to the Alumnae Office. We wish more of you could have joined us and as so many of the cards and notes said, "Maybe next time."

We did attend to a brief bit of business and were pleased to have Barbara Leland Pearson say she would be chairman for our 30th reunion in 1969. Remember the date!

##### REUNION REPORT

Reunion Chairman: Mrs. Albert G. Tierney, Jr. (Elizabeth Colson), 20 Harbor Ave., Marblehead, Mass.

To those of you who couldn't journey to Abbot, there were the following young "same as ever" gals who called our 20th a success! See picture. Alva's son is at P.A. (and was squiring his date for Prom week-end) and her daughter will attend Abbot next year. She and Aagot both look too young to have Prep-schoolers! We also met Tut Baylor Little's daughter, Debbie, during the day . . . she is a student at Abbot now, and seems very much like her mother. Gil Rich Ferguson's 12-year old Debbie joined us too and kept repeating how "neat" the school was with all that fun going on during the Bazaar. (Not quite a typical day of study!)

The excellent luncheon following the Alumnae Meeting found us with two welcomed guests . . . Miss Hearsey and Miss McKee. The afternoon passed quickly and was highlighted by our group descending on and enjoying thoroughly the hospitality of Mary Carpenter Dake and husband Rocky. (Cigaretts with Miss Hearsey and drinks with Mrs. Dake . . . make us *know* 20 years have passed!) Afterwards we dashed cross-

country to the Tedesco Country Club in Marblehead for much talk, cocktails, and dinner.

One other innovation of May 9th was the long-distance, reverse-charges telephone calls we made to Marty *Watkins* Curry, and to B. J. *Bertucio* Martuscello. Both these recipients were really quite willing to foot the bill and the ensuing conversations were full of nonsense. Your representatives there came to the conclusion that each absentee on our 25th will also be honored by a long-distance, you-pay telephone call. It will be easier (and cheaper) to *come!*

The class extends its sympathy to Nancy *Barnard* Soule whose mother died February 24.

Carol *McLean* Bly's husband recently won an Amy Lowell Traveling Fellowship, an award given to poets, and a Guggenheim Fellowship in Poetry. The Blys and their children are living in England and Norway this year.

#### 1948

As of early May, twenty class members had returned questionnaires sent out earlier this year; not enough to work up any interesting or conclusive statistics, but here follows, in alphabetical order, news from a half dozen replies.

Marty Barber is Mrs. P. B. Lowrance and lives in Earlsyville, Va., with her husband and baby girl. Marty graduated from Hollins and later received an M.A. as a medical technician from the University of Virginia Hospital. Her husband is an associate professor of internal medicine at the University of Virginia. Her most exciting news is the birth of Laura after nine years of marriage.

Bis Bisgood lives in Toledo, with her husband, Neal Galusha, and their four children (three boys and a girl). Bis attended Elmira College and was married in 1951 in Germany, where they lived for two years, visiting several European countries. "We moved every two and a half years so perhaps the nicest thing that happened was staying put for a change. I do as much outside volunteer work as is possible with four children, a four-story house and limited help . . . Neal enjoys his work (Thatcher Glass) and I enjoy my family (except at lunch times!). Have a handsome energetic brood."

Lee Booth lives only seventy miles away in Kendallville, Ind., with her four children (three girls and a boy.) Lee attended Smith and married George Witter in '51, and lived for many years in various suburbs of New Haven. George (Corky) is editor and general manager of the *Kendallville News-Sun*. They recently enjoyed a three-week vacation, principally to the Virgin Islands — the first vacation in four years! The most exciting thing? "Emergence from nine years of washing diapers!"

Toddie Cookman is married to Raymond A. Price and lives in Fitchburg, Mass., with her two children. Toddie graduated from Wellesley and worked as a nursery-school teacher for a year. The Prices lived in Philadelphia and have been in Fitchburg for five years where Raymond is vice president of the Webber Lumber Co. Toddie does volunteer work for the Hospital Guild, the Community Concert Association and the Fitchburg Art Museum.

Lish Cooper has a daughter going on 13, and three boys. She attended Hollins and married Barry Wright, Jr., an attorney of Rome, Ga. Their most exciting news is "building a new house — which we had been planning for four years . . . This has been very exciting and very traumatic . . . With children in three separate schools I am not much more than a glorified bus driver." Lish hasn't been north of Baltimore in five years, "so while I move around a lot it seems mostly to be in small, concentric circles. I would love to hear from all of you — and really will answer. Would love to see anyone who will venture this far south."

Patty Gillen has four boys and lives in Minneapolis with her husband, Preston C. Haglin, a civil engineer. She attended the University of Minnesota and has had two trips to Europe, "Both of which were very interesting and great fun. We have rounded our family out with our fourth son. I enjoy every day of my life with my husband and four nice boys."

More news next issue of the *Bulletin*. But those who haven't returned their questionnaires, please do.

Reunion Chairman: Mrs. James P. McLane (Barbara Hamby) 7 Glenwood Dr., Darien, Conn.

5 members of the class attended reunion — see picture. They send the following message: "We've decided to save the excavation of our class 'time capsule' until our 20th reunion at which we *expect* a much greater attendance.

"To all of you who couldn't attend this reunion, we missed you. It was a lovely day — Andover and Abbot were beautiful."

Barbara was unable to attend reunion at the last minute because she had German measles. She sent the following news:

"Please extend my regrets and fondest, best wishes to everyone. I was really looking forward to this weekend, but hope others shall enjoy themselves.

"Lyn Olney Paglee will not be at Abbot because her twins arrived on February

25th! Annette Madelon and Mary Jane. Her Susan is nine and Robin is her boy (age unknown). Obviously, she is a busy mother, Margaret *Black* Dintruff lives in Rochester and has returned to college after twelve years — taking five courses a semester. Her three children, Carol, 12, Alison, 10, and Robbie, 8, as well as her husband, who is vice-president of Genesee Explosive Sales, Inc., think this is great, but life must be hectic at times.

"Ninna *Espaillet* de Crouch sends her regards to everyone. Her three boys and one girl are beautiful children, the two older boys come up to Maine for summer camp. For Dominican tourists, Nanna's telephone number is 2871 and she would love to see you!

"Debbie *Willams* Troemner has just returned from Europe and the Near East. She saw Jo *Parks* Husovsky in Paris, who has announced the birth of a son, Peter Parks, on March 17th.

"'Zipper' *Pierce* Scriver is a doctor's wife in Montreal and the mother of Daellar, 6, Peter, 5, Julie, 3 1/4, and Paul, 9 months. She sends her best to all her old friends.

"Freddie *Brown* Bettinger's husband is Rector of St. Andrew's Episcopal Church, Diocesan Youth Commissioner, and part-time Chaplain at the Veteran's Hospital, etc., etc., in Madison, Wisconsin. With four children and numerous civic duties, Freddie sounds happy and active.

"Ellie *Bozyan* Warburg writes from London. Following her letter detailing her choral singing and home organ practice, came the announcement of their third son, John Peter, born April 13th.

"As for myself, Jim is assistant to the sales manager for Life Magazine and we lead a very suburban life in Darien. By September, Jimmy will be 8, Peter 7, Susan, 6, and Matthew, 3. Other than collecting for various funds, etc., I substitute teach in nursery school on occasion, try and convert as many Darien residents as possible into Democrats, help with the annual Vassar seminars that are held here, and am on what looks like about a ten-year program for a second Masters' or whatever from Bank Street College of Education. I am slowly getting back into Parent Education, too, and am about to speak on discipline. Now that I have four products of my philosophy walking around Darien, I guess I'll have to state my case advisedly, although much more wisely than in what seem now like carefree undergraduate days!"

REUNION REPORT

Reunion Chairman: Mrs. M. Judah Folkman (Paula Prial), 1 Emerson Place, Apt. 15-0, Boston, Mass.

We have reason to be proud . . . our attendance at Reunion on May 9th was impressive. See our smiling faces in the Reunion picture; besides those who posed for the photographer, we can also report that Leslie Burgiel, Ann *Hunt* Graf, and Petie *West* Dorain came for at least part of the week end. We received messages from Audrey *Davis* Trowbridge, Linda *Jones* Campbell, and Marion *Badoian* Emmanuel . . . not to mention the many post cards returned to your Reunion Chairman. Thanks to all of you for helping to make it such a happy time!

The week end began with an "Open House" at Paula *Prial* Folkman's apartment in Boston . . . and husbands seemed

to enjoy meeting each other there! The weather was beautiful for the Luncheon and Bazaar at Abbot on Saturday; in fact, comments were heard to the effect that the sumptuous Lunch (including "Heavenly Goo") was going to put back all the many pounds we all seemed to have lost since our Abbot days! Ten of us carried our Reunion right through dinner at Fieldstone's, bringing a delightful day to a delightful close.

Several interesting bits of news can be shared with you all . . . Marion *Badoian* Emmanuel and husband are in Boulder, Colorado, she at the National Center for Atmospheric Research, he at the National Bureau of Standards. Their work also takes them all around the country, and they plan to be in New England this summer. Val Brodeur has spent the last 3 years in Paris with the Foreign Service. She is now studying Egyptology in anticipation of a trip to the Sudan with a University of Geneva group. Her fiancé, an American sculptor and painter, will do the photography for the expedition. Leslie Burgiel works as an assistant in the Harvard Business School. Jane *Church* Lang's husband is a Resident in Neurosurgery at Chicago Wesley Memorial Hospital; two children keep her busy as well! Audrey *Davis* Trowbridge is now related to Corny *St. John* Lewis . . . Corny married Audrey's cousin! Panna *De Cholnoky* Grady is married to a playwright, lives in New York, and spoke glowingly of her infant daughter! Nancy *Donnelly* Bliss' husband teaches at Greenwich Country Day School; they live on the campus with their two children. Mary Lou *Duffy* Abata's husband is working on a Ph.D. in Zoology at Indiana University, and their son, Joseph is 1½ years old. Pat *Emery* Wolfe is busy in New Hampshire with her remodeled farm-house, 3 children, 5 dogs, and 15 chickens! Bev *Gramkow* Melinn has been working part time as an Instructor in Nursing at Peter Bent Brigham Hospital in Boston. Betsy Harman is an officer in the Waves, doing Radio and TV work in Hollywood! Debbie *Huckins* Mahoney's husband graduates this spring from McGill Dental School: they hope to settle in Boston. Suzanne Kent has been working as secretary to the Dean of Harvard's Graduate School of Design. Sue *Larter* Lingeman's husband is an ophthalmologist; they welcomed their first child (a daughter) into the world last February. Sandy *Liberty*

Wilcox is Sue's fellow-Wellesleyite. Sandy has two children. Maris *Oamer* Noble and husband both teach at Deerfield Academy. Vicky *Schwab* Aronoff's husband is active in Ohio politics and is in the State Legislature. (Their third child was born this past February). The Cincinnati newspaper had a reference to Tracy Aronoff recently — Tracy doesn't yet realize the significance of the Pledge of Allegiance, and has changed it to suit herself. Each morning at nursery school, she says: "I pledge allegiance to the flag of the United States of America, and to the Republican which is Stan." Pat *Skillin* Pelton's husband is with the Connecticut Bank and Trust Co. Pat teaches piano, plays the organ, and takes care of two little girls! Sam *Thayer* Zaeder enjoys life at the Taft Schol with "all those teen-age boys . . . and their own two children." Joan *Wheeler* Kaufman was recently married to a minister who is also a student at Episcopal Theological Seminary in Cambridge . . . another bride is Edie *Williamson* Bacon, who was married 6 months ago to a lawyer. Nancy Friel was married April 11, 1964 to Joseph B. Gill of Cranston, R.I., a sales engineer for Fafnir-Ina Needle Roller Bearing Co. in New Britain, Conn.

Molly *Young* Sauereisen is our new Class Fund Secretary, and Sue *Larter* Lingeman will plan our 15th Reunion. In the meantime, keep Abbot informed about all those babies which we know are due any time now for so many of you all . . . and all your other exciting news too!

### REUNION REPORT

Reunion Chairman: Gale Barton, 6 Brimmer St., Boston, Mass.

How does it feel to return to one's school after five years? Gale Barton, Lolly

Bell, Susan Bradley, Ann *Travers* Butler, Sue Calnan, Alma Grew, Betsy Harriman, Elsie Kellogg, Missy McGehee, Tina Savell, Kitty Sides, Laurie Smith, and Sue Wholey are the '59ers who can answer the question. A report for the fifth reunion is a difficult task because so many things happened, and all of us who returned had different feelings and impressions. In general, Abbot has not changed much and none of us have changed much.

The events of the day, for those who wonder what actually happens at a reunion, began with 9:30 registration. Alumnae from the various classes arrived and picked up name tags. At 10:30 the Alumnae Association meeting was held in the Chapel. After the official news and business was conducted, seniors came in singing old, familiar songs, serenaded Mrs. Crane and numerous alumnae classes, and then triumphantly marched out singing their own senior song.

For many of us the high-light of the meeting was the report from three seniors about student government activities, curriculum, and the challenging experience of a course in Chinese language. It was interesting to learn that Abbot provides the opportunity for advanced study in French, English, Biochemistry, and Chinese, allowing some students to enter college on advanced standing.

At 1:00 a delicious luncheon was served in the Bailey Dining Hall. Classes sat together. This was a fun time, allowing '59ers to get caught up on the latest news and allowing us to conduct a little of our own business. Kate Sides was elected chairman of the 10th reunion and Susan Bradley was elected Class Fund Secretary for 1964-1969.

In the afternoon the class treasure box was unearthed, and many very peculiar puzzling and, in some instances, unmentionable trinkets were uncovered within. If feasible, these will be sent to the appropriate donors.

The '59ers spent the rest of the afternoon at the Bazaar and a few stayed over at a picnic-dinner at my house.

It is a pity that more did not come back to the reunion, but it is understandable. Our class is very busy and spread all over the world. We have much to be proud of. In total, I heard from forty-three members. More than twenty-one are married, several are mothers, some are expecting, many are engaged, many are still studying, some are traveling abroad.

In general the fifth year reunion was a very enjoyable, very informative ex-

perience. I hope that many of you who didn't make the fifth reunion will get to the tenth. In all cases I send best wishes to all the members of the class of 1959.

And now here is all your news.

Annie MacCready is the social chairman of her dorm and is also an active Tri Delt at B U. She will be working at HoJo's in Hyannis this summer and says to stop by for free ice cream . . . well, not exactly.

Paishy Meigs scribbled a few words in time to meet my deadline. She will be studying at Harvard this summer in preparation for her Junior Year Abroad.

Freddie Moxon is very active at Vassar . . . and Yale and Harvard. This summer she will be working with the planning commission at home. She saw Jonell Briggs this spring.

Bo Moulton has pledged Alpha Omega Pi at Washington. There she plans to

major in Biology. She will spend this summer in Maine.

Maria Pastoriza spent part of her vacation visiting in Texas. She had a nice visit with Sue Coolidge this Spring as did Bo.

Meg Power writes from Cambridge that she has switched her major to Social Relations (comparative cultures). Next year for her Junior Year she will be on an Independent Study Program. This summer she is off to England for a few weeks and then back to Pakistan to join her parents and to be joined by Sue Coolidge.

Sandy Price spent her vacation at home in Bermuda. She loves Gibbs.

Bettina Proske was at home in Oyster Bay over vacation. She will be working in the New York area this summer.

Tish Upton pledged Kappa at Michigan. (Gretchen Whitehead '62 is a sorority sister of hers).

Helen Watson is pinned to a senior at Williams and is thrilled. She and Poops are still looking for summer employment.

Iris Vardavoulis has been active in the choir and in the spring musical at Colby. She has often run into Nancy Moll and Cindy Sorenson in the Phelps Gate vicinity apparently they are still alive.

Laurie Stevenson is at Arizona where she too has become a science fiend.

Linda Richardson was pinned to Rip Dupont in April. This summer she will be helping at the Country Day Camp in Greenwich.

Chris Stern was down at Briarcliff for a short visit. She will serve as the Vice-President of the Bennett Student Council next year.

Nanci Sullivan met Sue Archer and me in Andover over spring vacation where we had a short visit with Mrs. Frederick. Ratcliffe seems to be the perfect place for Nanny.

I went to Evanston over semester break and fell in love with the University. I ran into the blonde version of Sharon Seeche at Yale Prom week end. Apparently blondes don't have more fun, because she was back to normal within a month. This summer I will be working at a small girl's college thirty-five miles north of New York. The campus is lovely and the people are wonderful. Also, I shall be acting as a tour guide in a program sponsored by the NSA for foreign students, Parlez-vous francais? Habla usted espanol? If you come to the World's Fair, don't fail to call me at home or at Briarcliff.

“Plus ça change, plus c’est la même chose”

So it seems, at Abbot, as each autumn comes round, because there are similarities and echoes each year. We feel the tempo pick up, day by day through September; opening day arrives, with the shrieks of the old girls encountering each other in the corridors and the wonderful stiff upper lips of the new girls. Stacks of new books on desks are transferred to waiting arms, there is much dashing to and fro with tests and tryouts and meetings. Vistas are opening up — the eye travels down the Maple Walk and the mind looks ahead to glimpse new knowledge.

## *Greetings*

Of course there are changes. For every new face there is one missing; last year’s Seniors are scattered. If there are no new buildings, there are new looks, new colors, new partitions, new equipment. The school is larger than ever, and we must hold daily Chapel in Davis Hall, although we can still gather in the Chapel for Vespers.

Mrs. Duncan is established as Director of Admissions. This year Abbot, as well as a great many other schools, will make its decisions about its candidates in the winter and notify them on February fifteenth.

One other marked change comes with the retirement of Mr. Burton S. Flagg as Trustee and Treasurer. At Commencement time, Mr. Hunneman and Dr. Lovett, speaking on behalf of the Trustees, saluted him as Trustee and Treasurer-Emeritus and presented him with a commemorative scroll and a gold book-mark. It is impossible to enumerate the benefits that have accrued to Abbot during the fifty-eight years of his service as an officer of the school. His foresight, care and devotion have been given without stint to the school’s interests. It is equally impossible to express our gratitude for what he has done.

## *Faculty Facts*

Miss Gertrude Tingley retired in June after thirty years of teaching voice at Abbot to the great regret of her students and colleagues. She was an important member of the department which maintained and increased the reputation of Abbot as outstanding in Music instruction and opportunity. She has been responsible for developing many hidden musical abilities and for encouraging talented students to follow careers in singing. Her high standards of performance made her teaching most effective. Her sympathetic interest in the problems

of her students helped many girls in their adjustment to life at Abbot and in the world. Miss Tingley's interest in her students did not cease with their graduation — she followed them in their careers in music, business or at home.

The many Abbot alumnae who knew her will be glad to know that she will continue to teach at her studio in Boston. We all wish her every happiness.

We regret to report that several faculty members have not returned this year. Miss Dorothy Dains, a member of the Mathematics Department since 1958, is now teaching at the Master's School. Mrs. Matthew Novak, Mrs. Crane's secretary, has moved to Charlotte, North Carolina with her family. Miss Elizabeth Nields of the English Department and Miss Barbara Keener of the Science Department are continuing their studies.

Mrs. John H. Sisson returns to the English department after a year's leave of absence.

There are several new faculty members. Miss Helen Smith, who will teach physics and science, received her B.S. degree from Central Connecticut State College and an M.S. degree in education from Cornell University. Miss Smith has previously taught at the Chaffee School in Connecticut and the Cleveland Heights High School.

Miss Sylvia Kuzminski who is a graduate of Merrimack College, will teach mathematics. Miss Kuzminski has done graduate work at the University of New Hampshire and comes to Abbot from the Plaistow, N.H. school system.

Miss Louise Shaw joins the Physical Education Department and is a 1964 graduate with a B.S. degree in Education from Tufts College (Bouve-Boston School of Physical Education).

Mrs. Richard Abbott of Andover has been appointed secretary to the principal.

Mrs. Marjorie Hutton will be resident assistant in Draper Hall and will do part-time work in the school library. Mrs. Hutton recently was on the staff of Rosemary Hall in Greenwich, Conn.

## *A Message from Miss Hearsey*

I am delighted to know that there are so many alumnae daughters and relatives entering Abbot this fall. This constant stream contributes to the continuity which characterizes a strong school and indicates the place that Abbot holds in the minds and hearts of its old girls. The alumnae can be confident that although there are inevitably many changes since their day, the fundamental aims and qualities remain an "Ever-fixed mark."

Since my first graduating class — 1937 — twenty-seven years have passed and now each year, daughters of the girls I knew will be entering college (as well as Abbot) and will be visiting colleges before they make their choice. Doubtless many of you will be coming to see Wellesley and when you do, remember that I live in Wellesley, quite near the college, and if possible do call me up and give me the pleasure of seeing you and your daughter. The address is 47 Cottage Street, the telephone, Cedar 5-2703, and if you need to use the telephone book, remember that my last name has an 'A' in it!

Yours, with many good wishes,

MARGUERITE HEARSEY

# ABBOT DEVELOPMENT FUND

1963 - 1964

Gifts to the Abbot Development Fund totaled \$58,571.28 for 1963-1964. This sum is larger than in any previous year.

These gifts have enabled the Trustees to appropriate the following amounts toward the 1964-1965 budget:

Faculty Salaries . . . . .	\$30,000
Scholarships . . . . .	\$15,000
Laboratory and classroom equipment, lecturers—Approx. . . . .	\$10,000

The financial assistance derived from annual giving is a vital part of the school's financial program. More important, it represents the confidence and the interest of the alumnae, the parents and the friends of the school in present-day Abbot and its future growth.

My thanks to all of you who gave so generously, especially E. Benjamin Redfield, Jr., Development Fund Chairman, Stuart D. Watson, Parents' Chairman, Mary *Howard* Nutting, '40, Alumnae Chairman, and the Class Fund Secretaries to whom much of the credit for the success of the program is due.

ROBERT I. HUNNEMAN  
*Chairman, Board of Trustees*

A group of Isabel Hancock's friends have made a gift of about five hundred and fifty dollars for books for the library in her memory. The donors have requested that the books chosen be in the fields of Isabel Hancock's special interests — mathematics, astronomy, and architecture. The books will become part of the general collection of the library but will be identified by the book-plate illustrated here.

#### 1957

Hello, May is here again! No, you haven't received a back issue. I missed last May's deadline due to an error in dates.

Lucy Beebe Tobias and family are in Seattle, Washington where Joel has a general surgery residence at the same hospital at which he interned. This pleases them greatly since Lucy and Joel hope to settle in the area which also offers many opportunities for camping and fishing. The Tobias family has numbered four since January 23, when a second son, Martin Gabriel, arrived.

Another classmate in the West, Nance Davison Miller, is kept quite busy these days tending her daughter, Cathy, who moves "80 mph speed". Duane started private practice in July in the San Jose area — "You couldn't pay us enough to leave this area", writes Nance. However, she and Duane do hope to venture East for a World's Fair visit next year.

In June of 1963, Marcia Colby Frame's husband, Hank, embarked on a new career as a salesman for Magnetic Seal Corporation with a territory from Boston to Washington, D.C. Thus, to be in the middle of his territory, the Frames have purchased a house in Ridgefield, Conn., after a "final fling of independence" on a Bermuda vacation. But their biggest news is the arrival of their first bundle of joy, William Michael, last October 18th. As Marcia sums up in her letter, "It's been quite a year of change for us — new job, new home, and our beautiful baby boy, is, of course . . . the event that has made us the happiest." Marcia's address is 6 Tanton Hill Rd., Ridgefield, Conn.

Both Pat Bijur Carlson and her husband are doing graduate work at the University of Illinois. Pat is studying philosophy and her husband is in the classics department.

I received a nice note from Penny Post's Mother, catching us up with Penny's whereabouts. After receiving her M.Ed. at Harvard, Penny taught school in Massachusetts before leaving for Europe last

April where she studied History of Art at Cambridge University in England. The latest report, Penny is back in the states and recently attended her brother's wedding.

Dinah Hallowell, who also has been in Europe, returned home after a delightful two years of studying at the University of Munich and at language schools in Spain. While there, she spent Christmas with Emmy Meyer Michalopoulos and is godmother for Emmy's daughter, Thanai. These days Dinah may be found working at the Museum of Modern Art and living at 45 East End Ave., New York, N.Y.

Louisa Lehmann Birch and Family (daughter Sarah was born December 5th) have left sunny California and returned to Cambridge where David is attending the Harvard Business School.

Ellen Parker reports she is very busy with her job at Design Research in Cambridge. She has moved to New York to work in their new store.

Joan Plowden Younce's husband has been transferred to the Mobil office in Oklahoma City. All the family is enjoying their new home. In June, Joanie and Gordon flew to Nassau.

Sue Rairdon Allen is living in New York City where Tom is working for Young and Rubican. Sue's daughter, Katie, is now two and a half, and, needless to say, "More fun every day."

Another of our world travelers, Carol Gaines, returned from Europe last Jan. after a wonderful two years, and she hopes to return again soon. Recently she's been keeping house for her parents who have had several operations (hope all is well now) besides doing research in American History. The city beckons, however, and soon Carol will begin job hunting in New York.

Last Spring Jackie Goodspeed vacationed in the Virgin Islands and wrote that she loves the place more each visit. This year she arrived in time for carnival so had an especially exciting time.

On June 20th Carolyn Cooper walked down the aisle, so she spent much of last spring in the delightful business of wedding plans. Carolyn's husband, Courtney Freeland Bird, Jr. of West Newton, Mass. is a graduate of Governor Dummer and Middlebury College. He is a candidate for his master's degree at the University of Rhode Island.

Miriam Ganem was married to Larry Eugene Reeder of Topeka, Kansas, Aug. 22, in Salem, New Hampshire. Agnes

Daley Rothrock, '58, was one of the bridesmaids. Larry attended Harvard.

Judy Botnick has also become involved with wedding plans! Her engagement was announced in August and my crystal ball tells me the groom-to-be is John Carmody of Petersham, Mass. who graduated in 1961 from Yale and is a 4th year student at Harvard Medical School. A December wedding is planned if John's busy schedule permits.

The most exciting news from the Lewis household is the arrival of number one son, Peter Ripley, last November 15th. He was 22 days late, but his proud Mommy and Daddy feel he was well worth waiting for. We will be at Dover Air Force Base until April when John will return to civilian law practice in Philadelphia. Currently John is conducting court martials for the Air Force and clerking part-time for the Chief Justice of the Delaware Supreme Court. Though most of my time is spent in the delightful task of caring for our son, I spend a few hours weekly with a Girl Scout troop, a Sunday School Class, and The League of Women Voters.

That's all for this issue, but please keep your letters and notes coming. My son likes to play with the envelopes and I enjoy being able to pass on your news to everyone. Let's have a class reunion each issue.

Best to all,  
"Sammy"  
Cooper Road.  
Dover, Delaware

#### 1964

The Class of '64 having miraculously metamorphosed into the Class of '68, seems to have expended in the process a great deal of that excess energy that was finally released last June.

A large number of us, inflicted with post-grad wanderlust, not only left Andover behind, but the U.S. as well. Linda Pattberg went *completely* around the world, returning to the simple life on Sutton Place (her family has moved from Ridgefield). Margaret Deutsch must have rivaled that feat, for the last I heard, she had encountered Miss Smith in Istanbul. Suzanne Woodward "tripped over Miss Friskin and Miss Tinker in London while on a family trip through England, Scotland, and Greece, where she spent six weeks living with a Greek girl. Also in Europe, were Sue Trafton and Pat Mor-

ril. Sue bicycled and Pat, after stopping at Stratford-on-Avon, studied for a month at the University of Grenoble, then joined a tour of college students through Italy, Switzerland, and France. Joan Harney, besides romping around Oslo, spent three weeks traveling in northern Norway, Sweden, and Finland. Studying the "Mexican mind", and nearly becoming Eine Deutsche Frau, was Melinda Bateman.

However, the most awesome of all itineraries (excepting Linda's) was that of Barbara Hugon's trip through the States and Canada, visiting many Abbot people along the way. She wrote me a wonderful, long letter; I only wish I had room to include it all. Her stops, in order, were: New York, Connecticut, Williamsburg, Richmond, Atlanta, New Orleans, San Antonio, Santa Fe, The Grand Canyon, Los Angeles, Santa Monica, Yosemite Nat. Park, San Francisco, Portland, Seattle, up the Puget Sound to Victoria, Vancouver, Lake Louise, through the Canadian Rockies, Edmonton, Yellowstone Nat. Park, Salt Lake City, Denver, Kansas City, Saint Louis, Chicago, Sewickley, Niagara Falls, Maine, Andover, Montreal, Ottawa, New London, Ct., Pelham, N.Y., and, finally, home to Cheshire. In closing, Barb said; "I am so glad that I had a chance to see so many people again before going home. I really will miss everybody and hope they come over here as soon as possible. It is good to be home again and to see everybody at this end of the world, but I feel very strange. Everyone laughs at the way I talk, eat, do things, and that I want to drive on the right hand side of the road . . . This summer has been fabulous and all that I had hoped for when I came over there. Miss you all, plus your country. Love, Barbara."

Another happy wanderer was Judy Lang, who spent about six to eight weeks driving across the country, living on hamburgers and learning to economize.

Pat Roversi and Friedel spent two and a half months waitressing on Nantucket. Friedel was also a delivery girl for the island newspaper, on a Lambretta, yet! Also smitten with scooters and the like—Rosie Monatt, who worked in a travel agency in order to earn money for a

Honda. Not by nature a mere nine-to-five-er, Rosie also attempted to reform local politics and acquired a Russian prince on the side.

Gwyn Walker spent a "very meaningful and eye-opening" summer at a Quaker work camp in Lame Deer, Montana, working with Cheyenne families, and may now be headed towards the Peace Corps. Nancy Poynter taught English to Cuban children at the International Institute in Lawrence.

Other volunteers: Lee Porter worked at a local hospital, as did Meredith Low, who stayed occasionally (?) at Anna Hartmann's apartment in Cambridge; and Sue Almy wrapped bandages and kept track of future JD's in N.Y.C.

Susie Van Winkle, Becca Marti, Jackie Meyers, and Allis Brooks were camp counselors. Allis also spent two weeks at a work camp on Lake Winnepesaukee. Experimenting in drama were Dale Baraclough, who helped produce plays at P.A. summer school, and Paige Bossi, who appeared in four plays at the Orleans Arena Theatre. Also Martha Foley, whose fabulous, world-renowned show, "Martha's Magical Menagerie" went on tour in New England and hit box-office records. Ray!

Mary Durham, Joie Foster, and Dale Thompson, dedicated themselves to the delicate art of chambermaiding.

Hester Coolidge spent a month speaking French with her French house guest. Laura Stevenson acquired a retired race horse and went to five glorious concerts a week at Marlboro, Vt. Margie Finnigan has met many interesting people, and would like to know how long Heidi's arms are.

The Industrious Ones: Sally Froeber worked as a teller at a Winston-Salem bank; Kit Jones, as a receptionist for an oil company in Caracas; Mary Travers, also a receptionist, for her father; Joan Emerson worked for her father, a doctor, and part-time at the local hospital; Janie Proctor worked in a lobster pool on the Cape; Midge Hinkley, Jo Schwiebert, Lee Clark, Corliss Hewitt, Connie Chamberlain, and Pris Pedersen baby sat, the last three on the north shore of Long Island; Robin Richards worked at the

Yale Peabody Museum (before going to St. Thomas and contracting leprosy).

Laura Louise Waltuch claims to have spent the summer doing French correspondence for a travel agency; however, rumor has it that John Maynard Keynes has been seen lurking around St. Louis of late . . .

L. L.'s former roommate (she prefers to remain anonymous) studied Greek at NYU at night so that she'd have days free to sell hot dogs at a concession stand on Jones Beach. Carol Barker is having a wonderful time at Berkeley, has pledged Delta Gamma, and is moving to Denver soon. Lucy Eynon has been cavorting with the local hoods. Gretchen's cat had five kittens and she saw Dwight (now a GI) for one week. Amy Shlossberg and I are in the same house at Smith, with the rest of the Abbot contingent dispersed about the campus. Amy, in addition to campaigning for a candidate for Mass. State Rep., worked in a local hospital, and I actually found a use for my Abbot white

dress as a receptionist and girl-Friday for three doctors in New Canaan. Spending most of the summer hours "blissfully vegetating" were Amy Johnson and Lucy Mack. Ivers writes: "To whom it may concern: I spent the majority of the summer in my orthodontist's office having my braces tightened."

As for old friends — Ainslie Anderson spent a few weeks in California visiting Mike Cathcart and is at Green Mountain Jr. College this year. Cathy Wells, after two good years at Chapin, is at Wellesley. Polly Danos graduated with highest honors from the American School of Madrid.

I am sorry that I have had to delete some of the information you sent me. *Thank you* for all your help, and I only hope my next plea will be as well received and answered.

More and more am I aware that Abbot is and ought to be a *preparatory* school in the sense that its members consider themselves engaged in an open-ended process of enlightenment. There are no neatly tide-up packages of learning or experience to be carried away and filed or put on a shelf. Even the diplomas should be regarded really as a ticket to another transfer point. If there is a sense of accomplishment in finishing a given course, whether it be Biology, or a tour of duty such as a term of being proctor or Council member, or a year's teaching, it should be a sense of having found one's way over a certain amount of ground, a little different from any other in the long *cursus honorum* of an intelligent woman in the twentieth century world. (If I

did not add "and in the world of the twenty-first century A.D.," I should be guilty either of appalling short-sightedness or dreadful pessimism.

## Greetings

You, who have now been out of school or away from school for some months or perhaps for many

years, will remember experiences in or outside of the classroom that have had unquestionably an effect on you. This is simply a fact of life — not a vainglorious attempt by a school to cling to its graduates. This is what lies behind the concern as well as the delight in teaching. And this is why the quality of receptivity, at any age, is to be greatly cherished.

Each year as we appraise and accept new students — and then as we welcome them at the school — we think of them as both receiving and giving. We try each year to provide a diversity in the group of these embryo Alumnae so that all our girls can receive rather different gifts at the school. Next year we are hopeful of having students from many states, from foreign countries, with a variety of previous training. We hope especially that we shall be able to share some of our gifts with girls who have not had a long course of excellent education — girls whom the Independent Schools Talent Search Program has found and referred to us. This Program is a fine example of the feeling of responsibility of schools like ours toward *all* promising girls.

# Around The World In 72 Days

by BLAIR H. DANZOLL  
*Latin Department*

Spurred on by Miss Eleanor Tucker's globe-trotting in the Spring of 1964, and by the summer plans in Asia of Becky Reynolds '65 and Barbara Hazard '66, I applied to participate in the 1964 Asian Seminar, sponsored by the Y.W.C.A. and the World University Service. Upon acceptance, I was immersed in Asian geography and books by and about Asian people. In the course of 72 days, our group of 21 faculty and 20 students from 25 states made 34 take-offs and landings by air within and to 7 different countries. Yet this bit of statistics was only the first of many more figures, as we came to know by individual conversations, study seminars, and State Department briefings about the Asian people.

As we went speeding across the United States to Hawaii, we came to realize the vastness and variety of our own country. Our Andover winters were counterbalanced by the luxurious tropical climate of Hawaii with its deep blue water and verdant lands! On to Japan, we saw the superbly productive rice paddies, the hardworking people and the brightness of the cities' neon lights. The Kabuki theater provided us with a glimpse into the creative arts, supplemented by the great Buddha sculpture at Nara and the magnificent silk screens of Kyoto.

Within a few hours by air flight, that throbbing pulse of Hong Kong was felt with its two habitations, on land and on sea. Privileged to see where the American people were working, along with financial support, we came to realize that the creativity of man and his extension of this to others can never be replaced by the dollar. Most rewarding for us were the visits with the Church World Service organization and Project Concern, the floating medical ship in Kowloon harbor.

Via Taipei and Bangkok (where I called Emvly na Thalang '62 without success), we flew to Calcutta in the Eastern part of India. We were met by heat and masses of people which were to be our constant memory of this amazing country. The pace of Calcutta was infinitely slower than Hong Kong — construction sites were rarely seen as compared with the proud statistics of the Hong Kong government of a new housing development every 12 days and a new school every 9 days. Contact with the University students and faculty here and in New Delhi, where we spent two weeks, and in Madras, proved personally enriching and most valuable. The validity of the commonplace statement that India is a complex country was proved by our seeing the

newest city in the world, Chandigarh, the creation of Le Corbusier, and the Ajanta and Ellora caves, the marvel of the priest-architects of the 2nd and 6th century A.D. The majesty of the Taj Mahal was always remembered along with the absolute primitiveness of the villages. Absolutely everywhere was an outpouring of hospitality in the form of food, interest in America, particularly in the late President Kennedy, and friendship.

And finally as we departed from Bombay on the 20th of August at 1 a.m., sad to leave, not knowing whether we would ever again return, and as we began making our way West via Lebanon, Rome and Paris, arriving in New York at 7 p.m. that same day, I knew that I had a rich experience, vast in its implications which would take many years to unfold and assimilate.

# *STUDY HALL*

The old drab traditional study hall is gone. In its place we now have a shining picture of a new era.

The old study-hall desks, fastened to the floor, with the messages and names of boy friends of old Abbot girls carved deeply into the writing surface, are but a memory. In their places we now have streamlined, impersonal, movable plastic pieces of furniture. Even the sharpest pencils cannot mar them. While studying there, we may no longer hear the shuffling, tapping feet, constantly reminding us of the presence of our dear friends close by. Our footsteps and other actions of the feet will now be muffled in the soft pile of wall-to-wall carpeting.

CYNTHIA TAYLOR '66

If you were one of the Abbot wood-carvers, and would like to have one of the desks for sentimental reasons, they are for sale for \$3. Come and choose the one you want.

## *Letter from the President*

DEAR ALUMNAE FRIENDS:

Do you remember singing trustfully:

“Father, I know that all my life  
Is portioned out for me.  
The changes that are sure to come  
I do not fear to see.”

Perhaps I should not sing so trustingly now that I am faced with the amazing changes of the past few decades. I have been startled by authoritative awareness in our educational circles that males and females are predisposed to inhabit the same world. I need not be more explicit for those of my generation. Have you seen the latest Abbot catalogue with its many attractive pictures of Abbot girls with *Young Men*? Can you believe that Your President is on the Concert Committee of The Yale Westchester Alumni Association — in her own right and not just as a behind-the-scenes wife! (It is easy to see why Latin may never regain its usefulness in our society. It's impossible now to manage gender.)

Following this trend we hope to add to the pleasure of reunions on Alumnae Day, May 8th, by inviting our families to join us. For a minimal fee husbands may feast with wives at the annual splendid buffet in the dining-room, and children will be served a box lunch outside under the supervision of students. During the business meeting before lunch, guests may tour the school. In the afternoon the Bazaar and Alumnae Art Exhibit — in which I urge you to participate — will provide entertainment. You will receive a detailed schedule of events and arrangements later. The Board hopes that a host of you will make plans for a New England Spring week end focusing on May 8th at Abbot.

I am aware that in some areas “Togetherness” is no longer the cultural ideal, but a school that has had to overcome the “Fem Sem” image may be forgiven a slight cultural lag. We trust that by the inclusion of our families we shall fulfill the purpose of our Association — “to promote fellowship among the Alumnae, to advance the interests of Abbot Academy and to cooperate in its work.”

Most sincerely,

Barbara Lord Mathias, '30

## Alumnae Presidents' Council Report

It was a most rewarding experience last October when I went to the Alumnae Presidents' Council of Independent Schools, which was held at Ethel Walker School. All the presidents of Alumnae Associations and delegates were there for a common purpose, i.e. to find out how they could help their respective schools. They were a serious and interesting group. The theme of the meetings was "A Time for Change". The speakers were Miss Virginia Wing, Headmistress of Winsor School, Mr. Ogden Miller, Headmaster of the Gunnery School and Mr. Thomas R. Rudel, President of the Board of Trustees of the Ethel Walker School. We also enjoyed talking to the other delegates at coffee and at the luncheon.

I would like to have any alumnae who have ideas on fund drives to write to me. Though I dislike writing letters I will answer all letters.

There is to be a meeting of 740 Independent Schools in Chicago on March 4-5-6 at the Conrad Hilton if any alumnae in this area are interested in going to the meeting. (The fee is \$3.50.)

Alice Joy (Mrs. Richard H. Arms) died in October in Pepperell, Mass.

1892

Alice Fleek (Mrs. William C. Miller) died October 21, 1964, in Columbus, Ohio. She was 93. Our sincere sympathy is extended to her daughters, Martha Miller Reese, Abbot 1918, Virginia Miller Smucker, Abbot 1920 and Alice Miller Adkins, Abbot 1925.

She writes that last winter their older boy, William (eight) had heart surgery "to correct a congenital heart defect just discovered. Thank God for the wonderful advancements in the medical profession. Bill's in A-1 condition now — and twenty-five years ago they didn't perform such surgery, and probably wouldn't have detected the defect either! Wonderful age we live in."

Lou Hellier graduated from Hollins in 1952 and went on to study at the Hans Hofmann School of Fine Arts. She married Anthony Louvis in 1955, and has two boys. They have just come back from spending a year in Greece, and now live in Shrewsbury, New Jersey.

She graduated from Wellesley and was active in the Junior League and church groups until she "retired from most things" about three years ago. She still belongs to the Pickwick Club, however — a "group of homogeneous ladies dedicated to a paper a year on some subject." Under the question about "the most exciting thing that's happened to you," she writes: "Nothing exciting, just moments of satisfaction when things go particularly well — an 'A' for Janie (the eldest of her three daughters, aged 10, 6, and 3) in math, a fun evening of conversation with friends, the enjoyment of hearing a good concert, etc., etc. Usually I don't miss *excitement*, but if I rob a bank, I'll write."

Nicky *Knox* Watts has already made plans for going out West; however, she assures me that she'll be thinking of us and wishing that she were with us. Diane *Sorota* O'Dwyer is planning to come. Her second son, Kyran Niall, was born October 28, 1964. Jane *Kent* Rockwell is now an art supervisor in the Cambridge Public Schools, working with children from the first to sixth grades in seven schools. She received a Bachelor of Fine Arts degree from Boston University in August, 1963. Her husband is in graduate school at MIT, studying in the field of aeronautics and astronautics.

Any of you who planned on dropping in to see Betsy *Beal* Brown in Danville, Ky. this summer will have to take a side trip to 4 Parker Dr., Ossining, N. Y. Betsy's husband is now Assistant Dean

Caroline, 2, Suzanne, 3, and Elizabeth, 4, daughters of Sally *Graf* Fish, '55

of New York University Graduate School of Business so they are now back in the region of those gathering at Abbot May 8th. Marlena *Comas* Rodriguez writes from Janesville, Wisconsin that her two boys are keeping her good and busy. Ann *Cleveland* Lange is planning on leaving her work raising German Shepherds, leading the Andover Junior Garden Club and tutoring long enough to join us on Saturday. Patricia *Coryell* Humphrey wrote how pleased she was to have the class list. I hope you will all take advantage of it. Mary Minard will be fairly busy that week end because the faculty are involved with the Bazaar. This is Mary's third year as head of the history department. Nancy *Eastham* Iacobucci plans to leave her busy law practice long enough to join us during the reunion. She adds, "Good grief, it's hard to believe we've been out 10 years! Wow!" Nancy was married to Frank Iacobucci of Vancouver, Canada on October 31, 1964 in Andover. Frank graduated with honors from the University of British Columbia and Cambridge University. He is also practicing law in New York.

So, you see, there seems to be a good group of us returning. If you can possibly make it, do arrive. Being an active Gargoyle, I am convinced that it is the good team who are the active correspondents — want to prove me wrong?

So what's new and how's the family? I do wish more of you would send news. Remember all those graduation week promises to "keep in touch"!?! Well, here's a way to keep those promises without resorting to volumes of letter-writing and/or many sheets of carbon paper. The next issue is published in May so "cast" your one letter and see it reach sixty-some class members.

Via a special edition of the *Wall Street Journal*, Hope Hamilton Pettegrew and her husband, Bob, have sent us news of their first child and heiress. The cute announcement reads as follows under the column "What's News — ": (and do note the date!)

Mill Valley Stork Exchange Soars  
Caroline Emerson (Pink Chip Stock)  
Date of Issue: December 25, 1964  
Offered at: 8.5 lbs. 2 3/4 ins.  
Above underwritten by:  
Hope and Bob Pettegrew

Dana Elizabeth, 10 months and Tracy, 3, daughters of Frances Young Tang, '57

And — another California baby is on the way. Nancy Davison Miller writes that their daughter, Cathey, is expecting "a brother" in April!

A delightful note from Lyn McLaughlin Moughty helped catch us up on her doings. She and John are living in New York City where they both have what sounds like fascinating jobs in the finance world. Lyn is working for a large brokerage firm on Wall Street and is now licensed to buy and sell securities directly. Quite a feather in her cap, I think. There seems to be little doubt that economics does seem to be the field that opens up some of the best opportunities for women these days. Lyn also reports that her younger brother and his wife have recently become proud parents, so it's now "Auntie Lyn" as well as "Madame Tycoon".

Mary Wellman Bates and husband Marsh had their first son and second child, Christopher, on January 2, 1964. Christopher's sister, Lauren, is now nearly four and was really able to be a great admirer of Santa Claus this year. The class also extends its sympathy to "Ade" whose Mother died in December of '63.

As my crystal ball predicted in the last issue, Judy Botnick was married to Mr. John Carmody on December 11th in Binghamton. The Lewis family wished it could have secured leave for the occasion, so I could now play "Suzy" for the *Bulletin*. However, I will have more details for the next issue. I do know that they are now living somewhere in Boston while John completes his fourth year at Harvard Medical School.

News from the new mothers: Glee *Wooldredge* Wieland had a daughter, Elizabeth Putnam, on October 14, 1964; Frankie Young Tang had a second daughter on April 18, 1964 and Anne Bowden Morris had a second child, first son, Robert William born on July 2, 1964. Anne's husband is with Minneapolis Honeywell sales while Anne is active in the Junior League and League of Women Voters. They will be moving from Wayzata, Minn. to Chicago in February.

Joan Pelletier Isabel's son, Mark, is 2½ and daughter, Margo, is 8 months. They expect that Colgate will be sending them to Central or South America in June. Mary Lee Carter Staniar writes, "My husband is in sales training program for S. D. Warren Paper Company. From March '64 - April '65 we will have lived in Arkansas, Maine, New Jersey, New York, Michigan and Illinois — such fun living like gypsies! Brother or sister for Scott due in May." Penelope Holbrook Reid writes, "We are living in New York City where my husband, Watson, is a doctor at Columbia Presbyterian Medical Center. I see a lot of Jody Bradley at the Museum of Modern Art. I hope to start working there soon myself."

Carolyn Green received an M.A. in French Lit. from New York University in September, 1964, and is now living in San Francisco. Bitsy Leech is working as a claims adjuster for a life insurance company in New York City. She sees Sue Rairdon Allen occasionally. Debby Tillson is the night supervisor at the Falmouth Hospital. Debby says, "No one can tell me things don't happen in a small hospital."

While I have not had the opportunity to visit with Jacquie Goodspeed since college days, I'm certain she must be one of those fortunate souls with a year-round tan. Yep . . . I received another card postmarked from the Virgin Islands! (But-honest-I do understand that she works in the Mass. Attorney General's Office too).

This Christmas I received a lovely note from Miss Hearsey, and since she has always been a favorite of '57 I thought you would enjoy her news. She and Miss Whiting (former Dean at Wellesley) are now living in their own home in the town of Wellesley. Miss Hearsey writes:

"We are enjoying our little house very much — and keeping very busy. I'm auditing a class at college in Aesthetics

(Philos. Dept.) to keep my mind from getting too inactive! . . . Miss Whiting and I are quite active in the League of Women Voters too. Plenty to be done in Mass., isn't there? I am on the Town Planning Committee."

I know Miss Hearsey is always glad to see former Abbot gals, so why don't you look her up if you are ever in the Wellesley area.

John's Air Force tour ends this February, and we shall soon return to Philadelphia where John will re-join his law-firm. We have enjoyed our tour (contrary to expectations) and shall miss our Air Force and Dover friends. However, life in the big city beckons us and we are also excited about moving into our new home in the suburbs which we have just purchased. So — in the future please address all correspondence to 422 Penn Valley Rd., Penn Valley, Narberth, Pa. Hope to hear from many of you soon.

Love, "Sammy"

##### REUNION CHAIRMAN

Miss Ruth Cox, 243 East 58th St., New York, N.Y.

While 1965 once seemed like the millennium, it's now here.

What's happened?

Come to our first reunion and see the new rings, husbands, babies (yes, the whole family is invited). Find out who's changed, what people are doing — or just come to see all those old sometimes almost forgotten, sometimes still close friends.

Saturday will include the usual activities to be polished off by a gala 1960 Class Dinner at the Andover Inn.

The mechanics are simple: just answer my post card and send your room reservations to the Alumnae Office — but most important, COME!

Dear 62 ers

It was great to hear from all of you and I wish that there was room in the Bulletin to reproduce all of your notes — but unfortunately there isn't, so I shall try to get down the most interesting things.

Generally it seems that we are a pretty restless and, perhaps, adventurous group — judging from the number who wrote that they have transferred or that they are spending some time abroad.

Sally Allen writes that she is spending this year at the University of Hull. Her address there is Thwaite Hall, Cottingham, East Yorkshire, England — in case any of you are in the area. She's managing to do quite a bit of traveling in the British Isles and is planning on spending three months on the continent.

Becky Bartlett wrote that she worked in Washington, D.C. this summer.

Val Crane writes very enthusiastically about Bennington and her plans for their non-resident term. She is planning to teach school in Waitsfield, Vermont and be a ski instructor on weekends and invites any of you in the area to look her up. She spent last summer in Europe.

Sandy Davison writes that her family has moved to California. She is still at Northwestern and roomed with Boonie Blake as they are both in Pi Beta Phi there.

Carolyn Dow writes that she is majoring in math at Conn. and will probably

be working for IBM as a systems engineer after graduation as she has for the past two summers.

Cindy Everett writes that she is in the Holyoke Glee Club and in the water ballet group which did shows in Miami last spring.

The most exciting news of all is that Sherry Farr is married and living in New York and going to Katherine Gibbs. Sherry was married to Austin Coleman Bray, Jr. of Dallas, Texas on November 28, 1964 in Hanover, N.H. Austin graduated from Washington and Lee University and is a student at Columbia Law School. Suzanne Ketcham was one of the bridesmaids.

Natalie Gillingham writes that she has transferred to McGill and is planning to spend next summer working in France.

Kitty Grant joined Delta Delta Delta at Middlebury.

Julie Gilbert spent last summer bicycling around Europe. Is still at Wilson taking advantage of their great politics department.

Peggy Henry has moved back to the U. S. and is now living in New York. She is leading a very busy life at Rollins as she is Treasurer of her sorority (Phi Mu), treasurer of the junior class, sorority representative to Student Government, in the choir and participated in the student production of "My Fair Lady" — so, if she owes you a letter you now know why.

Jennifer Hesketh has been to Australia for several vacations with her parents and likes the country very much. She is a House counselor at Simmons this year.

Polly Larned is spending the year at Bordeaux with a group of students from the University of California studying at the University of Bordeaux and specializing in French Literature. She is planning to spend the summer travelling in Europe.

Martha Mason spent last summer driving through Europe with Sugar Abbott.

Kitty Cecil is in Paris with Hollins Abroad.

Ingrid Quarck spent last summer teaching chemistry at Exeter. She writes also that Sue Niebling spent last summer in Europe.

Anne Ripley has transferred from Western College to Cornell Nursing School as did Nancy Elwell and she writes that they are really enjoying New York City. She also wrote that Emvlyna Thalang has returned to Thailand after two years at Western.

Meriby Sweet has joined Alpha Omicron Pi at Maine and is working on Student Government there.

Carrie Thomas aff. '62 was at Barnard for two years where she was very active in the Columbia Players — having had the lead in two shows — not at all surprising to those of us who remember her as Henry V in our Junior play. She is now at the University at Aix-en-Provence this year and planning to go to either Paris or London to study drama next year.

Julie Thurber has transferred from the University of Arizona to the University of Vermont where she is majoring in English.

Marilynn Wepsala is still at Parsons and enjoying it very much. She is working on the newspaper there and saw Sandy Davison while at a newspaper convention in Chicago. She is also Secretary of Student Government at Parsons.

Gretchen Whitehead writes that she has joined Kappa Kappa Gamma at Michigan. Is planning to go to the Bazaar and hopes to see some of you there.

As far as the day students go some of us got together over Christmas vacation and so I'm up to date on all of us. Beth Crane Accetta is still living in Middletown as Tony is in his senior year at Wesleyan. She is taking courses there. Tony is planning on Law School next year and has already been accepted at a couple. They have an adorable son, Randy.

Mary Louise Currier is pinned to Duncan Schofield, an SAE at Penn State.

Mary Concemi is still at Conn. and very happy there.

I've heard from Carol Laaff by word of mouth and all reports are that she is finding her sojourn in the Peace Corps in Niger very rewarding.

I'm at Barnard and very happy here. I'm rooming with Cathy Wilkerson's sister and she tells me that Cathy studied at the University of Grenoble this summer.

I was glad that so many of you answered and hope that you will continue to write — for those of you who didn't get a chance please try to for the next Bulletin.

Best to you all,

Lynne Moriarty  
616 West 116th St., Apt. 4B  
Barnard College  
New York 27, N.Y.

Ricky Muller writes from Wilson, "I was at Boston University last summer where I saw Bambi Bohlen and Nancy Hill. I have been very busy as president of the Outing Club. On one of my trips I saw Sue Ketcham at Vassar and Cynthia Everett at Mt. Holyoke. Mary Mason Smith transferred from Wilson to the University of Colorado, but dropped out due to mononeucleosis, and is now at the University of Rochester."

### 1963

In tune with Sophomore Slump, the few notes that I received in answer to my pleas expressed a familiar restlessness common to many of us. Those attending junior colleges hope to cure this ill by transferring. Those at four year institutions, by studying abroad during their Junior Year . . . Others by divorcing themselves from the academic world totally.

Before continuing, it should be noted here that Linda Richardson and Rip DuPont were engaged this Fall. Also that Helen Watson has become engaged and will be married on June twenty-sixth. I would like to add that these two announcements are made with more than Corinthian assurance. A few words to the wise . . . Be the first in your class to know you are engaged. Avoid ugly rumors. Keep in touch *directly* with your class secretary!

News of less consequence comes from Bennett among other places. Suzy B is anticipating two more years in her formal study of art. Hopefully they will be in either Boston or Cranbrook.

Judy Butler apparently intends to make the theater her career. While at Colby, she has become a member of the National Drama Fraternity, Delta Psi Omega, and last Fall directed *and* designed the scenery for their production of Pirandello's "Right You Are".

From Judy, we learn that Twink Moulton is living in the Colby French House. As to Iris — we now know where she isn't, for she did not return to Colby in September; however, we have no idea where she is, unless it is true that she and Cynthia Bennett share an apartment in Boston where they are working.

Mimi remains involved at Wheaton but will spend her semester break in Cohasset with Morley and Helen.

Betsy Cadbury is enjoying Cornell. Barbara Hoffman is taking advanced courses in Art History at Elmira College. Last summer she was at a camp in Maine,

and was head of the Tripping Department.

Rosie Eustace writes regularly from her home in Puebla where she remains content.

During Christmas vacation, Re Fox "roughed it in her family's recently acquired cabin in the wilds of New Hampshire". Over semester break and spring vacation, Re will be traveling with the Wellesley Blue Notes to a New Hampshire ski lodge and to a Bermuda resort hotel where the group will entertain.

In her note from South Hadley, Karla Haartz was the first to admit to be a victim of sophomore Slump. *Her* cure consists of frequent trips to Andover.

Hilary's news was the most exciting. She plans to ignore the second semester at Wisconsin and join her family in Rome where her father is teaching this year.

On a handy Bryn Mawr postcard, Paishy recounted parts of her Christmas vacation which included her most embarrassing moments as a waitress at a Vermont Inn. *She* also is anxious to study in Europe next year. Perhaps in Aix or Grenoble.

In a delightful letter, Anita Miller elaborated on her trip to Europe last summer and mentioned her plans for next year. She has been accepted at the University of York as an occasional student in the departments of English and Education. Whether or not her academic pursuits remain the sole purpose of her peregrination is questionable, but the trip sounds promising.

Before closing, I must add that it is Henry Fielding who has influenced my style in the several lines "I have penned" for this issue . . . exams are closing in on Briarcliff — just be thankful it wasn't the author of my Zoology text or worse still, of my Russian text.

### 1964

As most of us emerge from the gloom of mid-year exams, it's good to hear that for one of our numbers this has been a happy time. Mary Sturgeon, who left Abbot after her Senior-Mid year to go to the University of Arkansas, was married on December twenty-sixth to Tilden Perkins Wright, III, Lieutenant, U. S. Air Force. The wedding was in Fayetteville, Arkansas and Mary plans to finish at Judson College in Alabama. Congratulations and best of luck to her.

Congratulations are also due to Amy Johnson who, as most of you probably know, is now a sophomore at Radcliffe. An English major, she says she is utterly unspoiled (almost) and never wears black stockings . . .

Many ex-grippers now sound excited about their work. Judy Lang and Lucy Bingham are perhaps the most thoroughly enthusiastic. Sarah Lawrence is "heaven", with Lucy working with disturbed children in Harlem and Judy doing sociology field work in Brooklyn (although she dreams of palm trees and oceanography schools in Miami)

Sue Almy finds the people at Swarthmore fascinating, but the work "eternal and hard." She will be flying off to the Cayman Islands off Cuba come spring.

Another enthusiast, Suzanne Woodward, raves about poetry courses at Goucher and her work with the Baltimore Tutorial Project in a "coffee house" on Saturday nights in the Negro slums of East Baltimore. Mary Travers is changing to the School of Art at Syracuse and has applied to go on the Experiment in Japan. Dale Thompson plans to go into research relative to the Medical Technology program, although one word can describe her current existence: skiing. Both Gretchen Overbagh and Melinda Bateman are doing well academically (Gretchen made Dean's List) and socially at Green Mountain. Gwyn Walker loves Pembroke, wants to major in music composition and become a composer. She is in three singing groups and on the basketball and tennis teams. Laura Stevenson is busy, too, keeping house for her father, doing volunteer work at the hospital, practicing the violin, and exempted from all but one of her freshman courses. Suky Stafford is as ecstatic about being at Penn as she is about the one-month Christmas vacation. Margie Finnigan loves Cornell and has moved to Washington, D.C. since her father has retired from the Navy. Susie Localio sent a belated report on her summer, spent picking strawberries and raspberries for a local farmer. If nothing else, the experience made her sure she wanted to go to college. Joanne Schwie-

bert is President of the Freshman class at Pine Manor — a much deserved office.

Sorority girls include Sally Froeber who has pledged Kappa Kappa Gamma, Gail Gruver, Delta Zeta, Robin Richards, Delta Ocicron Tan (local). Katy Reinhold is at Northwestern with Gail, in the School of Journalism and loves it.

Wellesley has proved challenging (understatement?) to Corliss Hewitt and Pat Morrill. Pat has continued her music with singing in choir, playing a harpsichord in a concert and attending numerous concerts. Corliss may major in economics, has joined a singing group, the Tupelos, and is working with the Swim Club. More important, she says, is that she and Jan got pinned on New Year's Eve. Also pinned are Kit Jones, to a pre-med student at Washington and Lee, and Laurie Griswold, to a senior at Cornell. Lawrie's opinion of Bennett was more reserved than others, as was Janie Proctor's description of Colby: a "god-forsaken igloo". Janie, however, has been working with her harp quite a bit, and hopes to continue with it after graduation.

Polly Danos, who was a member of our class Junior year, is now a freshman at Radcliffe. Alice Holmes who was with us Prep and Junior year, is in Strasbourg, France, with the overseas group of Lewis and Clark College.

As for the rest of our illustrious class . . . Paige's reply "No news is good news" . . . must apply.

The Alumnae Reunion in the one-hundred thirty-sixth year of Abbot's history was a splendid success and it strengthened the conviction that the alumnae are the school's proudest ornaments. Yet it always seems when I talk with one of you that we speak of two different schools — yours and mine. This is quite natural and it should not be otherwise. Probably neither school is quite real, for your memories may be a *little* colored with imagination and my view of the school is certainly colored with hopes, not all of which are or will be fulfilled.

I should say, "can be fulfilled," for nearly every hope has a look of that cake that can be eaten and still remain whole! It would be good to have shining new buildings

and still use forever the handsome old ones which are so crowded with the spirits of earlier Abbot girls. It would be fine to have time to open every door to learning and still pursue the path beyond each one to the far reaches of man's knowledge. Every necessary tool should be at hand. It

would be a joy to know that each girl is developing with zeal her ability and potential in the realms of intellect, emotion, aesthetics, ethics, physical fitness and spiritual grace. Every teacher and every girl should be happy and successful. No unkind word would ever be heard — "and the wolf shall dwell with the lamb; and the leopard shall lie down with the kid."

No, none of these things is impossible, but perhaps they are not all entirely desirable. A striving may be better than satisfaction, and at this time in history, nothing can be static. For the education of woman, about which so much is being written now, or for the educated woman, the imminence of change is inescapable; it may be that it is better to know what one's hopes are than to achieve them all!

# 'The Second Time Around'

Ellen Foster Huntington, '65

Talk given in Chapel, April 28, 1965

Andy Williams sings a song entitled "Love is Lovelier the Second Time Around". I am not talking about the love part, but about the second time around; this chapel talk is dedicated to anyone who has ever had to go around this second time — and everybody has to at some time!

This Saturday, while I was filling out college applications for about the eighth time, I was trying to figure out again just what kind of unbelievable individual a college wanted. For example, one question might as well have read "What have you done that has *absolutely rocked* your community to the bottom of its feet, and attracted the attention of every senator, scientist and professor in the area?" Well, I could say I'd taken diving at our Y. For a question like that one, I had the biggest urge to say that I had set the whole town of Princeton on fire — to aid the slum clearance project — and was now serving out an eighty-year sentence, after which I hoped to attend *their* college. And then there are the questions which say "Discuss the greatest experience of your life in 25 words or less". Well, probably my last answer could suffice for this question too!

Naturally, I didn't answer my first six college applications quite in this manner; maybe that's where I went wrong. From some of the questions some of the colleges ask, one gets the impression that they expect you to be remarkable, and one in a million (or, as the 1947 group know, one in a trillion!) I'm not talking only about grades either. If colleges want super people, they will have to drop pamphlets into playgrounds, to notify all those first and second graders of how remarkable they are going to have to plan to be before they become Seniors.

Judging from all the individuals — the 18.2% people — who are camping out in Miss Tucker's office, or sitting in that basket of hers, *something* has gone wrong. Now I, who am well qualified, will give all of you a few suggestions on what to do when rejected by the colleges. You underclassmen, who haven't yet been rejected, don't close your ears — after all, we're all going to be rejected by things all our lives and, besides, YOU didn't know either in second grade that you had only ten years to rock your community off its feet!

First of all, and most important, you cannot be super-sensitive, as I was when I got my rejection from Scripps. Not only did they reject me, but they returned my pictures as well — which was like saying, "not only are you dumb, but you're ugly!" However, you *will* have to give yourself a reason for getting rejected. My father knows all about rationalizing. When I told him I hadn't made it for next year, he asked me why I decided to be born in 1947! I told him it certainly wasn't completely my doing, and that he and all his buddies could take the blame back in '46! One mother, however, wins the prize: When she heard that her child had been accepted nowhere, she cried "It's the

Elizabeth Foote, 1965

Communists who've done this to you!" Obviously, as I have shown, there are all sorts of concrete reasons for not getting into college; what's more, these days there's an added bonus of a certain amount of prestige!

Once you have given yourself the reasons for having been rejected, you must look at the *advantages* of being in this position. Eventually you are able to realize that the situation is not so significant as what you do about it — what kind of an attitude you have. This goes for *every* 'second time around' that you happen to be going around: if you keep your sense of humour, chances are you'll turn out all right. Of course, my friend with the McCarthy-like mother kept his sense of humour so well he was scared. Apparently he had received all his rejections on the same day, and had never laughed so hard in his life!

Also, you've got to remember that college is only college. There are a lot of other things which will be making you happy, long after your college career has ended: Spring, for example. Can you imagine having to apply for Spring? Having to write for an interview? 'Dear Mother Nature . . .', or some such nonsense! Insurance companies say that you will live to be about seventy, which means that, if you put all the springs you have in front of you one after the other, you'll have thirteen solid years of spring fever, compared to four years of college — which, by the way, involves only *one* solid year of spring!

I won't go on with more good reasons not to be unhappy, except for one, which I believe is the most important: After college comes the rest of our lives.

## NEWS *from the* CLUBS

The BOSTON Abbot Club's Spring luncheon meeting was held on April 13 at the Boston Yacht Club in Marblehead. Carolyn *Guptill* Hansen, 1933, presented a fashion show of dresses acquired in her travels throughout the East. Club members acted as models. She also showed slides relating to these countries with a delightful commentary. Jane *Munro* Barrett, 1954, was elected president.

Mrs. Crane was the guest of honor at a cocktail party and buffet supper, March 6, at the home of Luetta *Robertson* Kolflat, '46, in Wilmette, Ill. Alumnae and their husbands from the CHICAGO area attended. On March 7 Barbara *Bel-lows* Kaiser, '39, gave a tea for prospective students and alumnae studying at Northwestern.

She had had a leave of absence since the early part of this academic year and would have officially retired in June. She was a remarkably interesting person, with a great variety of fields of knowledge beyond her particular profession.

She graduated from the Madeira School and from Vassar College, class of 1922. She received a Master's Degree in Astronomy from Radcliffe in 1925 and for a short time worked as an astronomer at Mt. Wilson Observatory in California. She was married to Robert H. Baker, the noted astronomer.

For many years her father was closely associated with Franklin D. Roosevelt. Mrs. Baker always enjoyed telling of her many visits to the White House, and would say that she had slept in each guest room including the Lincoln Room.

Astronomy and mathematics were highly congenial to her, and she worked in these fields during and after the war. History was a great love, too, as one who traveled with her in Greece and in the British Isles can attest. The early days of this country intrigued her; she explored and studied each region in which she lived. Her chief joy was reading, and she was a stimulating example of the educated woman who continues to learn, and learn creatively.

She is survived by her son, Robert H. Baker, Jr. and by several grandchildren.

1895

Marjory *Clark Barker* writes, "I have never been back to Abbot. It would be rather sad to see what the years have done to my contemporaries, sadder to disclose my own discrepancies. I happen to be a healthy, happy, useful woman of almost 89. I have managed in my busy life to break, years apart, both hips and a wrist. I am perfectly repaired—use neither cane, crutches, nor walker! A medicine cabinet to me is unknown. I drive a Thunderbird on an average of 1,000 miles a month and live largely an out-door charitable life on a 35-acre wood lot."

Fannie *Lewis Shattuck* writes, "How I would like to return to Andover for my 70th reunion, but I am afraid I will not be able to. I am ninety now, and do not go far from home. For a good many years I have spent my winters in Florida, but for the last three years I have remained in Chatham. I have four daughters, eleven grandchildren, and twenty-eight great-grandchildren."

Laura *Wentworth Richards* writes, "We speak of 'Serene old age'. Mine was uneventful, until there were rumors that the proposed Federal Freeway, Route 95, would pass near my home, where I had lived for the past forty years. Without any previous notification, it was taken late in 1956; and I moved from Pawtucket to an apartment in Providence, which is bright and sunny, with cooling breezes from Narragansett Bay. I imagine I can see the tip of the Bay, there is no imagination about the breezes."

"I soon realized I could not live without a garden. So with help I started one, with annuals, perennials and a few shrubs bordering our small lawn. This was a joy to me, my new friends and neighbors. Now since I can no longer work in it, it has been taken over by one of the tenants, and I can still enjoy it."

"If I have hobbies, they would be gardening, antiques and genealogy. The owner of the house where I now live, was a collector of "Tree of Life" glass, (not my choice of glass); however I appreciate the room which was designed for it. It is perfect for my typewriter and genealogical books and papers — now my lone hobby."

"It may not be wise to uproot and resettle old people, but it can be done."

My wish is that if any of you have problems, they may be as happily solved as have been mine.

"I have a devoted family — my daughter, Olive Tompkins and her husband; my son, Byron, Jr. and his wife, Ruth, who is as dear as an own daughter; Sue Abbe and Ross Richards, my grandchildren; and five little sunbeams, my great-grandchildren, from six to under two years—These are my assets".

1900

Ethel *Hazen Lillard* writes, "It is hard to realize that 65 years have slipped by since those happy days at Abbot when Miss Durfee caught me under Rose-Anne Day Keep's bed after visiting hours — very humiliating. And the clandestine midnight feasts somewhere in the upper regions — I've forgotten where. When in 1908 I married Walter *Huston Lillard*, I went back to Andover as a bride. My husband taught English and coached football at Phillips Academy, and was assistant to Alfred Stearns. After nine years at Andover, he became headmaster of Tabor Academy. It was a challenge for both of us, for there were only 2 boarders when we went there. In the early years I ran the housekeeping end—planned the meals and bought the food. Many things took place during the 25 years we were there, and it has continued to grow and flourish since we left."

"With the start of World War II, my husband resigned to take up some war duties. After the war he was sent by the State Department to organize the resettlement of refugees in the American Zone of Austria. I spent a most interesting year and one-half with him in Vienna. After that we returned to our home in Cohasset, Mass. to pass our less active years."

"We have four children, thirteen grandchildren and two great-grandchildren."

"Abbot and Andover will always have a very warm spot in my heart, and I regret I cannot attend our 65th reunion."

1905

"The distance from Florida makes it impossible for me to take part in our 60th reunion, but I do send greetings. For ten years I have lived in an area known as 'The Gateway to The Moon.' My

daughter and I have watched, from a point near Cape Kennedy, every major shot including the one which hit the moon. Just now the center of interest is the construction of the largest building in the world. It is now possible to make a tour of Cape Kennedy every Sunday afternoon. Why don't some of the spry 1905 graduates take advantage of this opportunity! My family record is 5 children, 12 grandchildren and two great-grandchildren — not too bad! When it comes to accomplishments in any other category, I rate zero. Best wishes to all."

Mildred Cleworth Davis

Frances Cutler Knickerbocker writes, "It doesn't seem long since I graduated from Abbot sixty years ago until I think of all that has happened since then. I am very fortunate to be well and active with church and hospital work, and to have my husband, two sons and three grandchildren."

Fannie Erving Arundale writes, "I keep well, and my hobby is seeing for all our young folk and many church projects. Our older son, Erving, and his family will be in Brussels for the next 3-5 years. He is general director of a new research center being built there by Standard Oil Co. of New Jersey. Burton and his wife are in full-time Christian service at the Calvary Baptist Church in New York City. He is Office Manager and she assisting in the Bookstore. We have five grandchildren and three great-granddaughters."

Winifred Peirson Sheffer writes, "It would be a great pleasure to return to Abbot for my sixtieth reunion, but the frailties of old age — 81 years to be exact — do not permit it. I am very lame and my eyesight is poor, but I still drive a bit. I always think with pleasure of Abbot."

Ruth Pringle writes, "Nothing would give me more pleasure than to attend a reunion at Abbot, but I am in the process of trying to sell the little house in which I have lived very happily for many years. I have at last retired from teaching. For a number of years after officially retiring from school work, I tutored in English and Latin. Now I enjoy my house and garden and work once a week in a very large successful group of older people in my church. The last time I saw Abbot was in 1941 when I toured the East with a friend. My Abbot days were the happiest and freest of my youth."

Clara Searle Painter writes, "During the years I have been active in civic affairs, particularly in the field of education. I have worked through three organizations — A.A.U.W. (served as vice-president for several years), Minneapolis Comm. on Public Education and the Minnesota Comm. on Public Education. The only activity in which I currently take part is the interviewing committee for applicants for the Teacher Exchange Program under the auspices of the U. S. Office of Education. My eldest daughter, Mary, is an economist for the Office of International Cooperation and Development in Paris; second daughter, Anne, is married to a Philadelphia lawyer (four children) Charlotte is married to a refrigerator engineer in Minneapolis (three children )."

Our sympathy is extended to Clara whose husband died last November.

Katherine Woods writes, "I have published two books, brought out in both the United States and England: *The Other Chateau Country* and *Murder in a Walled Town*. But most of my regular professional work has been concentrated on the Sunday section of the *New York Times*, for some years as a feature writer for the Sunday magazine, and for an even longer period as feature reviewer for the Book Review. I left the *Times* finally to become Literary Editor of the monthly magazine, *Tomorrow*. And then in 1948-1950 I was in Paris as a program specialist for the United States Educational, Scientific, and Cultural Organization (UNESCO). During all those years I spent much time in Europe, especially in France; and when I retired from UNESCO I devoted myself to what had been an intermittent activity for some years, translation from the French. I have translated twenty-three French books, the best known of which are *The Little Prince*, by Antoine de Saint-Exupéry; *This I Saw*, the Life of Goya, by Antonina Vallentin; *Ride Out the Storm*, *Northern Lights*, and *The Easter Fleet*, by Roger Verdel; *Visa to Moscow*, by Michel Gordey, and *The Last of the Conquistadors*, the Life of Junipero Serra, by Omer Engelbert. From time to time I have done some manuscript reading, for Macmillan and the John Day Company, and I have done a small amount of magazine and other writing. A few years ago, however, the failure of my eyesight forced me to give up translation and other activities. My last translation was published a little over a year ago:

*Ambiguous Adventure*, a book about the conflict between African and Western civilization, by a French-educated Senegalese.

"I am a member of the Society of Woman Geographers, the P.E.N. club, and the Pen and Brush. But I live a very quiet life these days, in the little apartment that has been my home for fifteen years.

"My thoughts will be with my old class at reunion time, and with the dear old school that I love so well and think of so often. My best wishes to you all."

Ruth Roberts Warden writes, "I was married to Franklin M. Warden on September 9, 1913, we lived 51 very full and happy years together. The first forty years were spent in Chicago, and the past eleven in California. My dear husband passed away in January 1965. He was a successful patent attorney in Chicago. I have three children, two daughters and one son, and nine wonderful grandchildren. We spent many summers in Minnesota where we had a summer home. At the age of 81, I am enjoying fairly good health, keeping active, and living with my daughter in Arcadia, Calif."

#### 1906

Molly Jordan Goodrich writes, "After 50 years in one house, I have prepared our summer home for year around living. The latch-string is out for all my Abbot friends."

#### 1909

The class extends its sympathy to Frances Huselton Shaw whose husband passed away in March.

##### REUNION REPORT

There were four of us to represent the 55th reunion of our class. Several would like to have come, but were prevented either on account of health or distance.

Ruth Murray Moore and I roomed at the Holiday Inn in South Lawrence, and found it excellent. Ruth Newcomb stayed at the Phillips Inn.

The two Ruths and I had our reunion supper at the Phillips Inn Friday night, and Ethel Kelsey Perry joined us for the activities on Saturday.

I will continue to serve as Class Fund Secretary and Reunion Chairman.

It was a small but enthusiastic group, and we missed those who were unable to be with us.

Sincerely,

Grace Kellogg  
Reunion Chairman

#### 1913

The class will be sorry to learn that Helen Bowman Janney's husband died on November 22, 1964. Helen was delighted to discover that the wife of the choir director at her church was an Abbot girl — Grace DeLong Einsel 1948.

Mildred Bryant Kussmaul received the Winifred Doyle cup poetry award of the Brockton Scribbler's Club.

Mary Erving Lindsay, Edna Francis Levitt, and Dorothy Pillsbury Bartlett '16 had a reunion luncheon in Ormond Beach, Fla. in February.

#### 1914

The class will be sorry to learn that Helen Hamblet Dyer's father died in March at the age of 99.

##### REUNION REPORT

Our reunion started off with a most delightful cocktail party given by Phyllis Brooks Stevens and her husband in their charming home in North Andover. They cordially invited the husbands too, so we were a group of thirteen alumnae and six husbands. It was all very gay and in no time it was difficult to believe that 50 years had passed since we walked down the aisle of the old South Church on commencement day. Following this party the "girls" went to the North Andover Country Club (the husbands went elsewhere for their dinner), and again, Phyllis was responsible for planning the dinner as well as decorating the table so beautifully. After dinner we returned to Phyllis' home and had a wonderful time reminiscing, poring over class books and a group of senior pictures the Leaches had assembled, and just enjoying each other's company. Many of you who for a variety of reasons couldn't be with us sent newsy letters which were read, also a telegram from Mattie Larrabee Whittemore who had to give up coming at the last minute due to an acute attack of arthritis.

Saturday morning a group of us went to the Inn for a leisurely breakfast and

more pleasant conversations. Then back to school for the Alumnae Meeting which unfortunately could not be held in Abbot Hall because of work being done to strengthen the underpinnings. Some of us felt we needed a bit of this done on us! However the meeting was held in the wonderful "new" gym which a few of the girls had not seen. The seniors marched in singing, and how many there were and how young. They serenaded us and other reunion classes. They still sing the traditional "Praises ringing, here's to you". It was heart-warming to hear.

The school served a most delicious buffet luncheon in the Bailey dining-room. Catherine Leach made very clever place cards for our table and also at each place was a pretty package in Abbot blue paper containing an attractive desk pen holder in blue, inscribed, "Abbot Academy, 50th Reunion". These were gifts from the Alumnae Association. We had the privilege of having Mrs. Cranc sit at our table though few of us had an opportunity to talk with her as we were hustled out to have our pictures taken. To those of you who were not in it; don't believe what you see! We all feel we look much younger than we appear—at least we feel young at heart.

The Bazaar around the Circle was gay and colorful in the beautiful May sunshine and fresh green backdrop. There was entertainment in Davis Hall and singing on the steps of Abbot Hall. I heard girls say, "That's where I roomed and do you remember the hairpin tree?"

Later we drifted down to Sunset House where Jane Sullivan had provided refreshing punch. What a wonderful and capable gift she is to the Alumnae.

Suddenly, it was time to say good-bye. We agreed we had experienced, indeed, a golden reunion. The men were most welcome, more a great asset, and we hope they had a happy time.

Though there have been many physical changes at Abbot during the years while the school has been growing, one is grateful for the ideals and standards that were set at her birth and that have persisted through the years so that in truth we can be proud to claim Abbot as our Alma Mater.

Aurelia Hillman Sanders and Doris Kishlar Crouch had expected to come from Rochester, N.Y., but, unfortunately, Doris had to go into the hospital and had not recovered sufficiently to make the trip. Thank you both for your greet-

ings. Bessie Gleason Bowen sent her love and was very sorry not to be with us. Marion Winklebleck Hess and her husband have retired to Dunedin, Fla. and love it there. It was too far to come North at this time. Ada saw her there this spring and told us that Marion is still a charmer. Helen Bruce Butler wrote she could not join us as did Harriet Shaw Rader who lives in California. Freda Joslin Sprague has retired to Cape Cod as has Esther Shinn Caldwell. Sorry, Shelly, that you have been in the hospital — hope you are feeling better. We also heard from Olga Sjostrom, Mildred Akerly Browning, Arline Talcott Turner, and Marion Bayley Buchanan. Harriette Woolverton Robinson is in Europe and disappointed not to be able to join us. Josephine Tonner Guernsey had made plans to come back, but due to eye trouble she felt she had better not chance the trip—hope you are better. Josephine is twice a great-grandmother—how's that! And Phyllis has 19 grandchildren — can any one top this?

Another thanks to Phyllis for all she did for our enjoyment. How very indebted we are to Jessie for being our Fund chairman for these many years. The closing date for gifts to this year's Fund is June 30th. We are very close to 100% participation so climb aboard if you have not already contributed. Our class has given \$605 for this year.

Jessie will continue as Class Fund Secretary, and I will act as reunion chairman in 1970.

For my part I want to say how grateful I am to all who answered my cards and notices. We missed very much those who could not be with us. Let's all look forward with eagerness to our next reunion.

Marion M. Brooks  
*Reunion Chairman*

Eugenia Parker  
(1894-1965)

Eugenia was born in Winchester, Mass. into a family of Abbot tradition and standards. Her mother was Fanny Fletcher Parker, 1872. Her two older sisters were Abbot graduates, Constance Parker Chipman, 1906, former Alumnae Secretary and Trustee, and Esther Parker Lovett, 1908.

Eugenia spent five happy years at Abbot completing the regular academic course, taking active part in school sports and all its activities. All through her life she was devoted to her Alma Mater. Most

alumnae days and 1916 class reunions found her at Abbot. Before many of these reunions she invited all her classmates for several days at her camp in Maine. Eugenia ("Gingie" to us) was one of the outstanding as well as popular members of our class.

After Abbot camping became her career and proved her delight to the end of her life. Boldly in the depression year of 1931 she started her own camp, "Blazing Trail," a camp for girls between the ages of 13 and 18. It became very successful. Eugenia or "Aunt Gigi" as her campers dubbed her, did indeed blaze trails. With the aid of her fine staff of counselors, she initiated methods and practices that were more "back to nature" than used in most camps of the time. In 1955 she sold the camp to the Boston Y.W.C.A. and retired to her home in Denmark, Maine. She and Kathryn Park, camp nurse and friend, raised chinchillas. They won blue ribbons for the quality of their furs.

Even in her last ten years and in spite of poor vision, Eugenia worked hard in the community activities of her home town. Her special interest was the Denmark Community Church. In it she acted as "President", as a Sunday School teacher, and as leader of the Women's Guild.

Actually Eugenia never "retired". Even in the last summer of her life she continued to run the camp held each June at "Blazing Trail" for the training of camp counselors of New England. In 1964 she was presented a citation for having run this camp for twenty-five years.

Eugenia had long been a licensed Maine Guide. In fact, she was one of the first women to become a guide. She spent time each summer, even in 1964, as the Executive Secretary of the camp in the cold northern Maine woods where young men and women try to pass the rigid tests for the coveted title of Junior Maine Guide.

Eugenia was courageous throughout her last trying illness. Memorial services were conducted by Reverend Sidney Lovett, her brother-in-law, at the Denmark Community Church on March 26, 1965.

It seems that we of 1916 as well as all Abbot girls may take pride in Eugenia's life of leadership and of inspiration to so many teen-age girls and of affectionate loyalty to friends, to Abbot, and to high Christian ideals. We, her classmates, may well remember her as one who practiced

more than most the words of our parting song at Abbot —

"Wherever in the World I am  
In whatso'er estate,  
I have a fellowship of hearts  
To keep and cultivate."

Charlotte Eaton

On March 23, at a Portland hospital and after only a short illness, Eugenia Parker left us to "join the Great Majority"

I had spent the last weekend in January with her in Denmark and, although we knew she was not feeling her usual husky self, no one thought of her condition as being too serious, let alone critical.

As stated in a tribute to her published in the "Bridgton News", her passing has left the little town of Denmark "in a profound state of shock" for Eugenia played a large role in her town.

She was president of the Congregational church; chairman of The March of Dimes since its beginning; chairman of the Red Cross chapter in Denmark.

As one of the first women to become a licensed Maine guide, she was executive secretary of Junior Maine Guides and in 1964 was awarded by the Governor of Maine a certificate for "25 years of meritorious service in teaching Camp Craft to young people."

But to most of her Abbot friends she was the owner of Camp Blazing Trail which she herself had originated and operated for 25 years and in the enjoyment of which many of us have shared.

For Eugenia was not only quietly very kind and generous to persons in need or in any sort of difficulty but was more than generous in sharing the joys of camp as well as her house in Denmark with her many friends.

In fact she had a great gift for keeping in touch with her camp girls, their counselors and her many, many friends and she will be greatly missed in many quarters.

The class extends its sympathy to Emma *Stohn* Larrabee whose nine-year-old grandson died of cancer, January 3, 1965.

Harriet *Murdock* Andersson writes, "My husband and I are spending a year in Santiago de Chile. He is with the Ford Foundation and the Chilean Education

Planning Commission. Our first six months were filled with travel: Europe, Buenos Aires, Quito, Lima, Cuzco and Machu Picchu, Peru. Back to the University of Texas in late June."

#### REUNION REPORT

Nine of our classmates returned to Abbot on May 8th for our 45th reunion. We all enjoyed reading most interesting news from Constance Ling, Muriel *Moxley* Hubbard, Irene *Franklin* Foster, Vivien *Gowdy* Larabee, Elizabeth *Stewart* Pieters, Helen *Thiel* Gravengaard, Lucy *Ford* McCorkindale, Lillian Grumman, Helen Wilson, Miriam *Rowell* Barnes, Georgia *Warren* Gould, Elizabeth *Hawkes* Miller, Caroline *Wilkinson* Halliday, Edith *Adams* Culver, Leonore *Wickersham* Mills, Helen *Walker* Parsons, Dorothy Tyler, and Lucy *Pratt* Rutherford.

Our day was full of entertaining events and I am certain most inspiring of all was at the Alumnae meeting when Mrs. Crane, in her very gracious manner, told us of the many activities of the school—the enthusiasm and great interest and progress in the arts, languages, science, physical education as well as social activities.

Louise Robinson will continue as Class Fund Secretary and I will act as Reunion Chairman again in 1970.

I wish all of you could have enjoyed this memorable day with us.

Edna *Dixon* Mansur  
Reunion Chairman

The class extends its sympathy to Kay Hamblet whose father died in March. He would have celebrated his 100th birthday on May 4th.

Helen *Walker* Parsons writes, "In May, 1964, my husband was invited by the Soviet Academy of Sciences to give some lectures on American Sociology in the Soviet Union. We spent 2½ weeks in Moscow, Leningrad and Kiev. The lectures (really seminars) were well received, and the young sociologists were very hospitable to us. In July, we had the pleasure of attending the meetings of the Latin American Sociological Association in Bogota — a very different culture and more 'foreign' to us than the Soviet Union."

### 1921

The class extends its sympathy to Elizabeth Bulkeley whose brother died in February.

Helen Roser writes, "We are building a new School of Nursing campus at the Hartford Hospital. Last summer I had a wonderful trip through the Austrian Alps and down the Dalmatian coast by motor bus. Greetings to you all."

### 1924

Polly *Bullard* Holden writes, "Since you must be dying for news of our family: Sally Radcliffe '57, our eldest and possessed of great industry and inner strength, is with the Peace Corps in Nigeria. Motorcycle racing is the latest diversion of Spike, a teaching fellow in Anthropology at Harvard. He has recently passed written examinations for commercial pilot and flight instructor ratings. We find him very colorful and most entertaining. Bonnie, Swarthmore '63, has been married for two years. Her husband is preparing for a career in international economics. Martha is studying at Reed College.

### 1925

Eunice Huntsman and Manon *Wood* Hale were the only members of the class present on Alumnae Day.

The following news items were received from the class:

Ruth *Davies* Van Wagenen's three children are married, and she has five grandchildren. Her husband teaches Science in a private day school in Syracuse. The class will be sorry to learn that Ruth's mother died in December 1964.

Charlotte *Hanna* Beveridge's husband is southern manager of *This Week* magazine. Her son, Bob, a graduate of Emory University, is married and has two children. Daughter, Lynn, is living in Texas with her two children. Her youngest son, Bruce, is a graduate of the University of North Carolina. Charlotte teaches piano and remedial reading.

She has 3 other children, Thomas, married with four children, Anne, married with two children, and Dan currently in the Army's Special Forces. Her husband has just retired from the Navy with the rank of Rear Admiral. Barbara is president of the Santa Monica Auxiliary of the Children's Hospital.

June graduated from Smith *cum laude* in 1964, and is now at Union Theological School. She spent last summer teaching in a Freedom School in Mississippi. Her picture was in the January issue of *Mademoiselle* representing all the young women who participated in that project. Sionag will graduate from Smith in June, and will spend the summer studying at the Goethe Institute for 6 weeks, and traveling in Europe. Charles graduates from high school in June, and is awaiting news of his fate for next year. My husband, Bob, has a very interesting business dealing in rare books and autographs. ##### REUNION REPORT

Our tenth reunion has come and gone. For those of you who couldn't be with us but who were thinking of us, let me fill you in on all the details of our weekend.

Gretchen *Jordan* Smith flew up from Washington for the day. Now if that isn't loyalty, I don't know what is! She looked wonderful as did everyone there. Gretch is expecting her third child shortly, maybe her third son. We all read a letter from Louise Bell and agreed with her that we are all much too young to be that old. Gretch says that Louise and Ann *Clark* Suter are just the same as ever. Both of them have fascinating jobs and are living in Washington.

Jeanne *Skillin* Moore came with her husband, Charles. They are both quite busy with their jobs in Connecticut. Jeanne was horrified to find that our old tower room in Draper has been made into two doubles.

Dee *Fleming* King and her husband and children joined us for the day. Dee has been elected as a news Chairman for our class. We have never had one before, but the Bulletin should be even more interesting with someone like Dee passing on all of your news which of course you will all write faithfully.

We had a nice long chat over dinner at the Rolling Green Motel with Eleanor Easton and Kathy Lloyd. You would be

absolutely amazed at how little everyone has changed. Eleanor has developed a terrific English accent from her teaching experience in England. She hopes to go back soon.

Peggins *Holbrook* Birch and her husband were a delight to see. We had quite an interesting discussion over drinks at Sunset. Peggins helped considerably by asking Mary Minard wonderful questions about the changes and the new ways at Abbot these days. As you know Mary is on the faculty and as head of the history department offered a lot of interesting information.

Mary Ann *Yudicky* Goodrich wrote a nice long letter but wasn't able to join us because of her N. Y. state exams for a teaching license. Heidi Angevine Smith couldn't join us at the last minute and Gail *Baldwin* Whipple and her husband had to change their plans at the last minute. We had looked forward to seeing Mary Ann, Heidi and Gail — perhaps the 15th.

And speaking of the 15th, you will all be happy to know that not only did Marlena *Comas* Rodriguez and her husband make the reunion but they both will be in charge of the 15th. We all had a delightful time with them and I can assure you that Jorge is expecting a lot more men at the 15th.

There is lots more to write, but I'm afraid the price of the Bulletin will go up if I don't start being more brief. Let me briefly cover everyone else who was there and perhaps Dee will be able to go into more detail in the next letter.

Jane *Kent* Rockwell loaned many fascinating objects and one charcoal sketch to the Art Exhibit. Her work is delightful and for all of you who didn't come, her exhibits are one of your greatest losses.

I could have spent hours talking to Nancy *Eastham* Iacobucci about her successful law practice and her life in N.Y. Nancy, Kathy *Stirling* Dow, and Jolyne Fournier were such fun to see. They all looked marvelous and I don't have time here to go into much of anything except to say that Kathy was elected our new Fund Secretary for 1965-1970, I'm sure that she will do as good a job as Carol Straton.

And last but not least, Diane *Sorota* O'Dwyer and her husband came down from Portsmouth where they are busily engaged in defending our country. Everyone was fascinated with their fund of information.

We all missed all of you who couldn't come. We had a wonderful turnout and we managed to steal a little of Miss Hearsey's time for ourselves. A reunion wouldn't have been complete without her.

Now don't forget to write all your news to Dee *Fleming* King. Her address is: 503 Nevada Drive; Erie, Pennsylvania. Again my thanks to all of you who wrote and helped me out throughout this reunion.

Sally *Graf* Fish  
Reunion Chairman

#### 1964

If the report of the Class of '64 seems rather sparse, it is not because of lack of activity on your part, but a confusion of dates on mine. I apologize for this, and assure you that everyone will have a chance for full publicity in the fall. So . . . do something interesting, daring, exciting, and don't fail to let me know! Even if you are peacefully vegetating, I would still like to hear from you before September.

The exodus south this spring vacation included Amy Schlossberg and Suky Stafford who both went to Bermuda. Joanne Schwiebert, Judy Lang, and I went to Florida, although we were all at different spots along the eastern coast. Judy was visiting Al at the University of Miami. Connie flew to Chapel Hill and then to Palm Beach . . . for the weekend. But Super-Skier Martha Foley stuck to the slopes.

Rumor has it that Jo has attained the highest scholastic average of the entire student body at Pine Manor, news not hard to believe.

Midge Hinkley is now pinned to Ollie, a junior Delta Tau Delta at U. of Maine.

At Bennett, I hear that Lawrie has done an excellent job in several of the school productions.

This summer Pris Pedersen has hopes of studying Japanese at Columbia. Amy Schlossberg may attend Harvard's summer school.

Hester Coolidge will spend the summer in Norway with the Experiment.

Sue Localio will transfer to Smith in September.

Martha's Vineyard has lured Judy Lang, Connie Chamberlain, and Martha Foley to its shores for babysitting and waitressing jobs this summer, while I have been coaxed into the trials of commuting to New York City by a job as receptionist with the advertising agency, Lennen and Newell. If any of you are in the city this summer, I would love to meet you for lunch or see you at my home.

Congratulations to the graduating seniors! Hope to see some of you here next fall.

## *Greetings:*

— Not only from me but also from the largest group of students in Abbot's life. This is a school that has outgrown its ancient Chapel and its usual complement of classrooms. There are more day students than before, and this year they come from many places in the Merrimack Valley. There is, as always, the excitement of the year's beginning, the knowing that each girl will grow and change in the seasons ahead. Some change will come quite naturally, some will come with specific failures and successes, some will come because of teachers' and housemothers' guidance and stimulus. This relationship works both ways; those of you who are teachers — or parents — will know very well that children and students will produce some changes in the adults around them!

Speaking of the Chapel — when it became clear that the total school, including the faculty, could not occupy it, the decision was finally made to transform it physically but not irrevocably into two kinds of areas much needed here. The windows at the back of the platform area were unblocked, letting the sun stream in, and a partition has been erected about a third of the way along. The old red carpet will be relaid in the smaller room, which can be used for classes. In the larger one will be a platform large enough for a piano and a singer or a speaker. The old benches, about half of them, will be placed here and the room will be used for Fidelio, for small recitals, and large classes, for club or class meetings, debates, and the like.

In the meantime, Davis Hall, filled with the lovely sound of the new organ, becomes a chapel each morning.

Many of you write to the Admissions Office each year and receive our catalogue with a supplement of general information. We thought that all of you would like to know more about the present offerings and the people at the school. We hope that in fact you will be interested to see what is reprinted here in this Bulletin.

May this year be a happy one for us all.

Mary Hinckley Crane

# GENERAL INFORMATION

## LIVING ARRANGEMENTS

Abbot students live together by classes in Academy dormitories and houses. The Seniors and Senior Middlers live in Draper Hall, the administration building with spacious dormitory wings, whereas the Preps and Juniors enjoy the atmosphere of the smaller houses, Abbey, French and Sherman. Each corridor or house is under the supervision of resident faculty members and house mothers. Each dormitory room is equipped with essential furniture. Students and faculty eat together in the Bertha Bailey dining room in Draper Hall.

## WEEK ENDS

Girls may leave the school for one week end each term, departing after Friday luncheon and returning in time for Vespers on Sunday. On Friday evening, there may be chaperoned trips to a play or the opera, but more frequently there are activities at the school initiated and led by the students — a school "town meeting", a current events forum or perhaps a corridor party.

Girls may take a Saturday or Sunday leave several times during each term. They may join friends or relatives for the day; they may also go into Boston for a play, a concert or some other form of entertainment. Younger girls are always chaperoned; seniors may go in pairs or groups.

Saturday evening brings to the school outstanding artists and lecturers. In addition there are dances, plays and glee club concerts with nearby schools. The girls also attend events at Phillips Academy — games on Saturday afternoons, concerts and entertainments on Friday or Saturday evenings.

## HEALTH SUPERVISION

The Antoinette Hall Taylor Infirmary, under the direction of two registered nurses and a visiting school physician, provides infirmary care and daily clinic. Before school opens in the fall, every student is asked to have a physical examination by her family doctor. After the student's arrival, a general physical examination is given by the school doctor. If highly specialized care is required at any time, local consultants and hospitals or Boston physicians and nationally known medical institutions are readily available. Illnesses are reported to the parents by phone or letter as the situation demands.

## STUDENT GOVERNMENT

The administration, the faculty, and the students share the responsibility for the smooth running of the school. Only those regulations are enforced which seem necessary for the welfare of the largest number, and only those restrictions are imposed which experience has shown will lead to the best development of the individual. Community life is bound to be less free for the individual than family life, but there is at the school a noteworthy spirit of loyalty and integrity which characterizes the student body as a whole.

All students are members of the Student Government Association which seeks to encourage self discipline and consideration for the rights of others, as well as to provide discussions and inter-school conferences. The Student Council of representatives elected by the students cooperates with the Administration and may act as a judicial, an executive and legislative body. Students are chosen from each corridor and house to serve as proctors and help the teacher and house mothers to manage the dormitories. These proctors, with class officers, make recommendations to the Council, which in turn carries questions or problems to the administration.

## STUDENT ACTIVITIES

The Abbot Christian Association has a vital influence in the school. From welcoming new students and helping them to feel at home to acquainting students with the needs of people less fortunate than themselves, it offers valuable service to the school community. Special interest is shown in educational work throughout the world and student representatives are very active in the World University Service.

Abbot is not sectarian. A simple Christian service is held in the Chapel every school-day morning; often the A.C.A. officers plan and conduct this, and at other times the Principal or one of the members of the faculty. On Sunday mornings the girls attend one of the town churches, or occasionally the Chapel at Phillips Academy. On Sunday evenings attendance is required at the Vespers service in the Abbot Chapel.

Other organizations in which the girls participate include the Fidelity Society, the glee club which presents several joint concerts during the year with such schools as Phillips Exeter, the Brooks School and Phillips Academy; and the Choir, a group of twenty girls, which gives special concerts and sings at the regular Sunday evening vesper service. There are also informal singing groups which sing at dances and special events.

Through interest groups under student leadership and advised by faculty members, such as current events, debating, drama workshops, photography and dance, there is opportunity for individual expression.

Girls who are interested in writing and editing may join the staff of the *Courant*, the student literary magazine, of the *Cynosure*, the school newspaper or of the *Circle*, the yearbook edited entirely by seniors.

## REPORTS TO PARENTS

Mid-term reports of the students' grades are sent to the parents or guardians in October and in February and consist of grades on the work done in a period of six weeks. Term reports are sent in December, March and June. A grade of A represents superior standing; B, good; C, average; D+, passing with warning; D, failure. Students planning to enter major colleges should, as a rule, maintain an average of at least B, or 83, in their work each semester.

## CUM LAUDE SOCIETY

Each year in the spring, elections to the Cum Laude Society are announced. This is an inter-school society which bears the same relationship to secondary schools as that of Phi Beta Kappa to colleges. Membership depends upon very high quality of scholastic achievement.

### ALUMNAE ASSOCIATION

The Abbot Alumnae Association, with a membership of nearly 3700, seeks to advance the interests of the school and to keep its graduates in touch with one another. Alumnae headquarters are at Sunset Lodge; and guestrooms are provided for visiting graduates. The executive secretary has an office at Sunset, and the archives and files are kept there.

Graduates of the school are to be found in nearly every state and country of the world. Abbot Alumnae Clubs have been organized in thirteen regions.

### ABBOT DEVELOPMENT FUND

The Abbot Development Fund was formed in 1958 to encourage annual and special giving to the school on the part of parents, alumnae and friends. A substantial amount has been added to the school Endowment, both unrestricted and for Scholarships, and a number of specific needs have been met, such as the Language Laboratory and scientific equipment.

# COURSES OF STUDY

## ENGLISH

The teaching of English is based on the assumption that the three divisions: literature, language, and composition, are of equal importance to the student and must therefore be given equal emphasis by the teacher. There are set texts to be studied, though in the spring term we pursue somewhat further our belief that similarity of purpose is more important than uniformity of material, particularly for the upper classes. In addition, the work is set up in such a way that the students can see connections with other subjects, particularly with history.

ENGLISH I. The course includes: in language, a study of the history of the language, of the sources of words, and a grammar review when necessary; in composition, paragraph writing, brief topics in the basic essay form, with the emphasis on exactness and concreteness; in literature, a brief history of English literature, dramatic, lyric and narrative poetry, and the study of a theme as it is handled in different works and periods together with a study of mythology and the use made of it by English and American writers. Representative texts: *The Tempest*, *The Idylls of the King*, *Ivanhoe*, *The Once and Future King*.

ENGLISH II: The course includes: in language, a close study of the meaning of words, further work in the historical development of the language, and a study of the changes in word meanings in their historical context; in composition, critical essays on the literature texts, work in paraphrase, comprehension; in literature, a study of genres, and of biblical allusions in literature. Representative texts: *Dr. Faustus*, *Sound and Sense*, *Moby Dick*.

ENGLISH III: The course includes: in language, the study of style, and discussion of some of the principles of language; in composition, critical essays on very specific subjects, work with precis, and comprehension; in literature, a study of comedy, from Shakespeare to Oscar Wilde. Representative texts: *As You Like It*, *Pride and Prejudice*, *Vanity Fair*. For Poetry, they read the Romantics.

ENGLISH IV: The course includes: in language, a study of logic and a discussion of linguistics; in composition, critical and research papers; in literature, a study of tragedy, a study of the theories and trends of modern poetry, modern novels, and modern dramas. Representative texts: *Hamlet*, *Pocket Book of Modern Verse*. Plays of Giraudoux, Ionesco, Brecht.

English IV Honors Course. This course follows the same outline of study as the English IV. The course covers more, and more advanced texts, and demands a higher level of original thinking and interpretation in these and other areas.

## FRENCH

The direct method is used. Classes are conducted in French. The aim is to teach the students not only to read or write French but to understand and speak it. Students who have had some French before coming to Abbot can be placed in "Special sections" which move more rapidly, enabling them to take French IV or V in later years.

FRENCH I. Basic vocabulary and grammar. Practice of conversation. Varied exercises, oral and written. Representative text: G. Mauger *Cours de langue et de civilisation françaises à l'usage des étrangers* (1er degré), and *Français élémentaire*, G. Mauger and G. Gougenheim.

FRENCH II. All the principal tenses (except "passé simple" and "passé antérieur") in grammar are studied. At the end of the year students are expected to be able to converse easily in French. Representative text: G. Mauger, *Cours de langue et de civilisation françaises I* (2ème degré), and *Français élémentaire*, G. Mauger and G. Gougenheim. During the year the students must do outside reading in French.

FRENCH III. Review of grammar and new vocabulary. Representative text: G. Mauger, *Cours de langue et de civilisation françaises II* (3e degré). Plays and stories by French authors.

FRENCH IV. Grammatical reviews. Essays and debates. General outline of French civilization, geography, history, economy, and education. Emphasis on 17th and 18th Century authors. Text: G. Mauger, *Cours de langue et de civilisation françaises II* (4e degré). Outside reading required.

FRENCH V. A literary study of the 19th and 20th Century civilization. Outside reading is required supplemented by oral and written reports.

FRENCH IV. CIVILIZATION. An introduction to French civilization, concentrating on the history and literature of the Middle Ages and Renaissance periods. Representative readings: *La Chanson de Roland*; *Tristan et Iseult*; Rabelais, *Gargantua et Pantagruel*; Montaigne, *Essais*. Also review of the fundamentals of French grammar.

#### SPECIAL SECTIONS

FRENCH I. This class has been created for girls who enter Abbot with a knowledge of elementary written and spoken French. The classes move at a rapid pace with emphasis on reading fluency, ability to write correctly, and facility in speaking.

NOTE: All students are required to use the Language Laboratory.

### GERMAN

GERMAN I. Intensive drill in grammar, enrichment of vocabulary, and classroom conversation.

GERMAN IV. Intensive drill in advanced grammar, enlargement of vocabulary with emphasis on correct pronunciation, German literature and civilization, classroom conversation and reading from current newspapers and magazines.

### HISTORY

ANCIENT AND MEDIEVAL HISTORY. Starting with pre-history and ending with the Reformation, the history of the countries of the Near East and Europe are studied from a cultural point of view. Stress is placed on how the people lived, their government, culture and art. Comparison with our own way of life is constantly made and the importance of the influence of the past on the present is shown. Required for ninth graders.

GREAT MEN AND IDEAS — (or Medieval and early European history). This course deals with the history of western Europe from the Middle Ages to the Congress of Vienna in 1815. The reading is taken from biographies of significant figures who have contributed to western civilization — Martin Luther, Elizabeth I of England, Napoleon, and others. (Open to 10th Grade).

MODERN EUROPEAN HISTORY. The course in modern European history is an intensive study of the course of western Europe from the French revolution in 1789 to the present day. The textbook used is supplemented by library reading. (Open to 11th Grade).

One of the above two courses is required.

UNITED STATES HISTORY. The course in American history provides an intensive study of American institutions and ideas from their origins in the European and English Renaissance to the present. Special attention is paid to the factors, both domestic and foreign, which have acted upon these ideals and institutions. Feeling that dependence on one text is poor preparation for college work, the girls do most of the reading assignments in books from the school library. The use of the library gives experience in the reading of primary sources and the evaluation of secondary sources. Required for seniors.

HISTORY OF ART. The course is a survey of the art of the Western World starting with Egypt and ending with the Twentieth Century. The Orient is touched on very slightly. A few important monuments and artists are stressed to show the general style of each country and period. Style is emphasized and the student is shown how to observe the similarities and differences between the various countries and artists. Outside reading is assigned to supplement the text book. When possible, excerpts from the writings of artists and art critics are examined and museums are visited. Open to eleventh and twelfth graders. Text: H. W. Janson, *History of Art*.

It is with a feeling of numbness that we report news of the sudden departure of our beloved "Southern Rebel", Dunster Gibson Pettit from the ranks of our class forever. A class officer for each of her four years at Abbot, we remember Dee for the little things that marked her personality apart for her proud love of her homeland, Kentucky; for the singular care with which she packed each item in "the big black trunk" for the long train ride home; for the rubber face that entertained us so often in pantomime; for the searching dark eyes that sought interminably for the rational solution; for the hospitable heart that blended North and South. After graduating from Connecticut College ('57) and Katherine Gibbs in Boston she became a secretary for Senator Thruston Morton in Washington, D.C. She travelled at various times quite extensively both to West and East. She explored California, Japan, Vietnam, took vacations in Nassau, Bermuda, and a long trip through the near East. Dunster's last two years were spent in Boston working for Spencer Hurtt Associates, where she kept in touch with many Connecticut College and

Abbot friends.

In memory of those precious years spent together at Abbot — of young hopes and dreams now realized or outgrown — we hope that each of you who knew Dee will help us to realize a memorial gift to be used by the girls at Abbot today.

Dear Classmates: We did indeed have a grand 10th reunion and I can't begin to tell you what it did for us. All the anticipated enjoyments of seeing one another were felt along with a marvelous sense of being quite new — quite current. In other words after being exposed to the present Abbot (with its exciting art department and language studios among other things), it just didn't matter if one did have a little grey hair!! A very warm thank you to Abbot for including our husbands and children. Ironically, on May 8th Patti Fryling Petit was visiting here in Erie with Pamela, a new daughter born in December, 1964. We are all hopeful that Patti's husband has completely recovered from an auto accident injury. By this time Ellie Easton must be packing for England again where she plans to continue her study of Jacobean literature. I do wish we had Jane Kent Rockwell available to teach art here in Erie. From our conversation Jane seems to take a most interested attitude towards applied

art in primary grade schools. Peggins was talking about going back to the books and Sally Graf Fish is studying German at Boston University. What fun it was to see and talk with our only classmate presently on Abbot's faculty — Mary Minard. I hope she will send me news of her travels. She is an absolute authority on Scotland! Also looking forward to Charles and Jeanne *Skillin* Moore's news of an August, 1965 trip to Newfoundland and Europe. The Kings are anticipating a trip to St. Louis for a long tiring week end to pick up our 7-month old black labrador retriever, "Genny". She should be charming — it's the 3 King children that are exhausting! Diane *Sorota* O'Dwyer, despite her talents in dress designing, furniture refinishing and interior decorating, has most recently settled down to being a landscapist because "... I'm out of doors and can take the boys along where they can't get into too much mischief". Libby Baldwin became engaged to George Manley Crabtree of New York. He is a graduate of Amherst College and is with the New York Stock Exchange.

Thank you to all who helped make our reunion so pleasant and thank you, too, for giving me such a lovely excuse to stay in touch with everyone, and "Remember, some time, some where, when you are least expecting it, someone is going to tap you on the shoulder and say smile..." and send your news to...

## 1963

I have returned to Briarcliff where I anticipate a B.A. in Community Affairs sometime within the next few years. This year is going to be omni-exciting. The upperclassmen courses are all experimental. Maria Pastoriza, who graduated from Mount Vernon Junior College in June, is here to join in the experiment and is living with me. She is majoring in International Affairs.

Mimi Dean has transferred to Colorado from Wheaton. Sue Burton majored in Drawing, Painting and Sculpture at Bennett College. She is working at the National Geographic Society in Washington in the Illustrations Division which is primarily responsible for putting out the magazine. Judy Butler spent the summer as stage manager for the New London players in New London, N.H. She graduated from Colby Junior College as did Emily Moulton. Emily is studying at Hood College this Fall. She worked at Hell Gap, Wyoming, this summer with the Harvard Archaeological Expedition. Chris Stern graduated from Bennett this June and is now studying at the University of Chicago where she is majoring in Sociology. Nat Ware is

in the 3-year Fashion Program at Stephens. She spent this summer on an 11-week study tour of Europe with a group from Stephens. She attended couture showings in London and in Paris.

From Muffie Ketcham we learn that Jonell Briggs is now Mrs. Stephen R. Crook. Freddie Moxon was a bridesmaid. Sandy Price became Mrs. Richard L. Bishop, September 9, 1965, in Bermuda. Sandy finished a course at Katharine Gibbs and her husband is a fourth-year student at Tufts Medical School. Jackie van Aubel was married October 7 to Eric Janssens in Brussels, Belgium. Next Spring Jackie and Eric will leave for South America where Eric has accepted a 3-year commitment working for the United Nations. Eric is a lawyer and has a B.A. degree in Economics.

## 1964

Somehow our class never fails to come up with such an amazing variety of stories that I (regretfully) am not able to print them all in their entirety. My apologies to those of you who may feel slighted.

One of the most interesting occupations that trapped a classmate into (shudder) working, was Lucy Mack's task of rummaging through medical journals at the Yale Law Library in search of information on certain problems of forensic medicine. She was doing research for a textbook being written by a professor at the New School in New York.

And then there was our guiding light, Laurie Waltuch. Laurie was a check-out girl at the A & P in Nantucket. She lived with Sue Trafton and Lisa Wright, who were also laboring at something or other.

Judy Lang and Connie were nearby on Martha's Vineyard, Judy clerking in a Drug store and Connie babysitting.

Paige Bossi wrote of her "incredible" summer at the Orleans Arena Theatre on the Cape, where she cavorted as Molly in "Tom Jones" and as one of the twins in "Stop the World."

Joan Emerson spent the summer on Long Island, taking some courses at C. W. Post College.

Kit Jones was an IBM programmer for an oil company in Venezuela.

Linda Pattberg and I were both working at New York advertising agencies. Linda says Sweetbriar is "nice" but she prefers W & L, one senior in particular.

Laura Stevenson is still selling horses, playing the viola, taking numerous courses at U. of M., and singing Madrigals. Her major is History, probably Medieval.

Amy Johnson sends fabulous tales of her courses at Radcliffe, including Organic Chemistry and Celtic 100a. Her newest passion: Following the Grand Prix and playing Graham Hill in her new car.

My most enthusiastic replies came from the travelers. Margaret Deutsch wandered around Europe (with Weenie?). Mary Travers went with the Experiment to Takarazaka, Japan and studied there under a professor from Syracuse, returning to the States by way of Molly's in California. Hester Coolidge traveled

with the Experiment to Norway, spending most of the time in a work camp and on a hike. Joan Harney still won't sit still. After a summer course at UNC, she traveled through Italy and France in August. She is moving back to Holland this month.

Gail Gruver presented a refreshing viewpoint. She is very glad to say that she has enjoyed her first full summer in the USA, attending summer school in Houston. She loved it so much that she is staying there this term, perhaps returning to Northwestern at mid-semester.

I can't exclude from my list of enthusiasts The Campers:

Susie Van Winkle survived a summer at a girl scout camp in Litchfield so well that she plans to return next summer. Sue is an economics major at Conn.

Our favorite born and bred New Yorker, Susie Localio, is fairly bubbling over about the woods and lakes and trees and canoeing and hikes and male counselors at Camp Treetops, where she was a waterfront instructor. Having forsaken the dirty city forever and ever, Susie is now commuting to Smith from Deerfield and loves it.

Gwyn Walker was a tennis counselor at Aloha Camp for nine weeks, learning a lot about teaching and thirteen-years-olds. She has been a member of the Chattertocks, the Pembroke singing group, and will be arranging for them this year. Gwyn is definitely headed toward a music major, having already taken the most advanced course that Brown has to offer, orchestral composition. The Brown University Orchestra was so moved and impressed by the opus that she composed for them to perform, that they asked her to do more for them. In between all her activities, Gwyn found time to give a very nice dinner and Abbot "reunion" for Jo, Lucy, Pris, Sara Watson, and myself.

Joanne was a typist and receptionist at Socony Mobil in New York for June and July, and then spent a wonderful week or so out at the tip of Long Island with Bob and his family.

Melinda Bateman worked at Lake George as a secretary, while Allis Brooks enjoyed waitressing at the Lake Placid Club. Lee Clark worked as a waitress at an Inn in Rockport, Mass. and is very happy to be back at Bennett.

Back to Laurie the checkout girl. She writes that Stanford is "keen (really)" and that she plans to go to Stanford's school in Tours for six months in March.

I saw Marty Coleman on the train several times on her way to Columbia summer school where she was taking (I think) geology and Greek. Besides her *long* hair, Martha has not changed, except that she is planning an expedition to search for Atlantis as soon as she completes her study of underwater archaeology and diving.

Meredith has recovered from the mononucleosis that forced her to leave American U. last year and has returned this fall. Martha Foley is back at Smith after a busy summer spent chasing a brood of children around all day in Cohasset.

Amy Schlossberg went to Harvard summer school, setting a personal record of a 31 in Math. She also worked in the hospital at home; we've been fighting interns off the Jordan House doorstep ever since.

Sukey Stafford worked at an Inn in New Hampshire. She is pinned to Peter Oberjest, who graduated from Penn. last June.

Lee Porter studied conversational German at Berlitz, joined the North Shore Junior League, and worked as a volunteer at the Pepsi Pavilion for UNICEF. She was on the Dean's List at Wheaton last term.

Nancy Poynter also made Dean's List, at Briarcliff. She will major in their new four year program of Community Affairs. Nancy did case work with underprivileged children in Lawrence this summer, under the supervision of the Domestic Peace Corps.

Gretchen Overbagh made Phi Theta Kappa (an academic honor) at Green Mountain as well as being elected to Green Key. She and Mary Chase went to Nantucket together during the summer.

I've been saving some of the best for last: Barbara Hugon wrote me another wonderful, long letter. She writes: "I have had the most wonderful year at St. Andrews . . . The university is in a beautiful old walled town on the sea complete with a ruined cathedral and castle. All the students wear bright red gowns to lectures and it looks so lovely to see everybody walking past the old grey stone quadrangles. Being the oldest Scottish university we have a lot of strange holidays and traditions. Among these are walking down to the end of the pier wearing gowns after chapel on Sundays and a holiday in Winter Term when we are supposed to go home and fetch another sack of meal to last us to the end of the year! The biggest thrill of the year was being elected Charities Queen for our Rag Week out of all the first year students. I had a very exciting week and ended up having an interview on television. Unfortunately the offers from Hollywood haven't poured in yet!" Ivers visited Barb on her way to France, and Barb says she is still waiting for the rest of us to descend. They have moved next to one of the Royal Family's residences! Her new address is: Ben Douran Dersingham, Nr. King's Lynn, Norfolk England.

#### ENGAGEMENTS

Gretchen Overbagh, May first, to PFC Dwight O. Lord, U.S.A. Dwight is stationed in Germany for thirty months.

Friedel Laaff to Steve Koenig, whom she met in Pittsburgh last September. They plan to be married in February.

Thank you for being such an interesting class.

#### 1965

First things first! And did the class of '6 have a first! On the 28th of August Mlle Claudette Chipman became the bride of M Bruno Nicolai. With them go all our best wishes.

Everyone seems to have had a busy summer — I've run into quite a few of my compatriots here — there — anywhere. Dar was quit

adept at popping up — in the company of a Yalie-to-be . . . Newport folk festival she borrowed a roof and subsequently a ride from Orleans to Providence. Hannah spent a week end with me — partially in Newport, and I was down in Hartford for three days. She's off to Geneva and all that may involve . . . Bina worked in Andover this summer and is off for European adventures. I drove down to New York with Melanie who has moved to 13 Deer Hill Dr., Hoboken, New Jersey. Saw Margie in the city — she worked in Peck & Peck's besides taking a writing course. Sue Winet traveled — naturally — and took up surfing and its accompanying social customs. Laura Beckvold was at Harvard summer school. So were Leigh and Brock — need I say more? Carol Reische is completely sold on her summer work — at a camp for blind children. Deryl played softball and believe it or not, she made it through the summer without injury to limb! Sue Harney studied Italian on her own in preparation for an excursion to Italy for three weeks. Martha (Rat) was a chambermaid and dishwasher — maybe that prompted her move to Boston. New address for her — 6 Whittier Pl., Apt. 10N, Boston. She'll be at B.U. this fall. Ellen Adams was at Exeter and went visiting. She is looking forward to Trinity. Kathy Abler — "Best summer that ever was" — senior life guard. — She's off for Europe too!

Emily Davis (whom I've seen here at school) was a waitress at a place called Abbott's! She says, "Surf's up and so is Ives!" Laura Halford toured Europe by boat and bicycle and loved Edinburgh — anyone surprised? Margrit

worked in Andover as did Toni Brainerd and Emily Birdsall. Betsy Giblyn spiced Andover life with a trip to Bermuda — good 'nuff. Joanne Hyde's highlight was a week end at the Auchincloss's in Newport where Hannah and Betsy joined her.

Amie, Emily, Karen, and Ellen seem to have spent the entire summer traveling from one meeting place to another. Janet Barker won all sorts of tennis titles — anyone surprised at that either? Ginger Bertsche was a part-time secretary — and read — golf and tennis too! C. Faye worked for the Red Cross and made long phone calls to Vicki in Vermont. She's here, too. Wendy too — quite a kid.

Sarah Massengale was "Avon calling" and deb all in one. That must have been interesting. Cathie Choy modeled in a *Made-moiselle* fashion show, read, painted, worked on piano repertoire, D. H. Lawrence . . . off to sorority and fun. Cinny was in Africa building a house for the vice-principal of Bible school in the center of Tanzania. She's now a Fundi (expert in Swahili).

Me — I was an operator of a foot press on factory assembly line — Fun and Games! I'm looking forward to hearing from all of you again and will try to reply personally as much as possible. Good luck to all!!! Keep in touch.

Fondly,

BRING YOUR HUSBANDS AND CHILDREN

NO ALUMNAE ARTS FESTIVAL

Only a few of you have seen Andover and Abbot as drifted deep in snow as we are seeing it now, but snow may be far too familiar to you this winter for you to want to give a thought to our slipping and sliding under the cliffs, where snow plows have pushed the snow head-high, and above.

It has been a delight to see many of you return to school in the space between college semesters, and the alumnae quarters in Sunset have been occupied quite steadily through the last fortnight. We've exchanged mutual congratulations on some changes noted on both sides!

We have a new office at school, speaking both literally and administratively. Miss Von Erpecom has been appointed Dean of Students, having supervision over many of the matters formerly the responsibility of the Director of Residence. Miss Von Erpecom is continuing to direct the plays — the Juniors will present theirs in March, and the Commencement Play will be the Seniors'. Her "office" as Dean is the alcove in the McKean Room, separated from the room, as necessary, by a folding door. She confers here with students, house-mothers and faculty advisors about any non-academic problems.

## Greetings

We are now in the midst of worrying about next year's school, as we try to choose wisely from a very long list of applicants. Perhaps I am only asking for *more* such problems when I say that it would be wonderful to hear from more alumnae about young girls whom they know and would like to see at Abbot. This kind of communication and help is exactly what a living and lively school needs. Some of you may have read an article in a recent issue of the *Saturday Review* about college recruiting by alumni. (ae) We have some fine applicants who have come because you have talked about Abbot and urged application to us. We should be glad for more, even though we know that there will have to be some disappointments when selections are made. But we do want the best girls possible, and a good variety, and our alumnae are the best advertisements we could have! (Won't you be recruiters as well?)

## Board of Trustees Notes

Philip K. Allen of Andover, Massachusetts was elected President of the Board of Trustees in November, 1965. He served as trustee from 1948-56, and returned to the Board in 1958.

Mr. Allen is a graduate of Phillips Academy and Yale University. He has served as senator in the Massachusetts legislature, as chief clerk of the United States Senate Armed Services Committee, and as secretary of the Republican State Committee.

He is at present chairman of the Andover Board of Selectmen. He has been a leader in many charitable and civic organizations.

Mr. Allen is married and has three daughters and one son. Nancy Allen Vaughn and Elizabeth Allen Wheeler attended Abbot.

\* \* \* \* \*

James K. Dow, Jr. of Andover, Massachusetts was appointed to the Board of Trustees in November, 1965. A graduate of Exeter, Harvard College and Harvard Business School, he is an assistant vice-president and security analyst at the New England Merchants National Bank.

As a Navy officer, he was a meteorologist in Honolulu. Mr. Dow is married to Katherine Stirling, Abbot, 1955. They have one son, David. He is the brother of Barbara Dow Freeman, Abbot, 1949.

## Report of the Alumnae President

The purpose in my writing is to renew members' acquaintance with the opportunities — and activities — of the Alumnae Association. We urge each of you to establish active membership.

The easiest channel is reading the *Bulletin* which is sent to all graduates and non-graduates. An Abbot girl is always on the mailing list — as long as her address is recorded in the Alumnae Office. It's quite possible that our magazine may make rapid passage from your letter-box to the waste-basket. That's our loss as well as yours. The *Bulletin* ought to serve as a reminder of years spent happily and fruitfully in the pursuit of knowledge and understanding of ourselves.

A second channel of participation is through Annual Giving. Aagot Hinrichsen Cain, 1944, is Alumnae Chairman of the Development Fund, and we are delighted to announce that response to this year's appeal has been far ahead of that of previous years. Those of you who have not already given are urged to consider the needs of your school and swell the increasing number of its supporters.

Alumnae club activities offer another avenue of participation. The luncheon meeting of the Boston Abbot Club in November and the cocktail party of the New York Abbot Club in December were very pleasant events. Details of club activities are given elsewhere in the *Bulletin* and represent the planning of board members sharing my enthusiasm. Do give courteous consideration to every club invitation.

A special activity is participation in national educational meetings. As representatives of Abbot, Ricky Cain and I attended the Alumnae Presidents' Council of Independent Schools held at Northfield School this fall. There we exchanged views on school reunions and alumnae offices; we learned about current methods of counseling and about the Independent Schools' Talent Search Program, the effort to find and place students from underprivileged areas in the 75 secondary schools participating in the Program. It was most gratifying to hear President Jones of Northfield commend Abbot's record. Of the 40 schools included in the meeting only 12 participated in the program. Educators have often stated that the justification for private schools in a democracy is their leadership in experimentation. I can assure you that Abbot maintains a place among the distinguished secondary schools of the country and merits the continuing support of every member of the Alumnae Association.

Faithfully yours,

Barbara Lord Mathias, 1930

# *Betsy*

by

Sally Hughes Carr, 1948

Our fourth child, Betsy, is mentally retarded. In the thought that it might perhaps help a classmate who may face a similar decision or have a close friend or relative who does, I would like to put in a plug for the advantages of keeping even a severely retarded child at home for at least the first few formative years of life. We knew that by the time that Betsy was one year old that she would require institutional care as her retardation was not mild. In spite of most of the medical advice we received which was in favor of placing her as soon as possible since it was obvious she would have to go eventually, we decided to keep her at home until she was about five if possible. It has proved to be a rewarding experience for all of us. Her father, her brothers and sister and I have all had the joy and satisfaction of seeing her slow but steady development and have had the opportunity to get to know the quiet, withdrawn but sweet and loving soul within her. Once one accepts the fact and degree of retardation of the child then every new accomplishment, however small, is exciting. This last year she has been attending a local day school for retarded children and the progress she has shown since she started is remarkable. Two months ago, just shortly after her fifth birthday, we had the fun and joy of seeing her start walking all on her own. She is soon to enter "Seaside", a marvelous state training School for Retarded Children in Waterford, Conn.

I can truthfully say that while we are all going to miss her dreadfully when she starts up there, we are much better prepared for the change now than we would have been even a year ago and I would hate to think of having missed the last five years with our sweet silent little Peter Pan. We now know her, and have had a chance to give her something of our love and receive hers in return. There are heartaches and frustrating moments with a retarded child at home, but the benefits just in terms of the increased patience, understanding, and tolerance of the other members of the family far outweigh the problems. At least that has been the case for us.

A year has passed since I wrote the above, and I would now like to add a postscript.

Betsy entered Seaside Regional Center for Retarded Children in Waterford, Conn. a year ago last August. There has been much news-

paper publicity lately about the terrible conditions in some state institutions for the mentally retarded. "Seaside" is the living proof that it doesn't *have* to be this way.

My husband and I drove up to look the school over for the first time with a considerable amount of apprehension. I must confess that my mental picture of a state school for the mentally retarded was very close to my picture of a penal institution. I was afraid that once Betsy entered the doors we would have lost her forever. I knew she'd get three meals a day but I wasn't at all sure she'd get the love I felt she needed. Would she get any exercise, or only sit tied to a chair to keep her out of trouble?

It was a very different couple who drove back after our day's tour of the school. We had expected to be shocked by the many children we would see who would be more severely and grotesquely retarded than our Betsy. Oddly enough, we saw these children, many of them, and yet we found to our amazement that instead of shock and sadness, the strongest emotion in our hearts on our drive back was a feeling of joy. We had been shown everything from the kitchen to the nursery. While the cleanliness and order were immediately apparent, what impressed us most was the overwhelming feeling of love and happiness, a wonderful cheerful warmth greeted us at every turn, from the children who ran out of their classrooms to give us a hug and a kiss to the patient smile of an attendant crooning a nursery rhyme to an infant as she changed her diapers. This was no prison, but a big loving home. And so it has proved to be.

There are no restrictions on visiting or taking Betsy home. She comes home about once a month for a week end, and, of course, for all the holidays, and it's always a pleasure to go up to get her or bring her back. She is no number at her school, but a very special person. The director insists that the children each have their own lockers with their own clothes in them, for although this necessitates infinitely more sorting and separating of laundry, he feels very strongly that the children must keep their own individual identities and not become "institutionalized". The playground is literally teeming with fascinating swings in the shapes of animals, merry-go-rounds, and what not. Many of them have been constructed by neighbors who not only have not resented the fact that they have a school for mentally retarded in their midst, but have given of their time and money to make the lives of the children as happy and full as possible.

I realize that we are unusually fortunate in living in a state which supplies such excellent care for the retarded. But I also realize that

the Connecticut institutions didn't just happen. They are the result of a great deal of tireless effort on the part of parents of retarded children and others who recognized the need. Years before my husband and I ever heard of mental retardation these people were working, informing the public, pressuring the legislature, and the enlightened child-oriented institutions which we benefit from today are the results of their labors. If it can happen in Connecticut, it can happen in other states. All it takes is enough people who care enough.

I guess if I were able to talk to parents who have just learned that they have a retarded child I would tell them two things. First, don't be afraid to love and to get to know your child no matter who advises you to the contrary. And second, don't be afraid to investigate your state institutions. You may be pleasantly surprised as we were, and if you aren't, join those who are trying to do something about it. It *can* be done.

## REUNION CHAIRMEN

Esther Kilton, 46 Chestnut St., Boston, Mass., and Mrs. Philip D. Dalrymple (Mildred Jenkins) 27 Bridge St., Salem, New Hampshire.

Dear Classmates, —

It has been called to my attention and from a highly reliable source that time no longer flies. It has flown and you and I are faced with the fact that, as of May 14, 1966, we are in that group of distinguished but aged persons known as the 50th reunion class.

As you know, we had elected Eugenia Parker to chairman this important reunion and no one is desirous of even trying to fill her shoes. Reunions however have to be managed by someone so Mildred *Jenkins* Dalrymple and I have agreed to be joint chairmen and we hope to be able to work out something enjoyable to all.

A letter of information and requests for suggestions will be in the mails shortly so watch for it, treat it with much thought and careful consideration and keep your schedules clear for the important dates, May 13 and 14, 1966. PLEASE.

## 1926

Dear 1926-ers,

Our fortieth reunion celebration will be this coming May, on the 14th. So, I am hoping you will start making plans to take that week end off and return to Abbot for a real get together. You will be receiving a letter from me later on with details.

We had a good time at our thirty-fifth, as those who attended will testify, and this one should be even better as we are starting our plans earlier.

You didn't receive my usual note in the Spring requesting funds for our own class treasury as I was sojourning in the local hospital for a three-month period. However, my battery has been recharged and I am as good as new once more. This will serve as a reminder that I would appreciate a check from you, however large or small, to add to our growing fund. Just mail it to me at Plymouth, N.H. Kitty Clay Sawyer anticipated my customary letter and has already sent me hers. This method of notifying you will save me another mailing.

More later, but in the meantime mark Saturday, May 14th on your calendar as returning to Abbot for our fortieth. It will never happen again!

Louise Douglass Hill (Mrs. Frederick P.) is in the Guilcrest Nursing Home in Guilford, Maine, and I know she would love to receive a card from you.

Until later, cheerio,

Sue Loizeaux

#### 1955

Happy 1966 to all!! Santa was so good and so was the pony express service in Erie this year. I am just more than thrilled by the number of people who wrote — and not only notes but some full-fledged letters too! Sue Blake, whom I had seen in Cambridge, Mass in 1962-1963, has left her teaching in the Boston area and can presently be found on Ala Wai Blvd., Honolulu, in a lovely apartment overlooking a river. Despite vicious rumor that she swam all the way to the islands I would like to point out that she actually did it the hard way. In 1964 Sue won a scholarship to participate in Asian Studies Summer Session at the University of Hawaii. She stayed on and the following February went back to the University and earned 18 hours in graduate education. According to Sue it is difficult to find teaching anywhere in the islands without these courses first!! Meanwhile Sue worked part-time in the Audio-Visual Communication Center at the

University. Currently teaching again in a small Episcopalian school called Saint Andrew's is what keeps Sue busy when she is not bathing at Waikiki—honestly, every word is true and I cannot stand it either!!! The mental contrasts that I am making between Erie and Waikiki would be enough to make me turn in my den-mother's badge!!

Ann *Cleveland* Lange indicated on her greeting card two daughters — Ruth Ann and Carole.

Diane *Sorota* O'Dwyer is at it again!! This time it is oil painting and still in the landscaping business too. Her husband Kyran was promoted to Lieutenant Commander, Brenden is in Nursery School and Kyran Niall is 13½ months—which explains much about life with him I'm sure!!

Pete and Sue *Appleton* Evans report the birth of their 3rd child, Rebecca Fowler, June 12, 1965. Pete was Physician to Congress; now is Chief of Medicine at Main Navy Dispensary and they adore Washington. Expect to return to Dartmouth to finish Pete's residency in July, 1965.

Marcia *Cooper* Lee and I have been in touch for a long time and things are always well and happy in Montana from what she writes. Unfortunately this year one of her twins broke his collarbone in February and his ankle in September—and all in his cast for the Christmas photograph. But Marcia looked grand (for those of you who might not have seen the picture) and seems to be a fine specimen of "Florence What's her name!"

And from Nicky *Ogden* Rogers in Amherst, Mass. I learned that the entire Ogden family safely escaped Cuba (before Castro was present) but lost everything that was there. In June 1963 she married Paul Rogers after a courtship at Tulane University. Nicky is now a mother of one son born April 16, 1964. Her husband Paul is practicing law. Living just 15 minutes away from the Rogers' is Nicky's Abbot roommate Alice *Lawrence* Roehrig (Apparently this was discovered at a chance meeting between the gals!!) Alice's husband is doing post-doctoral work at

the University of Massachusetts while she looks after a 2½ year old son and brand new baby daughter born November 19, 1965.

Again, this was just fabulous to hear from so many. Thank you all so much for responding. Not only do I enjoy hearing from you so that everyone can share the news but I also enjoy helping in any way if one of you would like specific news, addresses, etc. of one of our classmates. Please do write to ask if that is the case. Let's all try to stay in touch.

Jack and I send our sincere wishes to you all for a perfectly wonderful year ahead.

Dear 10th Reunioners-To-Be,

Buried treasure lies ahead of us all at our TENTH REUNION! Remember those predictions written Senior year? They and other remembrances will be uncovered May 14th so be sure to return to Abbot for the digging, reading, and party reunioning!

Cemmie *Kelton* Ryland enjoying her "New" old home in charming Essex, writes she'll be a reunioner. She'll be joined by Lee *Pelton* Morrison from Long Island who spent a fun sunny week in St. Croix with her husband, Bill, this January. From Vermont, Phoebe *Estes* Bryan says she'll be on hand for our gathering. Smokey and Phoebe became parents September 15, 1965 when John Taylor was born.

The three Philadelphian '56ers, Boat *Rulon-Miller* York, Peg *Oliver* Hedeman and myself are all planning to venture north to Andover with husbands. Boat is kept busy by Laurie turning 5 years old in March and John now 2½ years old. Peg reports that Bill has completed his training program with Atlantic Refining Co. and has been assigned to the Philadelphia area as a sales supervisor, so Peg with 7 month old Ricky (Richard McIver, born June 25, 1965) in tow is house hunting. I am busy with Planned Parenthood solicitations, organizing the prospective students' tea for the Smith College Club, directing Children's Theatre and with our new son, Parker Davis Powell, born November 27, 1965.

Nance *Smith* King writes she has been busy working for the United Fund, Church Fair and with Bill advising The Church Senior High Youth Group. She plans to get some skiing in now that her two, Scott and Tammy, are in school.

From our lone star gal, Mollie *Lupe* Lasater, we hear she is still the private secretary for Stanley Marcus. She takes care of his "beautiful art collection and library" as well as Gar, now in his third year of law and ranked number 3.

From the H-E Ranch, Dubois, Wyoming, Weez *Day* Cook writes her Dana, Scott and Brad "Really keep me jumping" and "do hope to get back that way." Here's hoping our Senior Class President makes our reunion!

Janie *Tatman* Connelly and Guy celebrated the New Year royally at French Lick in southern Indiana. A pleasant moment away from two active children, Kevin and Kitty.

Susie Waterous Wagg reports the arrival of her second child, first son, Geoffrey on November 16, 1965. Geoffrey's arrival has curtailed Sue's German studies but she still plans to be a skier this winter in Canada.

By May 14th here's hoping all 75 of the 1956ers will be together at Abbot, or at least a photograph and letter from you to give your news to the gala group who do make their TENTH REUNION!

## 1965

The class of '65 is doing a wonderful job in keeping in touch, both with me and with one another. Thank you all for making my job very pleasant.

The first in what I expect will be a long series of happy news just came from

Sarah Massengale (Goucher) who announced that she is pinned to a senior from Johns Hopkins — from Darien — named Pete Light. Our congratulations!!

Christmas seems to be the time to remember “Auld Lange Syne” — and along that line I got a very nice card from Kathy Abler, and she says she’s “loving every minute of Paris life.” One of our other European wanderers has come home to Andover . . . Bina will be at home on Phillips Street for the remainder of the winter. Hannah, however, is busy studying in Lausanne . . . and apparently just loves the whole place . . . she has acquired a new mode of transportation . . . a motorbike.

Rosemary Sullivan is “still at Wellesley.” She has decided almost definitely to be a history major with emphasis on American History. She plans to see Anna Thal in the near future.

Robin Gamble wrote reams and reams about her glorious life in D.C., and said that much to her surprise she misses Andover. She sees Ellen Adams (Trinity College) fairly often. Robin is at Mt. Vernon, Jr.

From California, Kathy Stover sent reports of what sounds like a great life . . . she’s at Whittier and proclaims that it’s wonderful. Ellen Huntington loves Pitzer . . . but misses the East . . . She and Suze (who sent me a postcard from Aspen . . . where she and Leigh (Barnard) spent part of Christmas vacation) plan to go on an all-college ski trip during intersession.

Betsy Foote says “Briarcliff is just fine — and headed swiftly uphill.” Margie is working hard . . . and almost commuting from her NYC stamping grounds.

Deryl (Skidmore) has been “working?” and plans to travel with Ginger from her

home at Barnard to see old teachers and friends at Abbot . . . Deryl’s paper, “The Small Town Democrats”, has been placed in the Connecticut State Library.

From up in Manchester way I heard from both Carol Reische and Claudia over Christmas . . . Carol may be a Philosophy major at Bryn Mawr and Claudia (Manhattanville) sounds really happy.

Dar (Wells) is writing rather lyrical letters that sound as though she is really making the old intellectual effort . . . Good enough .

I ran into Rat (B.U.) at Yale over Harvard week end. That really seems to be the place to see all the old Abbot girls who are going to college on the East Coast. Cindy (Bennett) was there also . . . looked pretty much the same.

Well, Claudette is a married lady . . . living in Midland, Michigan. New address for her: Mrs. Bruno Nicolai, 2157 East Wackerly Road. She’s busy wall-papering and fixing her little house. She sent me a picture of the ground plan and it looks unbelievably great.

Sarah Watson is on leave from Cornell — a vacation from the academia — and plans to work and travel until next fall when it’s back to school . . . !

Here at Connecticut things are in full swing . . . Emily is vice-president of the freshman class . . . C. Faye was on Dean’s List after the first six weeks . . . Treneer had mono . . . but is recuperated now. Me, I’m working on the newspaper and will be Assistant Feature Editor starting in February. So . . . . .

Keep the letters coming you all . . . and live wonderful lives!!!!!!

COVER — THE 1891 "ROCK AND ROLL" GROUP

For the few days since the Reunion day I have been thinking — and hearing, too — how pleasant it was. The sun shines on Abbot, quite literally, on days like this one. It was wonderfully good to see so many of you; I only wish that all of you might return!

The school year is running away with us. Almost without exception the Seniors' plans are settled for next year, while applicants from the other direction are still coming, hoping that there will be some room for them.

The "lower classes" are thinking already of next year; elections have been held and there is promise of interesting patterns, curricular and extra-curricular.

Long range plans for our school and our campus are being discussed and debated.

## *Greetings*

For myself, another particularly interesting pattern is developing. The Trustees have kindly agreed to a Sabbatical leave for me — and I shall spend it, with my two younger daughters, in Athens as interim principal of the High School division of Pierce College.

As many of you know, Greece is a country I love and have been fortunate enough to visit fairly often. I have always wished to spend more time there, and now I can do this, taking some of the things I've learned at Abbot to give to an American-Greek school.

I shall miss Abbot and Andover very much. I know that with Miss Tucker's able leadership in the role of Acting Principal, the school will flourish. I shall regret not seeing those of you who may come back to Abbot next year! My best wishes to you.

## *Abbot in Community Service*

"If I send you a postcard, will you write me a letter?" This was the question asked me by an eleven-year old girl who has probably never received a letter in her life. Arlene is one of the girls with whom eight Abbot students work and play every Friday afternoon. Arlene is an underprivileged little girl who comes every afternoon to the Y.W.C.A. to have a good time. She lives in Lawrence where it is hard for her to find recreation on her own.

Some of us work with Arlene's group in the game room. We do a few obvious games and teach them to play the piano, but what we all enjoy most is talking and

learning more about each other. The rest of the Abbot girls work with a group of about thirty girls called the "Turtles". They are called "Turtles" because of their hard shell — if anyone says anything bad about them, it bounces off. These "Turtles" have had little or no opportunity to broaden themselves at home. Every Friday The Turtle Club meets and follows a routine program. First we have a little snack and some of them serve as hostesses. Then there follows some simple arts and crafts. Finally, we play some team games in the gym. All this helps to give them confidence and experience. Their ideas are respected and they are capable of seeing themselves as individuals with something to offer.

We hope that the Y.W.C.A. has given these girls some change from city school curriculum and a rather drab home life. The girls from Abbot are happy that they can help in some way to make this program possible.

Since October about seven seniors have dashed up from lunch every Wednesday to catch the bus for teaching in Lawrence. Together with some boys from Phillips Andover, we go for two hours to four grammar schools in different parts of Lawrence.

Because of the recent influx of immigrants to that area, schools are finding classes difficult when a fifth of the students cannot understand English. These students, who range from six to fifteen years in age,

come from Canada, Cuba, the Dominican Republic, Puerto Rico, or just from families who speak no English themselves. Most of them are children without a written language. They speak fluent French or Spanish which is hardly recognizable as such because of their slang and pronunciation. Some can even speak enough English to be understood well, but they can write neither their native language nor English with any ease or accuracy. It is no wonder, therefore, that they are bored in their classes and build up a wall of indifference. They feel that they cannot do well, so why bother.

This attitude is our major problem as teachers. Unlike the Abbot girl with her voracious appetite for knowledge, these students could not care less about their education.

So what is the attraction? It is hard to explain. I think I would be missing a great opportunity, as well as a wonderful experience, if I were to give up teaching. We learn more from these children than they could possibly learn from us. What a marvelous education in child psychology, different cultures, and instructional methods, not to mention tolerance and patience. In the beginning I thought I would not be able to find a tranquilizer strong enough to prepare me for my weekly class. I learned from the first day that they are not afraid of punishment or scolding; thus, to get their cooperation, I had to win their confidence and friendship. Now they work for my praise as well as their own satisfaction.

I try to make their classwork and their assignments as little like everyday school work as possible. We play hangman, anagrams, and other games which involve words and sentences; or we read books which they pick out themselves. For homework they write compositions about their boy-friends or girl-friends or their latest grievance against one of their teachers. I feel they can learn just as much vocabulary and grammar in these forms as they could by my drilling them with spelling lists or grammar rules. One hazard I discovered, however, in straying from a prepared lesson is that once in a while my students catch me on the spelling of a word. Embarrassing? They all love it, though, when I make a mistake because it shows them that teachers are human too.

We try to keep all work in English rather than translating from one language to another. This comes near to the impossible at times. Have you ever tried explaining what a "cad" is to a ten-year-old? Conversation is always

part of my lesson. First, because they desperately need someone with whom they can practice their English since they never speak it among themselves or at home. Second, I learn so much about them and their families by talking with them. They tell me about Quebec or San Juan or wherever they used to live, and about their homelife. Without a reminder I sometimes forget that not everyone is in an Abbot Academy.

Each week I can see great progress, especially in the younger ones. I would like to think it was my doing, but I know that they pick up most of their knowledge daily at school. I do think, however, that they learn things from us which are important, but not necessarily covered in class. Teaching in Lawrence is an educational experience for the children . . . and for the Abbot girl.

# Report of Alumnae Council

MARCH 9 - 10

BETTYE *Rutherford* McCOUCH, 1943

How long is it since you were last a part of Abbot? No, not just reunions at five-year intervals, or an occasional visit for a club meeting or special affair; I mean a real part — eating and sleeping on campus, participating in morning chapel, attending a few classes interrupted by tiffin? In short, when did you last recharge your Abbot batteries?

Alumnae Council meets biennially as a function of the Alumnae Association, and is composed of a rotating group of alumnae. On March 9, a group of about thirty alumnae gathered at Sunset for registration before proceeding to a four o'clock Council meeting in Abbot Hall. There followed a brief meeting conducted by Barbara *Lord* Mathias '30 and a few words from Helen *Allen* Henry '32 on the responsibilities of an Alumnae Trustee and finally an informal address by Mr. Philip K. Allen, President of the Board of Trustees, on the subject of Abbot's future in the present phase of thinking. Our questions were encouraged and the answers point to a bright future for our school.

Dinner at the school was preceded by a liberal social hour and followed by a warm welcome from Mrs. Crane and a history panel presented by four students whose performance drew applause not only for their fine presentation, but even more for the imagination and sensitivity shown by those planning the curriculum. The scope and depth of the courses as well as the degree of individual freedom given each girl in her pursuit of an interest were particularly meaningful for me. A second phase of our evening was the faculty reception at the Art Gallery amid the Brandeis University Collection of Honore Daumier prints. And so to bed and proof positive that some Abbot traditions are immutable — the "hen sessions". This was further verified by breakfast and Chapel the next morning. There was a degree of adjustment to the fact that Chapel was not in the Chapel, but the spirit was all there and the years were turned back as we listened to a Senior conducting the service and joined in the singing. Then on to classes with the bustling throng. Many were relieved to escape recitation — perhaps our years since Abbot *were* showing! A class discussion in English III had us sitting on the edge of the chairs ready to take issue with any one. We were brought back to earth by tiffin and our visit was concluded by a meeting with Mrs. Ford Duncan, Director of Admissions, who gave us some insight on the school's point of view with regard to admissions, applications and acceptances. At all times, we

were encouraged to question and probe, that we might leave really knowing our school and prepared to answer intelligently when asked her purpose and policy.

In conclusion, I would encourage all alumnae who are invited to attend an Alumnae Council to make every effort to accept. It is not easy to arrange one's domestic affairs and be free to go off, but I speak from my recent experience when I say that the effort is fully rewarded by the reassurance that the spirit of Abbot is as invigorating now as it was then.

1896

Beatrice Farnsworth Powers writes: "After leaving Abbot I went to Chauncy Hall for two years and then taught for eight years. I gave this up to enter Johns Hopkins School of Nursing and got my appointment at Yale to go out to China to have charge of a Nursing School. I returned after three years and married Dr. Grover Powers, a professor of pediatrics at Yale. We have one son who is married and he has three children. Dr. Powers retired recently because of ill health."

1901

Isabel Herrick Klous writes: "For many years my husband and I lived in the old house in Lawrence. He died two years ago at the age of 100. I sold the home and moved to the Nevins Home in Methuen. I am active in the Noon Auxiliary, an Episcopal Church Organization, and I also belong to the Lawrence Woman's Club."

Lillie Dodge Brewster announces the birth of her third great-grandchild. The class will be sorry to learn that Lillie's brother, George, died recently. She writes that her richest enjoyment is in listening to good music, and her deepest interest is in the progress of medicine.

Leila Fraser Gilbert is living in a Retirement Community near Stanford University. Her two children live in Berkeley and San Francisco, and she is the great-grandmother of 7 children.

Helen Hale writes, "I supervise an eight-apartment house, do church work as a member of the Altar Guild, and am a member of the Lawrence Woman's Club. May I say thank you to those of 1901 who have responded so generously to my many letters over the years for the Abbot Fund."

We are happy to correct an error in the October *Bulletin*. Edna Kidder Baldwin writes that the report of her death was greatly exaggerated. She is 83, and enjoying life very much. Our sincere apologies to her.

## REUNION REPORT

The class of 1906 had a very happy reunion. Present were Persis Mackintire Carr, Evaline Korn Cookman, Constance

Parker Chipman, Molly Jordan Goodrich and Rena Porter Hastings. Last but not least, Harold Cookman, Evie's husband, who took part in all the events, was elected an honorary member. Headquarters at the Parker House Inn in Shawsheen Village proved most satisfactory.

Constance Parker Chipman  
Reunion Chairman

Molly Jordan Goodrich reports that she has 3 children, 7 grandchildren and 4 great-grandchildren.

1907

Clara Hukill Leeds and her husband spent the winter studying Art in San Miguel de Allende, Mexico.

1908

Esther Stickney Alley writes, "I'm well and active, and live alone in my home. I've recently been to Bermuda."

1910

Ruth Murray Moore has four granddaughters — one will enter college in September.

1911

The class will be sorry to learn that Marion Bemis Schlesinger was unable to attend reunion. She has been ill for the past eighteen months.

Dorothy Bigelow Arms writes: "I really have no exciting news. We have just returned from 3½ months in Florida. I can't attend reunion. It happens that I shall be 'grubbing' — The Connecticut Horticulture Society and the Massachusetts Horticulture Society are viewing Worcester gardens. My garden is to be open. Since I do it all myself, you can see I'll be on my hands and knees. My love to the members of 1911."

Marion Brown sold her twenty-three room house in 1961. It had been in her family since 1876, and she had less than 2 months to clean it out. She writes, "I wore myself out disposing of my precious antiques. I have spent many days at the Lawrence General Hospital."

M. Rhoda Green writes, "I seem to keep well and busy and have just had my 75th birthday. Unless I pause to consider that big milestone, I am fine. I see my foster grandchildren frequently. I spend a lot of time in volunteer work at the hospital

and have been mightily occupied during the last year in helping with the decor for our new building. I keep track of Maudie's family (Maud Gutterson Green) — Tim and Kaki are in Mexico City. Iste is in Washington with a fine family. If any of you are near-by please look me up for I would be thrilled to see you. My best wishes to each and every one of you."

May *Hall* Lewis was not able to come from Washington. She writes, "My bachelor son lives with me and my two married daughters live not too far away. I have eight grandchildren. My family has been my life work. For many years I was privileged to take thousands of pilgrims through the Washington Cathedral. Best regards and love to my classmates."

Dora *Heys* Pym writes, "I am living with my daughter, Constance, in Riverside, Conn. I often fly to Michigan to visit Carol, and I've been to Florida several times, but really live in the reflected glory of my children. Two doctors watch me, and I am quite well. Best wishes to 1911."

Miriam *Howard* Bushnell writes, "Greetings to each one of you. Once in awhile, maybe once a year or so, I get out our old class book and snap shots of Abbot to renew old acquaintances. I am surprised after all these years, by the feeling of warmth and affection that comes surging up from the 'deep well' of memory as I remember those happy years we spent together. My unregenerate granddaughter, age 16, shrieks with laughter at the 'squares' pictured in the year book or at snap shots of a corn roast at Poms Pond, where our casual picnic attire consisted of pleated skirts to our ankles and tailored shirt-waists with collars pronged up about our ears."

"What an era we were privileged to grow up in. Most people then felt that the world had seen its last war — until 1914, which was a shocking and bewildering year to everyone. Since then, war has become a way of life. Call them 'hot' or 'cold', they nevertheless have called into service first our husbands, then our sons, and now our grandsons. The worst of it is, the future looks blacker and more hopeless than ever before. Ellsworth and I do not understand all this and are thankful there is a brave younger generation to cope with it. Our contribution is, that we nourish a deep down faith that there is wisdom and good-will among the vast majority of the people of the world, and that their moderation and

forbearance will prevail where guns and bombs have failed.

"We are fortunate to be together and although we have slowed down considerably, we get along pretty well as long as we do not try to do too much. We have a daughter and two sons each with two children. One son lives in Toronto and the other two children live in the Twin Cities. Aren't we lucky to have these families so near? One grandson is married and in the service and the others all in school or college.

"We live in the same home we moved into when we came to St. Paul in 1920. Although it was hardly big enough then, with our three children and an occasional parent or two living with us, now we should have something smaller and more compact. But we like this neighborhood and feel at home here. Our church is just over the back fence, and Macalester College, a fine small Liberal Arts school, almost surrounds us. We stroll on the campus, browse in the library, enjoy student plays, concerts, athletic doings, as well as lectures of world wide personalities brought here to enrich the campus. So here we shall stay for the present.

"I read the Abbot bulletin almost from cover to cover and try to keep informed on the changes there. I am sure a school that remains static in these times is not growing, and glad that Abbot trustees and faculty and alumnae do not hesitate to shape the school's policy to help her students meet the needs of this changing world. And this from one of the class of 1911 who was in school under the unassailable motto, 'It never has been done'."

Edith *Johnson* Donald writes, "Jack's long illness and death have taken a terrible toll of my strength. My sister, Muriel, and I had a wonderful trip to Bermuda in April. I still enjoy the Travelers Club and our bridge club that meets every other week. Love to all."

Carrie *Morang* Robinson writes, "It is hard to realize that fifty-five years have passed since I left Abbot. I am sorry that I cannot be there for our reunion, and perhaps see some of my old friends once more. My husband has recently had a stroke and I am recovering from a broken hip. We are getting on very well and having a happy time together. We have been married for fifty-two years.

"My daughter, Ella *Robinson* Bode, Abbot '33 lives in Atlanta with her two daughters. Our two sons live in the North. We have six grandchildren and

one great-grandchild. Our youngest granddaughter Jane Robinson hopes to go to Abbot.

"Strangely, just a few days ago I found a letter to my parents from Emily Means, although it is most un-complimentary to my scholastic accomplishments, I rather enjoyed reading it."

Frances Pray lives in a pleasant apartment in Laconia, N.H. She "gets out of the sticks now and then to go to Boston for a change of scene, and much to my physician's amusement a piano lesson!"

Margaret Strong Hill reports that she has five grandchildren — three boys and two girls.

Mary Sweeney sailed on May 12th on a Mediterranean cruise, after which she was planning to stay in Spain until the early part of August. She took her grand-nephew, the youngest son of Martha Sweeney Read, Abbot '37.

Henrietta Wiest Zaner has spent the past nine winters in Phoenix, Ariz.

#### MARGARET WILKINS

1891 - 1966

When the tired but valiant heart of Peg Wilkins slowed and finally stopped on February 6th, Abbot lost one of her most loyal and devoted daughters, lost, however, only in the sense of being no longer visible.

Abbot to Peg was always something special, something set apart to which she felt she owed what were probably the three happiest years of her life. While there she entered into every activity with verve and the fact that she did not excel in any, never affected her enjoyment in trying, which made her a perfect example of good sportsmanship.

She had the capacity for whole-hearted participation not only in her own experiences, happy or sad, but in those of her friends as well, which in present verbiage gave her the ability to maintain a constant and satisfying dialogue with others. This was her genius for friendship, which together with her vast enthusiasm for life and living, endeared to all who knew her. Perhaps it was because she had no family of her own, she embraced her whole acquaintance, becoming deeply and sincerely interested in every detail of each friend's life.

Immediately after leaving Abbot, Peg had several gay years in Army Posts in Texas. When the war came, her father, a Colonel in the regular Army, went to

France, a member of Pershing's staff, and she devoted herself to war work in New York. Later in 1920, she returned to Abbot for a delightful year as assistant to Miss Bailey.

She was among the first to train for Store Education work at the Prince School in Boston. She was always inordinately proud that the school accepted her Abbot diploma in lieu of a college one. Her first job was at Halle Brothers in Cleveland, Ohio, where she later went into merchandising and spent eighteen years as the Sportswear Buyer there.

When her father broke his hip, she retired to be able to spend all her time with him. Having lost her mother at the age of twelve, her devotion to her father and her pride in his successful career in the Army were strong motivations in her life. Her "Darling" as she always referred to him, retired a Brigadier General after serving in every national conflict from the late Indian wars to World War I. After his death she went to California where she lived for the rest of her life, returning to Abbot to attend every 1913 Reunion. She served many years as Class Secretary, adding personal notes to each Alumnae Fund appeal. She was also Class Treasurer.

In her later years she was very active in the Pasadena Chapter of the D.A.R. where she served a successful term as Regent. She had an avid taste for travel and went to Europe and Honolulu twice and to the Far East in 1960 where, after climbing innumerable stairs in Japan, she suffered her first heart attack. At the time of her death she was talking hopefully about a Mediterranean Cruise this Spring.

Many will remember how in 1963, against her doctor's advice she flew East to attend 1913's Fiftieth Reunion, and thoroughly enjoyed every minute of it, most of the time from a wheel chair. She said she had looked forward ever since graduation to attending that Reunion and by sheer courage and stubborn determination she did. And how ardently she hoped to go to her 55th and 60th!

We can only be glad that Peg was happy and reasonably active until three days before the end. After Church Services in Pasadena attended by her many friends there, her body was flown to Washington where Ted Kilton, Dan and another devoted friend were present at the interment in Arlington National Cemetery, between the graves of her mother and father.

Surely Peg's vivid personality, *joie de vivre* and warmth of heart can not end. If love is eternal, and who can doubt it, that spirit that was peculiarly hers must live in the very air of Abbot still, as it does in the hearts and happy memories of her many friends.

## 1915

The class extends its sympathy to Mildred Akerly Browning whose husband died last April.

Elizabeth Leach returned to Honolulu, Hawaii this fall for Aloha week and a month of reunions with her former faculty colleagues at McKinley High School where she was an exchange teacher of English for a school year. Former pupils of hers also entertained her. She made stop-overs in Santa Barbara and East Oakland, California to visit old friends and relatives.

Betty will again be represented at the International Outdoor Poetry Show in New Orleans — an annual week-long event — when four of her poems appear on one of the posters which are hung round the palings of famous Jackson Square, as New Orleanian poetry-lovers give what corresponds to an open-air show. Because this year's theme is Westminster Abbey, she has chosen to send poems with an English accent, one being "The Unknown Soldier in The Abbey", previously printed in a British publication, *Poetry of Today*.

The little paperback of light verse, *Boston in My Blood*, in which Catherine had a hand, too, was featured at a previous poetry show with *The New Orleans Times-Picayune* giving it this advance notice:

"Another new display will be poems from a book collection of two sisters — Miss Catherine Cushman Leach and Miss Betty Frye Leach of Boston, Massachusetts who will be spoofing in light verse the exclusiveness of some of the people in 'the land of the bean and the cod.' "

This collection, now in its third edition, has become a sort of small business sideline in Leach life, actually — believe it or not of a book of verse! — showing profits.

Catherine, after a long, leisurely summer at Edgartown, (Martha's Vineyard)

went back to the work-a-day world and continues to be a 9 to 5 girl.

Jessie Nye Blodgett writes, "At three-score years and ten, I am comfortably settled at home, while our children are active in their jobs here and abroad. Our son, Dr. Frederic, is enjoying his sabbatical from Yale Medical Center studying hospitals here and abroad."

Gertrude Shackleton Hacker and her husband have just returned from a two months' trip "down under" in New Zealand, Australia, and Honolulu.

### REUNION REPORT

Greetings from the co-chairmen of your 50th. True, an intruder named arthritis being with us, made some stand not quite as straight as we could wish and hearing aids were in demand here and there, but personally I am rather proud of our class. To the 80% plus better than half of the affiliates who responded we send our thanks. To those who could not attend, here is our report:

Our big-hearted husband Philip Darymple again made his Lanam Club in Andover available to us for the class dinner and we attended 14 strong plus 5 brave husbands to share the cocktail hour.

Those present were Charlotte Eaton, Marjorie Freeman Heck, who interrupted packing for the move to her new house in Kennebunkport, Me., Helene Hardy Bobst escorted by husband Frank, Louise King Childs, Marion Mellor Dean, Grace Merrill Emery, excused for the event from Jury Duty in Chatham, Katharine Odell Randall excused from her work for the City Council in North Conway, Dorothy Pillsbury Bartlett and husband Dick on their way to visit with his cousin, astronaut Shepard's family, Emma Stohn Larrabee, just recovering from a serious back operation, driven down by husband Edward, Josephine Walker Woodman, Ada Brewster Brooks, Inga Little Bouve and husband Howard and to just save herself from the black list of those not heard from, Bernice Overend Merrill came for a short visit at lunch on Saturday.

Last minute "drop outs" were Dot Higgins Rand when Norman's illness dictated a change in plans. Margaret Perry James, indulging in "low-grade" pneumonia just at this time, and Louise Kimball Jenkins now living in a house built by her grandfather in Concord, N.H. was called away to N.C.

In good letters written to me and the class, Eleanor *Black* Draffan reports the loss of her husband and finds adjustment difficult but is fortunate in having her 4 children and 14 grandchildren all living near her. She is active in many civic things, one of the most interesting to her being chairman of Red Cross Gray Ladies. Dorothy Dann, with the list of addresses at hand, may drop in on some of us later this spring "when least expected". Eleanor *Frery* Rogers wrote the first letter upon her return from the hospital. She and Philip live in their contemporary house designed by architect husband himself. There they do bird banding and are much involved in the National Reading Reform Organization.

Dorothy Niles who, retired in 1960 after 27 years as stenographer for a Judge in the State Supreme Court, lives with her mother aged 97 had hoped to come as had Helene *Sands* Brown, bogged down in a welter of family responsibilities and visiting relatives. "Liz" *Wood* Gage, caught in the end of school year reports felt she should not try to come. Since her husband's death she has been "struggling along half-cocked" still teaching music at Brooks School although she no longer teaches at Concord Academy.

Miriam *Huntington* Ripley's activities are now limited because of, and I now quote, a "slight heart condition".

Charlotte *Felming* Baldrige's daughter and two sons have come to live with her and as daughter works at the University, grandsons keep Charlotte busy.

Not back in time. Ruth *Lindsay* Kuhnle from winter home in Captiva, Fla., Myrtle *Dean* Lewis from St. Petersburg, and Alice *Prescott* Plumb from Hawaii where she and her husband now spend several months each winter.

Although it was not easy to quiet your classmates for long, we did manage to collect a few statistics as to children and grandchildren but as of right now I cannot remember a thing. If you wish to know write and ask me.

Proper salutations from Mildred and "Love'n'kisses" from Ted.

Myrtle *Dean* Lewis writes, "Our grandson Russell Dean Lewis graduated from Lawrence Academy in Groton, Mass. and is a freshman at Clarkson College of Technology in Potsdam, N.Y. Susan, our granddaughter is a sophomore at Westwood High School in Mass. Our son, Dean, is a 1942 graduate of M.I.T. and is connected with it. My husband has been retired for nine happy years."

Katharine *Odell* Randall is secretary of the North Conway Chamber of Commerce. She works at the Information Booth in the summer, and runs a Placement Service for skiers in the winter.

Margaret *Perry* James writes, "My daughter, Barbara, who lives in Appleton, Wis., had her fifth child in October, name Elizabeth Ann Mueller. Our grand total to date is eleven, 5 boys and 6 girls. Eleven of the family paid us a visit in our new home in Wellesley in August — hectic but fun. My son, Capt. Perry L. James, USMC, survived a mid-air collision of two jets near Cherry Point in June with only slight injuries, fortunately. He is now in DaNang, Vietnam, flying medical rescue and escort helicopters — on duty 24 hours a day, living in tents, and often, when an operation is going on, sleeping at the flight line. When hovering to pick up a casualty the copters are "sitting ducks" and he has had some narrow escapes, but they get the wounded to the hospital in about ten minutes from the time they get a call, which often saves a life."

#### 1917

The class extends its sympathy to Alice *Littlefield* Legal whose husband died in March.

Harriet *Balfe* Nalle's son, a major and Marine jet pilot, has just returned from Vietnam. Her daughter, Norma, lives in Hamden, Conn. She saw Rachel *Olmstead* Storrs and Esther *Van Dervoort* Howe in Florida this winter.

#### 1918

Faith *Williams* Bisson writes, "We continue to enjoy Western College where my husband is head of the Intercultural Studies Program. We greatly enjoy the students and faculty from abroad."

#### 1919

The class extends its sympathy to Mildred *Frost* Eaton whose mother died in February at the age of 93.

Mary Martin spent the winter in Europe and the Mediterranean.

This winter Thelma *Mazey* Gager and husband took a Grace liner from New York to Lima, Peru, and then flew to Central America and Mexico.

Caroline *Richardson* Korst and her husband spent the month of March in Hawaii and California.

The class extends its sympathy to Elizabeth *Sjostrom* Thomson whose husband died in December.

## 1920

Betty *Babb* Beveridge writes, "After six months in the hospital in Washington, D.C., a year in bed, I am now well again. I have 10 grandchildren."

Irene *Franklin* Foster has been the leader of the Protestant Guild for the Blind in Lawrence for the past twelve years. She has 9 grandchildren.

Louise Robinson spent the winter with Katherine *Kinney* Hecox in Sarasota, Fla.

### REUNION REPORT

Due to the unstinting and enthusiastic effort of Libby Bulkeley and Billy *Bickford* Haskin the reunion of the Class of '21 was an unqualified success. Fourteen members of the class, carrying colorful Mary Poppins hats (we were too shy to wear them), with Alice Sweeney (recently retired Abbot instructor) enjoyed every minute of the festive occasion. Our classmate, Aya *Ebina* Oshimo, dressed in her native Japanese costume, was given a special gift because she had come from such a distance, the furthest of anyone attending reunion.

In the evening, after a delicious dinner at Fieldstones, Miss Sweeney regaled us with tales of her early days at Abbot. She told of when, as a young teacher she had asked Miss Bailey if it would be all right if the girls hung their heads out of the back windows to dry their hair after washing it on Sunday. Miss Bailey had replied that young ladies do not wash their hair on Sunday.

On another occasion, Miss Sweeney found it necessary to dismiss Billy *Bickford* Haskin from class because she was laughing so much it disturbed the class. She then began to worry about where Billy had gone. Much to her relief she found her standing outside the door after class. She left with her followed by the Thompson twins singing a funeral dirge!

She spoke very highly of Miss Bailey and told how she had unified the then existing academic and college prep departments of Abbot into one school. She was also responsible for disbanding the secret societies which existed in the school at that time.

Miss Sweeney was impressed and in agreement with the expressions of the "girls" as they spoke of the inspiration Miss Bailey was (and still is) especially as concerned Miss Bailey's deep faith in God.

Libby Bulkeley was given a rousing vote of thanks for her success in persuad-

ing 41 out of our class of 58 living members to contribute \$600 to the Alumnae Fund.

Several letters of greeting expressing regret at their inability to return for reunion were read from those unable to attend. We could not help but be impressed by their many worthwhile activities.

Margaret *Alling* Ward and Marian *Alling* Bradley agreed to be co-chairmen for our 50th reunion. Further details of the reunion of '21 will appear in a class bulletin which will appear in June.

Helen *Bruno* Clegg

Marion *Cleveland* Botsford's daughter, Barbara, is married to a surgeon living in Las Vegas, and has 3 children. Her son, Bill, is in banking in Portland, Me., and has 3 children. Marion and her husband entertain them in relays at their cottage at Lake Winnetoesaukee.

Alice *Hallett* Bradley writes that she is active in the Addison Gilbert Hospital Auxiliary, and still bowls and plays golf. Her son is with I.B.M. in Syracuse, and has five children. Her daughter lives in Gloucester, and has one daughter.

Marion *Kimball* Bigelow writes, "Busy with Garden Club and a few civic activities, but chiefly with 6 grandsons, ages 2-12, who live nearby."

Lydia *Kunkel* Howard is teaching 19 fourth graders in a private school in Bernardsville, N.J. Her son, Greg, is a pediatrician in Pittsford, N.Y., and has 3 children. Her daughter, Mary, is living in Oberammergau, Germany where her husband is teaching at NATO School, Europe. Lydia spent two months with them last summer.

Marion *Parker* Paulson and her husband spent the month of April on a Theatre Holiday in Europe.

## 1922

Katherine *Damon* Kletzien writes that her son, Damon, returned last year after two years in Tanzania with the A.F.S.C. He is now in Washington with the Peace Corps. Her younger son, Ralph, will enter Duke University in the fall for graduate training in Hospital Administration. Both daughters are married, but neither lives near enough so she can enjoy the growing-up years of her six grandchildren.

Olive *Howard* Vance writes that Bill has been very ill this past winter follow-

ing a ruptured disc removal, but he is now making real progress. Olive has been "promoted" to active participation in his business and thoroughly enjoys it. Their eldest grandson, William B. Vance, was married recently, and is stationed in California after service in Vietnam.

Margaret *Potter* Kensinger's husband has retired and they are living in Lynnfield, Mass.

Dorothy *Williams* Davidson's daughter, Mary, is engaged to Augustine B. Conant, Jr., son of Marion *Ireland* Conant '27.

### 1923

Anne *Darling* Whitehouse has 5 little granddaughters and 1 grandson living in Emily Holt's old house at the end of the soccer field on Abbot St. There are 4 grandchildren living in Lincoln and 4 more in Nahant.

Elizabeth *Maxwell* Killian writes, "Beginning my fortieth year with Vocational Rehabilitation Division. The Lawton Community Theatre presented Moliere's *The Miser* in March — this was the 40th production which I have stage managed!"

Miriam *Sweeney* McArdle enjoyed a winter vacation in Fort Lauderdale, Fla.

### 1924

Elizabeth *Bragg* McIntosh was married February 12, 1966, to Sydney S. King, in St. Petersburg, Fla.

Polly *Bullard* Holden writes, "My husband retired in 1965 after fourteen years as Commissioner of Education of Vermont. I went on indefinite leave from Goddard College's Adult Division. We are both interested in the development of a New England Regional Educational Research (and dissemination) laboratory. This means Boston meetings, happily."

Ruth *Pritchard* de Rivera has five grandchildren. She hopes the eldest, Alice, will come to Abbot in due time.

Susanna *Smith* Bowler writes, "Still doing surveys — research interviewing. Family consists of two old fossils and two cats. When Eleanor *Ireland* Saunders and her husband visited us on Cape Cod last year, we called on Lila *Clevenger* Burke and Charles. I spent a wonderful few hours with Ruth *Kelley* Perry and Elwyn."

Marjorie *Wolfe* Reed writes, "Even after these many years, when spring returns, my thoughts return to Abbot visualizing its flowering shrubs and the

walks we used to sign out to take. Life here for the past 10 years in our early American primitive cottage is still 'storybook'. The small New England town life is for us, church carry-in suppers included. Last year Kay *Hart* Mitchell and Ernest spent a few days with us. We have four grandchildren who live in New Jersey. Our main interest is antiques as we live with authentic 18th century early primitive things. My mother, 86, spends the summer with us."

### 1925

Elaine *Boutwell* von Weber writes, "'Happy is the country that has no history' — that's Roland and I! Music-filled winters in Florence and work-filled summers in Mont Vernon, N.H."

The class will be sorry to learn that Elizabeth *Burnett* Horle's son-in-law, Capt. Wallace K. Simek, was killed in combat in Vietnam in January. Judy and the two boys are living with Elizabeth.

Ruth *Davies* Van Wagenen will be president of the New York State P.E.O. next year. Her husband is teaching Chemistry and 5th and 6th grade Sciences in a Syracuse day school. They have six grandchildren.

Theodate *Johnson* Severns writes, "Am no longer publisher and owner of *Musical America*. I have taken up singing again, and gave a Town Hall recital on April 13.

### 1926

#### REUNION REPORT

Our 40th reunion was unquestionably one of the best, if not *the* best, as expressed by the eighteen members in attendance. It was good to see some who had not been back for 30 years and more — President Gretchen who flew in from St. Louis for the affair, Carolyn Bridgham from Wilmington, Del. and Ev Glidden who had not been back since graduation.

Following luncheon in Bailey dining-room where we had a special reserved table we adjourned to the oak grove in hopes of unearthing our lock box buried lo, these forty years. Ev brought along all sorts of equipment for the occasion including a metal detecting device which she had borrowed from her city water department. Try as we would for more than an hour we had no luck. We finally decided that the new tennis courts, tree cutting, and lawn building were not conducive to our excavating attempts.

With the changes in surroundings it was difficult to locate the exact burial place! It was with extreme reluctance that we abandoned our efforts, comforting ourselves with the thought that probably after forty years the box had disintegrated anyway.

Our class meeting at Fonty *Flagg* Sanborn's was fun. We elected Edie *Ireland* Wood as Class Agent to be continued in office and Sue Loizeaux to continue as Reunion Chairman. Many of the members had brought along old pictures taken during our years in school, and Sue read us excerpts from letters and cards received from those members who could not be in attendance and sent greetings to their class members.

In part Edda *Renouf* Gould writes, "I'd love to attend Abbot reunion but we will be taking off for Istanbul and Athens just at that time. A quick three weeks trip to attend an international biochemical congress in Athens but it gives us a chance to see son, Andy, who is in the Peace Corps in Turkey, plus a bit of exploring in Greece."

Adelaide Black sent her regrets but also forwarded copies of the *Intervale* songs which we sang lustily.

Kitty *Clay* Sawyer is in Europe where she has been traveling with her husband Charlie for a few months.

Louise "Doug" Hill of Guilford, Me. brought us up to date on her wonderful family and says she would be delighted to see any of us in Maine this summer.

Sue Loizeaux spoke to us about the fund which our class is continually building up in anticipation of a gift of some kind to the school upon the occasion of our Fiftieth Reunion. This is the fund about which Sue sends us notices each Spring asking for contributions. The growth of the fund has been steady and it is gathering interest at the rate of 4½ per cent in the Plymouth Savings Bank.

Thanks to Fonty Sanborn's cooperation we had a fine reunion dinner in a private dining-room at the Rolling Green Motel in Andover. It was gay and it was fun. We are all hoping that the year 1971 will bring even more of you out to the 45th reunion.

Cheerio,  
Sue Loizeaux  
Reunion Chairman

Ruth *Deadman* McLennan writes, "Last September, my husband, two daughters and I flew around the world in five weeks.

Our main objective — visiting friends and relatives in Australia. I waited 30 years to meet my in-laws in Melbourne. We enjoyed especially the Pacific Isles, Fiji and Tahiti."

Edda *Renouf* Gould writes, "A quick trip to Istanbul and Athens in May. We will have a sabbatical starting next September, and plan to spend the winter in Washington, D.C. Gordon plans to work with the National Institute of Health for 6 months."

## 1927

Jane *Graves* Howard writes, "At present we are sitting with a grandson who has chicken pox, and a granddaughter expecting it, while their mother is recovering from a gall bladder operation. No T.V. coverage!"

June *Hinman* Marques writes that her son, John was married last August, and is living in Ft. Lee, N.J. Her youngest son, Paul, is a sophomore at Rutgers University. June has been working at the Weehawken Library since June, 1961.

Miriam *Houdlette* Walsh writes, "My husband and I drove 2,000 miles in Scotland and England last summer. I'm busy with the usual volunteer jobs — Kappa Swap Shop, nursing service board and YWCA Auxiliary, for which we are planning an Antique Show."

Emily *House* Maidment spent two months last spring on an independent tour through Norway and its fjords.

## 1928

Elizabeth Bird has been a co-owner of the Cricket Shop in Damariscotta, Me. for 20 years.

Winifred *Dudley* Burnham has nine grandchildren, six girls and three boys.

Florence *Fitzhugh* Phelps writes that her daughter, Ann, was married in April to John Depoy, a chemical engineer with Eastman Kodak. Her two sons each have two little girls — candidates for Abbot.

Gee Gee *Gay* d'Elseaux announces the birth of her fifth grandchild, Jennifer Wakefield, on February 8, 1966. She is the daughter of Angela and James Wakefield, who is stationed at Kimpo Air Force Base in Korea.

Helen *Leavitt* Fisher spent the winter studying at King's College in London.

Margaret *Nivison* Chase writes, "Music continues to occupy much of my time — playing cello in Little Falls Symphony

Anne Cleveland Lange, 1955, gave a delightful presentation of a "New Look at Spring Flower Arrangements" on Alumnae Day. She has been exhibiting for the past two years, and has won the Tri-Color Award at the Topsfield Fair and at the Essex Agricultural School. She is pictured here with the arrangement for which she received the *Creativity Award* at the New England Flower Show this Spring.

Orchestra, and directing a children's choir. Our son, Bob is majoring in music at Earlham College." The class will be sorry to learn that Peg's mother died in 1964.

Sue Ripley Ward writes, "While I was in Russia a few weeks ago, my Bible opened to this passage: 'Submit yourselves to every ordinance of man for the Lord's sake . . . that with well doing you may put to silence the ignorance of foolish men.' I Peter 2:13.

"While Phil was at Ted Williams Baseball Camp this summer, Ted let me go on a tour of Scandinavia, Russia, Poland, Czechoslovakia, Germany, Austria, Paris, and London with the American Community Symphony Orchestra. This orchestra, made up of competent players who are ardent travelers, who pay their own way, and who come from all parts of the USA, assembled in Eau Claire, Wisconsin late in June to do some intensive practicing. Ted left me in Eau Claire and drove to Denver — after the flood — to take care of things here for the summer. Later on, before I returned home, he had gone east again to bring his brother out for a visit. In all, Ted, Phil, and I logged about 30,000 miles in two months. What a happy moment it was, at 4:30 a.m. one morning in August when we three all met again on my arrival from London. Phil had out-stripped me in height while we were apart, so now I am the shorty of the family!

"In Russia we travelers realized that the Russians had never had it so good. We discovered too that they never had it as good as we were having it. We had loads of pretty monotonous food, and we found it not easy to buy souvenirs. Even postcards were hard to get in some places. The guides showed us a lot, but not always places we wanted to see. We were not shown the music conservatories in either Leningrad or in Moscow, although we asked to see them. The relics of the Czars' regimes are very remarkable.

"I attended a magnificent performance of Lohengrin in Russian in the splendid modern Hall of Congresses inside the Kremlin walls. There was fine singing, a good orchestra, magnificent staging, and the only efficient handling of a large crowd that we experienced in Russia. They do well projects that enhance their national pride. We were not watched but our guides were. People sometimes looked at us as if they wanted to know what made us tick.

"One of our Russian guides set up our concert in Leningrad — her boss had not informed her that we were NOT to play as we had expected to. We wonder what happened to her when her boss returned, for the temp of political attitudes toward the USA was falling daily, due to the Vietnam situation.

"Traveling with 106 musicians is not to be attempted by a weakling. There were eager beavers, stubborn ones who were determined to have what they wanted no matter what other people thought of them, perpetual shoppers looking for THE things to buy in each city, drinkers of AMERICAN coffee and smokers of AMERICAN cigarettes, and all of us blended into a remarkably harmonious group, who got to know each other pretty well in six weeks. Specially to be commended were the fine bunch of teenagers and slightly olders, who, for the most part, behaved as a real credit to our nation, and who were the first to case the joints in every city before some of us even got the lay of the land. My six weeks of Berlitz Russian helped a little, but I am convinced that it is a most difficult language to learn. It is the great barrier to any nation's understanding one another.

"Live as free men, yet without using your freedom as a pretext for evil; but live as servants of God." I Peter 2:16.

The day after Thanksgiving my husband had a severe heart attack. We are now learning what 'going slow' really means.

#### REUNION REPORT

Although only seven of us attended the alumnae festivities on May 14, we really had a good time. The meeting in the morning was an interesting one, and the luncheon was fabulous as usual. We gathered at Mary Angus' before dinner and talked about all of you who weren't able to attend. Start planning now for our fortieth — Mary Angus will be chairman. Bring your husband — Marcia's husband, Carl Keil, was lonely and only joined us for a very few moments. Our thanks to Mary Bacon for being our Class Fund Secretary for the past five years. Marcia Rudd Keil will be our new Class Fund Secretary. Ruth Cann Baker agreed to be our news agent. Write to her before September 1 about your activities. Her address is Mrs. Seward J. Baker, 254 Melbury Rd., Babylon, L.I., New York 11702.

Jane Sullivan  
Reunion Chairman

Ruth Cann Baker has two grandchildren — the latest is a boy, Douglas Seward, born last August, the son of Marjorie Baker Jones, Abbot, 1950.

Connie Chamberlin Harris writes, "How I wish that I could be with you, but it is just not feasible for me to do so at this time. And I'll tell you why. I have already made three trips to New England since last October and will have another one to make when our oldest daughter graduates from Middlebury College in June.

"This has been a busy year in our family. Our youngest, Pat, was married the second of October to a local boy and they left immediately for California. He is doing his service in the Navy and was sent there for special courses for four months. Being young and daunted by nothing, they gathered up three other boys from the East Coast, covering an

area from New England to Virginia and they all drove East for Christmas! They did it without stopping, and then as soon as they had bathed and eaten, off they went for a good time! The joy of youth and what they can take. In March they were transferred back East and were fortunate enough to get stationed at Norfolk, Virginia for the duration of his service. So we consider ourselves very lucky. They come home often and the things that go back with them! It is nice to have Momma to sponge on.

"Right after Pat's wedding we went to Vermont for Parents' Week End at Middlebury. Then in February up we went again to Vermont for Sue's wedding. She was married during semester break. We left twenty-five inches of snow on the ground here and found less than half of that up there! It was a charming wedding in one of the old Congregational churches there and we were very happy about the whole thing.

"I have just returned from a visit with Mother in Windsor, Connecticut, and that is one reason I am late letting you know about my plans for reunion. She is alone now, having lost all her sisters and this past summer we lost my sister Nancy. Some of you may remember that I had one who graduated from Abbot the June before I entered.

"So I guess that about covers the doings in my area for this past year. My husband and I are now having a ball, doing as we please when we please and enjoying the children when they can come home for a visit. Right now Charlottesville is beautiful because we have a great deal of dogwood in town and it is all out. It is like a fairyland wherever you go now. We had rain all Garden Week but we needed it so we did not complain.

"I am sure that some of you must come to see Monticello now and then. Why don't you give me a call and we can have a reunion right here. We are almost always here and it would be a great pleasure to see some of you again.

"My best wishes to you all for a wonderful reunion and write to me when you can."

Faith *Chipman* Parker writes, "Our two oldest girls, Ellen, Abbot '57, and Constance, Carnegie Tech Drama '63, are both working in New York City. 'Massachusetts.'

'Where in Massachusetts?'

'Andover.'

'Andover?! Why, I went to Abbot.'

'Abbot!' My voice rose to a shriek and I nearly drove the truck off the road. From then on we talked a blue streak all the way home, marveling over the long arm of coincidence that brought Barbara Bellows Kaiser (1939) on her first trip to

Ann Cutler Brecheen, 1935 and Barbara Bellows Kaiser, 1939

Arizona into the home of Ann Cutler Brecheen (1935). I explained that Mrs. Crane was living in the old house I grew up in. She revealed that she had played hostess to Mrs. Crane when she came to Winnetka. We prowled eagerly through my classbook for acquaintances in common, faculty long remembered — oh, it was great fun!

"Go to the ends of the earth, bury yourself (happily) on an Arizona ranch and lo and behold, one sunny morning on the door step you will see AN ABBOT GIRL!"

##### REUNION REPORT

Well, our 20th reunion has come and gone, and it was so marvelous that it even surpassed our expectations. Everyone looked so well that even after 20 years there was no hesitation in recognizing each classmate.

We were all especially excited to have our Parisienne, Pete *Hogan* Hauduroy, with us. She was just as pert and lovely as ever; and we discovered she comes by her charm naturally, since we had the pleasure of meeting her mother, Mrs. Hogan, at the festivities. Sally *Power* Hansman was here for a joyful reunion with her ex-roommate, Pete.

Several of the classmates who were with us have married men in the educational field. Ann *Hellweg* Warren resides with her husband and five children at Exeter Academy among scores of teenage boys. Winnie *Teeson* Keller lives near a university in which her husband is an executive. She brought her 12 year-old daughter Meredith, who is a real charmer and a candidate for Abbot if ever we saw one. Barbara *Biddle* Gallagher's husband is a school principal. Barb drove down from St. Johnsbury, Vermont, with Betty *Ross* Griggs, who was especially pleased to see Miss Friskin at the reunion.

Mickey *Troub* Friedman was there with her wonderful family — husband Mike and five children. Frannie *Gorham* Patton also brought two darling little girls with her. Kitty *Johnson* Robbins paid us a quick visit with some of her family, and Gail *Sullivan* Fleming was there with her three children.

Sally *North* Jones had just returned from a European trip. She had planned to look up Pete in Paris but found she had just left for the U.S., so caught up with her at the reunion. Mavis *Twomey* Cox was there with some of her adorable children. Miss Tucker joined us for lunch, and it really took us back 20 years seeing her at the head of the table.

While sipping cocktails at the Collins home and amidst all the exclamations of "Do you remember when . . .", we perused the mail sent in by our classmates. Luty *Robertson* Kolflat sent a picture of her four handsome children and tells us she's involved in numerous activities. At the moment she was chairman of publicity for Madame Chiang Kai-shek's visit to Chicago. Greta *Leinbach* Smith, Mary *Burton* Blakney, and Barbara *Graf* Robinson sent a postcard from Miami Beach, where

they were attending the Junior League Conference, and all vowed to attend our 25th. Ellen Brumback writes that she occasionally sees Marge Sommer Tucker and G. B. Wright James, who are also down there in Central Florida. Nancy Thomas Adams has a daughter entering Abbot this fall as a 10th grader, just as *she* did 23 years ago (ugh). Peggy Howe Ewing is married to a Philadelphia lawyer and has three girls. Unfortunately, Sally Allen Waugh's plans to be with us fell through at the last minute. Franny Little Schonenberg has four boys and is active in the American Association of University Women. Hope Whitcomb Gailard sent her regrets at not being with us.

Dorothy King Garner writes, "Alex is west coast manager of eastern floor-covering manufacturer. Susan is 13, and Robert, 9. I am teaching piano like crazy!"

We were delighted to have such a good number of classmates with us, and to hear from so many others. Many thanks to all, especially Jane Sullivan, who helped make it such a gay reunion!!

Reunion Chairman

#### 1947

Edith Flather writes, "To avoid a Wisconsin winter, I headed south to the Antarctic. The scenery was magnificent and it was a cold, but interesting and exciting experience. I returned via South America on a Norwegian freighter. I got here just in time for the proposed launching of OAO I (Orbiting Astronomical Observatory) which was designed and built here at Washburn Observatory. The launch has been postponed for various reasons (none of them OAO failure). I hope to be able to report the successful operation of the satellite soon."

The class extends its sympathy to Margaret Kimball Montgomery whose father died in April.

Jack still works for Wean Engineering and has been taking some training in the use of IBM Computers. He is East

District Commissioner for Boy Scouts, a member of the Junior Vestry of the Church, and very active in all Boy Scout activities. Two sons are Boy Scouts, two Cub Scouts, and daughter is a Junior Scout. Four oldest take piano lessons, boys belong to the YM. Otherwise we don't do much!"

Joanna West Norton's husband is operating an Indian hospital for the Public Health Service in Phoenix, Ariz.

#### 1950

I had hoped to see a welcome change in the type of mail with which I am deluged. Unfortunately it still seems to consist primarily of bills, circulars, and other unwanted fare. However, I was happy to hear from Marge Baker Jones. She wishes to pass on the happy news of her son's birth — Douglas Seward, born August 9, 1965. Congratulations, Marge! I imagine 5-year old Vicki is equally thrilled with your new addition.

Since I have no other news to report, I shall bore one and all with a brief account of the Coates family's highlights during the past year. Nick and I spent September in Italy and France. We bought a car in Rome and drove everywhere which I think is the only way to see a country. In February I took the children skiing in Aspen — the first time for all. Our girls, 12 and 11, loved it, but Jeff, 7, is absolutely addicted to the sport. Then Nick and I flew to Florida in March for a little pre-season sailing. Now we are preparing to move to the lake for the summer. This promises to be a very busy season with a great deal of sailing, water skiing and just plain fun. How time flies!

I hope to hear from more of the class of 1950 in the near future.

My best to all,

Entitled "Love Letter in the Dead-Letter Office", it is a contemporary novel about the existentialist daughter of a deceased movie mogul, a Sarah Lawrence student, who has been left penniless by her father's eccentric will and roams the world in search of herself.

Ann Merriwether Disharoon writes, "We are so happy in our new home built on the Lynnhaven River — oysters in the front yard! Summer should be full of fishing and crabbing."

#### REUNION REPORT

There were 15 of us back on a gorgeous spring day. Abbot was beautiful! It was a surprise to see that the far end of the chapel (faculty platform) had been sectioned off for a classroom, math I think. Homestead is all music now with the old Draper practice rooms turned into bedrooms. The Senior Parlor is now taking up part of the Rec Room with lights on privileges all night. The Bazaar is now down off the Maple Walk with a late afternoon barbecue for those who hadn't enough Heavenly Goo at lunch. Many of us brought along our husbands and children who had as much fun I'm sure as the Mom's did. Later we had dinner at The Inn where laughs, pictures and Abbot tales were swapped in the cool of the evening. It was a fun day and I'm sorry more of you couldn't make it. Won't you plan now for our 20th?

Barbara Wood Emmons was also back with her teen-age daughter but I couldn't corner her long enough to get any news.

Many of you who couldn't come took the time to write a bit of your goings on. Here are their entries:

Lydia Eccles Page is on the merry go round of transporting her children 30 miles to private schools to avoid the frightful schools in her town. They will soon be moving to Great Falls, Va. which is nearer John's office and the schools!! John's Real Estate business is promising great things with possible overseas trips in the future. Lydia has been doing a lot of 2-piano-work and is hoping to continue it once they are settled. Her youngest girl goes to school with Marcia Crane Starcher's boy, Byron, and one of her best friends is Helen Wheelock (Susie Kimball's girl). Small world.

Pat Driscoll Vielehr and family have just returned from India. Her husband has just taken a position with Coca-Cola in Atlantic, Ga. as Sales Equipment Mgr. She has 5 children, 4 boys and 1 girl in the middle.

Dino Colburn Rice could not come because of Alumni Day at Choate being the same time. Besides being hostess, she has a small job of piano playing with the Choate Orchestra which provides dinner music on the 14th. They are planning to be in Mutton Bay, Quebec this summer where her husband will serve as Lay Minister and assist the Flying Chaplain. Dino and her 2 children Becca, 9, and Susy, 8, will tote water and keep the kerosene lamps lit.

Muffy Finger Marlio writes, "Paris is too far for me to come for our 15th reunion but I send you all my best greetings. If Mademoiselle Baratte is still teaching she would, I hope, no longer recognize my halting faulty French of former years! Eight years of life here has left its mark. The children (Jacques, 7, and Anne almost 5) on the other hand struggle with English when we come home on leave every other year. I wish I could join you. I'm sure the reunion will be

great fun and Abbot must be very beautiful now."

Barbara Daugherty Dermody was very sorry she couldn't make the trip but it was just too far a trip from Florida. Also her one child, Peter, is in school and she wouldn't want to pull him out for so long. Her husband, Win, is in Real Estate and at one time had Barbara on his pay roll which she enjoyed but after he hired a couple of men Barb got the gate!!! Win works long hours and when he can he is lifting weights to work off his vast quantities of energy. Barb said that he has muscles altho she has no clear idea what he is going to do with them!!!!

Patty Smith Langdon has moved to Poughkeepsie, New York. Her new address is: 261 New Hackensack Rd. She is Assistant Alumnae Secretary of Vassar College.

Sally Mason Crowell and Marcia Crane Starcher had a lengthy 45 minute phone conversation as a result of our class list. Telephone stock must be better than ever.

C. A. and family have been happily living in the Pittsburgh area for 2 years where Ron is International Marketing Manager for his company. Her children are Lisa, 6, and Evans, 4.

Carolyn Furst Carlson had made previous plans for our reunion day but is planning on coming to our 20th in '71.

Flor Palacios Duterloo writes, "I deeply regret that I shall not be able to cross the ocean to come to the Abbot reunion. How much I would have loved to do so after all these years. My husband is going to leave the navy now and is trying to find another job. Our children are 11, 10, and 6, the eldest being a girl, Dominique, then comes Louis and then another girl, Alexandra. Dominique hopes to start high school this fall. I do hope you will all have a wonderful reunion day and perhaps in five years from now I'll be able to make it. My best wishes to all of you."

Martha Warner Olson is preparing to move to San Francisco and with a house and car to sell she has a busy spring. She has 2 "cherubs" and a springer. All healthy and typically Swedish. Her husband is in the Coast Guard.

Joan Wieting Smalley felt that the arrival of her third child in early May was a pretty good reason for staying near home. How right you are!

Nancy Bentley Ridings wrote from her new address: Dresch Strasse 12, 8 Munchen

23, Germany. Her husband was made Manager of European Power Lock for Rockwell Manufacturing Co. They plan to travel much with their 3 girls, 13, 11 and 6. This past Christmas they were skiing in Italy.

Forgot myself and the news of the Saglios. Jack is going through the red tape of building a medical building for himself and three other physicians. A far cry from the security we once had in the navy for 7 years. I've had a busy spring right here in my own yard getting gardens started and 45 trees planted. Our first year in our new house and so much to do inside and out. It's become a hobby now and hope it always stays that way. When you're in or near Boston give us a call. I can be reached through Jack's office which is in the phone book even though our home phone is not.

Happy Spring! And one last note before summer living takes over completely. Nancy Eastham Iacobucci wrote a lovely long letter about her life as a lawyer, home-maker, church choir member, volunteer worker, athlete (tennis, hiking, horseback riding) and traveler. Nancy has also completed and passed her thesis for a diploma in International Law from Cambridge University, England as well as having been admitted to the Bar of New York . . . and I thought I was busy! But alas there are those of us for whom flower arranging, gardening, antiquing, "dishes and diapers" as Heidi Angevine Smith puts it, are really engulfing!! Heidi and Howie have two children, Jeff, 5, and Suki, 18 months. They are living in Illinois after Howie graduated in 1965 from Harvard "B" School. He is now on the marketing staff at Baxter Labs and works on electronic medical equipment. It was especially nice to hear from Heidi as we were all disappointed when, at the last minute, she couldn't be in Andover for our reunion. Pat Coryell Humphrey wrote, too, to tell of a "budding television career" — that is, until May 7, 1965 when Sarah was born. A thirty-year old colonial house in Alexandria keeps the Humphreys busy but they did get away for a two-week trip to Florida. Pat, as well as others, wrote that the class news brings much enjoyment so, please, let us hear from everyone. Don't hesitate to write, because, not only is it thoroughly enjoyable for me, but, hopefully, we are relieving Jane Sullivan of at least a small portion of her enormous responsibility (by redirecting our class news through me). I shall be in Erie for the summer for many reasons — Erie is just beautiful at this time of year. The children have their

lessons and friends, and, Genoa, our year-old labrador will have her first swimming season in the lake. We are also awaiting our fourth child — put it all together and you know I'll welcome any and all correspondence!!

My best to all,

Dorothy Fleming King

Nancy Smith King writes that her son, Scott, is in kindergarten, and Tammy is in nursery school. They have all been doing a lot of skiing. Bill has been made vice-president of C. G. Sargent & Sons in Westford. He is active in many civic activities, and Nancy is his "social secretary."

Jane Sweetsir Ferguson is now living in Washington, D.C. Doug is with the Agency for International Development. Their son, Seth, will be 3 in August.

#### BORN

#### REUNION REPORT

Dear 1956ers,

The 16 swinging '56ers had a gala time May 14th and so did the 11 loyal husbands that joined in the celebrating, elbow bending on Sunset's porch, and dining at the Rolling Green Inn. All the rest of YOU were sorely missed, and especially our Alumnae Fund Secretary, Toni Fenn McKee, who has done such a fine job these past 5 years and whose letter and picture decorated our class bulletin board, and our Senior Class President, Weez Day Cook, who remembered us all with a note, pictures and a magnificent bouquet of white mums and red carnations (given to the husbands as boutonnieres for dinner).

For traveling the farthest to reunion, a first prize of a piggy bank, to help start her savings for the 15th reunion, went to Jane Tatman Connelly who ventured to Abbot with Guy from Indianapolis, Ind. A close second place went to Anne Woolverton Oswald for returning with Bob to Andover from South Bend, Ind. Peg Moore Tiffany from Warrenton, Va. and Lynn Dowlin Voss and Peter from Canton, Ohio tied for third place. (Lynn and Peter were playing tennis when our picture was taken). Gals traveled from far and wide (2—Conn., 2—Ind., 3—Mass., 1—N.H., 1—N.Y., 1—Ohio, 3—Penna., 1—Va., 1—Washington, D.C.) to see that each other had all grown more attractive, slimmer, and stylish yet remained very much the same ole '56er!

Our class advisor, Mlle. Arosa welcomed us cordially. She joined us for luncheon and our cocktail party and even showed many of us her new 7 room apartment on the corner of Morton and Main Streets plus introduced her pussy cat, Pierre! We were all impressed with our Mlle.'s new figure!

The most important business conducted was at the bewitching hour of 10 P.M. After hearing the interesting and amusing results of the anonymous questionnaire from Peg Oliver Hedeman (will be summarized in Fall Bulletin due to space considerations), Our class elected Lynn Dowlin Voss as Class Fund Secretary, Phoebe Estes Bryan as News Secretary, and Hop and Trippie Hopkins as Chairmen of our 15th reunion! You will be hearing from these ladies in due course — in the meantime, do send your news to Mrs. Alden T. Bryan, Box 155, R.D. No. 1, North Williston Rd., Williston, Vt. 05495. Phoebe has kindly agreed to process your news for the next 5 years in between teaching English at the Uni-

versity of Vt. and redoing their 19th century farm house nestled in 25 beautiful acres.

In closing, must add what a glorious time we all had seeing Mrs. Crane and learning that she will be a 3rd time grandmother this summer; chatting with Miss Ritchie; being caught up on Abbot news by Miss Judd chicly dressed in a stunning tweed suit; hearing of the fascinating history program at Abbot organized by Mary Minard; talking of our first years at Abbot with Miss Hearsey; recalling the concerts with Miss Friskin and noticing the lovely portrait of her in the hall between the library and dining room; seeing Jane Sullivan in her electric blue tunic dress calmly and capably run all the class reunions and yet have time to chit chat with us; and learning of progressive new plans for Abbot from Mr. Allen, Chairman of the Board of Trustees. The only sad note was not digging up our buried treasure due to the loss of the map. You have 5 years to recall where our treasure of 1956 lies and we will go a-spading in May of 1971! How happy we all felt that our husbands' comments were approving too: "Marvelous, I think the gals are superb", "great potential", "in favor of it", "One of the most attractive campuses I've seen", "want my daughter to be an Abbotite", and "can't wait for the 15th reunion!"

Cheers to you who joined us in person with husbands and to all the rest of you who joined us in spirit on May 14th!

Betsy Parker Powell

EDITOR'S NOTE: — Due to late arrival of this report, news items will appear in *October Bulletin*.

Anne Bowden Morris writes that her husband is working on a master's in business at Northwestern and selling for Honeywell. Cathy is 4, and Robbie is 1½. Anne plays tennis and skis in her spare time. She is also keeping up with her French with the assistance of Parisian neighbors.

Diana Hallowell is an assistant with Circulating Exhibitions at the Museum of Modern Art. She is working on collections for American Embassies around the world in conjunction with the State Department. Jody Bradley is in the Photography Department at the Museum.

Joan Pelletier Isabel writes, "We have all been here in Mexico City since August where Dick is the New Products Manager for the Colgate Mexican Division. I diligently searched for a house for "too long" (New York rents prevail here) but we are now in a very comfortable house which is well located. Dick appreciates being only 5 minutes from the office after having been commuting from Stamford. Thanks to the Spanish I learned at Abbot, I had little trouble on that count. (This is amazing to me primarily because I was so inept at the time.) The climate is nice although the torrents which fall each afternoon during the rainy season are unbelievable. I did miss the snow. Mark goes to nursery school every morning and really does enjoy it. Marge is beginning to be quite the chatterbox. All in all, life here is enjoyable and perhaps in many ways easier than in the States. However, we do not have available here many of the things we had at home. We have not yet had the opportunity to travel extensively in the country but are looking forward to beginning on that soon. We would be pleased to hear from anyone passing through the city at 45-04-29, or check in the American Directory.

Elfriede Laaff to Steven B. Koenig of the U. S. Coast Guard, December 22, 1965, in Peabody, Mass.

#### 1965

There's lots of good news this time. First of all, I hear from Sue Spangler (Purdue) that she has taken the big step and gone the way of frat row. She's pinned to Nick Jones, a pre-med senior at Purdue. Best of luck to her!!!

Kathy Stover is going to Copenhagen for the first semester of next year on the Whittier program. Eventually, she thinks she might like to transfer to Pitzer. Also out in that western area, Janet Barker (Colorado U.) is really making a name for herself in ski circles. She's now an active member of Kappa Alpha Theta sorority, and having a "fantastic time at Big C.U." She reports that she occasionally runs into Toney Hopkins, who seems to like C.U. also. Janet will be on the women's tennis team this spring.

From the wild expanses of Europe, I heard from Kathy Abler that she'll be at Lake Forest Summer School this summer, and hopes to continue there for the rest of her college years. She spent Spring vacation in London, and Intersession in Megeve. Too bad, huh????? She adds, "I

still love Paris and wish I could make it my home, but miss my friends and the American point of view."

Another traveler, Liz Eder, was last recorded in Tobago, modeling for a painter, and planning to extend her college vacation "until she feels ambitious."

Anna Thal is now living in Boston and commuting to B.U. from there. She says, "I'm having a great time, and am enjoying my work." Sounds just fine.

Carol Reische is plugging away at Bryn Mawr, Philosophy and English mostly. (OK?)

Bina is working at Prudential Life Insurance Company in Boston for the remainder of the year. She'll be starting at Radcliffe in the fall. Still acting at Andover!!!

Alicia Stillman plans to work in the business office of Lord & Taylor in New York City this summer.

I saw Mel (Syracuse) over Intersession. Spent time in the big city — New York — and also at her home in New Jersey. We met Dar in N.Y.C. one day. She looked marvelous . . . and doing quite well at Wells. We went shopping and walked our feet off, and talked our heads off to match. Stayed with Leigh at Barnard. She's working at Latin still — and is now "Langdon!" Seemed really happy. Ginger came by — ironing piled to her ears — so! Robin (Goucher) visited her over Christmas.

Here at Connecticut, C. Faye is on Dean's List. Emily too. Emily has just been elected president of our class. Really making a name for herself. Anyone down here, please stop in . . . That's an order!!

See you all really soon! And keep writing!

Gail

## Recent Bequests to Abbot

**Bessie Stow Twicbell** (Mrs. Reuben C.) was married shortly after her graduation from Abbot in 1897. She had two sons and one daughter, Constance, who graduated from Abbot in 1924. In addition to raising her family, she was active in various civic and church organizations. Under the terms of her will, Abbot is the proud recipient of \$2,500. She died June 8, 1965.

After graduation from Abbot in 1908, **Vera Lesure Perry** (Mrs. William H.) attended Fitchburg Teachers' College. She taught for many years in the Fitchburg Schools and was a principal of the Goodrich Street School for ten years. After her death in April, 1965, Abbot became the grateful recipient of \$1,500.

**Eugenia Parker**, who graduated from Abbot in 1916, died March 23, 1965, after a long career in camping. Eugenia was the owner and director of "Blazing Trail", a camp for girls in Denmark, Maine. She was one of the first women to become a licensed Maine Guide. Eugenia was a vital active daughter of Abbot; hers was a family of Abbot tradition and standards. Her mother, *Fanny Fletcher Parker* graduated in 1872, and her two older sisters, *Constance Parker Chipman*, former Alumnae Secretary and Trustee, and *Esther Parker Lovett* graduated in 1906 and 1908, respectively. Abbot was honored to receive \$1,000 from her estate.
